[1]Sentinel laboratory code identifiers are developed to represent a unique laboratory test result value for querying in the Lab Codes Lookup Table of the Sentinel Common Data Model. Laboratory code identifiers indicate a specific combination of laboratory test name, result type, laboratory test subcategory, fasting indicator, laboratory specimen source, patient location, and result unit. For more information, please refer to the documentation (https://dev.sentinelsystem.org/projects/SENTINEL/repos/sentinel-routine-querying-tool-documentation/browse/files/file520-typeall-cidalookup.md#5,7,9,11,13,13,15-16,18,20,24-31).
