| E1634 | Peritoneal dialysis clamps, each                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Procedure | HCPCS     |
| E1636 | Sorbent cartridges, for hemodialysis, per 10                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Procedure | HCPCS     |
| E1638 | Heating pad, for peritoneal dialysis, any size, each                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Procedure | HCPCS     |
| E1640 | Replacement components for hemodialysis and/or peritoneal dialysis machines that are owned or being purchased by the patient                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Procedure | HCPCS     |
| E1699 | Dialysis equipment, not otherwise specified                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Procedure | HCPCS     |
| G0049 | With maintenance hemodialysis (in-center and home HD) for the complete reporting month                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Procedure | HCPCS     |
| G0052 | Patients on peritoneal dialysis for any portion of the reporting month                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Procedure | HCPCS     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                         | Code      |           |
|-------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                     | Category  | Code Type |
| G0257 | Unscheduled or emergency dialysis treatment for an ESRD patient in a hospital outpatient department that is not certified as an ESRD facility                                                                                                                       | Procedure | HCPCS     |
| G0324 | ESRD related services for home dialysis (less than full month), per day; for patients under 2 years of age                                                                                                                                                          | Procedure | HCPCS     |
| G0325 | ESRD related services for home dialysis (less than full month), per day; for patients between 2 and 11 years of age                                                                                                                                                 | Procedure | HCPCS     |
| G0326 | ESRD related services for home dialysis (less than full month), per day; for patients between twelve and nineteen years of age                                                                                                                                      | Procedure | HCPCS     |
| G0365 | Vessel mapping of vessels for hemodialysis access (services for preoperative vessel mapping prior to creation of hemodialysis access using an autogenous hemodialysis conduit, including arterial inflow and venous outflow)                                        | Procedure | HCPCS     |
| G0392 | Transluminal balloon angioplasty, percutaneous; for maintenance of hemodialysis access, arteriovenous fistula or graft; arterial                                                                                                                                    | Procedure | HCPCS     |
| G0393 | Transluminal balloon angioplasty, percutaneous; for maintenance of hemodialysis access, arteriovenous fistula or graft; venous                                                                                                                                      | Procedure | HCPCS     |
| G0491 | Dialysis procedure at a Medicare certified ESRD facility for acute kidney injury without ESRD                                                                                                                                                                       | Procedure | HCPCS     |
| G0492 | Dialysis procedure with single evaluation by a physician or other qualified health care professional for acute kidney injury without ESRD                                                                                                                           | Procedure | HCPCS     |
| G1026 | The number of adult patient-months in the denominator who were on maintenance hemodialysis using a catheter continuously for 3 months or longer under the care of the same practitioner or group partner as of the last hemodialysis session of the reporting month | Procedure | HCPCS     |
| G1027 | The number of adult patient-months in the denominator who were on maintenance hemodialysis under the care of the same practitioner or group partner as of the last hemodialysis session of the reporting month using a catheter continuously for less than 3 months | Procedure | HCPCS     |
| G8075 | ESRD patient with documented dialysis dose of URR greater than or equal to 65% (or Kt/V greater than or equal to 1.2)                                                                                                                                               | Procedure | HCPCS     |
| G8076 | ESRD patient with documented dialysis dose of URR less than 65% (or Kt/V less than 1.2)                                                                                                                                                                             | Procedure | HCPCS     |
| G8081 | ESRD patient requiring hemodialysis vascular access documented to have received autogenous AV fistula                                                                                                                                                               | Procedure | HCPCS     |
| G8082 | ESRD patient requiring hemodialysis documented to have received vascular access other than autogenous AV fistula                                                                                                                                                    | Procedure | HCPCS     |
| G8085 | ESRD patient requiring hemodialysis vascular access was not an eligible candidate for autogenous AV fistula                                                                                                                                                         | Procedure | HCPCS     |
| G8575 | Developed postoperative renal failure or required dialysis                                                                                                                                                                                                          | Procedure | HCPCS     |
| G8576 | No postoperative renal failure/dialysis not required                                                                                                                                                                                                                | Procedure | HCPCS     |
| G8714 | Hemodialysis treatment performed exactly 3 times per week > 90 days                                                                                                                                                                                                 | Procedure | HCPCS     |
| G8715 | Hemodialysis treatment performed less than 3 times per week or greater than 3 times per week                                                                                                                                                                        | Procedure | HCPCS     |
| G8727 | Patient receiving hemodialysis, peritoneal dialysis or kidney transplantation                                                                                                                                                                                       | Procedure | HCPCS     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                                       | Code      |           |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                                                                                                                                                                   | Category  | Code Type |
| G8956 | Patient receiving maintenance hemodialysis in an outpatient dialysis facility                                                                                                                                                                                                                                                                                                                                     | Procedure | HCPCS     |
| G8957 | Patient not receiving maintenance hemodialysis in an outpatient dialysis facility                                                                                                                                                                                                                                                                                                                                 | Procedure | HCPCS     |
| G9239 | Documentation of reasons for patient initiating maintenance hemodialysis with a catheter as the mode of vascular access (e.g., patient has a maturing arteriovenous fistula (AVF)/arteriovenous graft (AVG), time limited trial of hemodialysis, other medical reasons, patient declined AVF/AVG, other patient reasons, patient followed by reporting nephrologist for fewer than 90 days, other system reasons) | Procedure | HCPCS     |
| G9240 | Patient whose mode of vascular access is a catheter at the time maintenance hemodialysis is initiated                                                                                                                                                                                                                                                                                                             | Procedure | HCPCS     |
| G9241 | Patient whose mode of vascular access is not a catheter at the time maintenance hemodialysis is initiated                                                                                                                                                                                                                                                                                                         | Procedure | HCPCS     |
| G9264 | Documentation of patient receiving maintenance hemodialysis for greater than or equal to 90 days with a catheter for documented reasons (e.g., other medical reasons, patient declined arteriovenous fistula (AVF)/arteriovenous graft (AVG), other patient reasons)                                                                                                                                              | Procedure | HCPCS     |
| G9265 | Patient receiving maintenance hemodialysis for greater than or equal to 90 days with a catheter as the mode of vascular access                                                                                                                                                                                                                                                                                    | Procedure | HCPCS     |
| G9266 | Patient receiving maintenance hemodialysis for greater than or equal to 90 days without a catheter as the mode of vascular access                                                                                                                                                                                                                                                                                 | Procedure | HCPCS     |
| G9523 | Patient discontinued from hemodialysis or peritoneal dialysis                                                                                                                                                                                                                                                                                                                                                     | Procedure | HCPCS     |
| G9747 | Patient is undergoing palliative dialysis with a catheter                                                                                                                                                                                                                                                                                                                                                         | Procedure | HCPCS     |
| G9749 | Patient is undergoing palliative dialysis with a catheter                                                                                                                                                                                                                                                                                                                                                         | Procedure | HCPCS     |
| J0604 | Cinacalcet, oral, 1 mg, (for ESRD on dialysis)                                                                                                                                                                                                                                                                                                                                                                    | Procedure | HCPCS     |
| J0879 | Injection, difelikefalin, 0.1 mcg, (for ESRD on dialysis)                                                                                                                                                                                                                                                                                                                                                         | Procedure | HCPCS     |
| J0882 | Injection, darbepoetin alfa, 1 mcg (for ESRD on dialysis)                                                                                                                                                                                                                                                                                                                                                         | Procedure | HCPCS     |
| J0884 | Injection, argatroban, 1 mg (for ESRD on dialysis)                                                                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |
| J0886 | Injection, epoetin alfa, 1000 units (for ESRD on dialysis)                                                                                                                                                                                                                                                                                                                                                        | Procedure | HCPCS     |
| J0887 | Injection, epoetin beta, 1 mcg, (for ESRD on dialysis)                                                                                                                                                                                                                                                                                                                                                            | Procedure | HCPCS     |
| J0889 | Daprodustat, oral, 1 mg, (for ESRD on dialysis)                                                                                                                                                                                                                                                                                                                                                                   | Procedure | HCPCS     |
| J0890 | Injection, peginesatide, 0.1 mg (for ESRD on dialysis)                                                                                                                                                                                                                                                                                                                                                            | Procedure | HCPCS     |
| J0892 | Injection, argatroban (Accord), not therapeutically equivalent to J0884, 1 mg (for ESRD on dialysis)                                                                                                                                                                                                                                                                                                              | Procedure | HCPCS     |
| J0899 | Injection, argatroban (AuroMedics), not therapeutically equivalent to J0884, 1 mg (for ESRD on dialysis)                                                                                                                                                                                                                                                                                                          | Procedure | HCPCS     |
| J3591 | Unclassified drug or biological used for ESRD on dialysis                                                                                                                                                                                                                                                                                                                                                         | Procedure | HCPCS     |
| K0610 | Peritoneal dialysis clamp, each                                                                                                                                                                                                                                                                                                                                                                                   | Procedure | HCPCS     |
| K0611 | Disposable cyclor set used with cyclor dialysis machine, each                                                                                                                                                                                                                                                                                                                                                     | Procedure | HCPCS     |
| K0612 | Drainage extension line, sterile, for dialysis, each                                                                                                                                                                                                                                                                                                                                                              | Procedure | HCPCS     |
| K0613 | Extension line with easy lock connectors, used with dialysis                                                                                                                                                                                                                                                                                                                                                      | Procedure | HCPCS     |
| K0614 | Chemicals/antiseptic solution used to clean/sterilize dialysis equipment, per 8 oz                                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |
| M1262 | Patients who had a transplant prior to initiation of dialysis                                                                                                                                                                                                                                                                                                                                                     | Procedure | HCPCS     |
| M1263 | Patients in hospice on their initiation of dialysis date or during the month of evaluation                                                                                                                                                                                                                                                                                                                        | Procedure | HCPCS     |

| 00.15                                                                                                                           | High-dose infusion interleukin-2 [IL-2]                                                                                                                                                                      | Procedure | ICD-9-CM  |
| 00.18                                                                                                                           | Infusion of immunosuppressive antibody therapy                                                                                                                                                               | Procedure | ICD-9-CM  |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                 | Code Category | Code Type |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| 0083U | Oncology, response to chemotherapy drugs using motility contrast tomography, fresh or frozen tissue, reported as likelihood of sensitivity or resistance to drugs or drug combinations                                                                                                                                      | Procedure     | CPT-4     |
| 0174U | Oncology (solid tumor), mass spectrometric 30 protein targets, formalin-fixed paraffin-embedded tissue, prognostic and predictive algorithm reported as likely, unlikely, or uncertain benefit of 39 chemotherapy and targeted therapeutic oncology                                                                         | Procedure     | CPT-4     |
| 0324U | Oncology (ovarian), spheroid cell culture, 4-drug panel (carboplatin, doxorubicin, gemcitabine, paclitaxel), tumor chemotherapy response prediction for each drug                                                                                                                                                           | Procedure     | CPT-4     |
| 0519F | Planned chemotherapy regimen, including at a minimum: drug(s) prescribed, dose, and duration, documented prior to initiation of a new treatment regimen (ONC)                                                                                                                                                               | Procedure     | CPT-2     |
| 0581T | Ablation, malignant breast tumor(s), percutaneous, cryotherapy, including imaging guidance when performed, unilateral                                                                                                                                                                                                       | Procedure     | CPT-3     |
| 0600T | Ablation, irreversible electroporation; 1 or more tumors per organ, including imaging guidance, when performed, percutaneous                                                                                                                                                                                                | Procedure     | CPT-3     |
| 0601T | Ablation, irreversible electroporation; 1 or more tumors, including fluoroscopic and ultrasound guidance, when performed, open                                                                                                                                                                                              | Procedure     | CPT-3     |
| 0708T | Intradermal cancer immunotherapy; preparation and initial injection                                                                                                                                                                                                                                                         | Procedure     | CPT-3     |
| 0709T | Intradermal cancer immunotherapy; each additional injection (List separately in addition to code for primary procedure)                                                                                                                                                                                                     | Procedure     | CPT-3     |
| 0735T | Preparation of tumor cavity, with placement of a radiation therapy applicator for intraoperative radiation therapy (IORT) concurrent with primary craniotomy (List separately in addition to code for primary procedure)                                                                                                    | Procedure     | CPT-3     |
| 0763T | Digitization of glass microscope slides for morphometric analysis, tumor immunohistochemistry (eg, Her-2/neu, estrogen receptor/progesterone receptor), quantitative or semiquantitative, per specimen, each single antibody stain procedure, manual (List separately in addition to code for primary procedure)            | Procedure     | CPT-3     |
| 0794T | Patient-specific, assistive, rules-based algorithm for ranking pharmaco-oncologic treatment options based on the patient's tumor-specific cancer marker information obtained from prior molecular pathology, immunohistochemical, or other pathology results which have been previously interpreted and reported separately | Procedure     | CPT-3     |
| 140   | Malignant neoplasm of lip                                                                                                                                                                                                                                                                                                   | Diagnosis     | ICD-9-CM  |
| 140.0 | Malignant neoplasm of upper lip, vermilion border                                                                                                                                                                                                                                                                           | Diagnosis     | ICD-9-CM  |
| 140.1 | Malignant neoplasm of lower lip, vermilion border                                                                                                                                                                                                                                                                           | Diagnosis     | ICD-9-CM  |
| 140.3 | Malignant neoplasm of upper lip, inner aspect                                                                                                                                                                                                                                                                               | Diagnosis     | ICD-9-CM  |
| 140.4 | Malignant neoplasm of lower lip, inner aspect                                                                                                                                                                                                                                                                               | Diagnosis     | ICD-9-CM  |
| 140.5 | Malignant neoplasm of lip, inner aspect, unspecified as to upper or lower                                                                                                                                                                                                                                                   | Diagnosis     | ICD-9-CM  |
| 140.6 | Malignant neoplasm of commissure of lip                                                                                                                                                                                                                                                                                     | Diagnosis     | ICD-9-CM  |
| 140.8 | Malignant neoplasm of other sites of lip                                                                                                                                                                                                                                                                                    | Diagnosis     | ICD-9-CM  |
| 140.9 | Malignant neoplasm of lip, vermilion border, unspecified as to upper or lower                                                                                                                                                                                                                                               | Diagnosis     | ICD-9-CM  |
| 141   | Malignant neoplasm of tongue                                                                                                                                                                                                                                                                                                | Diagnosis     | ICD-9-CM  |
| 141.0 | Malignant neoplasm of base of tongue                                                                                                                                                                                                                                                                                        | Diagnosis     | ICD-9-CM  |
| 141.1 | Malignant neoplasm of dorsal surface of tongue                                                                                                                                                                                                                                                                              | Diagnosis     | ICD-9-CM  |
| 141.2 | Malignant neoplasm of tip and lateral border of tongue                                                                                                                                                                                                                                                                      | Diagnosis     | ICD-9-CM  |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                           | Code      |           |

|       |                                                                       | Category  | Code Type |
| 141.3 | Malignant neoplasm of ventral surface of tongue                       | Diagnosis | ICD-9-CM  |
| 141.4 | Malignant neoplasm of anterior two-thirds of tongue, part unspecified | Diagnosis | ICD-9-CM  |
| 141.5 | Malignant neoplasm of junctional zone of tongue                       | Diagnosis | ICD-9-CM  |
| 141.6 | Malignant neoplasm of lingual tonsil                                  | Diagnosis | ICD-9-CM  |
| 141.8 | Malignant neoplasm of other sites of tongue                           | Diagnosis | ICD-9-CM  |
| 141.9 | Malignant neoplasm of tongue, unspecified site                        | Diagnosis | ICD-9-CM  |
| 142   | Malignant neoplasm of major salivary glands                           | Diagnosis | ICD-9-CM  |
| 142.0 | Malignant neoplasm of parotid gland                                   | Diagnosis | ICD-9-CM  |
| 142.1 | Malignant neoplasm of submandibular gland                             | Diagnosis | ICD-9-CM  |
| 142.2 | Malignant neoplasm of sublingual gland                                | Diagnosis | ICD-9-CM  |
| 142.8 | Malignant neoplasm of other major salivary glands                     | Diagnosis | ICD-9-CM  |
| 142.9 | Malignant neoplasm of salivary gland, unspecified                     | Diagnosis | ICD-9-CM  |
| 143   | Malignant neoplasm of gum                                             | Diagnosis | ICD-9-CM  |
| 143.0 | Malignant neoplasm of upper gum                                       | Diagnosis | ICD-9-CM  |
| 143.1 | Malignant neoplasm of lower gum                                       | Diagnosis | ICD-9-CM  |
| 143.8 | Malignant neoplasm of other sites of gum                              | Diagnosis | ICD-9-CM  |
| 143.9 | Malignant neoplasm of gum, unspecified site                           | Diagnosis | ICD-9-CM  |
| 144   | Malignant neoplasm of floor of mouth                                  | Diagnosis | ICD-9-CM  |
| 144.0 | Malignant neoplasm of anterior portion of floor of mouth              | Diagnosis | ICD-9-CM  |
| 144.1 | Malignant neoplasm of lateral portion of floor of mouth               | Diagnosis | ICD-9-CM  |
| 144.8 | Malignant neoplasm of other sites of floor of mouth                   | Diagnosis | ICD-9-CM  |
| 144.9 | Malignant neoplasm of floor of mouth, part unspecified                | Diagnosis | ICD-9-CM  |
| 145   | Malignant neoplasm of other and unspecified parts of mouth            | Diagnosis | ICD-9-CM  |
| 145.0 | Malignant neoplasm of cheek mucosa                                    | Diagnosis | ICD-9-CM  |
| 145.1 | Malignant neoplasm of vestibule of mouth                              | Diagnosis | ICD-9-CM  |
| 145.2 | Malignant neoplasm of hard palate                                     | Diagnosis | ICD-9-CM  |
| 145.3 | Malignant neoplasm of soft palate                                     | Diagnosis | ICD-9-CM  |
| 145.4 | Malignant neoplasm of uvula                                           | Diagnosis | ICD-9-CM  |
| 145.5 | Malignant neoplasm of palate, unspecified                             | Diagnosis | ICD-9-CM  |
| 145.6 | Malignant neoplasm of retromolar area                                 | Diagnosis | ICD-9-CM  |
| 145.8 | Malignant neoplasm of other specified parts of mouth                  | Diagnosis | ICD-9-CM  |
| 145.9 | Malignant neoplasm of mouth, unspecified site                         | Diagnosis | ICD-9-CM  |
| 146   | Malignant neoplasm of oropharynx                                      | Diagnosis | ICD-9-CM  |
| 146.0 | Malignant neoplasm of tonsil                                          | Diagnosis | ICD-9-CM  |
| 146.1 | Malignant neoplasm of tonsillar fossa                                 | Diagnosis | ICD-9-CM  |
| 146.2 | Malignant neoplasm of tonsillar pillars (anterior) (posterior)        | Diagnosis | ICD-9-CM  |
| 146.3 | Malignant neoplasm of vallecula                                       | Diagnosis | ICD-9-CM  |
| 146.4 | Malignant neoplasm of anterior aspect of epiglottis                   | Diagnosis | ICD-9-CM  |
| 146.5 | Malignant neoplasm of junctional region of oropharynx                 | Diagnosis | ICD-9-CM  |
| 146.6 | Malignant neoplasm of lateral wall of oropharynx                      | Diagnosis | ICD-9-CM  |
| 146.7 | Malignant neoplasm of posterior wall of oropharynx                    | Diagnosis | ICD-9-CM  |
| 146.8 | Malignant neoplasm of other specified sites of oropharynx             | Diagnosis | ICD-9-CM  |
| 146.9 | Malignant neoplasm of oropharynx, unspecified site                    | Diagnosis | ICD-9-CM  |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                | Code      |           |
|-------|--------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                            | Category  | Code Type |
| 147   | Malignant neoplasm of nasopharynx                                                          | Diagnosis | ICD-9-CM  |
| 147.0 | Malignant neoplasm of superior wall of nasopharynx                                         | Diagnosis | ICD-9-CM  |
| 147.1 | Malignant neoplasm of posterior wall of nasopharynx                                        | Diagnosis | ICD-9-CM  |
| 147.2 | Malignant neoplasm of lateral wall of nasopharynx                                          | Diagnosis | ICD-9-CM  |
| 147.3 | Malignant neoplasm of anterior wall of nasopharynx                                         | Diagnosis | ICD-9-CM  |
| 147.8 | Malignant neoplasm of other specified sites of nasopharynx                                 | Diagnosis | ICD-9-CM  |
| 147.9 | Malignant neoplasm of nasopharynx, unspecified site                                        | Diagnosis | ICD-9-CM  |
| 148   | Malignant neoplasm of hypopharynx                                                          | Diagnosis | ICD-9-CM  |
| 148.0 | Malignant neoplasm of postcricoid region of hypopharynx                                    | Diagnosis | ICD-9-CM  |
| 148.1 | Malignant neoplasm of pyriform sinus                                                       | Diagnosis | ICD-9-CM  |
| 148.2 | Malignant neoplasm of aryepiglottic fold, hypopharyngeal aspect                            | Diagnosis | ICD-9-CM  |
| 148.3 | Malignant neoplasm of posterior hypopharyngeal wall                                        | Diagnosis | ICD-9-CM  |
| 148.8 | Malignant neoplasm of other specified sites of hypopharynx                                 | Diagnosis | ICD-9-CM  |
| 148.9 | Malignant neoplasm of hypopharynx, unspecified site                                        | Diagnosis | ICD-9-CM  |
| 149   | Malignant neoplasm of other and ill-defined sites within the lip, oral cavity, and pharynx | Diagnosis | ICD-9-CM  |
| 149.0 | Malignant neoplasm of pharynx, unspecified                                                 | Diagnosis | ICD-9-CM  |
| 149.1 | Malignant neoplasm of Waldeyer's ring                                                      | Diagnosis | ICD-9-CM  |
| 149.8 | Malignant neoplasm of other sites within the lip and oral cavity                           | Diagnosis | ICD-9-CM  |
| 149.9 | Malignant neoplasm of ill-defined sites of lip and oral cavity                             | Diagnosis | ICD-9-CM  |
| 150   | Malignant neoplasm of esophagus                                                            | Diagnosis | ICD-9-CM  |
| 150.0 | Malignant neoplasm of cervical esophagus                                                   | Diagnosis | ICD-9-CM  |
| 150.1 | Malignant neoplasm of thoracic esophagus                                                   | Diagnosis | ICD-9-CM  |
| 150.2 | Malignant neoplasm of abdominal esophagus                                                  | Diagnosis | ICD-9-CM  |
| 150.3 | Malignant neoplasm of upper third of esophagus                                             | Diagnosis | ICD-9-CM  |
| 150.4 | Malignant neoplasm of middle third of esophagus                                            | Diagnosis | ICD-9-CM  |
| 150.5 | Malignant neoplasm of lower third of esophagus                                             | Diagnosis | ICD-9-CM  |
| 150.8 | Malignant neoplasm of other specified part of esophagus                                    | Diagnosis | ICD-9-CM  |
| 150.9 | Malignant neoplasm of esophagus, unspecified site                                          | Diagnosis | ICD-9-CM  |
| 151   | Malignant neoplasm of stomach                                                              | Diagnosis | ICD-9-CM  |
| 151.0 | Malignant neoplasm of cardia                                                               | Diagnosis | ICD-9-CM  |
| 151.1 | Malignant neoplasm of pylorus                                                              | Diagnosis | ICD-9-CM  |
| 151.2 | Malignant neoplasm of pyloric antrum                                                       | Diagnosis | ICD-9-CM  |
| 151.3 | Malignant neoplasm of fundus of stomach                                                    | Diagnosis | ICD-9-CM  |
| 151.4 | Malignant neoplasm of body of stomach                                                      | Diagnosis | ICD-9-CM  |
| 151.5 | Malignant neoplasm of lesser curvature of stomach, unspecified                             | Diagnosis | ICD-9-CM  |
| 151.6 | Malignant neoplasm of greater curvature of stomach, unspecified                            | Diagnosis | ICD-9-CM  |
| 151.8 | Malignant neoplasm of other specified sites of stomach                                     | Diagnosis | ICD-9-CM  |
| 151.9 | Malignant neoplasm of stomach, unspecified site                                            | Diagnosis | ICD-9-CM  |
| 152   | Malignant neoplasm of small intestine, including duodenum                                  | Diagnosis | ICD-9-CM  |
| 152.0 | Malignant neoplasm of duodenum                                                             | Diagnosis | ICD-9-CM  |
| 152.1 | Malignant neoplasm of jejunum                                                              | Diagnosis | ICD-9-CM  |
| 152.2 | Malignant neoplasm of ileum                                                                | Diagnosis | ICD-9-CM  |

| Code  | Description                                                                            | Code      |           |
|-------|----------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                        | Category  | Code Type |
| 152.3 | Malignant neoplasm of Meckel's diverticulum                                            | Diagnosis | ICD-9-CM  |
| 152.8 | Malignant neoplasm of other specified sites of small intestine                         | Diagnosis | ICD-9-CM  |
| 152.9 | Malignant neoplasm of small intestine, unspecified site                                | Diagnosis | ICD-9-CM  |
| 153   | Malignant neoplasm of colon                                                            | Diagnosis | ICD-9-CM  |
| 153.0 | Malignant neoplasm of hepatic flexure                                                  | Diagnosis | ICD-9-CM  |
| 153.1 | Malignant neoplasm of transverse colon                                                 | Diagnosis | ICD-9-CM  |
| 153.2 | Malignant neoplasm of descending colon                                                 | Diagnosis | ICD-9-CM  |
| 153.3 | Malignant neoplasm of sigmoid colon                                                    | Diagnosis | ICD-9-CM  |
| 153.4 | Malignant neoplasm of cecum                                                            | Diagnosis | ICD-9-CM  |
| 153.5 | Malignant neoplasm of appendix                                                         | Diagnosis | ICD-9-CM  |
| 153.6 | Malignant neoplasm of ascending colon                                                  | Diagnosis | ICD-9-CM  |
| 153.7 | Malignant neoplasm of splenic flexure                                                  | Diagnosis | ICD-9-CM  |
| 153.8 | Malignant neoplasm of other specified sites of large intestine                         | Diagnosis | ICD-9-CM  |
| 153.9 | Malignant neoplasm of colon, unspecified site                                          | Diagnosis | ICD-9-CM  |
| 154   | Malignant neoplasm of rectum, rectosigmoid junction, and anus                          | Diagnosis | ICD-9-CM  |
| 154.0 | Malignant neoplasm of rectosigmoid junction                                            | Diagnosis | ICD-9-CM  |
| 154.1 | Malignant neoplasm of rectum                                                           | Diagnosis | ICD-9-CM  |
| 154.2 | Malignant neoplasm of anal canal                                                       | Diagnosis | ICD-9-CM  |
| 154.3 | Malignant neoplasm of anus, unspecified site                                           | Diagnosis | ICD-9-CM  |
| 154.8 | Malignant neoplasm of other sites of rectum, rectosigmoid junction, and anus           | Diagnosis | ICD-9-CM  |
| 155   | Malignant neoplasm of liver and intrahepatic bile ducts                                | Diagnosis | ICD-9-CM  |
| 155.0 | Malignant neoplasm of liver, primary                                                   | Diagnosis | ICD-9-CM  |
| 155.1 | Malignant neoplasm of intrahepatic bile ducts                                          | Diagnosis | ICD-9-CM  |
| 155.2 | Malignant neoplasm of liver, not specified as primary or secondary                     | Diagnosis | ICD-9-CM  |
| 156   | Malignant neoplasm of gallbladder and extrahepatic bile ducts                          | Diagnosis | ICD-9-CM  |
| 156.0 | Malignant neoplasm of gallbladder                                                      | Diagnosis | ICD-9-CM  |
| 156.1 | Malignant neoplasm of extrahepatic bile ducts                                          | Diagnosis | ICD-9-CM  |
| 156.2 | Malignant neoplasm of ampulla of Vater                                                 | Diagnosis | ICD-9-CM  |
| 156.8 | Malignant neoplasm of other specified sites of gallbladder and extrahepatic bile ducts | Diagnosis | ICD-9-CM  |
| 156.9 | Malignant neoplasm of biliary tract, part unspecified site                             | Diagnosis | ICD-9-CM  |
| 157   | Malignant neoplasm of pancreas                                                         | Diagnosis | ICD-9-CM  |
| 157.0 | Malignant neoplasm of head of pancreas                                                 | Diagnosis | ICD-9-CM  |
| 157.1 | Malignant neoplasm of body of pancreas                                                 | Diagnosis | ICD-9-CM  |
| 157.2 | Malignant neoplasm of tail of pancreas                                                 | Diagnosis | ICD-9-CM  |
| 157.3 | Malignant neoplasm of pancreatic duct                                                  | Diagnosis | ICD-9-CM  |
| 157.4 | Malignant neoplasm of islets of Langerhans                                             | Diagnosis | ICD-9-CM  |
| 157.8 | Malignant neoplasm of other specified sites of pancreas                                | Diagnosis | ICD-9-CM  |
| 157.9 | Malignant neoplasm of pancreas, part unspecified                                       | Diagnosis | ICD-9-CM  |
| 158   | Malignant neoplasm of retroperitoneum and peritoneum                                   | Diagnosis | ICD-9-CM  |
| 158.0 | Malignant neoplasm of retroperitoneum                                                  | Diagnosis | ICD-9-CM  |
| 158.8 | Malignant neoplasm of specified parts of peritoneum                                    | Diagnosis | ICD-9-CM  |
| 158.9 | Malignant neoplasm of peritoneum, unspecified                                          | Diagnosis | ICD-9-CM  |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                     | Code      |           |
|-------|-------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                 | Category  | Code Type |
| 159   | Malignant neoplasm of other and ill-defined sites within the digestive organs and peritoneum    | Diagnosis | ICD-9-CM  |
| 159.0 | Malignant neoplasm of intestinal tract, part unspecified                                        | Diagnosis | ICD-9-CM  |
| 159.1 | Malignant neoplasm of spleen, not elsewhere classified                                          | Diagnosis | ICD-9-CM  |
| 159.8 | Malignant neoplasm of other sites of digestive system and intra-abdominal organs                | Diagnosis | ICD-9-CM  |
| 159.9 | Malignant neoplasm of ill-defined sites of digestive organs and peritoneum                      | Diagnosis | ICD-9-CM  |
| 160   | Malignant neoplasm of nasal cavities, middle ear, and accessory sinuses                         | Diagnosis | ICD-9-CM  |
| 160.0 | Malignant neoplasm of nasal cavities                                                            | Diagnosis | ICD-9-CM  |
| 160.1 | Malignant neoplasm of auditory tube, middle ear, and mastoid air cells                          | Diagnosis | ICD-9-CM  |
| 160.2 | Malignant neoplasm of maxillary sinus                                                           | Diagnosis | ICD-9-CM  |
| 160.3 | Malignant neoplasm of ethmoidal sinus                                                           | Diagnosis | ICD-9-CM  |
| 160.4 | Malignant neoplasm of frontal sinus                                                             | Diagnosis | ICD-9-CM  |
| 160.5 | Malignant neoplasm of sphenoidal sinus                                                          | Diagnosis | ICD-9-CM  |
| 160.8 | Malignant neoplasm of other sites of nasal cavities, middle ear, and accessory sinuses          | Diagnosis | ICD-9-CM  |
| 160.9 | Malignant neoplasm of site of nasal cavities, middle ear, and accessory sinus, unspecified site | Diagnosis | ICD-9-CM  |
| 161   | Malignant neoplasm of larynx                                                                    | Diagnosis | ICD-9-CM  |
| 161.0 | Malignant neoplasm of glottis                                                                   | Diagnosis | ICD-9-CM  |
| 161.1 | Malignant neoplasm of supraglottis                                                              | Diagnosis | ICD-9-CM  |
| 161.2 | Malignant neoplasm of subglottis                                                                | Diagnosis | ICD-9-CM  |
| 161.3 | Malignant neoplasm of laryngeal cartilages                                                      | Diagnosis | ICD-9-CM  |
| 161.8 | Malignant neoplasm of other specified sites of larynx                                           | Diagnosis | ICD-9-CM  |
| 161.9 | Malignant neoplasm of larynx, unspecified site                                                  | Diagnosis | ICD-9-CM  |
| 162   | Malignant neoplasm of trachea, bronchus, and lung                                               | Diagnosis | ICD-9-CM  |
| 162.0 | Malignant neoplasm of trachea                                                                   | Diagnosis | ICD-9-CM  |
| 162.2 | Malignant neoplasm of main bronchus                                                             | Diagnosis | ICD-9-CM  |
| 162.3 | Malignant neoplasm of upper lobe, bronchus, or lung                                             | Diagnosis | ICD-9-CM  |
| 162.4 | Malignant neoplasm of middle lobe, bronchus, or lung                                            | Diagnosis | ICD-9-CM  |
| 162.5 | Malignant neoplasm of lower lobe, bronchus, or lung                                             | Diagnosis | ICD-9-CM  |
| 162.8 | Malignant neoplasm of other parts of bronchus or lung                                           | Diagnosis | ICD-9-CM  |
| 162.9 | Malignant neoplasm of bronchus and lung, unspecified site                                       | Diagnosis | ICD-9-CM  |
| 163   | Malignant neoplasm of pleura                                                                    | Diagnosis | ICD-9-CM  |
| 163.0 | Malignant neoplasm of parietal pleura                                                           | Diagnosis | ICD-9-CM  |
| 163.1 | Malignant neoplasm of visceral pleura                                                           | Diagnosis | ICD-9-CM  |
| 163.8 | Malignant neoplasm of other specified sites of pleura                                           | Diagnosis | ICD-9-CM  |
| 163.9 | Malignant neoplasm of pleura, unspecified site                                                  | Diagnosis | ICD-9-CM  |
| 164   | Malignant neoplasm of thymus, heart, and mediastinum                                            | Diagnosis | ICD-9-CM  |
| 164.0 | Malignant neoplasm of thymus                                                                    | Diagnosis | ICD-9-CM  |
| 164.1 | Malignant neoplasm of heart                                                                     | Diagnosis | ICD-9-CM  |
| 164.2 | Malignant neoplasm of anterior mediastinum                                                      | Diagnosis | ICD-9-CM  |
| 164.3 | Malignant neoplasm of posterior mediastinum                                                     | Diagnosis | ICD-9-CM  |
| 164.8 | Malignant neoplasm of other parts of mediastinum                                                | Diagnosis | ICD-9-CM  |
| 164.9 | Malignant neoplasm of mediastinum, part unspecified                                             | Diagnosis | ICD-9-CM  |

| Code  | Description                                                                                                                                        | Code      |           |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                    | Category  | Code Type |
| 165   | Malignant neoplasm of other and ill-defined sites within the respiratory system and intrathoracic organs                                           | Diagnosis | ICD-9-CM  |
| 165.0 | Malignant neoplasm of upper respiratory tract, part unspecified                                                                                    | Diagnosis | ICD-9-CM  |
| 165.8 | Malignant neoplasm of other sites within the respiratory system and intrathoracic organs                                                           | Diagnosis | ICD-9-CM  |
| 165.9 | Malignant neoplasm of ill-defined sites within the respiratory system                                                                              | Diagnosis | ICD-9-CM  |
| 17.70 | Intravenous infusion of clofarabine                                                                                                                | Procedure | ICD-9-CM  |
| 170   | Malignant neoplasm of bone and articular cartilage                                                                                                 | Diagnosis | ICD-9-CM  |
| 170.0 | Malignant neoplasm of bones of skull and face, except mandible                                                                                     | Diagnosis | ICD-9-CM  |
| 170.1 | Malignant neoplasm of mandible                                                                                                                     | Diagnosis | ICD-9-CM  |
| 170.2 | Malignant neoplasm of vertebral column, excluding sacrum and coccyx                                                                                | Diagnosis | ICD-9-CM  |
| 170.3 | Malignant neoplasm of ribs, sternum, and clavicle                                                                                                  | Diagnosis | ICD-9-CM  |
| 170.4 | Malignant neoplasm of scapula and long bones of upper limb                                                                                         | Diagnosis | ICD-9-CM  |
| 170.5 | Malignant neoplasm of short bones of upper limb                                                                                                    | Diagnosis | ICD-9-CM  |
| 170.6 | Malignant neoplasm of pelvic bones, sacrum, and coccyx                                                                                             | Diagnosis | ICD-9-CM  |
| 170.7 | Malignant neoplasm of long bones of lower limb                                                                                                     | Diagnosis | ICD-9-CM  |
| 170.8 | Malignant neoplasm of short bones of lower limb                                                                                                    | Diagnosis | ICD-9-CM  |
| 170.9 | Malignant neoplasm of bone and articular cartilage, site unspecified                                                                               | Diagnosis | ICD-9-CM  |
| 171   | Malignant neoplasm of connective and other soft tissue                                                                                             | Diagnosis | ICD-9-CM  |
| 171.0 | Malignant neoplasm of connective and other soft tissue of head, face, and neck                                                                     | Diagnosis | ICD-9-CM  |
| 171.2 | Malignant neoplasm of connective and other soft tissue of upper limb, including shoulder                                                           | Diagnosis | ICD-9-CM  |
| 171.3 | Malignant neoplasm of connective and other soft tissue of lower limb, including hip                                                                | Diagnosis | ICD-9-CM  |
| 171.4 | Malignant neoplasm of connective and other soft tissue of thorax                                                                                   | Diagnosis | ICD-9-CM  |
| 171.5 | Malignant neoplasm of connective and other soft tissue of abdomen                                                                                  | Diagnosis | ICD-9-CM  |
| 171.6 | Malignant neoplasm of connective and other soft tissue of pelvis                                                                                   | Diagnosis | ICD-9-CM  |
| 171.7 | Malignant neoplasm of connective and other soft tissue of trunk, unspecified site                                                                  | Diagnosis | ICD-9-CM  |
| 171.8 | Malignant neoplasm of other specified sites of connective and other soft tissue                                                                    | Diagnosis | ICD-9-CM  |
| 171.9 | Malignant neoplasm of connective and other soft tissue, site unspecified                                                                           | Diagnosis | ICD-9-CM  |
| 172   | Malignant melanoma of skin                                                                                                                         | Diagnosis | ICD-9-CM  |
| 172.0 | Malignant melanoma of skin of lip                                                                                                                  | Diagnosis | ICD-9-CM  |
| 172.1 | Malignant melanoma of skin of eyelid, including canthus                                                                                            | Diagnosis | ICD-9-CM  |
| 172.2 | Malignant melanoma of skin of ear and external auditory canal                                                                                      | Diagnosis | ICD-9-CM  |
| 172.3 | Malignant melanoma of skin of other and unspecified parts of face                                                                                  | Diagnosis | ICD-9-CM  |
| 172.4 | Malignant melanoma of skin of scalp and neck                                                                                                       | Diagnosis | ICD-9-CM  |
| 172.5 | Malignant melanoma of skin of trunk, except scrotum                                                                                                | Diagnosis | ICD-9-CM  |
| 172.6 | Malignant melanoma of skin of upper limb, including shoulder                                                                                       | Diagnosis | ICD-9-CM  |
| 172.7 | Malignant melanoma of skin of lower limb, including hip                                                                                            | Diagnosis | ICD-9-CM  |
| 172.8 | Malignant melanoma of other specified sites of skin                                                                                                | Diagnosis | ICD-9-CM  |
| 172.9 | Melanoma of skin, site unspecified                                                                                                                 | Diagnosis | ICD-9-CM  |
| 17303 | Chemosurgery (mohs' Micrographic Technique), First Stage, Fixed Tissue Technique, Including Removal Of All Gross Tumor And Application Of Fixative | Procedure | CPT-4     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Code      |           |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Category  | Code Type |
| 17304 | Chemosurgery (Mohs micrographic technique), including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and complete histopathologic preparation including the first routine stain (eg, hematoxylin and eosin, toluidine blue); first stage, fresh tissue technique, up to 5 specimens                                                                                                                                                                                         | Procedure | CPT-4     |
| 17305 | Chemosurgery (Mohs micrographic technique), including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and complete histopathologic preparation including the first routine stain (eg, hematoxylin and eosin, toluidine blue); second stage, fixed or fresh tissue, up to 5 specimens                                                                                                                                                                                         | Procedure | CPT-4     |
| 17306 | Chemosurgery (Mohs micrographic technique), including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and complete histopathologic preparation including the first routine stain (eg, hematoxylin and eosin, toluidine blue); third stage, fixed or fresh tissue, up to 5 specimens                                                                                                                                                                                          | Procedure | CPT-4     |
| 17307 | Chemosurgery (Mohs micrographic technique), including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and complete histopathologic preparation including the first routine stain (eg, hematoxylin and eosin, toluidine blue); additional stage(s), up to 5 specimens, each stage                                                                                                                                                                                             | Procedure | CPT-4     |
| 17310 | Chemosurgery (Mohs micrographic technique), including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and complete histopathologic preparation including the first routine stain (eg, hematoxylin and eosin, toluidine blue); each additional specimen, after the first 5 specimens, fixed or fresh tissue, any stage (List separately in addition to code for primary procedure)                                                                                            | Procedure | CPT-4     |
| 17311 | Mohs micrographic technique, including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and histopathologic preparation including routine stain(s) (eg, hematoxylin and eosin, toluidine blue), head, neck, hands, feet, genitalia, or any location with surgery directly involving muscle, cartilage, bone, tendon, major nerves, or vessels; first stage, up to 5 tissue blocks                                                                                             | Procedure | CPT-4     |
| 17312 | Mohs micrographic technique, including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and histopathologic preparation including routine stain(s) (eg, hematoxylin and eosin, toluidine blue), head, neck, hands, feet, genitalia, or any location with surgery directly involving muscle, cartilage, bone, tendon, major nerves, or vessels; each additional stage after the first stage, up to 5 tissue blocks (List separately in addition to code for primary procedure) | Procedure | CPT-4     |

| 17313 | Mohs micrographic technique, including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and histopathologic preparation including routine stain(s) (eg, hematoxylin and eosin, toluidine blue), of the trunk, arms, or legs; first stage, up to 5 tissue blocks                                                                                             | Procedure | CPT-4     |
| 17314 | Mohs micrographic technique, including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and histopathologic preparation including routine stain(s) (eg, hematoxylin and eosin, toluidine blue), of the trunk, arms, or legs; each additional stage after the first stage, up to 5 tissue blocks (List separately in addition to code for primary procedure) | Procedure | CPT-4     |
| 17315 | Mohs micrographic technique, including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and histopathologic preparation including routine stain(s) (eg, hematoxylin and eosin, toluidine blue), each additional block after the first 5 tissue blocks, any stage (List separately in addition to code for primary procedure)                                | Procedure | CPT-4     |
| 174   | Malignant neoplasm of female breast                                                                                                                                                                                                                                                                                                                                                                                                                                    | Diagnosis | ICD-9-CM  |
| 174.0 | Malignant neoplasm of nipple and areola of female breast                                                                                                                                                                                                                                                                                                                                                                                                               | Diagnosis | ICD-9-CM  |
| 174.1 | Malignant neoplasm of central portion of female breast                                                                                                                                                                                                                                                                                                                                                                                                                 | Diagnosis | ICD-9-CM  |
| 174.2 | Malignant neoplasm of upper-inner quadrant of female breast                                                                                                                                                                                                                                                                                                                                                                                                            | Diagnosis | ICD-9-CM  |
| 174.3 | Malignant neoplasm of lower-inner quadrant of female breast                                                                                                                                                                                                                                                                                                                                                                                                            | Diagnosis | ICD-9-CM  |
| 174.4 | Malignant neoplasm of upper-outer quadrant of female breast                                                                                                                                                                                                                                                                                                                                                                                                            | Diagnosis | ICD-9-CM  |
| 174.5 | Malignant neoplasm of lower-outer quadrant of female breast                                                                                                                                                                                                                                                                                                                                                                                                            | Diagnosis | ICD-9-CM  |
| 174.6 | Malignant neoplasm of axillary tail of female breast                                                                                                                                                                                                                                                                                                                                                                                                                   | Diagnosis | ICD-9-CM  |
| 174.8 | Malignant neoplasm of other specified sites of female breast                                                                                                                                                                                                                                                                                                                                                                                                           | Diagnosis | ICD-9-CM  |
| 174.9 | Malignant neoplasm of breast (female), unspecified site                                                                                                                                                                                                                                                                                                                                                                                                                | Diagnosis | ICD-9-CM  |
| 175   | Malignant neoplasm of male breast                                                                                                                                                                                                                                                                                                                                                                                                                                      | Diagnosis | ICD-9-CM  |
| 175.0 | Malignant neoplasm of nipple and areola of male breast                                                                                                                                                                                                                                                                                                                                                                                                                 | Diagnosis | ICD-9-CM  |
| 175.9 | Malignant neoplasm of other and unspecified sites of male breast                                                                                                                                                                                                                                                                                                                                                                                                       | Diagnosis | ICD-9-CM  |
| 176   | Kaposi's sarcoma                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Diagnosis | ICD-9-CM  |
| 176.0 | Kaposi's sarcoma of skin                                                                                                                                                                                                                                                                                                                                                                                                                                               | Diagnosis | ICD-9-CM  |
| 176.1 | Kaposi's sarcoma of soft tissue                                                                                                                                                                                                                                                                                                                                                                                                                                        | Diagnosis | ICD-9-CM  |
| 176.2 | Kaposi's sarcoma of palate                                                                                                                                                                                                                                                                                                                                                                                                                                             | Diagnosis | ICD-9-CM  |
| 176.3 | Kaposi's sarcoma of gastrointestinal sites                                                                                                                                                                                                                                                                                                                                                                                                                             | Diagnosis | ICD-9-CM  |
| 176.4 | Kaposi's sarcoma of lung                                                                                                                                                                                                                                                                                                                                                                                                                                               | Diagnosis | ICD-9-CM  |
| 176.5 | Kaposi's sarcoma of lymph nodes                                                                                                                                                                                                                                                                                                                                                                                                                                        | Diagnosis | ICD-9-CM  |
| 176.8 | Kaposi's sarcoma of other specified sites                                                                                                                                                                                                                                                                                                                                                                                                                              | Diagnosis | ICD-9-CM  |
| 176.9 | Kaposi's sarcoma of unspecified site                                                                                                                                                                                                                                                                                                                                                                                                                                   | Diagnosis | ICD-9-CM  |
| 179   | Malignant neoplasm of uterus, part unspecified                                                                                                                                                                                                                                                                                                                                                                                                                         | Diagnosis | ICD-9-CM  |
| 180   | Malignant neoplasm of cervix uteri                                                                                                                                                                                                                                                                                                                                                                                                                                     | Diagnosis | ICD-9-CM  |
| 180.0 | Malignant neoplasm of endocervix                                                                                                                                                                                                                                                                                                                                                                                                                                       | Diagnosis | ICD-9-CM  |
| 180.1 | Malignant neoplasm of exocervix                                                                                                                                                                                                                                                                                                                                                                                                                                        | Diagnosis | ICD-9-CM  |
| 180.8 | Malignant neoplasm of other specified sites of cervix                                                                                                                                                                                                                                                                                                                                                                                                                  | Diagnosis | ICD-9-CM  |

|-------|----------------------------------------------------------------------|-----------|-----------|
|       |                                                                      | Category  | Code Type |
| 180.9 | Malignant neoplasm of cervix uteri, unspecified site                 | Diagnosis | ICD-9-CM  |
| 181   | Malignant neoplasm of placenta                                       | Diagnosis | ICD-9-CM  |
| 182   | Malignant neoplasm of body of uterus                                 | Diagnosis | ICD-9-CM  |
| 182.0 | Malignant neoplasm of corpus uteri, except isthmus                   | Diagnosis | ICD-9-CM  |
| 182.1 | Malignant neoplasm of isthmus                                        | Diagnosis | ICD-9-CM  |
| 182.8 | Malignant neoplasm of other specified sites of body of uterus        | Diagnosis | ICD-9-CM  |
| 183   | Malignant neoplasm of ovary and other uterine adnexa                 | Diagnosis | ICD-9-CM  |
| 183.0 | Malignant neoplasm of ovary                                          | Diagnosis | ICD-9-CM  |
| 183.2 | Malignant neoplasm of fallopian tube                                 | Diagnosis | ICD-9-CM  |
| 183.3 | Malignant neoplasm of broad ligament of uterus                       | Diagnosis | ICD-9-CM  |
| 183.4 | Malignant neoplasm of parametrium of uterus                          | Diagnosis | ICD-9-CM  |
| 183.5 | Malignant neoplasm of round ligament of uterus                       | Diagnosis | ICD-9-CM  |
| 183.8 | Malignant neoplasm of other specified sites of uterine adnexa        | Diagnosis | ICD-9-CM  |
| 183.9 | Malignant neoplasm of uterine adnexa, unspecified site               | Diagnosis | ICD-9-CM  |
| 184   | Malignant neoplasm of other and unspecified female genital organs    | Diagnosis | ICD-9-CM  |
| 184.0 | Malignant neoplasm of vagina                                         | Diagnosis | ICD-9-CM  |
| 184.1 | Malignant neoplasm of labia majora                                   | Diagnosis | ICD-9-CM  |
| 184.2 | Malignant neoplasm of labia minora                                   | Diagnosis | ICD-9-CM  |
| 184.3 | Malignant neoplasm of clitoris                                       | Diagnosis | ICD-9-CM  |
| 184.4 | Malignant neoplasm of vulva, unspecified site                        | Diagnosis | ICD-9-CM  |
| 184.8 | Malignant neoplasm of other specified sites of female genital organs | Diagnosis | ICD-9-CM  |
| 184.9 | Malignant neoplasm of female genital organ, site unspecified         | Diagnosis | ICD-9-CM  |
| 185   | Malignant neoplasm of prostate                                       | Diagnosis | ICD-9-CM  |
| 186   | Malignant neoplasm of testis                                         | Diagnosis | ICD-9-CM  |
| 186.0 | Malignant neoplasm of undescended testis                             | Diagnosis | ICD-9-CM  |
| 186.9 | Malignant neoplasm of other and unspecified testis                   | Diagnosis | ICD-9-CM  |
| 187   | Malignant neoplasm of penis and other male genital organs            | Diagnosis | ICD-9-CM  |
| 187.1 | Malignant neoplasm of prepuce                                        | Diagnosis | ICD-9-CM  |
| 187.2 | Malignant neoplasm of glans penis                                    | Diagnosis | ICD-9-CM  |
| 187.3 | Malignant neoplasm of body of penis                                  | Diagnosis | ICD-9-CM  |
| 187.4 | Malignant neoplasm of penis, part unspecified                        | Diagnosis | ICD-9-CM  |
| 187.5 | Malignant neoplasm of epididymis                                     | Diagnosis | ICD-9-CM  |
| 187.6 | Malignant neoplasm of spermatic cord                                 | Diagnosis | ICD-9-CM  |
| 187.7 | Malignant neoplasm of scrotum                                        | Diagnosis | ICD-9-CM  |
| 187.8 | Malignant neoplasm of other specified sites of male genital organs   | Diagnosis | ICD-9-CM  |
| 187.9 | Malignant neoplasm of male genital organ, site unspecified           | Diagnosis | ICD-9-CM  |
| 188   | Malignant neoplasm of bladder                                        | Diagnosis | ICD-9-CM  |
| 188.0 | Malignant neoplasm of trigone of urinary bladder                     | Diagnosis | ICD-9-CM  |
| 188.1 | Malignant neoplasm of dome of urinary bladder                        | Diagnosis | ICD-9-CM  |
| 188.2 | Malignant neoplasm of lateral wall of urinary bladder                | Diagnosis | ICD-9-CM  |
| 188.3 | Malignant neoplasm of anterior wall of urinary bladder               | Diagnosis | ICD-9-CM  |
| 188.4 | Malignant neoplasm of posterior wall of urinary bladder              | Diagnosis | ICD-9-CM  |
| 188.5 | Malignant neoplasm of bladder neck                                   | Diagnosis | ICD-9-CM  |

| 188.6 | Malignant neoplasm of ureteric orifice                                                                        | Diagnosis | ICD-9-CM  |
| 188.7 | Malignant neoplasm of urachus                                                                                 | Diagnosis | ICD-9-CM  |
| 188.8 | Malignant neoplasm of other specified sites of bladder                                                        | Diagnosis | ICD-9-CM  |
| 188.9 | Malignant neoplasm of bladder, part unspecified                                                               | Diagnosis | ICD-9-CM  |
| 189.1 | Malignant neoplasm of renal pelvis                                                                            | Diagnosis | ICD-9-CM  |
| 189.2 | Malignant neoplasm of ureter                                                                                  | Diagnosis | ICD-9-CM  |
| 189.3 | Malignant neoplasm of urethra                                                                                 | Diagnosis | ICD-9-CM  |
| 189.4 | Malignant neoplasm of paraurethral glands                                                                     | Diagnosis | ICD-9-CM  |
| 189.8 | Malignant neoplasm of other specified sites of urinary organs                                                 | Diagnosis | ICD-9-CM  |
| 189.9 | Malignant neoplasm of urinary organ, site unspecified                                                         | Diagnosis | ICD-9-CM  |
| 190   | Malignant neoplasm of eye                                                                                     | Diagnosis | ICD-9-CM  |
| 190.0 | Malignant neoplasm of eyeball, except conjunctiva, cornea, retina, and choroid                                | Diagnosis | ICD-9-CM  |
| 190.1 | Malignant neoplasm of orbit                                                                                   | Diagnosis | ICD-9-CM  |
| 190.2 | Malignant neoplasm of lacrimal gland                                                                          | Diagnosis | ICD-9-CM  |
| 190.3 | Malignant neoplasm of conjunctiva                                                                             | Diagnosis | ICD-9-CM  |
| 190.4 | Malignant neoplasm of cornea                                                                                  | Diagnosis | ICD-9-CM  |
| 190.5 | Malignant neoplasm of retina                                                                                  | Diagnosis | ICD-9-CM  |
| 190.6 | Malignant neoplasm of choroid                                                                                 | Diagnosis | ICD-9-CM  |
| 190.7 | Malignant neoplasm of lacrimal duct                                                                           | Diagnosis | ICD-9-CM  |
| 190.8 | Malignant neoplasm of other specified sites of eye                                                            | Diagnosis | ICD-9-CM  |
| 190.9 | Malignant neoplasm of eye, part unspecified                                                                   | Diagnosis | ICD-9-CM  |
| 191   | Malignant neoplasm of brain                                                                                   | Diagnosis | ICD-9-CM  |
| 191.0 | Malignant neoplasm of cerebrum, except lobes and ventricles                                                   | Diagnosis | ICD-9-CM  |
| 191.1 | Malignant neoplasm of frontal lobe of brain                                                                   | Diagnosis | ICD-9-CM  |
| 191.2 | Malignant neoplasm of temporal lobe of brain                                                                  | Diagnosis | ICD-9-CM  |
| 191.3 | Malignant neoplasm of parietal lobe of brain                                                                  | Diagnosis | ICD-9-CM  |
| 191.4 | Malignant neoplasm of occipital lobe of brain                                                                 | Diagnosis | ICD-9-CM  |
| 191.5 | Malignant neoplasm of ventricles of brain                                                                     | Diagnosis | ICD-9-CM  |
| 191.6 | Malignant neoplasm of cerebellum NOS                                                                          | Diagnosis | ICD-9-CM  |
| 191.7 | Malignant neoplasm of brain stem                                                                              | Diagnosis | ICD-9-CM  |
| 191.8 | Malignant neoplasm of other parts of brain                                                                    | Diagnosis | ICD-9-CM  |
| 191.9 | Malignant neoplasm of brain, unspecified site                                                                 | Diagnosis | ICD-9-CM  |
| 192   | Malignant neoplasm of other and unspecified parts of nervous system                                           | Diagnosis | ICD-9-CM  |
| 192.0 | Malignant neoplasm of cranial nerves                                                                          | Diagnosis | ICD-9-CM  |
| 192.1 | Malignant neoplasm of cerebral meninges                                                                       | Diagnosis | ICD-9-CM  |
| 192.2 | Malignant neoplasm of spinal cord                                                                             | Diagnosis | ICD-9-CM  |
| 192.3 | Malignant neoplasm of spinal meninges                                                                         | Diagnosis | ICD-9-CM  |
| 192.8 | Malignant neoplasm of other specified sites of nervous system                                                 | Diagnosis | ICD-9-CM  |
| 192.9 | Malignant neoplasm of nervous system, part unspecified                                                        | Diagnosis | ICD-9-CM  |
| 19260 | Excision of chest wall tumor including ribs                                                                   | Procedure | CPT-4     |
| 19271 | Excision of chest wall tumor involving ribs, with plastic reconstruction; without mediastinal lymphadenectomy | Procedure | CPT-4     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                              | Code      |           |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                          | Category  | Code Type |
| 19272 | Excision of chest wall tumor involving ribs, with plastic reconstruction; with mediastinal lymphadenectomy                                                                                                               | Procedure | CPT-4     |
| 19294 | Preparation of tumor cavity, with placement of a radiation therapy applicator for intraoperative radiation therapy (IORT) concurrent with partial mastectomy (List separately in addition to code for primary procedure) | Procedure | CPT-4     |
| 193   | Malignant neoplasm of thyroid gland                                                                                                                                                                                      | Diagnosis | ICD-9-CM  |
| 194   | Malignant neoplasm of other endocrine glands and related structures                                                                                                                                                      | Diagnosis | ICD-9-CM  |
| 194.0 | Malignant neoplasm of adrenal gland                                                                                                                                                                                      | Diagnosis | ICD-9-CM  |
| 194.1 | Malignant neoplasm of parathyroid gland                                                                                                                                                                                  | Diagnosis | ICD-9-CM  |
| 194.3 | Malignant neoplasm of pituitary gland and craniopharyngeal duct                                                                                                                                                          | Diagnosis | ICD-9-CM  |
| 194.4 | Malignant neoplasm of pineal gland                                                                                                                                                                                       | Diagnosis | ICD-9-CM  |
| 194.5 | Malignant neoplasm of carotid body                                                                                                                                                                                       | Diagnosis | ICD-9-CM  |
| 194.6 | Malignant neoplasm of aortic body and other paraganglia                                                                                                                                                                  | Diagnosis | ICD-9-CM  |
| 194.8 | Malignant neoplasm of other endocrine glands and related structures                                                                                                                                                      | Diagnosis | ICD-9-CM  |
| 194.9 | Malignant neoplasm of endocrine gland, site unspecified                                                                                                                                                                  | Diagnosis | ICD-9-CM  |
| 195   | Malignant neoplasm of other and ill-defined sites                                                                                                                                                                        | Diagnosis | ICD-9-CM  |
| 195.0 | Malignant neoplasm of head, face, and neck                                                                                                                                                                               | Diagnosis | ICD-9-CM  |
| 195.1 | Malignant neoplasm of thorax                                                                                                                                                                                             | Diagnosis | ICD-9-CM  |
| 195.2 | Malignant neoplasm of abdomen                                                                                                                                                                                            | Diagnosis | ICD-9-CM  |
| 195.3 | Malignant neoplasm of pelvis                                                                                                                                                                                             | Diagnosis | ICD-9-CM  |
| 195.4 | Malignant neoplasm of upper limb                                                                                                                                                                                         | Diagnosis | ICD-9-CM  |
| 195.5 | Malignant neoplasm of lower limb                                                                                                                                                                                         | Diagnosis | ICD-9-CM  |
| 195.8 | Malignant neoplasm of other specified sites                                                                                                                                                                              | Diagnosis | ICD-9-CM  |
| 196   | Secondary and unspecified malignant neoplasm of lymph nodes                                                                                                                                                              | Diagnosis | ICD-9-CM  |
| 196.0 | Secondary and unspecified malignant neoplasm of lymph nodes of head, face, and neck                                                                                                                                      | Diagnosis | ICD-9-CM  |
| 196.1 | Secondary and unspecified malignant neoplasm of intrathoracic lymph nodes                                                                                                                                                | Diagnosis | ICD-9-CM  |
| 196.2 | Secondary and unspecified malignant neoplasm of intra-abdominal lymph nodes                                                                                                                                              | Diagnosis | ICD-9-CM  |
| 196.3 | Secondary and unspecified malignant neoplasm of lymph nodes of axilla and upper limb                                                                                                                                     | Diagnosis | ICD-9-CM  |
| 196.5 | Secondary and unspecified malignant neoplasm of lymph nodes of inguinal region and lower limb                                                                                                                            | Diagnosis | ICD-9-CM  |
| 196.6 | Secondary and unspecified malignant neoplasm of intrapelvic lymph nodes                                                                                                                                                  | Diagnosis | ICD-9-CM  |
| 196.8 | Secondary and unspecified malignant neoplasm of lymph nodes of multiple sites                                                                                                                                            | Diagnosis | ICD-9-CM  |
| 196.9 | Secondary and unspecified malignant neoplasm of lymph nodes, site unspecified                                                                                                                                            | Diagnosis | ICD-9-CM  |
| 197   | Secondary malignant neoplasm of respiratory and digestive systems                                                                                                                                                        | Diagnosis | ICD-9-CM  |
| 197.0 | Secondary malignant neoplasm of lung                                                                                                                                                                                     | Diagnosis | ICD-9-CM  |
| 197.1 | Secondary malignant neoplasm of mediastinum                                                                                                                                                                              | Diagnosis | ICD-9-CM  |
| 197.2 | Secondary malignant neoplasm of pleura                                                                                                                                                                                   | Diagnosis | ICD-9-CM  |
| 197.3 | Secondary malignant neoplasm of other respiratory organs                                                                                                                                                                 | Diagnosis | ICD-9-CM  |
| 197.4 | Secondary malignant neoplasm of small intestine including duodenum                                                                                                                                                       | Diagnosis | ICD-9-CM  |
| 197.5 | Secondary malignant neoplasm of large intestine and rectum                                                                                                                                                               | Diagnosis | ICD-9-CM  |
| 197.6 | Secondary malignant neoplasm of retroperitoneum and peritoneum                                                                                                                                                           | Diagnosis | ICD-9-CM  |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                                                | Code      |           |
|--------|--------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                            | Category  | Code Type |
| 197.7  | Secondary malignant neoplasm of liver                                                      | Diagnosis | ICD-9-CM  |
| 197.8  | Secondary malignant neoplasm of other digestive organs and spleen                          | Diagnosis | ICD-9-CM  |
| 198    | Secondary malignant neoplasm of other specified sites                                      | Diagnosis | ICD-9-CM  |
| 198.1  | Secondary malignant neoplasm of other urinary organs                                       | Diagnosis | ICD-9-CM  |
| 198.2  | Secondary malignant neoplasm of skin                                                       | Diagnosis | ICD-9-CM  |
| 198.3  | Secondary malignant neoplasm of brain and spinal cord                                      | Diagnosis | ICD-9-CM  |
| 198.4  | Secondary malignant neoplasm of other parts of nervous system                              | Diagnosis | ICD-9-CM  |
| 198.5  | Secondary malignant neoplasm of bone and bone marrow                                       | Diagnosis | ICD-9-CM  |
| 198.6  | Secondary malignant neoplasm of ovary                                                      | Diagnosis | ICD-9-CM  |
| 198.7  | Secondary malignant neoplasm of adrenal gland                                              | Diagnosis | ICD-9-CM  |
| 198.8  | Secondary malignant neoplasm of other specified sites                                      | Diagnosis | ICD-9-CM  |
| 198.81 | Secondary malignant neoplasm of breast                                                     | Diagnosis | ICD-9-CM  |
| 198.82 | Secondary malignant neoplasm of genital organs                                             | Diagnosis | ICD-9-CM  |
| 198.89 | Secondary malignant neoplasm of other specified sites                                      | Diagnosis | ICD-9-CM  |
| 199    | Malignant neoplasm without specification of site                                           | Diagnosis | ICD-9-CM  |
| 199.0  | Disseminated malignant neoplasm                                                            | Diagnosis | ICD-9-CM  |
| 199.1  | Other malignant neoplasm of unspecified site                                               | Diagnosis | ICD-9-CM  |
| 199.2  | Malignant neoplasm associated with transplanted organ                                      | Diagnosis | ICD-9-CM  |
| 200    | Lymphosarcoma and reticulosarcoma and other specified malignant tumors of lymphatic tissue | Diagnosis | ICD-9-CM  |
| 200.0  | Reticulosarcoma                                                                            | Diagnosis | ICD-9-CM  |
| 200.00 | Reticulosarcoma, unspecified site, extranodal and solid organ sites                        | Diagnosis | ICD-9-CM  |
| 200.01 | Reticulosarcoma of lymph nodes of head, face, and neck                                     | Diagnosis | ICD-9-CM  |
| 200.02 | Reticulosarcoma of intrathoracic lymph nodes                                               | Diagnosis | ICD-9-CM  |
| 200.03 | Reticulosarcoma of intra-abdominal lymph nodes                                             | Diagnosis | ICD-9-CM  |
| 200.04 | Reticulosarcoma of lymph nodes of axilla and upper limb                                    | Diagnosis | ICD-9-CM  |
| 200.05 | Reticulosarcoma of lymph nodes of inguinal region and lower limb                           | Diagnosis | ICD-9-CM  |
| 200.06 | Reticulosarcoma of intrapelvic lymph nodes                                                 | Diagnosis | ICD-9-CM  |
| 200.07 | Reticulosarcoma of spleen                                                                  | Diagnosis | ICD-9-CM  |
| 200.08 | Reticulosarcoma of lymph nodes of multiple sites                                           | Diagnosis | ICD-9-CM  |
| 200.1  | Lymphosarcoma                                                                              | Diagnosis | ICD-9-CM  |
| 200.10 | Lymphosarcoma, unspecified site, extranodal and solid organ sites                          | Diagnosis | ICD-9-CM  |
| 200.11 | Lymphosarcoma of lymph nodes of head, face, and neck                                       | Diagnosis | ICD-9-CM  |
| 200.12 | Lymphosarcoma of intrathoracic lymph nodes                                                 | Diagnosis | ICD-9-CM  |
| 200.13 | Lymphosarcoma of intra-abdominal lymph nodes                                               | Diagnosis | ICD-9-CM  |
| 200.14 | Lymphosarcoma of lymph nodes of axilla and upper limb                                      | Diagnosis | ICD-9-CM  |
| 200.15 | Lymphosarcoma of lymph nodes of inguinal region and lower limb                             | Diagnosis | ICD-9-CM  |
| 200.16 | Lymphosarcoma of intrapelvic lymph nodes                                                   | Diagnosis | ICD-9-CM  |
| 200.17 | Lymphosarcoma of spleen                                                                    | Diagnosis | ICD-9-CM  |
| 200.18 | Lymphosarcoma of lymph nodes of multiple sites                                             | Diagnosis | ICD-9-CM  |
| 200.2  | Burkitt's tumor or lymphoma                                                                | Diagnosis | ICD-9-CM  |
| 200.20 | Burkitt's tumor or lymphoma, unspecified site, extranodal and solid organ sites            | Diagnosis | ICD-9-CM  |
| 200.21 | Burkitt's tumor or lymphoma of lymph nodes of head, face, and neck                         | Diagnosis | ICD-9-CM  |

| Code   | Description                                                                                 | Code      |           |
|--------|---------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                             | Category  | Code Type |
| 200.22 | Burkitt's tumor or lymphoma of intrathoracic lymph nodes                                    | Diagnosis | ICD-9-CM  |
| 200.23 | Burkitt's tumor or lymphoma of intra-abdominal lymph nodes                                  | Diagnosis | ICD-9-CM  |
| 200.24 | Burkitt's tumor or lymphoma of lymph nodes of axilla and upper limb                         | Diagnosis | ICD-9-CM  |
| 200.25 | Burkitt's tumor or lymphoma of lymph nodes of inguinal region and lower limb                | Diagnosis | ICD-9-CM  |
| 200.26 | Burkitt's tumor or lymphoma of intrapelvic lymph nodes                                      | Diagnosis | ICD-9-CM  |
| 200.27 | Burkitt's tumor or lymphoma of spleen                                                       | Diagnosis | ICD-9-CM  |
| 200.28 | Burkitt's tumor or lymphoma of lymph nodes of multiple sites                                | Diagnosis | ICD-9-CM  |
| 200.3  | Marginal zone lymphoma                                                                      | Diagnosis | ICD-9-CM  |
| 200.30 | Marginal zone lymphoma, unspecified site, extranodal and solid organ sites                  | Diagnosis | ICD-9-CM  |
| 200.31 | Marginal zone lymphoma, lymph nodes of head, face, and neck                                 | Diagnosis | ICD-9-CM  |
| 200.32 | Marginal zone lymphoma, intrathoracic lymph nodes                                           | Diagnosis | ICD-9-CM  |
| 200.33 | Marginal zone lymphoma, intra-abdominal lymph nodes                                         | Diagnosis | ICD-9-CM  |
| 200.34 | Marginal zone lymphoma, lymph nodes of axilla and upper limb                                | Diagnosis | ICD-9-CM  |
| 200.35 | Marginal zone lymphoma, lymph nodes of inguinal region and lower limb                       | Diagnosis | ICD-9-CM  |
| 200.36 | Marginal zone lymphoma, intrapelvic lymph nodes                                             | Diagnosis | ICD-9-CM  |
| 200.37 | Marginal zone lymphoma, spleen                                                              | Diagnosis | ICD-9-CM  |
| 200.38 | Marginal zone lymphoma, lymph nodes of multiple sites                                       | Diagnosis | ICD-9-CM  |
| 200.4  | Mantle cell lymphoma                                                                        | Diagnosis | ICD-9-CM  |
| 200.40 | Mantle cell lymphoma, unspecified site, extranodal and solid organ sites                    | Diagnosis | ICD-9-CM  |
| 200.41 | Mantle cell lymphoma, lymph nodes of head, face, and neck                                   | Diagnosis | ICD-9-CM  |
| 200.42 | Mantle cell lymphoma, intrathoracic lymph nodes                                             | Diagnosis | ICD-9-CM  |
| 200.43 | Mantle cell lymphoma, intra-abdominal lymph nodes                                           | Diagnosis | ICD-9-CM  |
| 200.44 | Mantle cell lymphoma, lymph nodes of axilla and upper limb                                  | Diagnosis | ICD-9-CM  |
| 200.45 | Mantle cell lymphoma, lymph nodes of inguinal region and lower limb                         | Diagnosis | ICD-9-CM  |
| 200.46 | Mantle cell lymphoma, intrapelvic lymph nodes                                               | Diagnosis | ICD-9-CM  |
| 200.47 | Mantle cell lymphoma, spleen                                                                | Diagnosis | ICD-9-CM  |
| 200.48 | Mantle cell lymphoma, lymph nodes of multiple sites                                         | Diagnosis | ICD-9-CM  |
| 200.5  | Primary central nervous system lymphoma                                                     | Diagnosis | ICD-9-CM  |
| 200.50 | Primary central nervous system lymphoma, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |
| 200.51 | Primary central nervous system lymphoma, lymph nodes of head, face, and neck                | Diagnosis | ICD-9-CM  |
| 200.52 | Primary central nervous system lymphoma, intrathoracic lymph nodes                          | Diagnosis | ICD-9-CM  |
| 200.53 | Primary central nervous system lymphoma, intra-abdominal lymph nodes                        | Diagnosis | ICD-9-CM  |
| 200.54 | Primary central nervous system lymphoma, lymph nodes of axilla and upper limb               | Diagnosis | ICD-9-CM  |
| 200.55 | Primary central nervous system lymphoma, lymph nodes of inguinal region and lower limb      | Diagnosis | ICD-9-CM  |
| 200.56 | Primary central nervous system lymphoma, intrapelvic lymph nodes                            | Diagnosis | ICD-9-CM  |
| 200.57 | Primary central nervous system lymphoma, spleen                                             | Diagnosis | ICD-9-CM  |
| 200.58 | Primary central nervous system lymphoma, lymph nodes of multiple sites                      | Diagnosis | ICD-9-CM  |
| 200.6  | Anaplastic large cell lymphoma                                                              | Diagnosis | ICD-9-CM  |
| 200.60 | Anaplastic large cell lymphoma, unspecified site, extranodal and solid organ sites          | Diagnosis | ICD-9-CM  |
| 200.61 | Anaplastic large cell lymphoma, lymph nodes of head, face, and neck                         | Diagnosis | ICD-9-CM  |
| 200.62 | Anaplastic large cell lymphoma, intrathoracic lymph nodes                                   | Diagnosis | ICD-9-CM  |

| Code   | Description                                                                                                | Code      |           |
|--------|------------------------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                                            | Category  | Code Type |
| 200.63 | Anaplastic large cell lymphoma, intra-abdominal lymph nodes                                                | Diagnosis | ICD-9-CM  |
| 200.64 | Anaplastic large cell lymphoma, lymph nodes of axilla and upper limb                                       | Diagnosis | ICD-9-CM  |
| 200.65 | Anaplastic large cell lymphoma, lymph nodes of inguinal region and lower limb                              | Diagnosis | ICD-9-CM  |
| 200.66 | Anaplastic large cell lymphoma, intrapelvic lymph nodes                                                    | Diagnosis | ICD-9-CM  |
| 200.67 | Anaplastic large cell lymphoma, spleen                                                                     | Diagnosis | ICD-9-CM  |
| 200.68 | Anaplastic large cell lymphoma, lymph nodes of multiple sites                                              | Diagnosis | ICD-9-CM  |
| 200.7  | Large cell lymphoma                                                                                        | Diagnosis | ICD-9-CM  |
| 200.70 | Large cell lymphoma, unspecified site, extranodal and solid organ sites                                    | Diagnosis | ICD-9-CM  |
| 200.71 | Large cell lymphoma, lymph nodes of head, face, and neck                                                   | Diagnosis | ICD-9-CM  |
| 200.72 | Large cell lymphoma, intrathoracic lymph nodes                                                             | Diagnosis | ICD-9-CM  |
| 200.73 | Large cell lymphoma, intra-abdominal lymph nodes                                                           | Diagnosis | ICD-9-CM  |
| 200.74 | Large cell lymphoma, lymph nodes of axilla and upper limb                                                  | Diagnosis | ICD-9-CM  |
| 200.75 | Large cell lymphoma, lymph nodes of inguinal region and lower limb                                         | Diagnosis | ICD-9-CM  |
| 200.76 | Large cell lymphoma, intrapelvic lymph nodes                                                               | Diagnosis | ICD-9-CM  |
| 200.77 | Large cell lymphoma, spleen                                                                                | Diagnosis | ICD-9-CM  |
| 200.78 | Large cell lymphoma, lymph nodes of multiple sites                                                         | Diagnosis | ICD-9-CM  |
| 200.8  | Other named variants of lymphosarcoma and reticulosarcoma                                                  | Diagnosis | ICD-9-CM  |
| 200.80 | Other named variants, unspecified site, extranodal and solid organ sites                                   | Diagnosis | ICD-9-CM  |
| 200.81 | Other named variants of lymphosarcoma and reticulosarcoma of lymph nodes of head, face, and neck           | Diagnosis | ICD-9-CM  |
| 200.82 | Other named variants of lymphosarcoma and reticulosarcoma of intrathoracic lymph nodes                     | Diagnosis | ICD-9-CM  |
| 200.83 | Other named variants of lymphosarcoma and reticulosarcoma of intra-abdominal lymph nodes                   | Diagnosis | ICD-9-CM  |
| 200.84 | Other named variants of lymphosarcoma and reticulosarcoma of lymph nodes of axilla and upper limb          | Diagnosis | ICD-9-CM  |
| 200.85 | Other named variants of lymphosarcoma and reticulosarcoma of lymph nodes of inguinal region and lower limb | Diagnosis | ICD-9-CM  |
| 200.86 | Other named variants of lymphosarcoma and reticulosarcoma of intrapelvic lymph nodes                       | Diagnosis | ICD-9-CM  |
| 200.87 | Other named variants of lymphosarcoma and reticulosarcoma of spleen                                        | Diagnosis | ICD-9-CM  |
| 200.88 | Other named variants of lymphosarcoma and reticulosarcoma of lymph nodes of multiple sites                 | Diagnosis | ICD-9-CM  |
| 201    | Hodgkin's disease                                                                                          | Diagnosis | ICD-9-CM  |
| 201.0  | Hodgkin's paraganuloma                                                                                     | Diagnosis | ICD-9-CM  |
| 201.00 | Hodgkin's paraganuloma, unspecified site, extranodal and solid organ sites                                 | Diagnosis | ICD-9-CM  |
| 201.01 | Hodgkin's paraganuloma of lymph nodes of head, face, and neck                                              | Diagnosis | ICD-9-CM  |
| 201.02 | Hodgkin's paraganuloma of intrathoracic lymph nodes                                                        | Diagnosis | ICD-9-CM  |
| 201.03 | Hodgkin's paraganuloma of intra-abdominal lymph nodes                                                      | Diagnosis | ICD-9-CM  |
| 201.04 | Hodgkin's paraganuloma of lymph nodes of axilla and upper limb                                             | Diagnosis | ICD-9-CM  |
| 201.05 | Hodgkin's paraganuloma of lymph nodes of inguinal region and lower limb                                    | Diagnosis | ICD-9-CM  |
| 201.06 | Hodgkin's paraganuloma of intrapelvic lymph nodes                                                          | Diagnosis | ICD-9-CM  |
| 201.07 | Hodgkin's paraganuloma of spleen                                                                           | Diagnosis | ICD-9-CM  |

|        |                                                                                                             | Category  | Code Type |
| 201.08 | Hodgkin's paraganuloma of lymph nodes of multiple sites                                                     | Diagnosis | ICD-9-CM  |
| 201.1  | Hodgkin's granuloma                                                                                         | Diagnosis | ICD-9-CM  |
| 201.10 | Hodgkin's granuloma, unspecified site, extranodal and solid organ sites                                     | Diagnosis | ICD-9-CM  |
| 201.11 | Hodgkin's granuloma of lymph nodes of head, face, and neck                                                  | Diagnosis | ICD-9-CM  |
| 201.12 | Hodgkin's granuloma of intrathoracic lymph nodes                                                            | Diagnosis | ICD-9-CM  |
| 201.13 | Hodgkin's granuloma of intra-abdominal lymph nodes                                                          | Diagnosis | ICD-9-CM  |
| 201.14 | Hodgkin's granuloma of lymph nodes of axilla and upper limb                                                 | Diagnosis | ICD-9-CM  |
| 201.15 | Hodgkin's granuloma of lymph nodes of inguinal region and lower limb                                        | Diagnosis | ICD-9-CM  |
| 201.16 | Hodgkin's granuloma of intrapelvic lymph nodes                                                              | Diagnosis | ICD-9-CM  |
| 201.17 | Hodgkin's granuloma of spleen                                                                               | Diagnosis | ICD-9-CM  |
| 201.18 | Hodgkin's granuloma of lymph nodes of multiple sites                                                        | Diagnosis | ICD-9-CM  |
| 201.2  | Hodgkin's sarcoma                                                                                           | Diagnosis | ICD-9-CM  |
| 201.20 | Hodgkin's sarcoma, unspecified site, extranodal and solid organ sites                                       | Diagnosis | ICD-9-CM  |
| 201.21 | Hodgkin's sarcoma of lymph nodes of head, face, and neck                                                    | Diagnosis | ICD-9-CM  |
| 201.22 | Hodgkin's sarcoma of intrathoracic lymph nodes                                                              | Diagnosis | ICD-9-CM  |
| 201.23 | Hodgkin's sarcoma of intra-abdominal lymph nodes                                                            | Diagnosis | ICD-9-CM  |
| 201.24 | Hodgkin's sarcoma of lymph nodes of axilla and upper limb                                                   | Diagnosis | ICD-9-CM  |
| 201.25 | Hodgkin's sarcoma of lymph nodes of inguinal region and lower limb                                          | Diagnosis | ICD-9-CM  |
| 201.26 | Hodgkin's sarcoma of intrapelvic lymph nodes                                                                | Diagnosis | ICD-9-CM  |
| 201.27 | Hodgkin's sarcoma of spleen                                                                                 | Diagnosis | ICD-9-CM  |
| 201.28 | Hodgkin's sarcoma of lymph nodes of multiple sites                                                          | Diagnosis | ICD-9-CM  |
| 201.4  | Hodgkin's disease, lymphocytic-histiocytic predominance                                                     | Diagnosis | ICD-9-CM  |
| 201.40 | Hodgkin's disease, lymphocytic-histiocytic predominance, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |
| 201.41 | Hodgkin's disease, lymphocytic-histiocytic predominance of lymph nodes of head, face, and neck              | Diagnosis | ICD-9-CM  |
| 201.42 | Hodgkin's disease, lymphocytic-histiocytic predominance of intrathoracic lymph nodes                        | Diagnosis | ICD-9-CM  |
| 201.43 | Hodgkin's disease, lymphocytic-histiocytic predominance of intra-abdominal lymph nodes                      | Diagnosis | ICD-9-CM  |
| 201.44 | Hodgkin's disease, lymphocytic-histiocytic predominance of lymph nodes of axilla and upper limb             | Diagnosis | ICD-9-CM  |
| 201.45 | Hodgkin's disease, lymphocytic-histiocytic predominance of lymph nodes of inguinal region and lower limb    | Diagnosis | ICD-9-CM  |
| 201.46 | Hodgkin's disease, lymphocytic-histiocytic predominance of intrapelvic lymph nodes                          | Diagnosis | ICD-9-CM  |
| 201.47 | Hodgkin's disease, lymphocytic-histiocytic predominance of spleen                                           | Diagnosis | ICD-9-CM  |
| 201.48 | Hodgkin's disease, lymphocytic-histiocytic predominance of lymph nodes of multiple sites                    | Diagnosis | ICD-9-CM  |
| 201.5  | Hodgkin's disease, nodular sclerosis                                                                        | Diagnosis | ICD-9-CM  |
| 201.50 | Hodgkin's disease, nodular sclerosis, unspecified site, extranodal and solid organ sites                    | Diagnosis | ICD-9-CM  |
| 201.51 | Hodgkin's disease, nodular sclerosis, of lymph nodes of head, face, and neck                                | Diagnosis | ICD-9-CM  |
| 201.52 | Hodgkin's disease, nodular sclerosis, of intrathoracic lymph nodes                                          | Diagnosis | ICD-9-CM  |
| 201.53 | Hodgkin's disease, nodular sclerosis, of intra-abdominal lymph nodes                                        | Diagnosis | ICD-9-CM  |

| 201.54 | Hodgkin's disease, nodular sclerosis, of lymph nodes of axilla and upper limb                | Diagnosis | ICD-9-CM  |
| 201.55 | Hodgkin's disease, nodular sclerosis, of lymph nodes of inguinal region and lower            | Diagnosis | ICD-9-CM  |
| 201.56 | Hodgkin's disease, nodular sclerosis, of intrapelvic lymph nodes                             | Diagnosis | ICD-9-CM  |
| 201.57 | Hodgkin's disease, nodular sclerosis, of spleen                                              | Diagnosis | ICD-9-CM  |
| 201.58 | Hodgkin's disease, nodular sclerosis, of lymph nodes of multiple sites                       | Diagnosis | ICD-9-CM  |
| 201.6  | Hodgkin's disease, mixed cellularity                                                         | Diagnosis | ICD-9-CM  |
| 201.60 | Hodgkin's disease, mixed cellularity, unspecified site, extranodal and solid organ sites     | Diagnosis | ICD-9-CM  |
| 201.61 | Hodgkin's disease, mixed cellularity, involving lymph nodes of head, face, and neck          | Diagnosis | ICD-9-CM  |
| 201.62 | Hodgkin's disease, mixed cellularity, of intrathoracic lymph nodes                           | Diagnosis | ICD-9-CM  |
| 201.63 | Hodgkin's disease, mixed cellularity, of intra-abdominal lymph nodes                         | Diagnosis | ICD-9-CM  |
| 201.64 | Hodgkin's disease, mixed cellularity, of lymph nodes of axilla and upper limb                | Diagnosis | ICD-9-CM  |
| 201.65 | Hodgkin's disease, mixed cellularity, of lymph nodes of inguinal region and lower limb       | Diagnosis | ICD-9-CM  |
| 201.66 | Hodgkin's disease, mixed cellularity, of intrapelvic lymph nodes                             | Diagnosis | ICD-9-CM  |
| 201.67 | Hodgkin's disease, mixed cellularity, of spleen                                              | Diagnosis | ICD-9-CM  |
| 201.68 | Hodgkin's disease, mixed cellularity, of lymph nodes of multiple sites                       | Diagnosis | ICD-9-CM  |
| 201.7  | Hodgkin's disease, lymphocytic depletion                                                     | Diagnosis | ICD-9-CM  |
| 201.70 | Hodgkin's disease, lymphocytic depletion, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |
| 201.71 | Hodgkin's disease, lymphocytic depletion, of lymph nodes of head, face, and neck             | Diagnosis | ICD-9-CM  |
| 201.72 | Hodgkin's disease, lymphocytic depletion, of intrathoracic lymph nodes                       | Diagnosis | ICD-9-CM  |
| 201.73 | Hodgkin's disease, lymphocytic depletion, of intra-abdominal lymph nodes                     | Diagnosis | ICD-9-CM  |
| 201.74 | Hodgkin's disease, lymphocytic depletion, of lymph nodes of axilla and upper limb            | Diagnosis | ICD-9-CM  |
| 201.75 | Hodgkin's disease, lymphocytic depletion, of lymph nodes of inguinal region and lower limb   | Diagnosis | ICD-9-CM  |
| 201.76 | Hodgkin's disease, lymphocytic depletion, of intrapelvic lymph nodes                         | Diagnosis | ICD-9-CM  |
| 201.77 | Hodgkin's disease, lymphocytic depletion, of spleen                                          | Diagnosis | ICD-9-CM  |
| 201.78 | Hodgkin's disease, lymphocytic depletion, of lymph nodes of multiple sites                   | Diagnosis | ICD-9-CM  |
| 201.9  | Hodgkin's disease, unspecified type                                                          | Diagnosis | ICD-9-CM  |
| 201.90 | Hodgkin's disease, unspecified type, unspecified site, extranodal and solid organ sites      | Diagnosis | ICD-9-CM  |
| 201.91 | Hodgkin's disease, unspecified type, of lymph nodes of head, face, and neck                  | Diagnosis | ICD-9-CM  |
| 201.92 | Hodgkin's disease, unspecified type, of intrathoracic lymph nodes                            | Diagnosis | ICD-9-CM  |
| 201.93 | Hodgkin's disease, unspecified type, of intra-abdominal lymph nodes                          | Diagnosis | ICD-9-CM  |
| 201.94 | Hodgkin's disease, unspecified type, of lymph nodes of axilla and upper limb                 | Diagnosis | ICD-9-CM  |
| 201.95 | Hodgkin's disease, unspecified type, of lymph nodes of inguinal region and lower limb        | Diagnosis | ICD-9-CM  |
| 201.96 | Hodgkin's disease, unspecified type, of intrapelvic lymph nodes                              | Diagnosis | ICD-9-CM  |
| 201.97 | Hodgkin's disease, unspecified type, of spleen                                               | Diagnosis | ICD-9-CM  |
| 201.98 | Hodgkin's disease, unspecified type, of lymph nodes of multiple sites                        | Diagnosis | ICD-9-CM  |
| 202    | Other malignant neoplasms of lymphoid and histiocytic tissue                                 | Diagnosis | ICD-9-CM  |
| 202.0  | Nodular lymphoma                                                                             | Diagnosis | ICD-9-CM  |
| 202.00 | Nodular lymphoma, unspecified site, extranodal and solid organ sites                         | Diagnosis | ICD-9-CM  |
| 202.01 | Nodular lymphoma of lymph nodes of head, face, and neck                                      | Diagnosis | ICD-9-CM  |
| 202.02 | Nodular lymphoma of intrathoracic lymph nodes                                                | Diagnosis | ICD-9-CM  |
| 202.03 | Nodular lymphoma of intra-abdominal lymph nodes                                              | Diagnosis | ICD-9-CM  |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                                        | Code      |           |
|--------|------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                    | Category  | Code Type |
| 202.04 | Nodular lymphoma of lymph nodes of axilla and upper limb                           | Diagnosis | ICD-9-CM  |
| 202.05 | Nodular lymphoma of lymph nodes of inguinal region and lower limb                  | Diagnosis | ICD-9-CM  |
| 202.06 | Nodular lymphoma of intrapelvic lymph nodes                                        | Diagnosis | ICD-9-CM  |
| 202.07 | Nodular lymphoma of spleen                                                         | Diagnosis | ICD-9-CM  |
| 202.08 | Nodular lymphoma of lymph nodes of multiple sites                                  | Diagnosis | ICD-9-CM  |
| 202.1  | Mycosis fungoides                                                                  | Diagnosis | ICD-9-CM  |
| 202.10 | Mycosis fungoides, unspecified site, extranodal and solid organ sites              | Diagnosis | ICD-9-CM  |
| 202.11 | Mycosis fungoides of lymph nodes of head, face, and neck                           | Diagnosis | ICD-9-CM  |
| 202.12 | Mycosis fungoides of intrathoracic lymph nodes                                     | Diagnosis | ICD-9-CM  |
| 202.13 | Mycosis fungoides of intra-abdominal lymph nodes                                   | Diagnosis | ICD-9-CM  |
| 202.14 | Mycosis fungoides of lymph nodes of axilla and upper limb                          | Diagnosis | ICD-9-CM  |
| 202.15 | Mycosis fungoides of lymph nodes of inguinal region and lower limb                 | Diagnosis | ICD-9-CM  |
| 202.16 | Mycosis fungoides of intrapelvic lymph nodes                                       | Diagnosis | ICD-9-CM  |
| 202.17 | Mycosis fungoides of spleen                                                        | Diagnosis | ICD-9-CM  |
| 202.18 | Mycosis fungoides of lymph nodes of multiple sites                                 | Diagnosis | ICD-9-CM  |
| 202.2  | Sezary's disease                                                                   | Diagnosis | ICD-9-CM  |
| 202.20 | Sezary's disease, unspecified site, extranodal and solid organ sites               | Diagnosis | ICD-9-CM  |
| 202.21 | Sezary's disease of lymph nodes of head, face, and neck                            | Diagnosis | ICD-9-CM  |
| 202.22 | Sezary's disease of intrathoracic lymph nodes                                      | Diagnosis | ICD-9-CM  |
| 202.23 | Sezary's disease of intra-abdominal lymph nodes                                    | Diagnosis | ICD-9-CM  |
| 202.24 | Sezary's disease of lymph nodes of axilla and upper limb                           | Diagnosis | ICD-9-CM  |
| 202.25 | Sezary's disease of lymph nodes of inguinal region and lower limb                  | Diagnosis | ICD-9-CM  |
| 202.26 | Sezary's disease of intrapelvic lymph nodes                                        | Diagnosis | ICD-9-CM  |
| 202.27 | Sezary's disease of spleen                                                         | Diagnosis | ICD-9-CM  |
| 202.28 | Sezary's disease of lymph nodes of multiple sites                                  | Diagnosis | ICD-9-CM  |
| 202.3  | Malignant histiocytosis                                                            | Diagnosis | ICD-9-CM  |
| 202.30 | Malignant histiocytosis, unspecified site, extranodal and solid organ sites        | Diagnosis | ICD-9-CM  |
| 202.31 | Malignant histiocytosis of lymph nodes of head, face, and neck                     | Diagnosis | ICD-9-CM  |
| 202.32 | Malignant histiocytosis of intrathoracic lymph nodes                               | Diagnosis | ICD-9-CM  |
| 202.33 | Malignant histiocytosis of intra-abdominal lymph nodes                             | Diagnosis | ICD-9-CM  |
| 202.34 | Malignant histiocytosis of lymph nodes of axilla and upper limb                    | Diagnosis | ICD-9-CM  |
| 202.35 | Malignant histiocytosis of lymph nodes of inguinal region and lower limb           | Diagnosis | ICD-9-CM  |
| 202.36 | Malignant histiocytosis of intrapelvic lymph nodes                                 | Diagnosis | ICD-9-CM  |
| 202.37 | Malignant histiocytosis of spleen                                                  | Diagnosis | ICD-9-CM  |
| 202.38 | Malignant histiocytosis of lymph nodes of multiple sites                           | Diagnosis | ICD-9-CM  |
| 202.4  | Leukemic reticuloendotheliosis                                                     | Diagnosis | ICD-9-CM  |
| 202.40 | Leukemic reticuloendotheliosis, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |
| 202.41 | Leukemic reticuloendotheliosis of lymph nodes of head, face, and neck              | Diagnosis | ICD-9-CM  |
| 202.42 | Leukemic reticuloendotheliosis of intrathoracic lymph nodes                        | Diagnosis | ICD-9-CM  |
| 202.43 | Leukemic reticuloendotheliosis of intra-abdominal lymph nodes                      | Diagnosis | ICD-9-CM  |
| 202.44 | Leukemic reticuloendotheliosis of lymph nodes of axilla and upper limb             | Diagnosis | ICD-9-CM  |
| 202.45 | Leukemic reticuloendotheliosis of lymph nodes of inguinal region and lower limb    | Diagnosis | ICD-9-CM  |
| 202.46 | Leukemic reticuloendotheliosis of intrapelvic lymph nodes                          | Diagnosis | ICD-9-CM  |

List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                                    | Code      |           |
|--------|--------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                | Category  | Code Type |
| 202.47 | Leukemic reticuloendotheliosis of spleen                                       | Diagnosis | ICD-9-CM  |
| 202.48 | Leukemic reticuloendotheliosis of lymph nodes of multiple sites                | Diagnosis | ICD-9-CM  |
| 202.5  | Letterer-Siwe disease                                                          | Diagnosis | ICD-9-CM  |
| 202.50 | Letterer-Siwe disease, unspecified site, extranodal and solid organ sites      | Diagnosis | ICD-9-CM  |
| 202.51 | Letterer-Siwe disease of lymph nodes of head, face, and neck                   | Diagnosis | ICD-9-CM  |
| 202.52 | Letterer-Siwe disease of intrathoracic lymph nodes                             | Diagnosis | ICD-9-CM  |
| 202.53 | Letterer-Siwe disease of intra-abdominal lymph nodes                           | Diagnosis | ICD-9-CM  |
| 202.54 | Letterer-Siwe disease of lymph nodes of axilla and upper limb                  | Diagnosis | ICD-9-CM  |
| 202.55 | Letterer-Siwe disease of lymph nodes of inguinal region and lower limb         | Diagnosis | ICD-9-CM  |
| 202.56 | Letterer-Siwe disease of intrapelvic lymph nodes                               | Diagnosis | ICD-9-CM  |
| 202.57 | Letterer-Siwe disease of spleen                                                | Diagnosis | ICD-9-CM  |
| 202.58 | Letterer-Siwe disease of lymph nodes of multiple sites                         | Diagnosis | ICD-9-CM  |
| 202.6  | Malignant mast cell tumors                                                     | Diagnosis | ICD-9-CM  |
| 202.60 | Malignant mast cell tumors, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |
| 202.61 | Malignant mast cell tumors of lymph nodes of head, face, and neck              | Diagnosis | ICD-9-CM  |
| 202.62 | Malignant mast cell tumors of intrathoracic lymph nodes                        | Diagnosis | ICD-9-CM  |
| 202.63 | Malignant mast cell tumors of intra-abdominal lymph nodes                      | Diagnosis | ICD-9-CM  |
| 202.64 | Malignant mast cell tumors of lymph nodes of axilla and upper limb             | Diagnosis | ICD-9-CM  |
| 202.65 | Malignant mast cell tumors of lymph nodes of inguinal region and lower limb    | Diagnosis | ICD-9-CM  |
| 202.66 | Malignant mast cell tumors of intrapelvic lymph nodes                          | Diagnosis | ICD-9-CM  |
| 202.67 | Malignant mast cell tumors of spleen                                           | Diagnosis | ICD-9-CM  |
| 202.68 | Malignant mast cell tumors of lymph nodes of multiple sites                    | Diagnosis | ICD-9-CM  |
| 202.7  | Peripheral T-cell lymphoma                                                     | Diagnosis | ICD-9-CM  |
| 202.70 | Peripheral T-cell lymphoma, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |
| 202.71 | Peripheral T-cell lymphoma, lymph nodes of head, face, and neck                | Diagnosis | ICD-9-CM  |
| 202.72 | Peripheral T-cell lymphoma, intrathoracic lymph nodes                          | Diagnosis | ICD-9-CM  |
| 202.73 | Peripheral T-cell lymphoma, intra-abdominal lymph nodes                        | Diagnosis | ICD-9-CM  |
| 202.74 | Peripheral T-cell lymphoma, lymph nodes of axilla and upper limb               | Diagnosis | ICD-9-CM  |
| 202.75 | Peripheral T-cell lymphoma, lymph nodes of inguinal region and lower limb      | Diagnosis | ICD-9-CM  |
| 202.76 | Peripheral T-cell lymphoma, intrapelvic lymph nodes                            | Diagnosis | ICD-9-CM  |
| 202.77 | Peripheral T-cell lymphoma, spleen                                             | Diagnosis | ICD-9-CM  |
| 202.78 | Peripheral T-cell lymphoma, lymph nodes of multiple sites                      | Diagnosis | ICD-9-CM  |
| 202.8  | Other malignant lymphomas                                                      | Diagnosis | ICD-9-CM  |
| 202.80 | Other malignant lymphomas, unspecified site, extranodal and solid organ sites  | Diagnosis | ICD-9-CM  |
| 202.81 | Other malignant lymphomas of lymph nodes of head, face, and neck               | Diagnosis | ICD-9-CM  |
| 202.82 | Other malignant lymphomas of intrathoracic lymph nodes                         | Diagnosis | ICD-9-CM  |
| 202.83 | Other malignant lymphomas of intra-abdominal lymph nodes                       | Diagnosis | ICD-9-CM  |
| 202.84 | Other malignant lymphomas of lymph nodes of axilla and upper limb              | Diagnosis | ICD-9-CM  |
| 202.85 | Other malignant lymphomas of lymph nodes of inguinal region and lower limb     | Diagnosis | ICD-9-CM  |
| 202.86 | Other malignant lymphomas of intrapelvic lymph nodes                           | Diagnosis | ICD-9-CM  |
| 202.87 | Other malignant lymphomas of spleen                                            | Diagnosis | ICD-9-CM  |
| 202.88 | Other malignant lymphomas of lymph nodes of multiple sites                     | Diagnosis | ICD-9-CM  |
| 202.9  | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue   | Diagnosis | ICD-9-CM  |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                                                                                      | Code      |           |
|--------|----------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                                                                  | Category  | Code Type |
| 202.90 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |
| 202.91 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of lymph nodes of head, face, and neck              | Diagnosis | ICD-9-CM  |
| 202.92 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of intrathoracic lymph nodes                        | Diagnosis | ICD-9-CM  |
| 202.93 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of intra-abdominal lymph nodes                      | Diagnosis | ICD-9-CM  |
| 202.94 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of lymph nodes of axilla and upper limb             | Diagnosis | ICD-9-CM  |
| 202.95 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of lymph nodes of inguinal region and lower limb    | Diagnosis | ICD-9-CM  |
| 202.96 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of intrapelvic lymph nodes                          | Diagnosis | ICD-9-CM  |
| 202.97 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of spleen                                           | Diagnosis | ICD-9-CM  |
| 202.98 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of lymph nodes of multiple sites                    | Diagnosis | ICD-9-CM  |
| 203    | Multiple myeloma and immunoproliferative neoplasms                                                                               | Diagnosis | ICD-9-CM  |
| 203.0  | Multiple myeloma                                                                                                                 | Diagnosis | ICD-9-CM  |
| 203.00 | Multiple myeloma, without mention of having achieved remission                                                                   | Diagnosis | ICD-9-CM  |
| 203.01 | Multiple myeloma in remission                                                                                                    | Diagnosis | ICD-9-CM  |
| 203.02 | Multiple myeloma, in relapse                                                                                                     | Diagnosis | ICD-9-CM  |
| 203.1  | Plasma cell leukemia                                                                                                             | Diagnosis | ICD-9-CM  |
| 203.10 | Plasma cell leukemia, without mention of having achieved remission                                                               | Diagnosis | ICD-9-CM  |
| 203.11 | Plasma cell leukemia in remission                                                                                                | Diagnosis | ICD-9-CM  |
| 203.12 | Plasma cell leukemia, in relapse                                                                                                 | Diagnosis | ICD-9-CM  |
| 203.8  | Other immunoproliferative neoplasms                                                                                              | Diagnosis | ICD-9-CM  |
| 203.80 | Other immunoproliferative neoplasms, without mention of having achieved                                                          | Diagnosis | ICD-9-CM  |
| 203.81 | Other immunoproliferative neoplasms in remission                                                                                 | Diagnosis | ICD-9-CM  |
| 203.82 | Other immunoproliferative neoplasms, in relapse                                                                                  | Diagnosis | ICD-9-CM  |
| 204    | Lymphoid leukemia                                                                                                                | Diagnosis | ICD-9-CM  |
| 204.0  | Acute lymphoid leukemia                                                                                                          | Diagnosis | ICD-9-CM  |
| 204.00 | Acute lymphoid leukemia, without mention of having achieved remission                                                            | Diagnosis | ICD-9-CM  |
| 204.01 | Acute lymphoid leukemia in remission                                                                                             | Diagnosis | ICD-9-CM  |
| 204.02 | Acute lymphoid leukemia, in relapse                                                                                              | Diagnosis | ICD-9-CM  |
| 204.1  | Chronic lymphoid leukemia                                                                                                        | Diagnosis | ICD-9-CM  |
| 204.10 | Chronic lymphoid leukemia, without mention of having achieved remission                                                          | Diagnosis | ICD-9-CM  |
| 204.11 | Chronic lymphoid leukemia in remission                                                                                           | Diagnosis | ICD-9-CM  |
| 204.12 | Chronic lymphoid leukemia, in relapse                                                                                            | Diagnosis | ICD-9-CM  |
| 204.2  | Subacute lymphoid leukemia                                                                                                       | Diagnosis | ICD-9-CM  |
| 204.20 | Subacute lymphoid leukemia, without mention of having achieved remission                                                         | Diagnosis | ICD-9-CM  |
| 204.21 | Subacute lymphoid leukemia in remission                                                                                          | Diagnosis | ICD-9-CM  |

| 206.90 | Unspecified monocytic leukemia, without mention of having achieved remission            | Diagnosis | ICD-9-CM  |
| 206.91 | Unspecified monocytic leukemia in remission                                             | Diagnosis | ICD-9-CM  |
| 206.92 | Unspecified monocytic leukemia, in relapse                                              | Diagnosis | ICD-9-CM  |
| 207    | Other specified leukemia                                                                | Diagnosis | ICD-9-CM  |
| 207.0  | Acute erythremia and erythroleukemia                                                    | Diagnosis | ICD-9-CM  |
| 207.00 | Acute erythremia and erythroleukemia, without mention of having achieved remission      | Diagnosis | ICD-9-CM  |
| 207.01 | Acute erythremia and erythroleukemia in remission                                       | Diagnosis | ICD-9-CM  |
| 207.02 | Acute erythremia and erythroleukemia, in relapse                                        | Diagnosis | ICD-9-CM  |
| 207.1  | Chronic erythremia                                                                      | Diagnosis | ICD-9-CM  |
| 207.10 | Chronic erythremia, without mention of having achieved remission                        | Diagnosis | ICD-9-CM  |
| 207.11 | Chronic erythremia in remission                                                         | Diagnosis | ICD-9-CM  |
| 207.12 | Chronic erythremia, in relapse                                                          | Diagnosis | ICD-9-CM  |
| 207.2  | Megakaryocytic leukemia                                                                 | Diagnosis | ICD-9-CM  |
| 207.20 | Megakaryocytic leukemia, without mention of having achieved remission                   | Diagnosis | ICD-9-CM  |
| 207.21 | Megakaryocytic leukemia in remission                                                    | Diagnosis | ICD-9-CM  |
| 207.22 | Megakaryocytic leukemia, in relapse                                                     | Diagnosis | ICD-9-CM  |
| 207.8  | Other specified leukemia                                                                | Diagnosis | ICD-9-CM  |
| 207.80 | Other specified leukemia, without mention of having achieved remission                  | Diagnosis | ICD-9-CM  |
| 207.81 | Other specified leukemia in remission                                                   | Diagnosis | ICD-9-CM  |
| 207.82 | Other specified leukemia, in relapse                                                    | Diagnosis | ICD-9-CM  |
| 208    | Leukemia of unspecified cell type                                                       | Diagnosis | ICD-9-CM  |
| 208.0  | Acute leukemia of unspecified cell type                                                 | Diagnosis | ICD-9-CM  |
| 208.00 | Acute leukemia of unspecified cell type, without mention of having achieved remission   | Diagnosis | ICD-9-CM  |
| 208.01 | Acute leukemia of unspecified cell type in remission                                    | Diagnosis | ICD-9-CM  |
| 208.02 | Acute leukemia of unspecified cell type, in relapse                                     | Diagnosis | ICD-9-CM  |
| 208.1  | Chronic leukemia of unspecified cell type                                               | Diagnosis | ICD-9-CM  |
| 208.10 | Chronic leukemia of unspecified cell type, without mention of having achieved remission | Diagnosis | ICD-9-CM  |
| 208.11 | Chronic leukemia of unspecified cell type in remission                                  | Diagnosis | ICD-9-CM  |
| 208.12 | Chronic leukemia of unspecified cell type, in relapse                                   | Diagnosis | ICD-9-CM  |
| 208.2  | Subacute leukemia of unspecified cell type                                              | Diagnosis | ICD-9-CM  |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                                              | Code      |           |
|--------|------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                          | Category  | Code Type |
| 208.20 | Subacute leukemia of unspecified cell type, without mention of having achieved remission | Diagnosis | ICD-9-CM  |
| 208.21 | Subacute leukemia of unspecified cell type in remission                                  | Diagnosis | ICD-9-CM  |
| 208.22 | Subacute leukemia of unspecified cell type, in relapse                                   | Diagnosis | ICD-9-CM  |
| 208.8  | Other leukemia of unspecified cell type                                                  | Diagnosis | ICD-9-CM  |
| 208.80 | Other leukemia of unspecified cell type, without mention of having achieved remission    | Diagnosis | ICD-9-CM  |
| 208.81 | Other leukemia of unspecified cell type in remission                                     | Diagnosis | ICD-9-CM  |
| 208.82 | Other leukemia of unspecified cell type, in relapse                                      | Diagnosis | ICD-9-CM  |
| 208.9  | Unspecified leukemia                                                                     | Diagnosis | ICD-9-CM  |
| 208.90 | Unspecified leukemia, without mention of having achieved remission                       | Diagnosis | ICD-9-CM  |
| 208.91 | Unspecified leukemia in remission                                                        | Diagnosis | ICD-9-CM  |
| 208.92 | Unspecified leukemia, in relapse                                                         | Diagnosis | ICD-9-CM  |
| 209    | Neuroendocrine tumors                                                                    | Diagnosis | ICD-9-CM  |
| 209.0  | Malignant carcinoid tumors of the small intestine                                        | Diagnosis | ICD-9-CM  |
| 209.00 | Malignant carcinoid tumor of the small intestine, unspecified portion                    | Diagnosis | ICD-9-CM  |
| 209.01 | Malignant carcinoid tumor of the duodenum                                                | Diagnosis | ICD-9-CM  |
| 209.02 | Malignant carcinoid tumor of the jejunum                                                 | Diagnosis | ICD-9-CM  |
| 209.03 | Malignant carcinoid tumor of the ileum                                                   | Diagnosis | ICD-9-CM  |
| 209.1  | Malignant carcinoid tumors of the appendix, large intestine, and rectum                  | Diagnosis | ICD-9-CM  |
| 209.10 | Malignant carcinoid tumor of the large intestine, unspecified portion                    | Diagnosis | ICD-9-CM  |
| 209.11 | Malignant carcinoid tumor of the appendix                                                | Diagnosis | ICD-9-CM  |
| 209.12 | Malignant carcinoid tumor of the cecum                                                   | Diagnosis | ICD-9-CM  |
| 209.13 | Malignant carcinoid tumor of the ascending colon                                         | Diagnosis | ICD-9-CM  |
| 209.14 | Malignant carcinoid tumor of the transverse colon                                        | Diagnosis | ICD-9-CM  |
| 209.15 | Malignant carcinoid tumor of the descending colon                                        | Diagnosis | ICD-9-CM  |
| 209.16 | Malignant carcinoid tumor of the sigmoid colon                                           | Diagnosis | ICD-9-CM  |
| 209.17 | Malignant carcinoid tumor of the rectum                                                  | Diagnosis | ICD-9-CM  |
| 209.2  | Malignant carcinoid tumors of other and unspecified sites                                | Diagnosis | ICD-9-CM  |
| 209.20 | Malignant carcinoid tumor of unknown primary site                                        | Diagnosis | ICD-9-CM  |
| 209.21 | Malignant carcinoid tumor of the bronchus and lung                                       | Diagnosis | ICD-9-CM  |
| 209.22 | Malignant carcinoid tumor of the thymus                                                  | Diagnosis | ICD-9-CM  |
| 209.23 | Malignant carcinoid tumor of the stomach                                                 | Diagnosis | ICD-9-CM  |
| 209.25 | Malignant carcinoid tumor of foregut, not otherwise specified                            | Diagnosis | ICD-9-CM  |
| 209.26 | Malignant carcinoid tumor of midgut, not otherwise specified                             | Diagnosis | ICD-9-CM  |
| 209.27 | Malignant carcinoid tumor of hindgut, not otherwise specified                            | Diagnosis | ICD-9-CM  |
| 209.29 | Malignant carcinoid tumor of other sites                                                 | Diagnosis | ICD-9-CM  |
| 209.3  | Malignant poorly differentiated neuroendocrine tumors                                    | Diagnosis | ICD-9-CM  |
| 209.30 | Malignant poorly differentiated neuroendocrine carcinoma, any site                       | Diagnosis | ICD-9-CM  |
| 209.7  | Secondary neuroendocrine tumors                                                          | Diagnosis | ICD-9-CM  |
| 209.70 | Secondary neuroendocrine tumor, unspecified site                                         | Diagnosis | ICD-9-CM  |
| 209.71 | Secondary neuroendocrine tumor of distant lymph nodes                                    | Diagnosis | ICD-9-CM  |
| 209.72 | Secondary neuroendocrine tumor of liver                                                  | Diagnosis | ICD-9-CM  |

| Code   | Description                                                                                                                                                                                                                      | Code      |           |
|--------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                                                                                                                                                                  | Category  | Code Type |
| 209.73 | Secondary neuroendocrine tumor of bone                                                                                                                                                                                           | Diagnosis | ICD-9-CM  |
| 209.74 | Secondary neuroendocrine tumor of peritoneum                                                                                                                                                                                     | Diagnosis | ICD-9-CM  |
| 209.79 | Secondary neuroendocrine tumor of other sites                                                                                                                                                                                    | Diagnosis | ICD-9-CM  |
| 20982  | Ablation therapy for reduction or eradication of 1 or more bone tumors (eg, metastasis) including adjacent soft tissue when involved by tumor extension, percutaneous, including imaging guidance when performed; radiofrequency | Procedure | CPT-4     |
| 20983  | Ablation therapy for reduction or eradication of 1 or more bone tumors (eg, metastasis) including adjacent soft tissue when involved by tumor extension, percutaneous, including imaging guidance when performed; cryoablation   | Procedure | CPT-4     |
| 21011  | Excision, tumor, soft tissue of face or scalp, subcutaneous; less than 2 cm                                                                                                                                                      | Procedure | CPT-4     |
| 21012  | Excision, tumor, soft tissue of face or scalp, subcutaneous; 2 cm or greater                                                                                                                                                     | Procedure | CPT-4     |
| 21013  | Excision, tumor, soft tissue of face and scalp, subfascial (eg, subgaleal, intramuscular); less than 2 cm                                                                                                                        | Procedure | CPT-4     |
| 21014  | Excision, tumor, soft tissue of face and scalp, subfascial (eg, subgaleal, intramuscular); 2 cm or greater                                                                                                                       | Procedure | CPT-4     |
| 21015  | Radical resection of tumor (eg, sarcoma), soft tissue of face or scalp; less than 2 cm                                                                                                                                           | Procedure | CPT-4     |
| 21016  | Radical resection of tumor (eg, sarcoma), soft tissue of face or scalp; 2 cm or greater                                                                                                                                          | Procedure | CPT-4     |
| 21034  | Excision of malignant tumor of maxilla or zygoma                                                                                                                                                                                 | Procedure | CPT-4     |
| 21044  | Excision of malignant tumor of mandible;                                                                                                                                                                                         | Procedure | CPT-4     |
| 21045  | Excision of malignant tumor of mandible; radical resection                                                                                                                                                                       | Procedure | CPT-4     |
| 21552  | Excision, tumor, soft tissue of neck or anterior thorax, subcutaneous; 3 cm or greater                                                                                                                                           | Procedure | CPT-4     |
| 21554  | Excision, tumor, soft tissue of neck or anterior thorax, subfascial (eg, intramuscular); 5 cm or greater                                                                                                                         | Procedure | CPT-4     |
| 21555  | Excision, tumor, soft tissue of neck or anterior thorax, subcutaneous; less than 3 cm                                                                                                                                            | Procedure | CPT-4     |
| 21556  | Excision, tumor, soft tissue of neck or anterior thorax, subfascial (eg, intramuscular); less than 5 cm                                                                                                                          | Procedure | CPT-4     |
| 21557  | Radical resection of tumor (eg, sarcoma), soft tissue of neck or anterior thorax; less than 5 cm                                                                                                                                 | Procedure | CPT-4     |
| 21558  | Radical resection of tumor (eg, sarcoma), soft tissue of neck or anterior thorax; 5 cm or greater                                                                                                                                | Procedure | CPT-4     |
| 21601  | Excision of chest wall tumor including rib(s)                                                                                                                                                                                    | Procedure | CPT-4     |
| 21602  | Excision of chest wall tumor involving rib(s), with plastic reconstruction; without mediastinal lymphadenectomy                                                                                                                  | Procedure | CPT-4     |
| 21603  | Excision of chest wall tumor involving rib(s), with plastic reconstruction; with mediastinal lymphadenectomy                                                                                                                     | Procedure | CPT-4     |
| 21930  | Excision, tumor, soft tissue of back or flank, subcutaneous; less than 3 cm                                                                                                                                                      | Procedure | CPT-4     |
| 21931  | Excision, tumor, soft tissue of back or flank, subcutaneous; 3 cm or greater                                                                                                                                                     | Procedure | CPT-4     |
| 21932  | Excision, tumor, soft tissue of back or flank, subfascial (eg, intramuscular); less than 5 cm                                                                                                                                    | Procedure | CPT-4     |
| 21933  | Excision, tumor, soft tissue of back or flank, subfascial (eg, intramuscular); 5 cm or greater                                                                                                                                   | Procedure | CPT-4     |
| 21935  | Radical resection of tumor (eg, sarcoma), soft tissue of back or flank; less than 5 cm                                                                                                                                           | Procedure | CPT-4     |
| 21936  | Radical resection of tumor (eg, sarcoma), soft tissue of back or flank; 5 cm or greater                                                                                                                                          | Procedure | CPT-4     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                              | Code      |           |
|-------|----------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                          | Category  | Code Type |
| 22105 | PART RESECT VERTEBRAL COMPONENT TUMOR; CERV                                                              | Procedure | CPT-4     |
| 22106 | PART RESECT VERTEBRAL COMPONENT TUMOR; THORACIC                                                          | Procedure | CPT-4     |
| 22107 | PART RESECT VERTEBRAL COMPONENT TUMOR; LUMBAR                                                            | Procedure | CPT-4     |
| 223.1 | Benign neoplasm of renal pelvis                                                                          | Diagnosis | ICD-9-CM  |
| 22900 | Excision, tumor, soft tissue of abdominal wall, subfascial (eg, intramuscular); less than 5 cm           | Procedure | CPT-4     |
| 22901 | Excision, tumor, soft tissue of abdominal wall, subfascial (eg, intramuscular); 5 cm or greater          | Procedure | CPT-4     |
| 22902 | Excision, tumor, soft tissue of abdominal wall, subcutaneous; less than 3 cm                             | Procedure | CPT-4     |
| 22903 | Excision, tumor, soft tissue of abdominal wall, subcutaneous; 3 cm or greater                            | Procedure | CPT-4     |
| 22904 | Radical resection of tumor (eg, sarcoma), soft tissue of abdominal wall; less than 5 cm                  | Procedure | CPT-4     |
| 22905 | Radical resection of tumor (eg, sarcoma), soft tissue of abdominal wall; 5 cm or greater                 | Procedure | CPT-4     |
| 23071 | Excision, tumor, soft tissue of shoulder area, subcutaneous; 3 cm or greater                             | Procedure | CPT-4     |
| 23073 | Excision, tumor, soft tissue of shoulder area, subfascial (eg, intramuscular); 5 cm or greater           | Procedure | CPT-4     |
| 23075 | Excision, tumor, soft tissue of shoulder area, subcutaneous; less than 3 cm                              | Procedure | CPT-4     |
| 23076 | Excision, tumor, soft tissue of shoulder area, subfascial (eg, intramuscular); less than 5 cm            | Procedure | CPT-4     |
| 23077 | Radical resection of tumor (eg, sarcoma), soft tissue of shoulder area; less than 5 cm                   | Procedure | CPT-4     |
| 23078 | Radical resection of tumor (eg, sarcoma), soft tissue of shoulder area; 5 cm or greater                  | Procedure | CPT-4     |
| 23200 | Radical resection of tumor; clavicle                                                                     | Procedure | CPT-4     |
| 23210 | Radical resection of tumor; scapula                                                                      | Procedure | CPT-4     |
| 23220 | Radical resection of tumor, proximal humerus                                                             | Procedure | CPT-4     |
| 23221 | Radical resection of bone tumor, proximal humerus; with autograft (includes obtaining graft)             | Procedure | CPT-4     |
| 23222 | Radical resection of bone tumor, proximal humerus; with prosthetic replacement                           | Procedure | CPT-4     |
| 24071 | Excision, tumor, soft tissue of upper arm or elbow area, subcutaneous; 3 cm or greater                   | Procedure | CPT-4     |
| 24073 | Excision, tumor, soft tissue of upper arm or elbow area, subfascial (eg, intramuscular); 5 cm or greater | Procedure | CPT-4     |
| 24075 | Excision, tumor, soft tissue of upper arm or elbow area, subcutaneous; less than 3 cm                    | Procedure | CPT-4     |
| 24076 | Excision, tumor, soft tissue of upper arm or elbow area, subfascial (eg, intramuscular); less than 5 cm  | Procedure | CPT-4     |
| 24077 | Radical resection of tumor (eg, sarcoma), soft tissue of upper arm or elbow area; less than 5 cm         | Procedure | CPT-4     |
| 24079 | Radical resection of tumor (eg, sarcoma), soft tissue of upper arm or elbow area; 5 cm or greater        | Procedure | CPT-4     |
| 24150 | Radical resection of tumor, shaft or distal humerus                                                      | Procedure | CPT-4     |
| 24151 | Radical resection for tumor, shaft or distal humerus; with autograft (includes obtaining graft)          | Procedure | CPT-4     |
| 24152 | Radical resection of tumor, radial head or neck                                                          | Procedure | CPT-4     |

| Code  | Description                                                                                                                  | Code      |           |
|-------|------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                              | Category  | Code Type |
| 24153 | Radical resection for tumor, radial head or neck; with autograft (includes obtaining graft)                                  | Procedure | CPT-4     |
| 25071 | Excision, tumor, soft tissue of forearm and/or wrist area, subcutaneous; 3 cm or greater                                     | Procedure | CPT-4     |
| 25073 | Excision, tumor, soft tissue of forearm and/or wrist area, subfascial (eg, intramuscular); 3 cm or greater                   | Procedure | CPT-4     |
| 25075 | Excision, tumor, soft tissue of forearm and/or wrist area, subcutaneous; less than 3 cm                                      | Procedure | CPT-4     |
| 25076 | Excision, tumor, soft tissue of forearm and/or wrist area, subfascial (eg, intramuscular); less than 3 cm                    | Procedure | CPT-4     |
| 25077 | Radical resection of tumor (eg, sarcoma), soft tissue of forearm and/or wrist area; less than 3 cm                           | Procedure | CPT-4     |
| 25078 | Radical resection of tumor (eg, sarcoma), soft tissue of forearm and/or wrist area; 3 cm or greater                          | Procedure | CPT-4     |
| 25170 | Radical resection of tumor, radius or ulna                                                                                   | Procedure | CPT-4     |
| 26111 | Excision, tumor or vascular malformation, soft tissue of hand or finger, subcutaneous; 1.5 cm or greater                     | Procedure | CPT-4     |
| 26113 | Excision, tumor, soft tissue, or vascular malformation, of hand or finger, subfascial (eg, intramuscular); 1.5 cm or greater | Procedure | CPT-4     |
| 26115 | Excision, tumor or vascular malformation, soft tissue of hand or finger, subcutaneous; less than 1.5 cm                      | Procedure | CPT-4     |
| 26116 | Excision, tumor, soft tissue, or vascular malformation, of hand or finger, subfascial (eg, intramuscular); less than 1.5 cm  | Procedure | CPT-4     |
| 26117 | Radical resection of tumor (eg, sarcoma), soft tissue of hand or finger; less than 3 cm                                      | Procedure | CPT-4     |
| 26118 | Radical resection of tumor (eg, sarcoma), soft tissue of hand or finger; 3 cm or greater                                     | Procedure | CPT-4     |
| 26250 | Radical resection of tumor, metacarpal                                                                                       | Procedure | CPT-4     |
| 26255 | Radical resection, metacarpal (eg, tumor); with autograft (includes obtaining graft)                                         | Procedure | CPT-4     |
| 26260 | Radical resection of tumor, proximal or middle phalanx of finger                                                             | Procedure | CPT-4     |
| 26261 | Radical resection, proximal or middle phalanx of finger (eg, tumor); with autograft (includes obtaining graft)               | Procedure | CPT-4     |
| 26262 | Radical resection of tumor, distal phalanx of finger                                                                         | Procedure | CPT-4     |
| 27043 | Excision, tumor, soft tissue of pelvis and hip area, subcutaneous; 3 cm or greater                                           | Procedure | CPT-4     |
| 27045 | Excision, tumor, soft tissue of pelvis and hip area, subfascial (eg, intramuscular); 5 cm or greater                         | Procedure | CPT-4     |
| 27047 | Excision, tumor, soft tissue of pelvis and hip area, subcutaneous; less than 3 cm                                            | Procedure | CPT-4     |
| 27048 | Excision, tumor, soft tissue of pelvis and hip area, subfascial (eg, intramuscular); less than 5 cm                          | Procedure | CPT-4     |
| 27049 | Radical resection of tumor (eg, sarcoma), soft tissue of pelvis and hip area; less than 5 cm                                 | Procedure | CPT-4     |
| 27059 | Radical resection of tumor (eg, sarcoma), soft tissue of pelvis and hip area; 5 cm or greater                                | Procedure | CPT-4     |
| 27075 | Radical resection of tumor; wing of ilium, 1 pubic or ischial ramus or symphysis pubis                                       | Procedure | CPT-4     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                  | Code      |           |
|-------|--------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                              | Category  | Code Type |
| 27076 | Radical resection of tumor; ilium, including acetabulum, both pubic rami, or ischium and acetabulum          | Procedure | CPT-4     |
| 27077 | Radical resection of tumor; innominate bone, total                                                           | Procedure | CPT-4     |
| 27078 | Radical resection of tumor; ischial tuberosity and greater trochanter of femur                               | Procedure | CPT-4     |
| 27079 | Radical resection of tumor or infection; ischial tuberosity and greater trochanter of femur, with skin flaps | Procedure | CPT-4     |
| 273.3 | Macroglobulinemia                                                                                            | Diagnosis | ICD-9-CM  |
| 27327 | Excision, tumor, soft tissue of thigh or knee area, subcutaneous; less than 3 cm                             | Procedure | CPT-4     |
| 27328 | Excision, tumor, soft tissue of thigh or knee area, subfascial (eg, intramuscular); less than 5 cm           | Procedure | CPT-4     |
| 27329 | Radical resection of tumor (eg, sarcoma), soft tissue of thigh or knee area; less than 5 cm                  | Procedure | CPT-4     |
| 27337 | Excision, tumor, soft tissue of thigh or knee area, subcutaneous; 3 cm or greater                            | Procedure | CPT-4     |
| 27339 | Excision, tumor, soft tissue of thigh or knee area, subfascial (eg, intramuscular); 5 cm or greater          | Procedure | CPT-4     |
| 27364 | Radical resection of tumor (eg, sarcoma), soft tissue of thigh or knee area; 5 cm or greater                 | Procedure | CPT-4     |
| 27365 | Radical resection of tumor, femur or knee                                                                    | Procedure | CPT-4     |
| 27615 | Radical resection of tumor (eg, sarcoma), soft tissue of leg or ankle area; less than 5 cm                   | Procedure | CPT-4     |
| 27616 | Radical resection of tumor (eg, sarcoma), soft tissue of leg or ankle area; 5 cm or greater                  | Procedure | CPT-4     |
| 27618 | Excision, tumor, soft tissue of leg or ankle area, subcutaneous; less than 3 cm                              | Procedure | CPT-4     |
| 27619 | Excision, tumor, soft tissue of leg or ankle area, subfascial (eg, intramuscular); less than 5 cm            | Procedure | CPT-4     |
| 27632 | Excision, tumor, soft tissue of leg or ankle area, subcutaneous; 3 cm or greater                             | Procedure | CPT-4     |
| 27634 | Excision, tumor, soft tissue of leg or ankle area, subfascial (eg, intramuscular); 5 cm or greater           | Procedure | CPT-4     |
| 27645 | Radical resection of tumor; tibia                                                                            | Procedure | CPT-4     |
| 27646 | Radical resection of tumor; fibula                                                                           | Procedure | CPT-4     |
| 27647 | Radical resection of tumor; talus or calcaneus                                                               | Procedure | CPT-4     |
| 28039 | Excision, tumor, soft tissue of foot or toe, subcutaneous; 1.5 cm or greater                                 | Procedure | CPT-4     |
| 28041 | Excision, tumor, soft tissue of foot or toe, subfascial (eg, intramuscular); 1.5 cm or greater               | Procedure | CPT-4     |
| 28043 | Excision, tumor, soft tissue of foot or toe, subcutaneous; less than 1.5 cm                                  | Procedure | CPT-4     |
| 28045 | Excision, tumor, soft tissue of foot or toe, subfascial (eg, intramuscular); less than 1.5 cm                | Procedure | CPT-4     |
| 28046 | Radical resection of tumor (eg, sarcoma), soft tissue of foot or toe; less than 3 cm                         | Procedure | CPT-4     |
| 28047 | Radical resection of tumor (eg, sarcoma), soft tissue of foot or toe; 3 cm or greater                        | Procedure | CPT-4     |
| 28171 | Radical resection of tumor; tarsal (except talus or calcaneus)                                               | Procedure | CPT-4     |
| 28173 | Radical resection of tumor; metatarsal                                                                       | Procedure | CPT-4     |
| 28175 | Radical resection of tumor; phalanx of toe                                                                   | Procedure | CPT-4     |
| 284.2 | Myelophthisis                                                                                                | Diagnosis | ICD-9-CM  |

| Code   | Description                                                                                                                                                                                                                        | Code      |           |
|--------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                                                                                                                                                                    | Category  | Code Type |
| 289.83 | Myelofibrosis                                                                                                                                                                                                                      | Diagnosis | ICD-9-CM  |
| 31300  | Laryngotomy (thyrotomy, laryngofissure), with removal of tumor or laryngocele, cordectomy                                                                                                                                          | Procedure | CPT-4     |
| 31540  | Laryngoscopy, direct, operative, with excision of tumor and/or stripping of vocal cords or epiglottis;                                                                                                                             | Procedure | CPT-4     |
| 31541  | Laryngoscopy, direct, operative, with excision of tumor and/or stripping of vocal cords or epiglottis; with operating microscope or telescope                                                                                      | Procedure | CPT-4     |
| 31640  | Bronchoscopy, rigid or flexible, including fluoroscopic guidance, when performed; with excision of tumor                                                                                                                           | Procedure | CPT-4     |
| 31641  | Bronchoscopy, rigid or flexible, including fluoroscopic guidance, when performed; with destruction of tumor or relief of stenosis by any method other than excision (eg, laser therapy, cryotherapy)                               | Procedure | CPT-4     |
| 31785  | Excision of tracheal tumor or carcinoma; cervical                                                                                                                                                                                  | Procedure | CPT-4     |
| 31786  | Excision of tracheal tumor or carcinoma; thoracic                                                                                                                                                                                  | Procedure | CPT-4     |
| 32503  | Resection of apical lung tumor (eg, Pancoast tumor), including chest wall resection, rib(s) resection(s), neurovascular dissection, when performed; without chest wall reconstruction(s)                                           | Procedure | CPT-4     |
| 32504  | Resection of apical lung tumor (eg, Pancoast tumor), including chest wall resection, rib(s) resection(s), neurovascular dissection, when performed; with chest wall reconstruction                                                 | Procedure | CPT-4     |
| 3250F  | Specimen site other than anatomic location of primary tumor (PATH)                                                                                                                                                                 | Procedure | CPT-2     |
| 3260F  | pT category (primary tumor), pN category (regional lymph nodes), and histologic grade documented in pathology report (PATH)                                                                                                        | Procedure | CPT-2     |
| 32661  | Thoracoscopy, surgical; with excision of pericardial cyst, tumor, or mass                                                                                                                                                          | Procedure | CPT-4     |
| 32662  | Thoracoscopy, surgical; with excision of mediastinal cyst, tumor, or mass                                                                                                                                                          | Procedure | CPT-4     |
| 3268F  | Prostate-specific antigen (PSA), and primary tumor (T) stage, and Gleason score documented prior to initiation of treatment (PRCA)                                                                                                 | Procedure | CPT-2     |
| 3269F  | Bone scan performed prior to initiation of treatment or at any time since diagnosis of prostate cancer (PRCA)                                                                                                                      | Procedure | CPT-2     |
| 3270F  | Bone scan not performed prior to initiation of treatment nor at any time since diagnosis of prostate cancer (PRCA)                                                                                                                 | Procedure | CPT-2     |
| 32994  | Ablation therapy for reduction or eradication of 1 or more pulmonary tumor(s) including pleura or chest wall when involved by tumor extension, percutaneous, including imaging guidance when performed, unilateral; cryoablation   | Procedure | CPT-4     |
| 32998  | Ablation therapy for reduction or eradication of 1 or more pulmonary tumor(s) including pleura or chest wall when involved by tumor extension, percutaneous, including imaging guidance when performed, unilateral; radiofrequency | Procedure | CPT-4     |
| 3301F  | Cancer stage documented in medical record as metastatic and reviewed (ONC)                                                                                                                                                         | Procedure | CPT-2     |
| 3302F  | AJCC Cancer Stage 0, documented (ONC)1, (ML)5                                                                                                                                                                                      | Procedure | CPT-2     |
| 3303F  | AJCC Cancer Stage IA, documented (ONC)1, (ML)5                                                                                                                                                                                     | Procedure | CPT-2     |
| 3304F  | AJCC Cancer Stage IB, documented (ONC)1, (ML)5                                                                                                                                                                                     | Procedure | CPT-2     |
| 33050  | Resection of pericardial cyst or tumor                                                                                                                                                                                             | Procedure | CPT-4     |
| 3305F  | AJCC Cancer Stage IC, documented (ONC)1, (ML)5                                                                                                                                                                                     | Procedure | CPT-2     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                       | Code      |           |

|       |                                                                                                                                                                                                   | Category  | Code Type |
| 3306F | AJCC Cancer Stage IIA, documented (ONC)1, (ML)5                                                                                                                                                   | Procedure | CPT-2     |
| 3307F | AJCC Cancer Stage IIB, documented (ONC)1, (ML)5                                                                                                                                                   | Procedure | CPT-2     |
| 3308F | AJCC Cancer Stage IIC, documented (ONC)1, (ML)5                                                                                                                                                   | Procedure | CPT-2     |
| 3309F | AJCC Cancer Stage IIIA, documented (ONC)1, (ML)5                                                                                                                                                  | Procedure | CPT-2     |
| 3310F | AJCC Cancer Stage IIIB, documented (ONC)1, (ML)5                                                                                                                                                  | Procedure | CPT-2     |
| 3311F | AJCC Cancer Stage IIIC, documented (ONC)1, (ML)5                                                                                                                                                  | Procedure | CPT-2     |
| 33120 | Excision of intracardiac tumor, resection with cardiopulmonary bypass                                                                                                                             | Procedure | CPT-4     |
| 3312F | AJCC Cancer Stage IV, documented (ONC)1, (ML)5                                                                                                                                                    | Procedure | CPT-2     |
| 33130 | Resection of external cardiac tumor                                                                                                                                                               | Procedure | CPT-4     |
| 3313F | AJCC Cancer Stage IVB, documented (ONC)1, (ML)5                                                                                                                                                   | Procedure | CPT-2     |
| 3314F | AJCC Cancer Stage IVC, documented (ONC)1, (ML)5                                                                                                                                                   | Procedure | CPT-2     |
| 3315F | Estrogen receptor (ER) or progesterone receptor (PR) positive breast cancer (ONC)                                                                                                                 | Procedure | CPT-2     |
| 3316F | Estrogen receptor (ER) and progesterone receptor (PR) negative breast cancer (ONC)                                                                                                                | Procedure | CPT-2     |
| 3317F | Pathology report confirming malignancy documented in the medical record and reviewed prior to the initiation of chemotherapy (ONC)                                                                | Procedure | CPT-2     |
| 3318F | Pathology report confirming malignancy documented in the medical record and reviewed prior to the initiation of radiation therapy (ONC)                                                           | Procedure | CPT-2     |
| 3321F | AJCC Cancer Stage 0 or IA Melanoma, documented (ML)                                                                                                                                               | Procedure | CPT-2     |
| 3323F | Clinical tumor, node and metastases (TNM) staging documented and reviewed prior to surgery (Lung/Esop Cx)                                                                                         | Procedure | CPT-2     |
| 3370F | AJCC Breast Cancer Stage 0 documented (ONC)                                                                                                                                                       | Procedure | CPT-2     |
| 3372F | AJCC Breast Cancer Stage I: T1mic, T1a or T1b (tumor size <= 1 cm) documented                                                                                                                     | Procedure | CPT-2     |
| 3374F | AJCC Breast Cancer Stage I: T1c (tumor size > 1 cm to 2 cm) documented (ONC)                                                                                                                      | Procedure | CPT-2     |
| 3376F | AJCC Breast Cancer Stage II documented (ONC)                                                                                                                                                      | Procedure | CPT-2     |
| 3378F | AJCC Breast Cancer Stage III documented (ONC)                                                                                                                                                     | Procedure | CPT-2     |
| 3380F | AJCC Breast Cancer Stage IV documented (ONC)                                                                                                                                                      | Procedure | CPT-2     |
| 3382F | AJCC colon cancer, Stage 0 documented (ONC)                                                                                                                                                       | Procedure | CPT-2     |
| 3384F | AJCC colon cancer, Stage I documented (ONC)                                                                                                                                                       | Procedure | CPT-2     |
| 3386F | AJCC colon cancer, Stage II documented (ONC)                                                                                                                                                      | Procedure | CPT-2     |
| 3388F | AJCC colon cancer, Stage III documented (ONC)                                                                                                                                                     | Procedure | CPT-2     |
| 3390F | AJCC colon cancer, Stage IV documented (ONC)                                                                                                                                                      | Procedure | CPT-2     |
| 36260 | Insertion of implantable intra-arterial infusion pump (eg, for chemotherapy of liver)                                                                                                             | Procedure | CPT-4     |
| 36488 | Placement of central venous catheter (subclavian, jugular, or other vein) (eg, for central venous pressure, hyperalimentation, hemodialysis, or chemotherapy); percutaneous, age 2 years or under | Procedure | CPT-4     |
| 36489 | Placement of central venous catheter (subclavian, jugular, or other vein) (eg, for central venous pressure, hyperalimentation, hemodialysis, or chemotherapy); percutaneous, over age 2           | Procedure | CPT-4     |
| 36490 | Placement of central venous catheter (subclavian, jugular, or other vein) (eg, for central venous pressure, hyperalimentation, hemodialysis, or chemotherapy); cutdown, age 2 years or under      | Procedure | CPT-4     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code    | Description                                                                                                                                                                                                                                          | Code      |            |
|---------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|
|         |                                                                                                                                                                                                                                                      | Category  | Code Type  |
| 36491   | Placement of central venous catheter (subclavian, jugular, or other vein) (eg, for central venous pressure, hyperalimentation, hemodialysis, or chemotherapy); cutdown, over age 2                                                                   | Procedure | CPT-4      |
| 36640   | Arterial catheterization for prolonged infusion therapy (chemotherapy), cutdown                                                                                                                                                                      | Procedure | CPT-4      |
| 36823   | Insertion of arterial and venous cannula(s) for isolated extracorporeal circulation including regional chemotherapy perfusion to an extremity, with or without hyperthermia, with removal of cannula(s) and repair of arteriotomy and venotomy sites | Procedure | CPT-4      |
| 39220   | Resection of mediastinal tumor                                                                                                                                                                                                                       | Procedure | CPT-4      |
| 3E00X05 | Introduction of Other Antineoplastic into Skin and Mucous Membranes, External Approach                                                                                                                                                               | Procedure | ICD-10-PCS |
| 3E00X0M | Introduction of Antineoplastic, Monoclonal Antibody, into Skin and Mucous Membranes, External Approach                                                                                                                                               | Procedure | ICD-10-PCS |
| 3E01305 | Introduction of Other Antineoplastic into Subcutaneous Tissue, Percutaneous Approach                                                                                                                                                                 | Procedure | ICD-10-PCS |
| 3E0130M | Introduction of Antineoplastic, Monoclonal Antibody, into Subcutaneous Tissue, Percutaneous Approach                                                                                                                                                 | Procedure | ICD-10-PCS |
| 3E02305 | Introduction of Other Antineoplastic into Muscle, Percutaneous Approach                                                                                                                                                                              | Procedure | ICD-10-PCS |
| 3E0230M | Introduction of Antineoplastic, Monoclonal Antibody, into Muscle, Percutaneous Approach                                                                                                                                                              | Procedure | ICD-10-PCS |
| 3E03002 | Introduction of High-dose Interleukin-2 into Peripheral Vein, Open Approach                                                                                                                                                                          | Procedure | ICD-10-PCS |
| 3E03003 | Introduction of Low-dose Interleukin-2 into Peripheral Vein, Open Approach                                                                                                                                                                           | Procedure | ICD-10-PCS |
| 3E03005 | Introduction of Other Antineoplastic into Peripheral Vein, Open Approach                                                                                                                                                                             | Procedure | ICD-10-PCS |
| 3E0300M | Introduction of Antineoplastic, Monoclonal Antibody, into Peripheral Vein, Open Approach                                                                                                                                                             | Procedure | ICD-10-PCS |
| 3E0300P | Introduction of Clofarabine into Peripheral Vein, Open Approach                                                                                                                                                                                      | Procedure | ICD-10-PCS |
| 3E03302 | Introduction of High-dose Interleukin-2 into Peripheral Vein, Percutaneous Approach                                                                                                                                                                  | Procedure | ICD-10-PCS |
| 3E03303 | Introduction of Low-dose Interleukin-2 into Peripheral Vein, Percutaneous Approach                                                                                                                                                                   | Procedure | ICD-10-PCS |
| 3E03305 | Introduction of Other Antineoplastic into Peripheral Vein, Percutaneous Approach                                                                                                                                                                     | Procedure | ICD-10-PCS |
| 3E0330M | Introduction of Antineoplastic, Monoclonal Antibody, into Peripheral Vein, Percutaneous Approach                                                                                                                                                     | Procedure | ICD-10-PCS |
| 3E0330P | Introduction of Clofarabine into Peripheral Vein, Percutaneous Approach                                                                                                                                                                              | Procedure | ICD-10-PCS |
| 3E04002 | Introduction of High-dose Interleukin-2 into Central Vein, Open Approach                                                                                                                                                                             | Procedure | ICD-10-PCS |
| 3E04003 | Introduction of Low-dose Interleukin-2 into Central Vein, Open Approach                                                                                                                                                                              | Procedure | ICD-10-PCS |
| 3E04005 | Introduction of Other Antineoplastic into Central Vein, Open Approach                                                                                                                                                                                | Procedure | ICD-10-PCS |
| 3E0400M | Introduction of Antineoplastic, Monoclonal Antibody, into Central Vein, Open Approach                                                                                                                                                                | Procedure | ICD-10-PCS |
| 3E0400P | Introduction of Clofarabine into Central Vein, Open Approach                                                                                                                                                                                         | Procedure | ICD-10-PCS |
| 3E04302 | Introduction of High-dose Interleukin-2 into Central Vein, Percutaneous Approach                                                                                                                                                                     | Procedure | ICD-10-PCS |
| 3E04303 | Introduction of Low-dose Interleukin-2 into Central Vein, Percutaneous Approach                                                                                                                                                                      | Procedure | ICD-10-PCS |
| 3E04305 | Introduction of Other Antineoplastic into Central Vein, Percutaneous Approach                                                                                                                                                                        | Procedure | ICD-10-PCS |
| 3E0430M | Introduction of Antineoplastic, Monoclonal Antibody, into Central Vein, Percutaneous Approach                                                                                                                                                        | Procedure | ICD-10-PCS |

|       |                                                                                                                                                                                                                                                                 | Category  | Code Type |
| 41826 | Excision of lesion or tumor (except listed above), dentoalveolar structures; with simple repair                                                                                                                                                                 | Procedure | CPT-4     |
| 41827 | Excision of lesion or tumor (except listed above), dentoalveolar structures; with complex repair                                                                                                                                                                | Procedure | CPT-4     |
| 4201F | External beam radiotherapy with or without nodal irradiation as adjuvant or salvage therapy for prostate cancer patient (PRCA)                                                                                                                                  | Procedure | CPT-2     |
| 42410 | Excision of parotid tumor or parotid gland; lateral lobe, without nerve dissection                                                                                                                                                                              | Procedure | CPT-4     |
| 42415 | Excision of parotid tumor or parotid gland; lateral lobe, with dissection and preservation of facial nerve                                                                                                                                                      | Procedure | CPT-4     |
| 42420 | Excision of parotid tumor or parotid gland; total, with dissection and preservation of facial nerve                                                                                                                                                             | Procedure | CPT-4     |
| 42425 | Excision of parotid tumor or parotid gland; total, en bloc removal with sacrifice of facial nerve                                                                                                                                                               | Procedure | CPT-4     |
| 42426 | Excision of parotid tumor or parotid gland; total, with unilateral radical neck dissection                                                                                                                                                                      | Procedure | CPT-4     |
| 43216 | Esophagoscopy, flexible, transoral; with removal of tumor(s), polyp(s), or other lesion(s) by hot biopsy forceps                                                                                                                                                | Procedure | CPT-4     |
| 43217 | Esophagoscopy, flexible, transoral; with removal of tumor(s), polyp(s), or other lesion(s) by snare technique                                                                                                                                                   | Procedure | CPT-4     |
| 43228 | Esophagoscopy, rigid or flexible; with ablation of tumor(s), polyp(s), or other lesion(s), not amenable to removal by hot biopsy forceps, bipolar cautery or snare                                                                                              | Procedure | CPT-4     |
| 43229 | Esophagoscopy, flexible, transoral; with ablation of tumor(s), polyp(s), or other lesion(s) (includes pre- and post-dilation and guide wire passage, when performed)                                                                                            | Procedure | CPT-4     |
| 43250 | Esophagogastroduodenoscopy, flexible, transoral; with removal of tumor(s), polyp(s), or other lesion(s) by hot biopsy forceps                                                                                                                                   | Procedure | CPT-4     |
| 43251 | Esophagogastroduodenoscopy, flexible, transoral; with removal of tumor(s), polyp(s), or other lesion(s) by snare technique                                                                                                                                      | Procedure | CPT-4     |
| 43258 | Upper gastrointestinal endoscopy including esophagus, stomach, and either the duodenum and/or jejunum as appropriate; with ablation of tumor(s), polyp(s), or other lesion(s) not amenable to removal by hot biopsy forceps, bipolar cautery or snare technique | Procedure | CPT-4     |
| 43270 | Esophagogastroduodenoscopy, flexible, transoral; with ablation of tumor(s), polyp(s), or other lesion(s) (includes pre- and post-dilation and guide wire passage, when performed)                                                                               | Procedure | CPT-4     |
| 43272 | Endoscopic retrograde cholangiopancreatography (ERCP); with ablation of tumor(s), polyp(s), or other lesion(s) not amenable to removal by hot biopsy forceps, bipolar cautery or snare technique                                                                | Procedure | CPT-4     |
| 43278 | Endoscopic retrograde cholangiopancreatography (ERCP); with ablation of tumor(s), polyp(s), or other lesion(s), including pre- and post-dilation and guide wire passage, when performed                                                                         | Procedure | CPT-4     |
| 43611 | Excision, local; malignant tumor of stomach                                                                                                                                                                                                                     | Procedure | CPT-4     |
| 45160 | Excision of rectal tumor by proctotomy, transsacral or transcoccygeal approach                                                                                                                                                                                  | Procedure | CPT-4     |
| 45170 | Excision of rectal tumor, transanal approach                                                                                                                                                                                                                    | Procedure | CPT-4     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                          | Code      |           |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                      | Category  | Code Type |
| 45171 | Excision of rectal tumor, transanal approach; not including muscularis propria (ie, partial thickness)                                                                                               | Procedure | CPT-4     |
| 45172 | Excision of rectal tumor, transanal approach; including muscularis propria (ie, full thickness)                                                                                                      | Procedure | CPT-4     |
| 45180 | EXC &/OR ELECTRODESICCATION MALIG TUMOR RECTUM                                                                                                                                                       | Procedure | CPT-4     |
| 45181 | Excision And/or Electrodesiccation Of Malignant Tumor Of                                                                                                                                             | Procedure | CPT-4     |
| 45190 | Destruction of rectal tumor (eg, electrodesiccation, electrosurgery, laser ablation, laser resection, cryosurgery) transanal approach                                                                | Procedure | CPT-4     |
| 45308 | Proctosigmoidoscopy, rigid; with removal of single tumor, polyp, or other lesion by hot biopsy forceps or bipolar cautery                                                                            | Procedure | CPT-4     |
| 45309 | Proctosigmoidoscopy, rigid; with removal of single tumor, polyp, or other lesion by snare technique                                                                                                  | Procedure | CPT-4     |
| 45315 | Proctosigmoidoscopy, rigid; with removal of multiple tumors, polyps, or other lesions by hot biopsy forceps, bipolar cautery or snare technique                                                      | Procedure | CPT-4     |
| 45320 | Proctosigmoidoscopy, rigid; with ablation of tumor(s), polyp(s), or other lesion(s) not amenable to removal by hot biopsy forceps, bipolar cautery or snare technique (eg, laser)                    | Procedure | CPT-4     |
| 45333 | Sigmoidoscopy, flexible; with removal of tumor(s), polyp(s), or other lesion(s) by hot biopsy forceps                                                                                                | Procedure | CPT-4     |
| 45336 | SIGMOIDOSCOPY; ABLATE TUMOR MUCOSAL LESION                                                                                                                                                           | Procedure | CPT-4     |
| 45338 | Sigmoidoscopy, flexible; with removal of tumor(s), polyp(s), or other lesion(s) by snare technique                                                                                                   | Procedure | CPT-4     |
| 45339 | Sigmoidoscopy, flexible; with ablation of tumor(s), polyp(s), or other lesion(s) not amenable to removal by hot biopsy forceps, bipolar cautery or snare technique                                   | Procedure | CPT-4     |
| 45346 | Sigmoidoscopy, flexible; with ablation of tumor(s), polyp(s), or other lesion(s) (includes pre- and post-dilation and guide wire passage, when performed)                                            | Procedure | CPT-4     |
| 47380 | Ablation, open, of 1 or more liver tumor(s); radiofrequency                                                                                                                                          | Procedure | CPT-4     |
| 47381 | Ablation, open, of 1 or more liver tumor(s); cryosurgical                                                                                                                                            | Procedure | CPT-4     |
| 47382 | Ablation, 1 or more liver tumor(s), percutaneous, radiofrequency                                                                                                                                     | Procedure | CPT-4     |
| 47383 | Ablation, 1 or more liver tumor(s), percutaneous, cryoablation                                                                                                                                       | Procedure | CPT-4     |
| 47710 | EXC BILE DUCT TUMOR W/REPR                                                                                                                                                                           | Procedure | CPT-4     |
| 47711 | Excision of bile duct tumor, with or without primary repair of bile duct; extrahepatic                                                                                                               | Procedure | CPT-4     |
| 47712 | Excision of bile duct tumor, with or without primary repair of bile duct; intrahepatic                                                                                                               | Procedure | CPT-4     |
| 49200 | Excision or destruction, open, intra-abdominal or retroperitoneal tumors or cysts or endometriomas;                                                                                                  | Procedure | CPT-4     |
| 49201 | Excision or destruction, open, intra-abdominal or retroperitoneal tumors or cysts or endometriomas; extensive                                                                                        | Procedure | CPT-4     |
| 49203 | Excision or destruction, open, intra-abdominal tumors, cysts or endometriomas, 1 or more peritoneal, mesenteric, or retroperitoneal primary or secondary tumors; largest tumor 5 cm diameter or less | Procedure | CPT-4     |
| 49204 | Excision or destruction, open, intra-abdominal tumors, cysts or endometriomas, 1 or more peritoneal, mesenteric, or retroperitoneal primary or secondary tumors; largest tumor 5.1-10.0 cm diameter  | Procedure | CPT-4     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                           | Code      |           |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                                                       | Category  | Code Type |
| 49205 | Excision or destruction, open, intra-abdominal tumors, cysts or endometriomas, 1 or more peritoneal, mesenteric, or retroperitoneal primary or secondary tumors; largest tumor greater than 10.0 cm diameter                                                                                          | Procedure | CPT-4     |
| 49215 | Excision of presacral or sacrococcygeal tumor                                                                                                                                                                                                                                                         | Procedure | CPT-4     |
| 49418 | Insertion of tunneled intraperitoneal catheter (eg, dialysis, intraperitoneal chemotherapy instillation, management of ascites), complete procedure, including imaging guidance, catheter placement, contrast injection when performed, and radiological supervision and interpretation, percutaneous | Procedure | CPT-4     |
| 50562 | Renal endoscopy through established nephrostomy or pyelostomy, with or without irrigation, instillation, or ureteropyelography, exclusive of radiologic service; with resection of tumor                                                                                                              | Procedure | CPT-4     |
| 51530 | Cystotomy; for excision of bladder tumor                                                                                                                                                                                                                                                              | Procedure | CPT-4     |
| 52234 | Cystourethroscopy, with fulguration (including cryosurgery or laser surgery) and/or resection of; SMALL bladder tumor(s) (0.5 up to 2.0 cm)                                                                                                                                                           | Procedure | CPT-4     |
| 52235 | Cystourethroscopy, with fulguration (including cryosurgery or laser surgery) and/or resection of; MEDIUM bladder tumor(s) (2.0 to 5.0 cm)                                                                                                                                                             | Procedure | CPT-4     |
| 52240 | Cystourethroscopy, with fulguration (including cryosurgery or laser surgery) and/or resection of; LARGE bladder tumor(s)                                                                                                                                                                              | Procedure | CPT-4     |
| 52339 | Cystourethroscopy, with ureteroscopy and/or pyeloscopy (includes dilation of the ureter and/or pyeloureteral junction by any method); with resection of tumor                                                                                                                                         | Procedure | CPT-4     |
| 52355 | Cystourethroscopy, with ureteroscopy and/or pyeloscopy; with resection of ureteral or renal pelvic tumor                                                                                                                                                                                              | Procedure | CPT-4     |
| 54530 | Orchiectomy, radical, for tumor; inguinal approach                                                                                                                                                                                                                                                    | Procedure | CPT-4     |
| 54535 | Orchiectomy, radical, for tumor; with abdominal exploration                                                                                                                                                                                                                                           | Procedure | CPT-4     |
| 57135 | Excision of vaginal cyst or tumor                                                                                                                                                                                                                                                                     | Procedure | CPT-4     |
| 58140 | Myomectomy, excision of fibroid tumor(s) of uterus, 1 to 4 intramural myoma(s) with total weight of 250 g or less and/or removal of surface myomas; abdominal approach                                                                                                                                | Procedure | CPT-4     |
| 58145 | Myomectomy, excision of fibroid tumor(s) of uterus, 1 to 4 intramural myoma(s) with total weight of 250 g or less and/or removal of surface myomas; vaginal approach                                                                                                                                  | Procedure | CPT-4     |
| 58146 | Myomectomy, excision of fibroid tumor(s) of uterus, 5 or more intramural myomas and/or intramural myomas with total weight greater than 250 g, abdominal approach                                                                                                                                     | Procedure | CPT-4     |
| 58205 | Total Hysterectomy, Extended, Corpus Cancer, Including Partial                                                                                                                                                                                                                                        | Procedure | CPT-4     |
| 58575 | Laparoscopy, surgical, total hysterectomy for resection of malignancy (tumor debulking), with omentectomy including salpingo-oophorectomy, unilateral or bilateral, when performed                                                                                                                    | Procedure | CPT-4     |
| 58952 | Resection (initial) of ovarian, tubal or primary peritoneal malignancy with bilateral salpingo-oophorectomy and omentectomy; with radical dissection for debulking (ie, radical excision or destruction, intra-abdominal or retroperitoneal tumors)                                                   | Procedure | CPT-4     |
| 58957 | Resection (tumor debulking) of recurrent ovarian, tubal, primary peritoneal, uterine malignancy (intra-abdominal, retroperitoneal tumors), with omentectomy, if performed;                                                                                                                            | Procedure | CPT-4     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                         | Code      |           |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                     | Category  | Code Type |
| 58958 | Resection (tumor debulking) of recurrent ovarian, tubal, primary peritoneal, uterine malignancy (intra-abdominal, retroperitoneal tumors), with omentectomy, if performed; with pelvic lymphadenectomy and limited para-aortic lymphadenectomy      | Procedure | CPT-4     |
| 60545 | Adrenalectomy, partial or complete, or exploration of adrenal gland with or without biopsy, transabdominal, lumbar or dorsal (separate procedure); with excision of adjacent retroperitoneal tumor                                                  | Procedure | CPT-4     |
| 60600 | Excision of carotid body tumor; without excision of carotid artery                                                                                                                                                                                  | Procedure | CPT-4     |
| 60605 | Excision of carotid body tumor; with excision of carotid artery                                                                                                                                                                                     | Procedure | CPT-4     |
| 61340 | Subtemporal cranial decompression (pseudotumor cerebri, slit ventricle syndrome)                                                                                                                                                                    | Procedure | CPT-4     |
| 61500 | Craniectomy; with excision of tumor or other bone lesion of skull                                                                                                                                                                                   | Procedure | CPT-4     |
| 6150F | Patient not receiving a first course of anti-TNF (tumor necrosis factor) therapy (IBD)                                                                                                                                                              | Procedure | CPT-2     |
| 61510 | Craniectomy, trephination, bone flap craniotomy; for excision of brain tumor, supratentorial, except meningioma                                                                                                                                     | Procedure | CPT-4     |
| 61517 | Implantation of brain intracavitary chemotherapy agent (List separately in addition to code for primary procedure)                                                                                                                                  | Procedure | CPT-4     |
| 61518 | Craniectomy for excision of brain tumor, infratentorial or posterior fossa; except meningioma, cerebellopontine angle tumor, or midline tumor at base of skull                                                                                      | Procedure | CPT-4     |
| 61519 | Craniectomy for excision of brain tumor, infratentorial or posterior fossa; meningioma                                                                                                                                                              | Procedure | CPT-4     |
| 61520 | Craniectomy for excision of brain tumor, infratentorial or posterior fossa; cerebellopontine angle tumor                                                                                                                                            | Procedure | CPT-4     |
| 61521 | Craniectomy for excision of brain tumor, infratentorial or posterior fossa; midline tumor at base of skull                                                                                                                                          | Procedure | CPT-4     |
| 61526 | Craniectomy, bone flap craniotomy, transtemporal (mastoid) for excision of cerebellopontine angle tumor;                                                                                                                                            | Procedure | CPT-4     |
| 61530 | Craniectomy, bone flap craniotomy, transtemporal (mastoid) for excision of cerebellopontine angle tumor; combined with middle/posterior fossa craniotomy/craniectomy                                                                                | Procedure | CPT-4     |
| 61545 | Craniotomy with elevation of bone flap; for excision of craniopharyngioma                                                                                                                                                                           | Procedure | CPT-4     |
| 61546 | Craniotomy for hypophysectomy or excision of pituitary tumor, intracranial approach                                                                                                                                                                 | Procedure | CPT-4     |
| 61548 | Hypophysectomy or excision of pituitary tumor, transnasal or transseptal approach, nonstereotactic                                                                                                                                                  | Procedure | CPT-4     |
| 61624 | Transcatheter permanent occlusion or embolization (eg, for tumor destruction, to achieve hemostasis, to occlude a vascular malformation), percutaneous, any method; central nervous system (intracranial, spinal cord)                              | Procedure | CPT-4     |
| 61626 | Transcatheter permanent occlusion or embolization (eg, for tumor destruction, to achieve hemostasis, to occlude a vascular malformation), percutaneous, any method; non-central nervous system, head or neck (extracranial, brachiocephalic branch) | Procedure | CPT-4     |
| 62164 | Neuroendoscopy, intracranial; with excision of brain tumor, including placement of external ventricular catheter for drainage                                                                                                                       | Procedure | CPT-4     |
| 62165 | Neuroendoscopy, intracranial; with excision of pituitary tumor, transnasal or trans-sphenoidal approach                                                                                                                                             | Procedure | CPT-4     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                        | Code      |           |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                                                                    | Category  | Code Type |
| 63101 | Vertebral corpectomy (vertebral body resection), partial or complete, lateral extracavitary approach with decompression of spinal cord and/or nerve root(s) (eg, for tumor or retropulsed bone fragments); thoracic, single segment                                                                                | Procedure | CPT-4     |
| 63102 | Vertebral corpectomy (vertebral body resection), partial or complete, lateral extracavitary approach with decompression of spinal cord and/or nerve root(s) (eg, for tumor or retropulsed bone fragments); lumbar, single segment                                                                                  | Procedure | CPT-4     |
| 63103 | Vertebral corpectomy (vertebral body resection), partial or complete, lateral extracavitary approach with decompression of spinal cord and/or nerve root(s) (eg, for tumor or retropulsed bone fragments); thoracic or lumbar, each additional segment (List separately in addition to code for primary procedure) | Procedure | CPT-4     |
| 67208 | Destruction of localized lesion of retina (eg, macular edema, tumors), 1 or more sessions; cryotherapy, diathermy                                                                                                                                                                                                  | Procedure | CPT-4     |
| 67210 | Destruction of localized lesion of retina (eg, macular edema, tumors), 1 or more sessions; photocoagulation                                                                                                                                                                                                        | Procedure | CPT-4     |
| 67218 | Destruction of localized lesion of retina (eg, macular edema, tumors), 1 or more sessions; radiation by implantation of source (includes removal of source)                                                                                                                                                        | Procedure | CPT-4     |
| 68500 | Excision of lacrimal gland (dacryoadenectomy), except for tumor; total                                                                                                                                                                                                                                             | Procedure | CPT-4     |
| 68505 | Excision of lacrimal gland (dacryoadenectomy), except for tumor; partial                                                                                                                                                                                                                                           | Procedure | CPT-4     |
| 68540 | Excision of lacrimal gland tumor; frontal approach                                                                                                                                                                                                                                                                 | Procedure | CPT-4     |
| 68550 | Excision of lacrimal gland tumor; involving osteotomy                                                                                                                                                                                                                                                              | Procedure | CPT-4     |
| 69535 | Resection temporal bone, external approach                                                                                                                                                                                                                                                                         | Procedure | CPT-4     |
| 69540 | Excision aural polyp                                                                                                                                                                                                                                                                                               | Procedure | CPT-4     |
| 69550 | Excision aural glomus tumor; transcanal                                                                                                                                                                                                                                                                            | Procedure | CPT-4     |
| 69552 | Excision aural glomus tumor; transmastoid                                                                                                                                                                                                                                                                          | Procedure | CPT-4     |
| 69554 | Excision aural glomus tumor; extended (extratemporal)                                                                                                                                                                                                                                                              | Procedure | CPT-4     |
| 69970 | Removal of tumor, temporal bone                                                                                                                                                                                                                                                                                    | Procedure | CPT-4     |
| 70557 | Magnetic resonance (eg, proton) imaging, brain (including brain stem and skull base), during open intracranial procedure (eg, to assess for residual tumor or residual vascular malformation); without contrast material                                                                                           | Procedure | CPT-4     |
| 70558 | Magnetic resonance (eg, proton) imaging, brain (including brain stem and skull base), during open intracranial procedure (eg, to assess for residual tumor or residual vascular malformation); with contrast material(s)                                                                                           | Procedure | CPT-4     |
| 70559 | Magnetic resonance (eg, proton) imaging, brain (including brain stem and skull base), during open intracranial procedure (eg, to assess for residual tumor or residual vascular malformation); without contrast material(s), followed by contrast material(s) and further sequences                                | Procedure | CPT-4     |
| 78655 | RADIOPHARM IDENT EYE TUMOR                                                                                                                                                                                                                                                                                         | Procedure | CPT-4     |
| 78800 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); planar, single area (eg, head, neck, chest, pelvis), single day imaging                                                           | Procedure | CPT-4     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                                                             | Code      |           |

|       |                                                                                                                                                                                                                                                                                                                                                                                                                                         | Category  | Code Type |
| 78801 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); planar, 2 or more areas (eg, abdomen and pelvis, head and chest), 1 or more days imaging or single area imaging over 2 or more days                                                                                                                    | Procedure | CPT-4     |
| 78802 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); planar, whole body, single day imaging                                                                                                                                                                                                                 | Procedure | CPT-4     |
| 78803 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); tomographic (SPECT), single area (eg, head, neck, chest, pelvis) or acquisition, single day imaging                                                                                                                                                    | Procedure | CPT-4     |
| 78804 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); planar, whole body, requiring 2 or more days imaging                                                                                                                                                                                                   | Procedure | CPT-4     |
| 78810 | Tumor imaging, positron emission tomography (PET), metabolic evaluation                                                                                                                                                                                                                                                                                                                                                                 | Procedure | CPT-4     |
| 78811 | Positron emission tomography (PET) imaging; limited area (eg, chest, head/neck)                                                                                                                                                                                                                                                                                                                                                         | Procedure | CPT-4     |
| 78812 | Positron emission tomography (PET) imaging; skull base to mid-thigh                                                                                                                                                                                                                                                                                                                                                                     | Procedure | CPT-4     |
| 78813 | Positron emission tomography (PET) imaging; whole body                                                                                                                                                                                                                                                                                                                                                                                  | Procedure | CPT-4     |
| 78814 | Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; limited area (eg, chest, head/neck)                                                                                                                                                                                                                                              | Procedure | CPT-4     |
| 78815 | Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; skull base to mid-thigh                                                                                                                                                                                                                                                          | Procedure | CPT-4     |
| 78816 | Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body                                                                                                                                                                                                                                                                       | Procedure | CPT-4     |
| 78830 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); tomographic (SPECT) with concurrently acquired computed tomography (CT) transmission scan for anatomical review, localization and determination/detection of pathology, single area (eg, head, neck, chest, pelvis) or acquisition, single day imaging | Procedure | CPT-4     |
| 78831 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); tomographic (SPECT), minimum 2 areas (eg, pelvis and knees, chest and abdomen) or separate acquisitions (eg, lung ventilation and perfusion), single day imaging, or single area or acquisition over 2 or more days                                    | Procedure | CPT-4     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Code      |           |

|       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Category  | Code Type |
| 78832 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); tomographic (SPECT) with concurrently acquired computed tomography (CT) transmission scan for anatomical review, localization and determination/detection of pathology, minimum 2 areas (eg, pelvis and knees, chest and abdomen) or separate acquisitions (eg, lung ventilation and perfusion), single day imaging, or single area or acquisition over 2 or more days | Procedure | CPT-4     |
| 78835 | Radiopharmaceutical quantification measurement(s) single area (List separately in addition to code for primary procedure)                                                                                                                                                                                                                                                                                                                                                                                                                               | Procedure | CPT-4     |
| 78999 | Unlisted miscellaneous procedure, diagnostic nuclear medicine                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Procedure | CPT-4     |
| 96400 | Chemotherapy administration, subcutaneous or intramuscular, with or without local anesthesia                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Procedure | CPT-4     |
| 96401 | Chemotherapy administration, subcutaneous or intramuscular; non-hormonal anti-neoplastic                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Procedure | CPT-4     |
| 96402 | Chemotherapy administration, subcutaneous or intramuscular; hormonal anti-neoplastic                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Procedure | CPT-4     |
| 96405 | Chemotherapy administration; intralesional, up to and including 7 lesions                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Procedure | CPT-4     |
| 96406 | Chemotherapy administration; intralesional, more than 7 lesions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Procedure | CPT-4     |
| 96408 | Chemotherapy administration, intravenous; push technique                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Procedure | CPT-4     |
| 96409 | Chemotherapy administration; intravenous, push technique, single or initial substance/drug                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Procedure | CPT-4     |
| 96410 | Chemotherapy administration, intravenous; infusion technique, up to one hour                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Procedure | CPT-4     |
| 96411 | Chemotherapy administration; intravenous, push technique, each additional substance/drug (List separately in addition to code for primary procedure)                                                                                                                                                                                                                                                                                                                                                                                                    | Procedure | CPT-4     |
| 96412 | Chemotherapy administration, intravenous; infusion technique, one to 8 hours, each additional hour (List separately in addition to code for primary procedure)                                                                                                                                                                                                                                                                                                                                                                                          | Procedure | CPT-4     |
| 96413 | Chemotherapy administration, intravenous infusion technique; up to 1 hour, single or initial substance/drug                                                                                                                                                                                                                                                                                                                                                                                                                                             | Procedure | CPT-4     |
| 96414 | Chemotherapy administration, intravenous; infusion technique, initiation of prolonged infusion (more than 8 hours), requiring the use of a portable or implantable pump                                                                                                                                                                                                                                                                                                                                                                                 | Procedure | CPT-4     |
| 96415 | Chemotherapy administration, intravenous infusion technique; each additional hour (List separately in addition to code for primary procedure)                                                                                                                                                                                                                                                                                                                                                                                                           | Procedure | CPT-4     |
| 96416 | Chemotherapy administration, intravenous infusion technique; initiation of prolonged chemotherapy infusion (more than 8 hours), requiring use of a portable or implantable pump                                                                                                                                                                                                                                                                                                                                                                         | Procedure | CPT-4     |
| 96417 | Chemotherapy administration, intravenous infusion technique; each additional sequential infusion (different substance/drug), up to 1 hour (List separately in addition to code for primary procedure)                                                                                                                                                                                                                                                                                                                                                   | Procedure | CPT-4     |
| 96420 | Chemotherapy administration, intra-arterial; push technique                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Procedure | CPT-4     |
| 96422 | Chemotherapy administration, intra-arterial; infusion technique, up to 1 hour                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Procedure | CPT-4     |
| 96423 | Chemotherapy administration, intra-arterial; infusion technique, each additional hour (List separately in addition to code for primary procedure)                                                                                                                                                                                                                                                                                                                                                                                                       | Procedure | CPT-4     |

| Code   | Description                                                                                                                                                                                                        | Code      |           |
|--------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                                                                                                                                                    | Category  | Code Type |
| 96425  | Chemotherapy administration, intra-arterial; infusion technique, initiation of prolonged infusion (more than 8 hours), requiring the use of a portable or implantable pump                                         | Procedure | CPT-4     |
| 96440  | Chemotherapy administration into pleural cavity, requiring and including thoracentesis                                                                                                                             | Procedure | CPT-4     |
| 96445  | Chemotherapy administration into peritoneal cavity, requiring and including peritoneocentesis                                                                                                                      | Procedure | CPT-4     |
| 96446  | Chemotherapy administration into the peritoneal cavity via indwelling port or catheter                                                                                                                             | Procedure | CPT-4     |
| 96450  | Chemotherapy administration, into CNS (eg, intrathecal), requiring and including spinal puncture                                                                                                                   | Procedure | CPT-4     |
| 96500  | Chemotherapy Injection, Intravenous, Single Premixed Agent,                                                                                                                                                        | Procedure | CPT-4     |
| 96501  | Chemotherapy Injection, Intravenous, Single Premixed Agent,                                                                                                                                                        | Procedure | CPT-4     |
| 96504  | Chemotherapy Injection, Intravenous, Multiple Premixed Agents,                                                                                                                                                     | Procedure | CPT-4     |
| 96505  | Chemotherapy Injection, Intravenous, Multiple Premixed Agents,                                                                                                                                                     | Procedure | CPT-4     |
| 96508  | Chemotherapy Injection, Intravenous, Complex, Using One Or                                                                                                                                                         | Procedure | CPT-4     |
| 96509  | Chemotherapy Injection, Intravenous, Complex, Using One Or                                                                                                                                                         | Procedure | CPT-4     |
| 96510  | Chemotherapy Injection, Intravenous, Complex, Using One Or                                                                                                                                                         | Procedure | CPT-4     |
| 96511  | Chemotherapy Injection, Intravenous, Complex, Using One Or                                                                                                                                                         | Procedure | CPT-4     |
| 96512  | Chemotherapy Injection, Intravenous, Complex, Using One Or                                                                                                                                                         | Procedure | CPT-4     |
| 96524  | Chemotherapy Injection, Complex, Administered By Physician,                                                                                                                                                        | Procedure | CPT-4     |
| 96526  | Chemotherapy Injection, Complex, Administered By Physician,                                                                                                                                                        | Procedure | CPT-4     |
| 96535  | Chemotherapy Injection, Complex, Requiring Thoracentesis                                                                                                                                                           | Procedure | CPT-4     |
| 96538  | Chemotherapy Injection, Requiring Lumbar Puncture, Administered                                                                                                                                                    | Procedure | CPT-4     |
| 96540  | Chemotherapy Injection, Intrathecal Via Reservoir, Single Or                                                                                                                                                       | Procedure | CPT-4     |
| 96542  | Chemotherapy injection, subarachnoid or intraventricular via subcutaneous reservoir, single or multiple agents                                                                                                     | Procedure | CPT-4     |
| 96545  | Provision of chemotherapy agent                                                                                                                                                                                    | Procedure | CPT-4     |
| 96549  | Unlisted chemotherapy procedure                                                                                                                                                                                    | Procedure | CPT-4     |
| 96910  | Photochemotherapy; tar and ultraviolet B (Goeckerman treatment) or petrolatum and ultraviolet B                                                                                                                    | Procedure | CPT-4     |
| 96912  | Photochemotherapy; psoralens and ultraviolet A (PUVA)                                                                                                                                                              | Procedure | CPT-4     |
| 96913  | Photochemotherapy (Goeckerman and/or PUVA) for severe photoresponsive dermatoses requiring at least 4-8 hours of care under direct supervision of the physician (includes application of medication and dressings) | Procedure | CPT-4     |
| 99.25  | Injection or infusion of cancer chemotherapeutic substance                                                                                                                                                         | Procedure | ICD-9-CM  |
| 99.28  | Injection or infusion of biological response modifier [BRM] as an antineoplastic agent                                                                                                                             | Procedure | ICD-9-CM  |
| 99555  | Home infusion for chemotherapy, per visit                                                                                                                                                                          | Procedure | CPT-4     |
| 999.81 | Extravasation of vesicant chemotherapy                                                                                                                                                                             | Diagnosis | ICD-9-CM  |
| A4555  | Electrode/transducer for use with electrical stimulation device used for cancer treatment, replacement only                                                                                                        | Procedure | HCPCS     |
| A9545  | Iodine I-131 tositumomab, therapeutic, per treatment dose                                                                                                                                                          | Procedure | HCPCS     |
| C00    | Malignant neoplasm of lip                                                                                                                                                                                          | Diagnosis | ICD-10-CM |

| C00.0  | Malignant neoplasm of external upper lip                                        | Diagnosis | ICD-10-CM |
| C00.1  | Malignant neoplasm of external lower lip                                        | Diagnosis | ICD-10-CM |
| C00.2  | Malignant neoplasm of external lip, unspecified                                 | Diagnosis | ICD-10-CM |
| C00.3  | Malignant neoplasm of upper lip, inner aspect                                   | Diagnosis | ICD-10-CM |
| C00.4  | Malignant neoplasm of lower lip, inner aspect                                   | Diagnosis | ICD-10-CM |
| C00.5  | Malignant neoplasm of lip, unspecified, inner aspect                            | Diagnosis | ICD-10-CM |
| C00.6  | Malignant neoplasm of commissure of lip, unspecified                            | Diagnosis | ICD-10-CM |
| C00.8  | Malignant neoplasm of overlapping sites of lip                                  | Diagnosis | ICD-10-CM |
| C00.9  | Malignant neoplasm of lip, unspecified                                          | Diagnosis | ICD-10-CM |
| C01    | Malignant neoplasm of base of tongue                                            | Diagnosis | ICD-10-CM |
| C02    | Malignant neoplasm of other and unspecified parts of tongue                     | Diagnosis | ICD-10-CM |
| C02.0  | Malignant neoplasm of dorsal surface of tongue                                  | Diagnosis | ICD-10-CM |
| C02.1  | Malignant neoplasm of border of tongue                                          | Diagnosis | ICD-10-CM |
| C02.2  | Malignant neoplasm of ventral surface of tongue                                 | Diagnosis | ICD-10-CM |
| C02.3  | Malignant neoplasm of anterior two-thirds of tongue, part unspecified           | Diagnosis | ICD-10-CM |
| C02.4  | Malignant neoplasm of lingual tonsil                                            | Diagnosis | ICD-10-CM |
| C02.8  | Malignant neoplasm of overlapping sites of tongue                               | Diagnosis | ICD-10-CM |
| C02.9  | Malignant neoplasm of tongue, unspecified                                       | Diagnosis | ICD-10-CM |
| C03    | Malignant neoplasm of gum                                                       | Diagnosis | ICD-10-CM |
| C03.0  | Malignant neoplasm of upper gum                                                 | Diagnosis | ICD-10-CM |
| C03.1  | Malignant neoplasm of lower gum                                                 | Diagnosis | ICD-10-CM |
| C03.9  | Malignant neoplasm of gum, unspecified                                          | Diagnosis | ICD-10-CM |
| C04    | Malignant neoplasm of floor of mouth                                            | Diagnosis | ICD-10-CM |
| C04.0  | Malignant neoplasm of anterior floor of mouth                                   | Diagnosis | ICD-10-CM |
| C04.1  | Malignant neoplasm of lateral floor of mouth                                    | Diagnosis | ICD-10-CM |
| C04.8  | Malignant neoplasm of overlapping sites of floor of mouth                       | Diagnosis | ICD-10-CM |
| C04.9  | Malignant neoplasm of floor of mouth, unspecified                               | Diagnosis | ICD-10-CM |
| C05    | Malignant neoplasm of palate                                                    | Diagnosis | ICD-10-CM |
| C05.0  | Malignant neoplasm of hard palate                                               | Diagnosis | ICD-10-CM |
| C05.1  | Malignant neoplasm of soft palate                                               | Diagnosis | ICD-10-CM |
| C05.2  | Malignant neoplasm of uvula                                                     | Diagnosis | ICD-10-CM |
| C05.8  | Malignant neoplasm of overlapping sites of palate                               | Diagnosis | ICD-10-CM |
| C05.9  | Malignant neoplasm of palate, unspecified                                       | Diagnosis | ICD-10-CM |
| C06    | Malignant neoplasm of other and unspecified parts of mouth                      | Diagnosis | ICD-10-CM |
| C06.0  | Malignant neoplasm of cheek mucosa                                              | Diagnosis | ICD-10-CM |
| C06.1  | Malignant neoplasm of vestibule of mouth                                        | Diagnosis | ICD-10-CM |
| C06.2  | Malignant neoplasm of retromolar area                                           | Diagnosis | ICD-10-CM |
| C06.8  | Malignant neoplasm of overlapping sites of other and unspecified parts of mouth | Diagnosis | ICD-10-CM |
| C06.80 | Malignant neoplasm of overlapping sites of unspecified parts of mouth           | Diagnosis | ICD-10-CM |
| C06.89 | Malignant neoplasm of overlapping sites of other parts of mouth                 | Diagnosis | ICD-10-CM |
| C06.9  | Malignant neoplasm of mouth, unspecified                                        | Diagnosis | ICD-10-CM |
| C07    | Malignant neoplasm of parotid gland                                             | Diagnosis | ICD-10-CM |
| C08    | Malignant neoplasm of other and unspecified major salivary glands               | Diagnosis | ICD-10-CM |

| Code  | Description                                                                           | Code      |           |
|-------|---------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                       | Category  | Code Type |
| C08.0 | Malignant neoplasm of submandibular gland                                             | Diagnosis | ICD-10-CM |
| C08.1 | Malignant neoplasm of sublingual gland                                                | Diagnosis | ICD-10-CM |
| C08.9 | Malignant neoplasm of major salivary gland, unspecified                               | Diagnosis | ICD-10-CM |
| C09   | Malignant neoplasm of tonsil                                                          | Diagnosis | ICD-10-CM |
| C09.0 | Malignant neoplasm of tonsillar fossa                                                 | Diagnosis | ICD-10-CM |
| C09.1 | Malignant neoplasm of tonsillar pillar (anterior) (posterior)                         | Diagnosis | ICD-10-CM |
| C09.8 | Malignant neoplasm of overlapping sites of tonsil                                     | Diagnosis | ICD-10-CM |
| C09.9 | Malignant neoplasm of tonsil, unspecified                                             | Diagnosis | ICD-10-CM |
| C10   | Malignant neoplasm of oropharynx                                                      | Diagnosis | ICD-10-CM |
| C10.0 | Malignant neoplasm of vallecula                                                       | Diagnosis | ICD-10-CM |
| C10.1 | Malignant neoplasm of anterior surface of epiglottis                                  | Diagnosis | ICD-10-CM |
| C10.2 | Malignant neoplasm of lateral wall of oropharynx                                      | Diagnosis | ICD-10-CM |
| C10.3 | Malignant neoplasm of posterior wall of oropharynx                                    | Diagnosis | ICD-10-CM |
| C10.4 | Malignant neoplasm of branchial cleft                                                 | Diagnosis | ICD-10-CM |
| C10.8 | Malignant neoplasm of overlapping sites of oropharynx                                 | Diagnosis | ICD-10-CM |
| C10.9 | Malignant neoplasm of oropharynx, unspecified                                         | Diagnosis | ICD-10-CM |
| C1084 | Denileukin diftitox, 300 mcg, ontak iv                                                | Procedure | HCPCS     |
| C1086 | Temozolomide, 5 mg, temodar                                                           | Procedure | HCPCS     |
| C11   | Malignant neoplasm of nasopharynx                                                     | Diagnosis | ICD-10-CM |
| C11.0 | Malignant neoplasm of superior wall of nasopharynx                                    | Diagnosis | ICD-10-CM |
| C11.1 | Malignant neoplasm of posterior wall of nasopharynx                                   | Diagnosis | ICD-10-CM |
| C11.2 | Malignant neoplasm of lateral wall of nasopharynx                                     | Diagnosis | ICD-10-CM |
| C11.3 | Malignant neoplasm of anterior wall of nasopharynx                                    | Diagnosis | ICD-10-CM |
| C11.8 | Malignant neoplasm of overlapping sites of nasopharynx                                | Diagnosis | ICD-10-CM |
| C11.9 | Malignant neoplasm of nasopharynx, unspecified                                        | Diagnosis | ICD-10-CM |
| C1166 | Injection, cytarabine liposome, per 10 mg                                             | Procedure | HCPCS     |
| C1167 | Injection, epirubicin HCl, 2 mg                                                       | Procedure | HCPCS     |
| C1178 | Injection, busulfan, per 6 mg                                                         | Procedure | HCPCS     |
| C12   | Malignant neoplasm of pyriform sinus                                                  | Diagnosis | ICD-10-CM |
| C13   | Malignant neoplasm of hypopharynx                                                     | Diagnosis | ICD-10-CM |
| C13.0 | Malignant neoplasm of postcricoid region                                              | Diagnosis | ICD-10-CM |
| C13.1 | Malignant neoplasm of aryepiglottic fold, hypopharyngeal aspect                       | Diagnosis | ICD-10-CM |
| C13.2 | Malignant neoplasm of posterior wall of hypopharynx                                   | Diagnosis | ICD-10-CM |
| C13.8 | Malignant neoplasm of overlapping sites of hypopharynx                                | Diagnosis | ICD-10-CM |
| C13.9 | Malignant neoplasm of hypopharynx, unspecified                                        | Diagnosis | ICD-10-CM |
| C14   | Malignant neoplasm of other and ill-defined sites in the lip, oral cavity and pharynx | Diagnosis | ICD-10-CM |
| C14.0 | Malignant neoplasm of pharynx, unspecified                                            | Diagnosis | ICD-10-CM |
| C14.2 | Malignant neoplasm of Waldeyer's ring                                                 | Diagnosis | ICD-10-CM |
| C14.8 | Malignant neoplasm of overlapping sites of lip, oral cavity and pharynx               | Diagnosis | ICD-10-CM |
| C15   | Malignant neoplasm of esophagus                                                       | Diagnosis | ICD-10-CM |
| C15.3 | Malignant neoplasm of upper third of esophagus                                        | Diagnosis | ICD-10-CM |
| C15.4 | Malignant neoplasm of middle third of esophagus                                       | Diagnosis | ICD-10-CM |
| C15.5 | Malignant neoplasm of lower third of esophagus                                        | Diagnosis | ICD-10-CM |

| C41.0   | Malignant neoplasm of bones of skull and face                                               | Diagnosis | ICD-10-CM |
| C41.1   | Malignant neoplasm of mandible                                                              | Diagnosis | ICD-10-CM |
| C41.2   | Malignant neoplasm of vertebral column                                                      | Diagnosis | ICD-10-CM |
| C41.3   | Malignant neoplasm of ribs, sternum and clavicle                                            | Diagnosis | ICD-10-CM |
| C41.4   | Malignant neoplasm of pelvic bones, sacrum and coccyx                                       | Diagnosis | ICD-10-CM |
| C41.9   | Malignant neoplasm of bone and articular cartilage, unspecified                             | Diagnosis | ICD-10-CM |
| C43     | Malignant melanoma of skin                                                                  | Diagnosis | ICD-10-CM |
| C43.0   | Malignant melanoma of lip                                                                   | Diagnosis | ICD-10-CM |
| C43.1   | Malignant melanoma of eyelid, including canthus                                             | Diagnosis | ICD-10-CM |
| C43.10  | Malignant melanoma of unspecified eyelid, including canthus                                 | Diagnosis | ICD-10-CM |
| C43.11  | Malignant melanoma of right eyelid, including canthus                                       | Diagnosis | ICD-10-CM |
| C43.111 | Malignant melanoma of right upper eyelid, including canthus                                 | Diagnosis | ICD-10-CM |
| C43.112 | Malignant melanoma of right lower eyelid, including canthus                                 | Diagnosis | ICD-10-CM |
| C43.12  | Malignant melanoma of left eyelid, including canthus                                        | Diagnosis | ICD-10-CM |
| C43.121 | Malignant melanoma of left upper eyelid, including canthus                                  | Diagnosis | ICD-10-CM |
| C43.122 | Malignant melanoma of left lower eyelid, including canthus                                  | Diagnosis | ICD-10-CM |
| C43.2   | Malignant melanoma of ear and external auricular canal                                      | Diagnosis | ICD-10-CM |
| C43.20  | Malignant melanoma of unspecified ear and external auricular canal                          | Diagnosis | ICD-10-CM |
| C43.21  | Malignant melanoma of right ear and external auricular canal                                | Diagnosis | ICD-10-CM |
| C43.22  | Malignant melanoma of left ear and external auricular canal                                 | Diagnosis | ICD-10-CM |
| C43.3   | Malignant melanoma of other and unspecified parts of face                                   | Diagnosis | ICD-10-CM |
| C43.30  | Malignant melanoma of unspecified part of face                                              | Diagnosis | ICD-10-CM |
| C43.31  | Malignant melanoma of nose                                                                  | Diagnosis | ICD-10-CM |
| C43.39  | Malignant melanoma of other parts of face                                                   | Diagnosis | ICD-10-CM |
| C43.4   | Malignant melanoma of scalp and neck                                                        | Diagnosis | ICD-10-CM |
| C43.5   | Malignant melanoma of trunk                                                                 | Diagnosis | ICD-10-CM |
| C43.51  | Malignant melanoma of anal skin                                                             | Diagnosis | ICD-10-CM |
| C43.52  | Malignant melanoma of skin of breast                                                        | Diagnosis | ICD-10-CM |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                                           | Code      |           |
|--------|---------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                       | Category  | Code Type |
| C43.59 | Malignant melanoma of other part of trunk                                             | Diagnosis | ICD-10-CM |
| C43.6  | Malignant melanoma of upper limb, including shoulder                                  | Diagnosis | ICD-10-CM |
| C43.60 | Malignant melanoma of unspecified upper limb, including shoulder                      | Diagnosis | ICD-10-CM |
| C43.61 | Malignant melanoma of right upper limb, including shoulder                            | Diagnosis | ICD-10-CM |
| C43.62 | Malignant melanoma of left upper limb, including shoulder                             | Diagnosis | ICD-10-CM |
| C43.7  | Malignant melanoma of lower limb, including hip                                       | Diagnosis | ICD-10-CM |
| C43.70 | Malignant melanoma of unspecified lower limb, including hip                           | Diagnosis | ICD-10-CM |
| C43.71 | Malignant melanoma of right lower limb, including hip                                 | Diagnosis | ICD-10-CM |
| C43.72 | Malignant melanoma of left lower limb, including hip                                  | Diagnosis | ICD-10-CM |
| C43.8  | Malignant melanoma of overlapping sites of skin                                       | Diagnosis | ICD-10-CM |
| C43.9  | Malignant melanoma of skin, unspecified                                               | Diagnosis | ICD-10-CM |
| C45    | Mesothelioma                                                                          | Diagnosis | ICD-10-CM |
| C45.0  | Mesothelioma of pleura                                                                | Diagnosis | ICD-10-CM |
| C45.1  | Mesothelioma of peritoneum                                                            | Diagnosis | ICD-10-CM |
| C45.2  | Mesothelioma of pericardium                                                           | Diagnosis | ICD-10-CM |
| C45.7  | Mesothelioma of other sites                                                           | Diagnosis | ICD-10-CM |
| C45.9  | Mesothelioma, unspecified                                                             | Diagnosis | ICD-10-CM |
| C46    | Kaposi's sarcoma                                                                      | Diagnosis | ICD-10-CM |
| C46.0  | Kaposi's sarcoma of skin                                                              | Diagnosis | ICD-10-CM |
| C46.1  | Kaposi's sarcoma of soft tissue                                                       | Diagnosis | ICD-10-CM |
| C46.2  | Kaposi's sarcoma of palate                                                            | Diagnosis | ICD-10-CM |
| C46.3  | Kaposi's sarcoma of lymph nodes                                                       | Diagnosis | ICD-10-CM |
| C46.4  | Kaposi's sarcoma of gastrointestinal sites                                            | Diagnosis | ICD-10-CM |
| C46.5  | Kaposi's sarcoma of lung                                                              | Diagnosis | ICD-10-CM |
| C46.50 | Kaposi's sarcoma of unspecified lung                                                  | Diagnosis | ICD-10-CM |
| C46.51 | Kaposi's sarcoma of right lung                                                        | Diagnosis | ICD-10-CM |
| C46.52 | Kaposi's sarcoma of left lung                                                         | Diagnosis | ICD-10-CM |
| C46.7  | Kaposi's sarcoma of other sites                                                       | Diagnosis | ICD-10-CM |
| C46.9  | Kaposi's sarcoma, unspecified                                                         | Diagnosis | ICD-10-CM |
| C47    | Malignant neoplasm of peripheral nerves and autonomic nervous system                  | Diagnosis | ICD-10-CM |
| C47.0  | Malignant neoplasm of peripheral nerves of head, face and neck                        | Diagnosis | ICD-10-CM |
| C47.1  | Malignant neoplasm of peripheral nerves of upper limb, including shoulder             | Diagnosis | ICD-10-CM |
| C47.10 | Malignant neoplasm of peripheral nerves of unspecified upper limb, including shoulder | Diagnosis | ICD-10-CM |
| C47.11 | Malignant neoplasm of peripheral nerves of right upper limb, including shoulder       | Diagnosis | ICD-10-CM |
| C47.12 | Malignant neoplasm of peripheral nerves of left upper limb, including shoulder        | Diagnosis | ICD-10-CM |
| C47.2  | Malignant neoplasm of peripheral nerves of lower limb, including hip                  | Diagnosis | ICD-10-CM |
| C47.20 | Malignant neoplasm of peripheral nerves of unspecified lower limb, including hip      | Diagnosis | ICD-10-CM |
| C47.21 | Malignant neoplasm of peripheral nerves of right lower limb, including hip            | Diagnosis | ICD-10-CM |
| C47.22 | Malignant neoplasm of peripheral nerves of left lower limb, including hip             | Diagnosis | ICD-10-CM |
| C47.3  | Malignant neoplasm of peripheral nerves of thorax                                     | Diagnosis | ICD-10-CM |
| C47.4  | Malignant neoplasm of peripheral nerves of abdomen                                    | Diagnosis | ICD-10-CM |
| C47.5  | Malignant neoplasm of peripheral nerves of pelvis                                     | Diagnosis | ICD-10-CM |

| C62.9  | Malignant neoplasm of testis, unspecified whether descended or undescended             | Diagnosis | ICD-10-CM |
| C62.90 | Malignant neoplasm of unspecified testis, unspecified whether descended or undescended | Diagnosis | ICD-10-CM |
| C62.91 | Malignant neoplasm of right testis, unspecified whether descended or undescended       | Diagnosis | ICD-10-CM |
| C62.92 | Malignant neoplasm of left testis, unspecified whether descended or undescended        | Diagnosis | ICD-10-CM |
| C63    | Malignant neoplasm of other and unspecified male genital organs                        | Diagnosis | ICD-10-CM |
| C63.0  | Malignant neoplasm of epididymis                                                       | Diagnosis | ICD-10-CM |
| C63.00 | Malignant neoplasm of unspecified epididymis                                           | Diagnosis | ICD-10-CM |
| C63.01 | Malignant neoplasm of right epididymis                                                 | Diagnosis | ICD-10-CM |
| C63.02 | Malignant neoplasm of left epididymis                                                  | Diagnosis | ICD-10-CM |
| C63.1  | Malignant neoplasm of spermatic cord                                                   | Diagnosis | ICD-10-CM |
| C63.10 | Malignant neoplasm of unspecified spermatic cord                                       | Diagnosis | ICD-10-CM |
| C63.11 | Malignant neoplasm of right spermatic cord                                             | Diagnosis | ICD-10-CM |
| C63.12 | Malignant neoplasm of left spermatic cord                                              | Diagnosis | ICD-10-CM |
| C63.2  | Malignant neoplasm of scrotum                                                          | Diagnosis | ICD-10-CM |
| C63.7  | Malignant neoplasm of other specified male genital organs                              | Diagnosis | ICD-10-CM |
| C63.8  | Malignant neoplasm of overlapping sites of male genital organs                         | Diagnosis | ICD-10-CM |
| C63.9  | Malignant neoplasm of male genital organ, unspecified                                  | Diagnosis | ICD-10-CM |
| C65    | Malignant neoplasm of renal pelvis                                                     | Diagnosis | ICD-10-CM |
| C65.1  | Malignant neoplasm of right renal pelvis                                               | Diagnosis | ICD-10-CM |
| C65.2  | Malignant neoplasm of left renal pelvis                                                | Diagnosis | ICD-10-CM |
| C65.9  | Malignant neoplasm of unspecified renal pelvis                                         | Diagnosis | ICD-10-CM |
| C66    | Malignant neoplasm of ureter                                                           | Diagnosis | ICD-10-CM |
| C66.1  | Malignant neoplasm of right ureter                                                     | Diagnosis | ICD-10-CM |
| C66.2  | Malignant neoplasm of left ureter                                                      | Diagnosis | ICD-10-CM |
| C66.9  | Malignant neoplasm of unspecified ureter                                               | Diagnosis | ICD-10-CM |
| C67    | Malignant neoplasm of bladder                                                          | Diagnosis | ICD-10-CM |
| C67.0  | Malignant neoplasm of trigone of bladder                                               | Diagnosis | ICD-10-CM |
| C67.1  | Malignant neoplasm of dome of bladder                                                  | Diagnosis | ICD-10-CM |
| C67.2  | Malignant neoplasm of lateral wall of bladder                                          | Diagnosis | ICD-10-CM |
| C67.3  | Malignant neoplasm of anterior wall of bladder                                         | Diagnosis | ICD-10-CM |
| C67.4  | Malignant neoplasm of posterior wall of bladder                                        | Diagnosis | ICD-10-CM |
| C67.5  | Malignant neoplasm of bladder neck                                                     | Diagnosis | ICD-10-CM |
| C67.6  | Malignant neoplasm of ureteric orifice                                                 | Diagnosis | ICD-10-CM |
| C67.7  | Malignant neoplasm of urachus                                                          | Diagnosis | ICD-10-CM |
| C67.8  | Malignant neoplasm of overlapping sites of bladder                                     | Diagnosis | ICD-10-CM |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                           | Code      |           |
|--------|-----------------------------------------------------------------------|-----------|-----------|
|        |                                                                       | Category  | Code Type |
| C67.9  | Malignant neoplasm of bladder, unspecified                            | Diagnosis | ICD-10-CM |
| C68    | Malignant neoplasm of other and unspecified urinary organs            | Diagnosis | ICD-10-CM |
| C68.0  | Malignant neoplasm of urethra                                         | Diagnosis | ICD-10-CM |
| C68.1  | Malignant neoplasm of paraurethral glands                             | Diagnosis | ICD-10-CM |
| C68.8  | Malignant neoplasm of overlapping sites of urinary organs             | Diagnosis | ICD-10-CM |
| C68.9  | Malignant neoplasm of urinary organ, unspecified                      | Diagnosis | ICD-10-CM |
| C69    | Malignant neoplasm of eye and adnexa                                  | Diagnosis | ICD-10-CM |
| C69.0  | Malignant neoplasm of conjunctiva                                     | Diagnosis | ICD-10-CM |
| C69.00 | Malignant neoplasm of unspecified conjunctiva                         | Diagnosis | ICD-10-CM |
| C69.01 | Malignant neoplasm of right conjunctiva                               | Diagnosis | ICD-10-CM |
| C69.02 | Malignant neoplasm of left conjunctiva                                | Diagnosis | ICD-10-CM |
| C69.1  | Malignant neoplasm of cornea                                          | Diagnosis | ICD-10-CM |
| C69.10 | Malignant neoplasm of unspecified cornea                              | Diagnosis | ICD-10-CM |
| C69.11 | Malignant neoplasm of right cornea                                    | Diagnosis | ICD-10-CM |
| C69.12 | Malignant neoplasm of left cornea                                     | Diagnosis | ICD-10-CM |
| C69.2  | Malignant neoplasm of retina                                          | Diagnosis | ICD-10-CM |
| C69.20 | Malignant neoplasm of unspecified retina                              | Diagnosis | ICD-10-CM |
| C69.21 | Malignant neoplasm of right retina                                    | Diagnosis | ICD-10-CM |
| C69.22 | Malignant neoplasm of left retina                                     | Diagnosis | ICD-10-CM |
| C69.3  | Malignant neoplasm of choroid                                         | Diagnosis | ICD-10-CM |
| C69.30 | Malignant neoplasm of unspecified choroid                             | Diagnosis | ICD-10-CM |
| C69.31 | Malignant neoplasm of right choroid                                   | Diagnosis | ICD-10-CM |
| C69.32 | Malignant neoplasm of left choroid                                    | Diagnosis | ICD-10-CM |
| C69.4  | Malignant neoplasm of ciliary body                                    | Diagnosis | ICD-10-CM |
| C69.40 | Malignant neoplasm of unspecified ciliary body                        | Diagnosis | ICD-10-CM |
| C69.41 | Malignant neoplasm of right ciliary body                              | Diagnosis | ICD-10-CM |
| C69.42 | Malignant neoplasm of left ciliary body                               | Diagnosis | ICD-10-CM |
| C69.5  | Malignant neoplasm of lacrimal gland and duct                         | Diagnosis | ICD-10-CM |
| C69.50 | Malignant neoplasm of unspecified lacrimal gland and duct             | Diagnosis | ICD-10-CM |
| C69.51 | Malignant neoplasm of right lacrimal gland and duct                   | Diagnosis | ICD-10-CM |
| C69.52 | Malignant neoplasm of left lacrimal gland and duct                    | Diagnosis | ICD-10-CM |
| C69.6  | Malignant neoplasm of orbit                                           | Diagnosis | ICD-10-CM |
| C69.60 | Malignant neoplasm of unspecified orbit                               | Diagnosis | ICD-10-CM |
| C69.61 | Malignant neoplasm of right orbit                                     | Diagnosis | ICD-10-CM |
| C69.62 | Malignant neoplasm of left orbit                                      | Diagnosis | ICD-10-CM |
| C69.8  | Malignant neoplasm of overlapping sites of eye and adnexa             | Diagnosis | ICD-10-CM |
| C69.80 | Malignant neoplasm of overlapping sites of unspecified eye and adnexa | Diagnosis | ICD-10-CM |
| C69.81 | Malignant neoplasm of overlapping sites of right eye and adnexa       | Diagnosis | ICD-10-CM |
| C69.82 | Malignant neoplasm of overlapping sites of left eye and adnexa        | Diagnosis | ICD-10-CM |
| C69.9  | Malignant neoplasm of unspecified site of eye                         | Diagnosis | ICD-10-CM |
| C69.90 | Malignant neoplasm of unspecified site of unspecified eye             | Diagnosis | ICD-10-CM |
| C69.91 | Malignant neoplasm of unspecified site of right eye                   | Diagnosis | ICD-10-CM |
| C69.92 | Malignant neoplasm of unspecified site of left eye                    | Diagnosis | ICD-10-CM |

| C71    | Malignant neoplasm of brain                                                                 | Diagnosis | ICD-10-CM |
| C71.0  | Malignant neoplasm of cerebrum, except lobes and ventricles                                 | Diagnosis | ICD-10-CM |
| C71.1  | Malignant neoplasm of frontal lobe                                                          | Diagnosis | ICD-10-CM |
| C71.2  | Malignant neoplasm of temporal lobe                                                         | Diagnosis | ICD-10-CM |
| C71.3  | Malignant neoplasm of parietal lobe                                                         | Diagnosis | ICD-10-CM |
| C71.4  | Malignant neoplasm of occipital lobe                                                        | Diagnosis | ICD-10-CM |
| C71.5  | Malignant neoplasm of cerebral ventricle                                                    | Diagnosis | ICD-10-CM |
| C71.6  | Malignant neoplasm of cerebellum                                                            | Diagnosis | ICD-10-CM |
| C71.7  | Malignant neoplasm of brain stem                                                            | Diagnosis | ICD-10-CM |
| C71.8  | Malignant neoplasm of overlapping sites of brain                                            | Diagnosis | ICD-10-CM |
| C71.9  | Malignant neoplasm of brain, unspecified                                                    | Diagnosis | ICD-10-CM |
| C72    | Malignant neoplasm of spinal cord, cranial nerves and other parts of central nervous system | Diagnosis | ICD-10-CM |
| C72.0  | Malignant neoplasm of spinal cord                                                           | Diagnosis | ICD-10-CM |
| C72.1  | Malignant neoplasm of cauda equina                                                          | Diagnosis | ICD-10-CM |
| C72.2  | Malignant neoplasm of olfactory nerve                                                       | Diagnosis | ICD-10-CM |
| C72.20 | Malignant neoplasm of unspecified olfactory nerve                                           | Diagnosis | ICD-10-CM |
| C72.21 | Malignant neoplasm of right olfactory nerve                                                 | Diagnosis | ICD-10-CM |
| C72.22 | Malignant neoplasm of left olfactory nerve                                                  | Diagnosis | ICD-10-CM |
| C72.3  | Malignant neoplasm of optic nerve                                                           | Diagnosis | ICD-10-CM |
| C72.30 | Malignant neoplasm of unspecified optic nerve                                               | Diagnosis | ICD-10-CM |
| C72.31 | Malignant neoplasm of right optic nerve                                                     | Diagnosis | ICD-10-CM |
| C72.32 | Malignant neoplasm of left optic nerve                                                      | Diagnosis | ICD-10-CM |
| C72.4  | Malignant neoplasm of acoustic nerve                                                        | Diagnosis | ICD-10-CM |
| C72.40 | Malignant neoplasm of unspecified acoustic nerve                                            | Diagnosis | ICD-10-CM |
| C72.41 | Malignant neoplasm of right acoustic nerve                                                  | Diagnosis | ICD-10-CM |
| C72.42 | Malignant neoplasm of left acoustic nerve                                                   | Diagnosis | ICD-10-CM |
| C72.5  | Malignant neoplasm of other and unspecified cranial nerves                                  | Diagnosis | ICD-10-CM |
| C72.50 | Malignant neoplasm of unspecified cranial nerve                                             | Diagnosis | ICD-10-CM |
| C72.59 | Malignant neoplasm of other cranial nerves                                                  | Diagnosis | ICD-10-CM |
| C72.9  | Malignant neoplasm of central nervous system, unspecified                                   | Diagnosis | ICD-10-CM |

| C83.71 | Burkitt lymphoma, lymph nodes of head, face, and neck                                         | Diagnosis | ICD-10-CM |
| C83.72 | Burkitt lymphoma, intrathoracic lymph nodes                                                   | Diagnosis | ICD-10-CM |
| C83.73 | Burkitt lymphoma, intra-abdominal lymph nodes                                                 | Diagnosis | ICD-10-CM |
| C83.74 | Burkitt lymphoma, lymph nodes of axilla and upper limb                                        | Diagnosis | ICD-10-CM |
| C83.75 | Burkitt lymphoma, lymph nodes of inguinal region and lower limb                               | Diagnosis | ICD-10-CM |
| C83.76 | Burkitt lymphoma, intrapelvic lymph nodes                                                     | Diagnosis | ICD-10-CM |
| C83.77 | Burkitt lymphoma, spleen                                                                      | Diagnosis | ICD-10-CM |
| C83.78 | Burkitt lymphoma, lymph nodes of multiple sites                                               | Diagnosis | ICD-10-CM |
| C83.79 | Burkitt lymphoma, extranodal and solid organ sites                                            | Diagnosis | ICD-10-CM |
| C83.8  | Other non-follicular lymphoma                                                                 | Diagnosis | ICD-10-CM |
| C83.80 | Other non-follicular lymphoma, unspecified site                                               | Diagnosis | ICD-10-CM |
| C83.81 | Other non-follicular lymphoma, lymph nodes of head, face, and neck                            | Diagnosis | ICD-10-CM |
| C83.82 | Other non-follicular lymphoma, intrathoracic lymph nodes                                      | Diagnosis | ICD-10-CM |
| C83.83 | Other non-follicular lymphoma, intra-abdominal lymph nodes                                    | Diagnosis | ICD-10-CM |
| C83.84 | Other non-follicular lymphoma, lymph nodes of axilla and upper limb                           | Diagnosis | ICD-10-CM |
| C83.85 | Other non-follicular lymphoma, lymph nodes of inguinal region and lower limb                  | Diagnosis | ICD-10-CM |
| C83.86 | Other non-follicular lymphoma, intrapelvic lymph nodes                                        | Diagnosis | ICD-10-CM |
| C83.87 | Other non-follicular lymphoma, spleen                                                         | Diagnosis | ICD-10-CM |
| C83.88 | Other non-follicular lymphoma, lymph nodes of multiple sites                                  | Diagnosis | ICD-10-CM |
| C83.89 | Other non-follicular lymphoma, extranodal and solid organ sites                               | Diagnosis | ICD-10-CM |
| C83.9  | Non-follicular (diffuse) lymphoma, unspecified                                                | Diagnosis | ICD-10-CM |
| C83.90 | Non-follicular (diffuse) lymphoma, unspecified, unspecified site                              | Diagnosis | ICD-10-CM |
| C83.91 | Non-follicular (diffuse) lymphoma, unspecified, lymph nodes of head, face, and neck           | Diagnosis | ICD-10-CM |
| C83.92 | Non-follicular (diffuse) lymphoma, unspecified, intrathoracic lymph nodes                     | Diagnosis | ICD-10-CM |
| C83.93 | Non-follicular (diffuse) lymphoma, unspecified, intra-abdominal lymph nodes                   | Diagnosis | ICD-10-CM |
| C83.94 | Non-follicular (diffuse) lymphoma, unspecified, lymph nodes of axilla and upper limb          | Diagnosis | ICD-10-CM |
| C83.95 | Non-follicular (diffuse) lymphoma, unspecified, lymph nodes of inguinal region and lower limb | Diagnosis | ICD-10-CM |
| C83.96 | Non-follicular (diffuse) lymphoma, unspecified, intrapelvic lymph nodes                       | Diagnosis | ICD-10-CM |
| C83.97 | Non-follicular (diffuse) lymphoma, unspecified, spleen                                        | Diagnosis | ICD-10-CM |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                                               | Code      |           |

|        |                                                                                              | Category  | Code Type |
| C84.Z0 | Other mature T/NK-cell lymphomas, unspecified site                                           | Diagnosis | ICD-10-CM |
| C84.Z1 | Other mature T/NK-cell lymphomas, lymph nodes of head, face, and neck                        | Diagnosis | ICD-10-CM |
| C84.Z2 | Other mature T/NK-cell lymphomas, intrathoracic lymph nodes                                  | Diagnosis | ICD-10-CM |
| C84.Z3 | Other mature T/NK-cell lymphomas, intra-abdominal lymph nodes                                | Diagnosis | ICD-10-CM |
| C84.Z4 | Other mature T/NK-cell lymphomas, lymph nodes of axilla and upper limb                       | Diagnosis | ICD-10-CM |
| C84.Z5 | Other mature T/NK-cell lymphomas, lymph nodes of inguinal region and lower limb              | Diagnosis | ICD-10-CM |
| C84.Z6 | Other mature T/NK-cell lymphomas, intrapelvic lymph nodes                                    | Diagnosis | ICD-10-CM |
| C84.Z7 | Other mature T/NK-cell lymphomas, spleen                                                     | Diagnosis | ICD-10-CM |
| C84.Z8 | Other mature T/NK-cell lymphomas, lymph nodes of multiple sites                              | Diagnosis | ICD-10-CM |
| C84.Z9 | Other mature T/NK-cell lymphomas, extranodal and solid organ sites                           | Diagnosis | ICD-10-CM |
| C85    | Other specified and unspecified types of non-Hodgkin lymphoma                                | Diagnosis | ICD-10-CM |
| C85.1  | Unspecified B-cell lymphoma                                                                  | Diagnosis | ICD-10-CM |
| C85.10 | Unspecified B-cell lymphoma, unspecified site                                                | Diagnosis | ICD-10-CM |
| C85.11 | Unspecified B-cell lymphoma, lymph nodes of head, face, and neck                             | Diagnosis | ICD-10-CM |
| C85.12 | Unspecified B-cell lymphoma, intrathoracic lymph nodes                                       | Diagnosis | ICD-10-CM |
| C85.13 | Unspecified B-cell lymphoma, intra-abdominal lymph nodes                                     | Diagnosis | ICD-10-CM |
| C85.14 | Unspecified B-cell lymphoma, lymph nodes of axilla and upper limb                            | Diagnosis | ICD-10-CM |
| C85.15 | Unspecified B-cell lymphoma, lymph nodes of inguinal region and lower limb                   | Diagnosis | ICD-10-CM |
| C85.16 | Unspecified B-cell lymphoma, intrapelvic lymph nodes                                         | Diagnosis | ICD-10-CM |
| C85.17 | Unspecified B-cell lymphoma, spleen                                                          | Diagnosis | ICD-10-CM |
| C85.18 | Unspecified B-cell lymphoma, lymph nodes of multiple sites                                   | Diagnosis | ICD-10-CM |
| C85.19 | Unspecified B-cell lymphoma, extranodal and solid organ sites                                | Diagnosis | ICD-10-CM |
| C85.2  | Mediastinal (thymic) large B-cell lymphoma                                                   | Diagnosis | ICD-10-CM |
| C85.20 | Mediastinal (thymic) large B-cell lymphoma, unspecified site                                 | Diagnosis | ICD-10-CM |
| C85.21 | Mediastinal (thymic) large B-cell lymphoma, lymph nodes of head, face, and neck              | Diagnosis | ICD-10-CM |
| C85.22 | Mediastinal (thymic) large B-cell lymphoma, intrathoracic lymph nodes                        | Diagnosis | ICD-10-CM |
| C85.23 | Mediastinal (thymic) large B-cell lymphoma, intra-abdominal lymph nodes                      | Diagnosis | ICD-10-CM |
| C85.24 | Mediastinal (thymic) large B-cell lymphoma, lymph nodes of axilla and upper limb             | Diagnosis | ICD-10-CM |
| C85.25 | Mediastinal (thymic) large B-cell lymphoma, lymph nodes of inguinal region and lower limb    | Diagnosis | ICD-10-CM |
| C85.26 | Mediastinal (thymic) large B-cell lymphoma, intrapelvic lymph nodes                          | Diagnosis | ICD-10-CM |
| C85.27 | Mediastinal (thymic) large B-cell lymphoma, spleen                                           | Diagnosis | ICD-10-CM |
| C85.28 | Mediastinal (thymic) large B-cell lymphoma, lymph nodes of multiple sites                    | Diagnosis | ICD-10-CM |
| C85.29 | Mediastinal (thymic) large B-cell lymphoma, extranodal and solid organ sites                 | Diagnosis | ICD-10-CM |
| C85.8  | Other specified types of non-Hodgkin lymphoma                                                | Diagnosis | ICD-10-CM |
| C85.80 | Other specified types of non-Hodgkin lymphoma, unspecified site                              | Diagnosis | ICD-10-CM |
| C85.81 | Other specified types of non-Hodgkin lymphoma, lymph nodes of head, face, and                | Diagnosis | ICD-10-CM |
| C85.82 | Other specified types of non-Hodgkin lymphoma, intrathoracic lymph nodes                     | Diagnosis | ICD-10-CM |
| C85.83 | Other specified types of non-Hodgkin lymphoma, intra-abdominal lymph nodes                   | Diagnosis | ICD-10-CM |
| C85.84 | Other specified types of non-Hodgkin lymphoma, lymph nodes of axilla and upper limb          | Diagnosis | ICD-10-CM |
| C85.85 | Other specified types of non-Hodgkin lymphoma, lymph nodes of inguinal region and lower limb | Diagnosis | ICD-10-CM |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                                                                               | Code      |           |
|--------|---------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                                                           | Category  | Code Type |
| C85.86 | Other specified types of non-Hodgkin lymphoma, intrapelvic lymph nodes                                                    | Diagnosis | ICD-10-CM |
| C85.87 | Other specified types of non-Hodgkin lymphoma, spleen                                                                     | Diagnosis | ICD-10-CM |
| C85.88 | Other specified types of non-Hodgkin lymphoma, lymph nodes of multiple sites                                              | Diagnosis | ICD-10-CM |
| C85.89 | Other specified types of non-Hodgkin lymphoma, extranodal and solid organ sites                                           | Diagnosis | ICD-10-CM |
| C85.9  | Non-Hodgkin lymphoma, unspecified                                                                                         | Diagnosis | ICD-10-CM |
| C85.90 | Non-Hodgkin lymphoma, unspecified, unspecified site                                                                       | Diagnosis | ICD-10-CM |
| C85.91 | Non-Hodgkin lymphoma, unspecified, lymph nodes of head, face, and neck                                                    | Diagnosis | ICD-10-CM |
| C85.92 | Non-Hodgkin lymphoma, unspecified, intrathoracic lymph nodes                                                              | Diagnosis | ICD-10-CM |
| C85.93 | Non-Hodgkin lymphoma, unspecified, intra-abdominal lymph nodes                                                            | Diagnosis | ICD-10-CM |
| C85.94 | Non-Hodgkin lymphoma, unspecified, lymph nodes of axilla and upper limb                                                   | Diagnosis | ICD-10-CM |
| C85.95 | Non-Hodgkin lymphoma, unspecified, lymph nodes of inguinal region and lower limb                                          | Diagnosis | ICD-10-CM |
| C85.96 | Non-Hodgkin lymphoma, unspecified, intrapelvic lymph nodes                                                                | Diagnosis | ICD-10-CM |
| C85.97 | Non-Hodgkin lymphoma, unspecified, spleen                                                                                 | Diagnosis | ICD-10-CM |
| C85.98 | Non-Hodgkin lymphoma, unspecified, lymph nodes of multiple sites                                                          | Diagnosis | ICD-10-CM |
| C85.99 | Non-Hodgkin lymphoma, unspecified, extranodal and solid organ sites                                                       | Diagnosis | ICD-10-CM |
| C86    | Other specified types of T/NK-cell lymphoma                                                                               | Diagnosis | ICD-10-CM |
| C86.0  | Extranodal NK/T-cell lymphoma, nasal type                                                                                 | Diagnosis | ICD-10-CM |
| C86.1  | Hepatosplenic T-cell lymphoma                                                                                             | Diagnosis | ICD-10-CM |
| C86.2  | Enteropathy-type (intestinal) T-cell lymphoma                                                                             | Diagnosis | ICD-10-CM |
| C86.3  | Subcutaneous panniculitis-like T-cell lymphoma                                                                            | Diagnosis | ICD-10-CM |
| C86.4  | Blastic NK-cell lymphoma                                                                                                  | Diagnosis | ICD-10-CM |
| C86.5  | Angioimmunoblastic T-cell lymphoma                                                                                        | Diagnosis | ICD-10-CM |
| C86.6  | Primary cutaneous CD30-positive T-cell proliferations                                                                     | Diagnosis | ICD-10-CM |
| C88    | Malignant immunoproliferative diseases and certain other B-cell lymphomas                                                 | Diagnosis | ICD-10-CM |
| C88.0  | Waldenstrom macroglobulinemia                                                                                             | Diagnosis | ICD-10-CM |
| C88.2  | Heavy chain disease                                                                                                       | Diagnosis | ICD-10-CM |
| C88.3  | Immunoproliferative small intestinal disease                                                                              | Diagnosis | ICD-10-CM |
| C88.4  | Extranodal marginal zone B-cell lymphoma of mucosa-associated lymphoid tissue [MALT-lymphoma]                             | Diagnosis | ICD-10-CM |
| C88.8  | Other malignant immunoproliferative diseases                                                                              | Diagnosis | ICD-10-CM |
| C88.9  | Malignant immunoproliferative disease, unspecified                                                                        | Diagnosis | ICD-10-CM |
| C8953  | Chemotherapy administration, intravenous; push technique                                                                  | Procedure | HCPCS     |
| C8954  | Chemotherapy administration, intravenous; infusion technique, up to one hour                                              | Procedure | HCPCS     |
| C8955  | Chemotherapy administration, intravenous; infusion technique, each additional hour (List separately in addition to C8954) | Procedure | HCPCS     |
| C90    | Multiple myeloma and malignant plasma cell neoplasms                                                                      | Diagnosis | ICD-10-CM |
| C90.0  | Multiple myeloma                                                                                                          | Diagnosis | ICD-10-CM |
| C90.00 | Multiple myeloma not having achieved remission                                                                            | Diagnosis | ICD-10-CM |
| C90.01 | Multiple myeloma in remission                                                                                             | Diagnosis | ICD-10-CM |
| C90.02 | Multiple myeloma in relapse                                                                                               | Diagnosis | ICD-10-CM |
| C90.1  | Plasma cell leukemia                                                                                                      | Diagnosis | ICD-10-CM |
| C90.10 | Plasma cell leukemia not having achieved remission                                                                        | Diagnosis | ICD-10-CM |
| C90.11 | Plasma cell leukemia in remission                                                                                         | Diagnosis | ICD-10-CM |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                                      | Code      |           |

| C90.3  | Solitary plasmacytoma                                                            | Diagnosis | ICD-10-CM |
| C90.30 | Solitary plasmacytoma not having achieved remission                              | Diagnosis | ICD-10-CM |
| C90.31 | Solitary plasmacytoma in remission                                               | Diagnosis | ICD-10-CM |
| C90.32 | Solitary plasmacytoma in relapse                                                 | Diagnosis | ICD-10-CM |
| C9004  | Injection, gemtuzumab ozogamicin, per 5 mg                                       | Procedure | HCPCS     |
| C9012  | Injection, arsenic trioxide, per 1 mg/kg                                         | Procedure | HCPCS     |
| C9017  | Lomustine, 10 mg                                                                 | Procedure | HCPCS     |
| C9021  | Injection, obinutuzumab, 10 mg                                                   | Procedure | HCPCS     |
| C9024  | Injection, liposomal, 1 mg daunorubicin and 2.27 mg cytarabine                   | Procedure | HCPCS     |
| C9042  | Injection, bendamustine HCl (Belrapzo), 1 mg                                     | Procedure | HCPCS     |
| C9044  | Injection, cemiplimab-rwlc, 1 mg                                                 | Procedure | HCPCS     |
| C9045  | Injection, moxetumomab pasudotox-tdfk, 0.01 mg                                   | Procedure | HCPCS     |
| C9049  | Injection, tagraxofusp-erzs, 10 mcg                                              | Procedure | HCPCS     |
| C9050  | Injection, emapalumab-lzsg, 1 mg                                                 | Procedure | HCPCS     |
| C91    | Lymphoid leukemia                                                                | Diagnosis | ICD-10-CM |
| C91.0  | Acute lymphoblastic leukemia [ALL]                                               | Diagnosis | ICD-10-CM |
| C91.00 | Acute lymphoblastic leukemia not having achieved remission                       | Diagnosis | ICD-10-CM |
| C91.01 | Acute lymphoblastic leukemia, in remission                                       | Diagnosis | ICD-10-CM |
| C91.02 | Acute lymphoblastic leukemia, in relapse                                         | Diagnosis | ICD-10-CM |
| C91.1  | Chronic lymphocytic leukemia of B-cell type                                      | Diagnosis | ICD-10-CM |
| C91.10 | Chronic lymphocytic leukemia of B-cell type not having achieved remission        | Diagnosis | ICD-10-CM |
| C91.11 | Chronic lymphocytic leukemia of B-cell type in remission                         | Diagnosis | ICD-10-CM |
| C91.12 | Chronic lymphocytic leukemia of B-cell type in relapse                           | Diagnosis | ICD-10-CM |
| C91.3  | Prolymphocytic leukemia of B-cell type                                           | Diagnosis | ICD-10-CM |
| C91.30 | Prolymphocytic leukemia of B-cell type not having achieved remission             | Diagnosis | ICD-10-CM |
| C91.31 | Prolymphocytic leukemia of B-cell type, in remission                             | Diagnosis | ICD-10-CM |
| C91.32 | Prolymphocytic leukemia of B-cell type, in relapse                               | Diagnosis | ICD-10-CM |
| C91.4  | Hairy cell leukemia                                                              | Diagnosis | ICD-10-CM |
| C91.40 | Hairy cell leukemia not having achieved remission                                | Diagnosis | ICD-10-CM |
| C91.41 | Hairy cell leukemia, in remission                                                | Diagnosis | ICD-10-CM |
| C91.42 | Hairy cell leukemia, in relapse                                                  | Diagnosis | ICD-10-CM |
| C91.5  | Adult T-cell lymphoma/leukemia (HTLV-1-associated)                               | Diagnosis | ICD-10-CM |
| C91.50 | Adult T-cell lymphoma/leukemia (HTLV-1-associated) not having achieved remission | Diagnosis | ICD-10-CM |
| C91.51 | Adult T-cell lymphoma/leukemia (HTLV-1-associated), in remission                 | Diagnosis | ICD-10-CM |
| C91.52 | Adult T-cell lymphoma/leukemia (HTLV-1-associated), in relapse                   | Diagnosis | ICD-10-CM |
| C91.6  | Prolymphocytic leukemia of T-cell type                                           | Diagnosis | ICD-10-CM |
| C91.60 | Prolymphocytic leukemia of T-cell type not having achieved remission             | Diagnosis | ICD-10-CM |
| C91.61 | Prolymphocytic leukemia of T-cell type, in remission                             | Diagnosis | ICD-10-CM |

| C91.62 | Prolymphocytic leukemia of T-cell type, in relapse                                 | Diagnosis | ICD-10-CM |
| C91.9  | Lymphoid leukemia, unspecified                                                     | Diagnosis | ICD-10-CM |
| C91.90 | Lymphoid leukemia, unspecified not having achieved remission                       | Diagnosis | ICD-10-CM |
| C91.91 | Lymphoid leukemia, unspecified, in remission                                       | Diagnosis | ICD-10-CM |
| C91.92 | Lymphoid leukemia, unspecified, in relapse                                         | Diagnosis | ICD-10-CM |
| C91.A  | Mature B-cell leukemia Burkitt-type                                                | Diagnosis | ICD-10-CM |
| C91.A0 | Mature B-cell leukemia Burkitt-type not having achieved remission                  | Diagnosis | ICD-10-CM |
| C91.A1 | Mature B-cell leukemia Burkitt-type, in remission                                  | Diagnosis | ICD-10-CM |
| C91.A2 | Mature B-cell leukemia Burkitt-type, in relapse                                    | Diagnosis | ICD-10-CM |
| C91.Z  | Other lymphoid leukemia                                                            | Diagnosis | ICD-10-CM |
| C91.Z0 | Other lymphoid leukemia not having achieved remission                              | Diagnosis | ICD-10-CM |
| C91.Z1 | Other lymphoid leukemia, in remission                                              | Diagnosis | ICD-10-CM |
| C91.Z2 | Other lymphoid leukemia, in relapse                                                | Diagnosis | ICD-10-CM |
| C9110  | Injection, alemtuzumab, per 10 mg/ ml                                              | Procedure | HCPCS     |
| C9127  | Injection, paclitaxel protein-bound particles, per 1 mg                            | Procedure | HCPCS     |
| C9129  | Injection, clofarabine, per 1 mg                                                   | Procedure | HCPCS     |
| C92    | Myeloid leukemia                                                                   | Diagnosis | ICD-10-CM |
| C92.0  | Acute myeloblastic leukemia                                                        | Diagnosis | ICD-10-CM |
| C92.00 | Acute myeloblastic leukemia, not having achieved remission                         | Diagnosis | ICD-10-CM |
| C92.01 | Acute myeloblastic leukemia, in remission                                          | Diagnosis | ICD-10-CM |
| C92.02 | Acute myeloblastic leukemia, in relapse                                            | Diagnosis | ICD-10-CM |
| C92.1  | Chronic myeloid leukemia, BCR/ABL-positive                                         | Diagnosis | ICD-10-CM |
| C92.10 | Chronic myeloid leukemia, BCR/ABL-positive, not having achieved remission          | Diagnosis | ICD-10-CM |
| C92.11 | Chronic myeloid leukemia, BCR/ABL-positive, in remission                           | Diagnosis | ICD-10-CM |
| C92.12 | Chronic myeloid leukemia, BCR/ABL-positive, in relapse                             | Diagnosis | ICD-10-CM |
| C92.2  | Atypical chronic myeloid leukemia, BCR/ABL-negative                                | Diagnosis | ICD-10-CM |
| C92.20 | Atypical chronic myeloid leukemia, BCR/ABL-negative, not having achieved remission | Diagnosis | ICD-10-CM |
| C92.21 | Atypical chronic myeloid leukemia, BCR/ABL-negative, in remission                  | Diagnosis | ICD-10-CM |
| C92.22 | Atypical chronic myeloid leukemia, BCR/ABL-negative, in relapse                    | Diagnosis | ICD-10-CM |
| C92.3  | Myeloid sarcoma                                                                    | Diagnosis | ICD-10-CM |
| C92.30 | Myeloid sarcoma, not having achieved remission                                     | Diagnosis | ICD-10-CM |
| C92.31 | Myeloid sarcoma, in remission                                                      | Diagnosis | ICD-10-CM |
| C92.32 | Myeloid sarcoma, in relapse                                                        | Diagnosis | ICD-10-CM |
| C92.4  | Acute promyelocytic leukemia                                                       | Diagnosis | ICD-10-CM |
| C92.40 | Acute promyelocytic leukemia, not having achieved remission                        | Diagnosis | ICD-10-CM |
| C92.41 | Acute promyelocytic leukemia, in remission                                         | Diagnosis | ICD-10-CM |
| C92.42 | Acute promyelocytic leukemia, in relapse                                           | Diagnosis | ICD-10-CM |
| C92.5  | Acute myelomonocytic leukemia                                                      | Diagnosis | ICD-10-CM |
| C92.50 | Acute myelomonocytic leukemia, not having achieved remission                       | Diagnosis | ICD-10-CM |
| C92.51 | Acute myelomonocytic leukemia, in remission                                        | Diagnosis | ICD-10-CM |
| C92.52 | Acute myelomonocytic leukemia, in relapse                                          | Diagnosis | ICD-10-CM |
| C92.6  | Acute myeloid leukemia with 11q23-abnormality                                      | Diagnosis | ICD-10-CM |
| C92.60 | Acute myeloid leukemia with 11q23-abnormality not having achieved remission        | Diagnosis | ICD-10-CM |

| C92.90 | Myeloid leukemia, unspecified, not having achieved remission                                                                                                     | Diagnosis | ICD-10-CM |
| C92.91 | Myeloid leukemia, unspecified in remission                                                                                                                       | Diagnosis | ICD-10-CM |
| C92.92 | Myeloid leukemia, unspecified in relapse                                                                                                                         | Diagnosis | ICD-10-CM |
| C92.A  | Acute myeloid leukemia with multilineage dysplasia                                                                                                               | Diagnosis | ICD-10-CM |
| C92.A0 | Acute myeloid leukemia with multilineage dysplasia, not having achieved remission                                                                                | Diagnosis | ICD-10-CM |
| C92.A1 | Acute myeloid leukemia with multilineage dysplasia, in remission                                                                                                 | Diagnosis | ICD-10-CM |
| C92.A2 | Acute myeloid leukemia with multilineage dysplasia, in relapse                                                                                                   | Diagnosis | ICD-10-CM |
| C92.Z  | Other myeloid leukemia                                                                                                                                           | Diagnosis | ICD-10-CM |
| C92.Z0 | Other myeloid leukemia not having achieved remission                                                                                                             | Diagnosis | ICD-10-CM |
| C92.Z1 | Other myeloid leukemia, in remission                                                                                                                             | Diagnosis | ICD-10-CM |
| C92.Z2 | Other myeloid leukemia, in relapse                                                                                                                               | Diagnosis | ICD-10-CM |
| C9205  | Injection, oxaliplatin, per 5 mg                                                                                                                                 | Procedure | HCPCS     |
| C9207  | Injection, bortezomib, per 3.5 mg                                                                                                                                | Procedure | HCPCS     |
| C9213  | Injection, pemetrexed, per 10 mg                                                                                                                                 | Procedure | HCPCS     |
| C9214  | Injection, bevacizumab, per 10 mg                                                                                                                                | Procedure | HCPCS     |
| C9215  | Injection, cetuximab, per 10 mg                                                                                                                                  | Procedure | HCPCS     |
| C9218  | Injection, azacitidine, per 1 mg                                                                                                                                 | Procedure | HCPCS     |
| C9231  | Injection, decitabine, per 1 mg                                                                                                                                  | Procedure | HCPCS     |
| C9235  | Injection, panitumumab, 10 mg                                                                                                                                    | Procedure | HCPCS     |
| C9239  | Injection, temsirolimus, 1 mg                                                                                                                                    | Procedure | HCPCS     |
| C9240  | Injection, ixabepilone, 1 mg                                                                                                                                     | Procedure | HCPCS     |
| C9243  | Injection, bendamustine hcl, 1 mg                                                                                                                                | Procedure | HCPCS     |
| C9253  | Injection, temozolomide, 1mg                                                                                                                                     | Procedure | HCPCS     |
| C9259  | Injection, pralatrexate, 1 mg                                                                                                                                    | Procedure | HCPCS     |
| C9260  | Injection, ofatumumab, 10 mg                                                                                                                                     | Procedure | HCPCS     |
| C9262  | Fludarabine phosphate, oral, 1 mg                                                                                                                                | Procedure | HCPCS     |
| C9265  | Injection, romidepsin, 1 mg                                                                                                                                      | Procedure | HCPCS     |
| C9273  | Sipuleucel-T, minimum of 50 million autologous CD54+ cells activated with PAP-GM-CSF, including leukapheresis and all other preparatory procedures, per infusion | Procedure | HCPCS     |
| C9276  | Injection, cabazitaxel, 1 mg                                                                                                                                     | Procedure | HCPCS     |
| C9280  | Injection, eribulin mesylate, 1 mg                                                                                                                               | Procedure | HCPCS     |
| C9284  | Injection, ipilimumab, 1 mg                                                                                                                                      | Procedure | HCPCS     |
| C9287  | Injection, brentuximab vedotin, 1 mg                                                                                                                             | Procedure | HCPCS     |
| C9289  | Injection, asparaginase Erwinia chrysanthemi, 1,000 IU                                                                                                           | Procedure | HCPCS     |
| C9292  | Injection, pertuzumab, 10 mg                                                                                                                                     | Procedure | HCPCS     |
| C9295  | Injection, carfilzomib, 1 mg                                                                                                                                     | Procedure | HCPCS     |
| C9297  | Injection, omacetaxine mepesuccinate, 0.01 mg                                                                                                                    | Procedure | HCPCS     |
| C93    | Monocytic leukemia                                                                                                                                               | Diagnosis | ICD-10-CM |
| C93.0  | Acute monoblastic/monocytic leukemia                                                                                                                             | Diagnosis | ICD-10-CM |
| C93.00 | Acute monoblastic/monocytic leukemia, not having achieved remission                                                                                              | Diagnosis | ICD-10-CM |

|        |                                                                                         | Category  | Code Type |
| C9418  | Cisplatin, powder or solution, per 10 mg, brand name                                    | Procedure | HCPCS     |
| C9419  | Injection, cladribine, per 1 mg, brand name                                             | Procedure | HCPCS     |
| C9420  | Cyclophosphamide, 100 mg, brand name                                                    | Procedure | HCPCS     |
| C9421  | Cyclophosphamide, lyophilized, 100 mg, brand name                                       | Procedure | HCPCS     |
| C9422  | Cytarabine, 100 mg, brand name                                                          | Procedure | HCPCS     |
| C9423  | Dacarbazine, 100 mg, brand name                                                         | Procedure | HCPCS     |
| C9424  | Daunorubicin, 10 mg                                                                     | Procedure | HCPCS     |
| C9425  | Etoposide, 10 mg, brand name                                                            | Procedure | HCPCS     |
| C9426  | Floxuridine, 500 mg, brand name                                                         | Procedure | HCPCS     |
| C9427  | Ifosfamide, 1 gm, brand name                                                            | Procedure | HCPCS     |
| C9429  | Idarubicin HCl, 5 mg, brand name                                                        | Procedure | HCPCS     |
| C9431  | Paclitaxel, 30 mg, brand name                                                           | Procedure | HCPCS     |
| C9432  | Mitomycin, 5 mg, brand name                                                             | Procedure | HCPCS     |
| C9433  | Thiotepa, 15 mg, brand name                                                             | Procedure | HCPCS     |
| C9437  | Carmustine, brand name, 100 mg                                                          | Procedure | HCPCS     |
| C9440  | Vinorelbine tartrate, brand name, per 10 mg                                             | Procedure | HCPCS     |
| C9474  | Injection, irinotecan liposome, 1 mg                                                    | Procedure | HCPCS     |
| C95    | Leukemia of unspecified cell type                                                       | Diagnosis | ICD-10-CM |
| C95.0  | Acute leukemia of unspecified cell type                                                 | Diagnosis | ICD-10-CM |
| C95.00 | Acute leukemia of unspecified cell type not having achieved remission                   | Diagnosis | ICD-10-CM |
| C95.01 | Acute leukemia of unspecified cell type, in remission                                   | Diagnosis | ICD-10-CM |
| C95.02 | Acute leukemia of unspecified cell type, in relapse                                     | Diagnosis | ICD-10-CM |
| C95.1  | Chronic leukemia of unspecified cell type                                               | Diagnosis | ICD-10-CM |
| C95.10 | Chronic leukemia of unspecified cell type not having achieved remission                 | Diagnosis | ICD-10-CM |
| C95.11 | Chronic leukemia of unspecified cell type, in remission                                 | Diagnosis | ICD-10-CM |
| C95.12 | Chronic leukemia of unspecified cell type, in relapse                                   | Diagnosis | ICD-10-CM |
| C95.9  | Leukemia, unspecified                                                                   | Diagnosis | ICD-10-CM |
| C95.90 | Leukemia, unspecified not having achieved remission                                     | Diagnosis | ICD-10-CM |
| C95.91 | Leukemia, unspecified, in remission                                                     | Diagnosis | ICD-10-CM |
| C95.92 | Leukemia, unspecified, in relapse                                                       | Diagnosis | ICD-10-CM |
| C96    | Other and unspecified malignant neoplasms of lymphoid, hematopoietic and related tissue | Diagnosis | ICD-10-CM |
| C96.0  | Multifocal and multisystemic (disseminated) Langerhans-cell histiocytosis               | Diagnosis | ICD-10-CM |
| C96.2  | Malignant mast cell neoplasm                                                            | Diagnosis | ICD-10-CM |
| C96.20 | Malignant mast cell neoplasm, unspecified                                               | Diagnosis | ICD-10-CM |
| C96.21 | Aggressive systemic mastocytosis                                                        | Diagnosis | ICD-10-CM |
| C96.22 | Mast cell sarcoma                                                                       | Diagnosis | ICD-10-CM |
| C96.29 | Other malignant mast cell neoplasm                                                      | Diagnosis | ICD-10-CM |
| C96.4  | Sarcoma of dendritic cells (accessory cells)                                            | Diagnosis | ICD-10-CM |
| C96.5  | Multifocal and unisystemic Langerhans-cell histiocytosis                                | Diagnosis | ICD-10-CM |
| C96.6  | Unifocal Langerhans-cell histiocytosis                                                  | Diagnosis | ICD-10-CM |
| C96.9  | Malignant neoplasm of lymphoid, hematopoietic and related tissue, unspecified           | Diagnosis | ICD-10-CM |
| C96.A  | Histiocytic sarcoma                                                                     | Diagnosis | ICD-10-CM |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                                                                                                                                                                                                                                                                                                                                                          | Code      |           |
|--------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                                                                                                                                                                                                                                                                                                                                      | Category  | Code Type |
| C96.Z  | Other specified malignant neoplasms of lymphoid, hematopoietic and related tissue                                                                                                                                                                                                                                                                                                                    | Diagnosis | ICD-10-CM |
| D30.1  | Benign neoplasm of renal pelvis                                                                                                                                                                                                                                                                                                                                                                      | Diagnosis | ICD-10-CM |
| D30.10 | Benign neoplasm of unspecified renal pelvis                                                                                                                                                                                                                                                                                                                                                          | Diagnosis | ICD-10-CM |
| D30.11 | Benign neoplasm of right renal pelvis                                                                                                                                                                                                                                                                                                                                                                | Diagnosis | ICD-10-CM |
| D30.12 | Benign neoplasm of left renal pelvis                                                                                                                                                                                                                                                                                                                                                                 | Diagnosis | ICD-10-CM |
| D41.10 | Neoplasm of uncertain behavior of unspecified renal pelvis                                                                                                                                                                                                                                                                                                                                           | Diagnosis | ICD-10-CM |
| D41.11 | Neoplasm of uncertain behavior of right renal pelvis                                                                                                                                                                                                                                                                                                                                                 | Diagnosis | ICD-10-CM |
| D41.12 | Neoplasm of uncertain behavior of left renal pelvis                                                                                                                                                                                                                                                                                                                                                  | Diagnosis | ICD-10-CM |
| D45    | Polycythemia vera                                                                                                                                                                                                                                                                                                                                                                                    | Diagnosis | ICD-10-CM |
| D7440  | excision of malignant tumor - lesion diameter up to 1.25 cm                                                                                                                                                                                                                                                                                                                                          | Procedure | HCPCS     |
| D7441  | excision of malignant tumor - lesion diameter greater than 1.25 cm                                                                                                                                                                                                                                                                                                                                   | Procedure | HCPCS     |
| G0068  | Professional services for the administration of anti-infective, pain management, chelation, pulmonary hypertension, inotropic, or other intravenous infusion drug or biological (excluding chemotherapy or other highly complex drug or biological) for each infusion drug administration calendar day in the individual's home, each 15 min                                                         | Procedure | HCPCS     |
| G0070  | Professional services for the administration of intravenous chemotherapy or other intravenous highly complex drug or biological infusion for each infusion drug administration calendar day in the individual's home, each 15 min                                                                                                                                                                    | Procedure | HCPCS     |
| G0088  | Professional services, initial visit, for the administration of anti-infective, pain management, chelation, pulmonary hypertension, inotropic, or other intravenous infusion drug or biological (excluding chemotherapy or other highly complex drug or biological) for each infusion drug administration calendar day in the individual's home, each 15 min                                         | Procedure | HCPCS     |
| G0090  | Professional services, initial visit, for the administration of intravenous chemotherapy or other highly complex infusion drug or biological for each infusion drug administration calendar day in the individual's home, each 15 min                                                                                                                                                                | Procedure | HCPCS     |
| G0292  | Administration(s) of experimental drug(s) only in a medicare qualifying clinical trial (includes administration for chemotherapy and other types of therapy via infusion and/or other than infusion), per day                                                                                                                                                                                        | Procedure | HCPCS     |
| G0355  | Chemotherapy administration, subcutaneous or intramuscular nonhormonal antineoplastic                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |
| G0359  | Chemotherapy administration, intravenous infusion technique; up to one hour, single or initial substance/drug                                                                                                                                                                                                                                                                                        | Procedure | HCPCS     |
| G0361  | Initiation of prolonged chemotherapy infusion (more than eight hours), requiring use of a portable or implantable pump                                                                                                                                                                                                                                                                               | Procedure | HCPCS     |
| G0498  | Chemotherapy administration, intravenous infusion technique; initiation of infusion in the office/clinic setting using office/clinic pump/supplies, with continuation of the infusion in the community setting (e.g., home, domiciliary, rest home or assisted living) using a portable pump provided by the office/clinic, includes follow up office/clinic visit at the conclusion of the infusion | Procedure | HCPCS     |
| G2129  | Procedure related BP's not taken during an outpatient visit. Examples include same day surgery, ambulatory service center, GI, lab, dialysis, infusion center, chemotherapy                                                                                                                                                                                                                          | Procedure | HCPCS     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                                                                            | Code      |           |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Category  | Code Type |
| G2206 | Patient received adjuvant treatment course including both chemotherapy and HER2-targeted therapy                                                                                                                                                                                                                                                                                                                                                       | Procedure | HCPCS     |
| G2207 | Reason for not administering adjuvant treatment course including both chemotherapy and HER2-targeted therapy (e.g., poor performance status (ECOG 3-4; Karnofsky <=50), cardiac contraindications, insufficient renal function, insufficient hepatic function, other active or secondary cancer diagnoses, other medical contraindications, patients who died during initial treatment course or transferred during or after initial treatment course) | Procedure | HCPCS     |
| G2208 | Patient did not receive adjuvant treatment course including both chemotherapy and HER2-targeted therapy                                                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |
| G3001 | Administration and supply of tositumomab, 450 mg                                                                                                                                                                                                                                                                                                                                                                                                       | Procedure | HCPCS     |
| G8371 | Chemotherapy documented as not received or prescribed for Stage III colon cancer patients                                                                                                                                                                                                                                                                                                                                                              | Procedure | HCPCS     |
| G8372 | Chemotherapy documented as received or prescribed for Stage III colon cancer patients                                                                                                                                                                                                                                                                                                                                                                  | Procedure | HCPCS     |
| G8373 | Chemotherapy plan documented prior to chemotherapy administration                                                                                                                                                                                                                                                                                                                                                                                      | Procedure | HCPCS     |
| G8374 | Chemotherapy plan not documented prior to chemotherapy administration                                                                                                                                                                                                                                                                                                                                                                                  | Procedure | HCPCS     |
| G8375 | Chronic lymphocytic leukemia (CLL) patient with no documentation of baseline flow cytometry performed                                                                                                                                                                                                                                                                                                                                                  | Procedure | HCPCS     |
| G8376 | Clinician documentation that breast cancer patient was not eligible for tamoxifen or aromatase inhibitor therapy measure                                                                                                                                                                                                                                                                                                                               | Procedure | HCPCS     |
| G8377 | Clinician documentation that colon cancer patient is not eligible for chemotherapy measure                                                                                                                                                                                                                                                                                                                                                             | Procedure | HCPCS     |
| G8380 | For patients with ER or PR positive, Stage IC-III breast cancer, clinician did not document that the patient received or was prescribed tamoxifen or aromatase inhibitor                                                                                                                                                                                                                                                                               | Procedure | HCPCS     |
| G8381 | For patients with ER or PR positive, Stage IC-III breast cancer, clinician documented or prescribed that the patient is receiving tamoxifen or aromatase inhibitor                                                                                                                                                                                                                                                                                     | Procedure | HCPCS     |
| G8384 | Baseline cytogenetic testing not performed in patients with myelodysplastic syndrome (MDS) or acute leukemias                                                                                                                                                                                                                                                                                                                                          | Procedure | HCPCS     |
| G8464 | Clinician documented that prostate cancer patient is not an eligible candidate for adjuvant hormonal therapy; low or intermediate risk of recurrence or risk of recurrence not determined                                                                                                                                                                                                                                                              | Procedure | HCPCS     |
| G8518 | Clinical stage prior to surgery for lung cancer and esophageal cancer resection was recorded                                                                                                                                                                                                                                                                                                                                                           | Procedure | HCPCS     |
| G8519 | Clinician documented that patient was not eligible for clinical stage prior to surgery for lung cancer and esophageal cancer resection measure                                                                                                                                                                                                                                                                                                         | Procedure | HCPCS     |
| G8520 | Clinician stage prior to surgery for lung cancer and esophageal cancer resection was not recorded, reason not specified                                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |
| G8875 | Clinician diagnosed breast cancer preoperatively by a minimally invasive biopsy method                                                                                                                                                                                                                                                                                                                                                                 | Procedure | HCPCS     |
| G8879 | Clinically node negative (T1N0M0 or T2N0M0) invasive breast cancer                                                                                                                                                                                                                                                                                                                                                                                     | Procedure | HCPCS     |
| G8881 | Stage of breast cancer is greater than T1N0M0 or T2N0M0                                                                                                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Code      |           |

|       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Category  | Code Type |
| G8927 | Adjuvant chemotherapy referred, prescribed or previously received for AJCC stage III, colon cancer                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Procedure | HCPCS     |
| G8928 | Adjuvant chemotherapy not prescribed or previously received, for documented reasons (e.g., medical co-morbidities, diagnosis date more than 5 years prior to the current visit date, patient's diagnosis date is within 120 days of the end of the 12 month reporting period, patient's cancer has metastasized, medical contraindication/allergy, poor performance status, other medical reasons, patient refusal, other patient reasons, patient is currently enrolled in a clinical trial that precludes prescription of chemotherapy, other system reasons) | Procedure | HCPCS     |
| G8929 | Adjuvant chemotherapy not prescribed or previously received, reason not given                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Procedure | HCPCS     |
| G8975 | Documentation of medical reason(s) for patient having a hemoglobin level < 10 g/dl (e.g., patients who have nonrenal etiologies of anemia [e.g., sickle cell anemia or other hemoglobinopathies, hypersplenism, primary bone marrow disease, anemia related to chemotherapy for diagnosis of malignancy, postoperative bleeding, active bloodstream or peritoneal infection], other medical reasons)                                                                                                                                                            | Procedure | HCPCS     |
| G9021 | Chemotherapy assessment for nausea and/or vomiting, patient reported, performed at the time of chemotherapy administration; assessment Level 1: not at all (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                               | Procedure | HCPCS     |
| G9022 | Chemotherapy assessment for nausea and/or vomiting, patient reported, performed at the time of chemotherapy administration; assessment Level 2: a little (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                 | Procedure | HCPCS     |
| G9023 | Chemotherapy assessment for nausea and/or vomiting, patient reported, performed at the time of chemotherapy administration; assessment Level 3: quite a bit (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                              | Procedure | HCPCS     |
| G9024 | Chemotherapy assessment for nausea and/or vomiting, patient reported, performed at the time of chemotherapy administration; assessment Level 4: very much (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |
| G9025 | Chemotherapy assessment for pain, patient reported, performed at the time of chemotherapy administration; assessment Level 1: not at all (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                                 | Procedure | HCPCS     |
| G9026 | Chemotherapy assessment for pain, patient reported, performed at the time of chemotherapy administration; assessment Level 2: a little (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                                   | Procedure | HCPCS     |
| G9027 | Chemotherapy assessment for pain, patient reported, performed at the time of chemotherapy administration; assessment Level 3: quite a bit (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |
| G9028 | Chemotherapy assessment for pain, patient reported, performed at the time of chemotherapy administration; assessment Level 4: very much (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                                  | Procedure | HCPCS     |
| G9029 | Chemotherapy assessment for lack of energy (fatigue), patient reported, performed at the time of chemotherapy administration; assessment Level 1: not at all (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                             | Procedure | HCPCS     |

| G9030 | Chemotherapy assessment for lack of energy (fatigue), patient reported, performed at the time of chemotherapy administration; assessment Level 2: a little (for use in a Medicare-approved demonstration project)                                                                                                                   | Procedure | HCPCS     |
| G9031 | Chemotherapy assessment for lack of energy (fatigue), patient reported, performed at the time of chemotherapy administration, assessment Level 3: quite a bit (for use in a Medicare approved demonstration project)                                                                                                                | Procedure | HCPCS     |
| G9032 | Chemotherapy assessment for lack of energy (fatigue), patient reported, performed at the time of chemotherapy administration, assessment Level 4: very much (for use in a Medicare-approved demonstration project)                                                                                                                  | Procedure | HCPCS     |
| G9050 | Oncology; primary focus of visit; work-up, evaluation, or staging at the time of cancer diagnosis or recurrence (for use in a Medicare-approved demonstration project)                                                                                                                                                              | Procedure | HCPCS     |
| G9051 | Oncology; primary focus of visit; treatment decision-making after disease is staged or restaged, discussion of treatment options, supervising/coordinating active cancer-directed therapy or managing consequences of cancer-directed therapy (for use in a Medicare-approved demonstration project)                                | Procedure | HCPCS     |
| G9052 | Oncology; primary focus of visit; surveillance for disease recurrence for patient who has completed definitive cancer-directed therapy and currently lacks evidence of recurrent disease; cancer-directed therapy might be considered in the future (for use in a Medicare-approved demonstration project)                          | Procedure | HCPCS     |
| G9053 | Oncology; primary focus of visit; expectant management of patient with evidence of cancer for whom no cancer-directed therapy is being administered or arranged at present; cancer-directed therapy might be considered in the future (for use in a Medicare-approved demonstration project)                                        | Procedure | HCPCS     |
| G9054 | Oncology; primary focus of visit; supervising, coordinating or managing care of patient with terminal cancer or for whom other medical illness prevents further cancer treatment; includes symptom management, end-of-life care planning, management of palliative therapies (for use in a Medicare-approved demonstration project) | Procedure | HCPCS     |
| G9063 | Oncology; disease status; limited to nonsmall cell lung cancer; extent of disease initially established as Stage I (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                 | Procedure | HCPCS     |
| G9064 | Oncology; disease status; limited to nonsmall cell lung cancer; extent of disease initially established as Stage II (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                | Procedure | HCPCS     |
| G9065 | Oncology; disease status; limited to nonsmall cell lung cancer; extent of disease initially established as Stage III a (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                             | Procedure | HCPCS     |
| G9066 | Oncology; disease status; limited to nonsmall cell lung cancer; Stage III B-IV at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                                                                                   | Procedure | HCPCS     |

| G9067 | Oncology; disease status; limited to nonsmall cell lung cancer; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                                                                        | Procedure | HCPCS     |
| G9069 | Oncology; disease status; small cell lung cancer, limited to small cell and combined small cell/nonsmall cell; extensive Stage at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                                           | Procedure | HCPCS     |
| G9070 | Oncology; disease status; small cell lung cancer, limited to small cell and combined small cell/nonsmall; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                              | Procedure | HCPCS     |
| G9071 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; Stage I or Stage IIA-IIB; or T3, N1, M0; and ER and/or PR positive; with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project) | Procedure | HCPCS     |
| G9072 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; Stage I, or Stage IIA-IIB; or T3, N1, M0; and ER and PR negative; with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)   | Procedure | HCPCS     |
| G9073 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; Stage IIIA-IIIIB; and not T3, N1, M0; and ER and/or PR positive; with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)    | Procedure | HCPCS     |
| G9074 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; Stage IIIA-IIIIB; and not T3, N1, M0; and ER and PR negative; with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)       | Procedure | HCPCS     |
| G9075 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; M1 at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                         | Procedure | HCPCS     |
| G9076 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; extent of disease unknown, under evaluation, presurgical or not listed (for use in a Medicare-approved demonstration project)                                                                 | Procedure | HCPCS     |
| G9077 | Oncology; disease status; prostate cancer, limited to adenocarcinoma as predominant cell type; T1-T2c and Gleason 2-7 and PSA < or equal to 20 at diagnosis with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                       | Procedure | HCPCS     |
| G9078 | Oncology; disease status; prostate cancer, limited to adenocarcinoma as predominant cell type; T2 or T3a Gleason 8-10 or PSA > 20 at diagnosis with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                                    | Procedure | HCPCS     |

List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                            | Code      |           |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                                                                                        | Category  | Code Type |
| G9079 | Oncology; disease status; prostate cancer, limited to adenocarcinoma as predominant cell type; T3b-T4, any N; any T, N1 at diagnosis with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                                         | Procedure | HCPCS     |
| G9080 | Oncology; disease status; prostate cancer, limited to adenocarcinoma; after initial treatment with rising PSA or failure of PSA decline (for use in a Medicare-approved demonstration project)                                                                                                                                         | Procedure | HCPCS     |
| G9081 | Oncology; disease status; prostate cancer, limited to adenocarcinoma, non-castrate, incompletely castrate; clinical metastases or M1 at diagnosis (for use in a Medicare-approved demonstration project)                                                                                                                               | Procedure | HCPCS     |
| G9082 | Oncology; disease status; prostate cancer, limited to adenocarcinoma; castrate; clinical metastases or M1 at diagnosis (for use in a Medicare-approved demonstration project)                                                                                                                                                          | Procedure | HCPCS     |
| G9083 | Oncology; disease status; prostate cancer, limited to adenocarcinoma; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                                                             | Procedure | HCPCS     |
| G9084 | Oncology; disease status; colon cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; extent of disease initially established as T1-3, N0, M0 with no evidence of disease progression, recurrence or metastases (for use in a Medicare-approved demonstration project)                                          | Procedure | HCPCS     |
| G9085 | Oncology; disease status; colon cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; extent of disease initially established as T4, N0, M0 with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                           | Procedure | HCPCS     |
| G9086 | Oncology; disease status; colon cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; extent of disease initially established as T1-4, N1-2, M0 with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                       | Procedure | HCPCS     |
| G9087 | Oncology; disease status; colon cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; M1 at diagnosis, metastatic, locally recurrent, or progressive with current clinical, radiologic, or biochemical evidence of disease (for use in a Medicare-approved demonstration project)                               | Procedure | HCPCS     |
| G9088 | Oncology; disease status; colon cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; M1 at diagnosis, metastatic, locally recurrent, or progressive without current clinical, radiologic, or biochemical evidence of disease (for use in a Medicare-approved demonstration project)                            | Procedure | HCPCS     |
| G9089 | Oncology; disease status; colon cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; extent of disease unknown, staging in progress or not listed (for use in a Medicare-approved demonstration project)                                                                                                       | Procedure | HCPCS     |
| G9090 | Oncology; disease status; rectal cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; extent of disease initially established as T1-2, N0, M0 (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project) | Procedure | HCPCS     |

| Code  | Description                                                                                                                                                                                                                                                                                                                                                | Code      |           |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                                                                                                            | Category  | Code Type |
| G9091 | Oncology; disease status; rectal cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; extent of disease initially established as T3, N0, M0 (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                       | Procedure | HCPCS     |
| G9092 | Oncology; disease status; rectal cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; extent of disease initially established as T1-3, N1-2, M0 (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence or metastases (for use in a Medicare-approved demonstration project)                    | Procedure | HCPCS     |
| G9093 | Oncology; disease status; rectal cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; extent of disease initially established as T4, any N, M0 (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                    | Procedure | HCPCS     |
| G9094 | Oncology; disease status; rectal cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; M1 at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                                                                        | Procedure | HCPCS     |
| G9095 | Oncology; disease status; rectal cancer, limited to invasive cancer, adenocarcinoma as predominant cell type; extent of disease unknown, staging in progress or not listed (for use in a Medicare-approved demonstration project)                                                                                                                          | Procedure | HCPCS     |
| G9096 | Oncology; disease status; esophageal cancer, limited to adenocarcinoma or squamous cell carcinoma as predominant cell type; extent of disease initially established as T1-T3, N0-N1 or NX (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project) | Procedure | HCPCS     |
| G9097 | Oncology; disease status; esophageal cancer, limited to adenocarcinoma or squamous cell carcinoma as predominant cell type; extent of disease initially established as T4, any N, M0 (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)      | Procedure | HCPCS     |
| G9098 | Oncology; disease status; esophageal cancer, limited to adenocarcinoma or squamous cell carcinoma as predominant cell type; M1 at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                                                          | Procedure | HCPCS     |
| G9099 | Oncology; disease status; esophageal cancer, limited to adenocarcinoma or squamous cell carcinoma as predominant cell type; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                           | Procedure | HCPCS     |
| G9100 | Oncology; disease status; gastric cancer, limited to adenocarcinoma as predominant cell type; post R0 resection (with or without neoadjuvant therapy) with no evidence of disease recurrence, progression, or metastases (for use in a Medicare-approved demonstration project)                                                                            | Procedure | HCPCS     |
| G9101 | Oncology; disease status; gastric cancer, limited to adenocarcinoma as predominant cell type; post R1 or R2 resection (with or without neoadjuvant therapy) with no evidence of disease progression, or metastases (for use in a Medicare-approved demonstration project)                                                                                  | Procedure | HCPCS     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                         | Code      |           |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                                                                                                                                     | Category  | Code Type |
| G9102 | Oncology; disease status; gastric cancer, limited to adenocarcinoma as predominant cell type; clinical or pathologic M0, unresectable with no evidence of disease progression, or metastases (for use in a Medicare-approved demonstration project)                                                                                                                                 | Procedure | HCPCS     |
| G9103 | Oncology; disease status; gastric cancer, limited to adenocarcinoma as predominant cell type; clinical or pathologic M1 at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                                                                                          | Procedure | HCPCS     |
| G9104 | Oncology; disease status; gastric cancer, limited to adenocarcinoma as predominant cell type; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                                                                                  | Procedure | HCPCS     |
| G9105 | Oncology; disease status; pancreatic cancer, limited to adenocarcinoma as predominant cell type; post R0 resection without evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                                                                                                        | Procedure | HCPCS     |
| G9106 | Oncology; disease status; pancreatic cancer, limited to adenocarcinoma; post R1 or R2 resection with no evidence of disease progression, or metastases (for use in a Medicare-approved demonstration project)                                                                                                                                                                       | Procedure | HCPCS     |
| G9107 | Oncology; disease status; pancreatic cancer, limited to adenocarcinoma; unresectable at diagnosis, M1 at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                                                                                                            | Procedure | HCPCS     |
| G9108 | Oncology; disease status; pancreatic cancer, limited to adenocarcinoma; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                                                                                                        | Procedure | HCPCS     |
| G9109 | Oncology; disease status; head and neck cancer, limited to cancers of oral cavity, pharynx and larynx with squamous cell as predominant cell type; extent of disease initially established as T1-T2 and N0, M0 (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)     | Procedure | HCPCS     |
| G9110 | Oncology; disease status; head and neck cancer, limited to cancers of oral cavity, pharynx and larynx with squamous cell as predominant cell type; extent of disease initially established as T3-4 and/or N1-3, M0 (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project) | Procedure | HCPCS     |
| G9111 | Oncology; disease status; head and neck cancer, limited to cancers of oral cavity, pharynx and larynx with squamous cell as predominant cell type; M1 at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                                                            | Procedure | HCPCS     |
| G9112 | Oncology; disease status; head and neck cancer, limited to cancers of oral cavity, pharynx and larynx with squamous cell as predominant cell type; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                             | Procedure | HCPCS     |
| G9113 | Oncology; disease status; ovarian cancer, limited to epithelial cancer; pathologic Stage IA-B (Grade 1) without evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                                                                                                                   | Procedure | HCPCS     |

|       |                                                                                                                                                                                                                                                                             | Category  | Code Type |
| G9114 | Oncology; disease status; ovarian cancer, limited to epithelial cancer; pathologic Stage IA-B (Grade 2-3); or Stage IC (all grades); or Stage II; without evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project) | Procedure | HCPCS     |
| G9115 | Oncology; disease status; ovarian cancer, limited to epithelial cancer; pathologic Stage III-IV; without evidence of progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                          | Procedure | HCPCS     |
| G9116 | Oncology; disease status; ovarian cancer, limited to epithelial cancer; evidence of disease progression, or recurrence, and/or platinum resistance (for use in a Medicare-approved demonstration project)                                                                   | Procedure | HCPCS     |
| G9117 | Oncology; disease status; ovarian cancer, limited to epithelial cancer; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                | Procedure | HCPCS     |
| G9123 | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and/or BCR-ABL positive; chronic phase not in hematologic, cytogenetic, or molecular remission (for use in a Medicare-approved demonstration project)                   | Procedure | HCPCS     |
| G9124 | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and /or BCR-ABL positive; accelerated phase not in hematologic cytogenetic, or molecular remission (for use in a Medicare-approved demonstration project)               | Procedure | HCPCS     |
| G9125 | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and/or BCR-ABL positive; blast phase not in hematologic, cytogenetic, or molecular remission (for use in a Medicare-approved demonstration project)                     | Procedure | HCPCS     |
| G9126 | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and/or BCR-ABL positive; in hematologic, cytogenetic, or molecular remission (for use in a Medicare-approved demonstration project)                                     | Procedure | HCPCS     |
| G9127 | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and /or BCR-ABL positive; extent of disease unknown, under evaluation, not listed (for use in a Medicare-approved demonstration project)                                | Procedure | HCPCS     |
| G9131 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)          | Procedure | HCPCS     |
| G9132 | Oncology; disease status; prostate cancer, limited to adenocarcinoma; hormone-refractory/androgen-independent (e.g., rising PSA on antiandrogen therapy or postorchietomy); clinical metastases (for use in a Medicare-approved demonstration project)                      | Procedure | HCPCS     |
| G9133 | Oncology; disease status; prostate cancer, limited to adenocarcinoma; hormone-responsive; clinical metastases or M1 at diagnosis (for use in a Medicare-approved demonstration project)                                                                                     | Procedure | HCPCS     |

|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                | Category  | Code Type |
| G9139 | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and/or BCR-ABL positive; extent of disease unknown, staging in progress, not listed (for use in a Medicare-approved demonstration project) | Procedure | HCPCS     |
| G9704 | AJCC breast cancer Stage I: T1 mic or T1a documented                                                                                                                                                                                           | Procedure | HCPCS     |
| G9705 | AJCC breast cancer Stage I: T1b (tumor > 0.5 cm but ≤ 1 cm in greatest dimension) documented                                                                                                                                                   | Procedure | HCPCS     |
| G9711 | Patients with a diagnosis or past history of total colectomy or colorectal cancer                                                                                                                                                              | Procedure | HCPCS     |
| G9826 | Patient transferred to practice after initiation of chemotherapy                                                                                                                                                                               | Procedure | HCPCS     |
| G9829 | Breast adjuvant chemotherapy administered                                                                                                                                                                                                      | Procedure | HCPCS     |
| G9831 | AJCC Stage at breast cancer diagnosis = II or III                                                                                                                                                                                              | Procedure | HCPCS     |
| G9832 | AJCC Stage at breast cancer diagnosis = I (Ia or Ib) and T-Stage at breast cancer diagnosis does not equal = T1, T1a, T1b                                                                                                                      | Procedure | HCPCS     |
| G9833 | Patient transfer to practice after initiation of chemotherapy                                                                                                                                                                                  | Procedure | HCPCS     |
| G9835 | Trastuzumab administered within 12 months of diagnosis                                                                                                                                                                                         | Procedure | HCPCS     |
| G9836 | Reason for not administering trastuzumab documented (e.g., patient declined, patient died, patient transferred, contraindication or other clinical exclusion, neoadjuvant chemotherapy or radiation not complete)                              | Procedure | HCPCS     |
| G9837 | Trastuzumab not administered within 12 months of diagnosis                                                                                                                                                                                     | Procedure | HCPCS     |
| J0202 | Injection, alemtuzumab, 1 mg                                                                                                                                                                                                                   | Procedure | HCPCS     |
| J0207 | Injection, amifostine, 500 mg                                                                                                                                                                                                                  | Procedure | HCPCS     |
| J0594 | Injection, busulfan, 1 mg                                                                                                                                                                                                                      | Procedure | HCPCS     |
| J0894 | Injection, decitabine, 1 mg                                                                                                                                                                                                                    | Procedure | HCPCS     |
| J7527 | Everolimus, oral, 0.25 mg                                                                                                                                                                                                                      | Procedure | HCPCS     |
| J8501 | Aprepitant, oral, 5 mg                                                                                                                                                                                                                         | Procedure | HCPCS     |
| J8510 | Busulfan, oral, 2 mg                                                                                                                                                                                                                           | Procedure | HCPCS     |
| J8515 | Cabergoline, oral, 0.25 mg                                                                                                                                                                                                                     | Procedure | HCPCS     |
| J8520 | Capecitabine, oral, 150 mg                                                                                                                                                                                                                     | Procedure | HCPCS     |
| J8521 | Capecitabine, oral, 500 mg                                                                                                                                                                                                                     | Procedure | HCPCS     |
| J8530 | Cyclophosphamide, oral, 25 mg                                                                                                                                                                                                                  | Procedure | HCPCS     |
| J8540 | Dexamethasone, oral, 0.25 mg                                                                                                                                                                                                                   | Procedure | HCPCS     |
| J8560 | Etoposide, oral, 50 mg                                                                                                                                                                                                                         | Procedure | HCPCS     |
| J8561 | Everolimus, oral, 0.25 mg                                                                                                                                                                                                                      | Procedure | HCPCS     |
| J8562 | Fludarabine phosphate, oral, 10 mg                                                                                                                                                                                                             | Procedure | HCPCS     |
| J8565 | Gefitinib, oral, 250 mg                                                                                                                                                                                                                        | Procedure | HCPCS     |
| J8597 | Antiemetic drug, oral, not otherwise specified                                                                                                                                                                                                 | Procedure | HCPCS     |
| J8600 | Melphalan, oral, 2 mg                                                                                                                                                                                                                          | Procedure | HCPCS     |
| J8610 | Methotrexate, oral, 2.5 mg                                                                                                                                                                                                                     | Procedure | HCPCS     |
| J8650 | Nabilone, oral, 1 mg                                                                                                                                                                                                                           | Procedure | HCPCS     |
| J8655 | Netupitant 300 mg and palonosetron 0.5 mg, oral                                                                                                                                                                                                | Procedure | HCPCS     |
| J8670 | Rolapitant, oral, 1 mg                                                                                                                                                                                                                         | Procedure | HCPCS     |
| J8700 | Temozolomide, oral, 5 mg                                                                                                                                                                                                                       | Procedure | HCPCS     |
| J8705 | Topotecan, oral, 0.25 mg                                                                                                                                                                                                                       | Procedure | HCPCS     |
| J8999 | Prescription drug, oral, chemotherapeutic, NOS                                                                                                                                                                                                 | Procedure | HCPCS     |

| Code  | Description                                                                             | Code      |           |
|-------|-----------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                         | Category  | Code Type |
| J9000 | Injection, doxorubicin HCl, 10 mg                                                       | Procedure | HCPCS     |
| J9001 | Injection, doxorubicin HCl, all lipid formulations, 10 mg                               | Procedure | HCPCS     |
| J9002 | Injection, doxorubicin hydrochloride, liposomal, Doxil, 10 mg                           | Procedure | HCPCS     |
| J9010 | Injection, alemtuzumab, 10 mg                                                           | Procedure | HCPCS     |
| J9015 | Injection, aldesleukin, per single use vial                                             | Procedure | HCPCS     |
| J9017 | Injection, arsenic trioxide, 1 mg                                                       | Procedure | HCPCS     |
| J9019 | Injection, asparaginase (Erwinaze), 1,000 IU                                            | Procedure | HCPCS     |
| J9020 | Injection, asparaginase, not otherwise specified, 10,000 units                          | Procedure | HCPCS     |
| J9021 | Injection, asparaginase, recombinant, (Rylaze), 0.1 mg                                  | Procedure | HCPCS     |
| J9022 | Injection, atezolizumab, 10 mg                                                          | Procedure | HCPCS     |
| J9023 | Injection, avelumab, 10 mg                                                              | Procedure | HCPCS     |
| J9025 | Injection, azacitidine, 1 mg                                                            | Procedure | HCPCS     |
| J9027 | Injection, clofarabine, 1 mg                                                            | Procedure | HCPCS     |
| J9030 | BCG live intravesical instillation, 1 mg                                                | Procedure | HCPCS     |
| J9032 | Injection, belinostat, 10 mg                                                            | Procedure | HCPCS     |
| J9033 | Injection, bendamustine HCl (Treanda), 1 mg                                             | Procedure | HCPCS     |
| J9034 | Injection, bendamustine HCl (Bendeka), 1 mg                                             | Procedure | HCPCS     |
| J9035 | Injection, bevacizumab, 10 mg                                                           | Procedure | HCPCS     |
| J9036 | Injection, bendamustine HCl, (Belrapzo/bendamustine), 1 mg                              | Procedure | HCPCS     |
| J9037 | Injection, belantamab mafodotin-blmf, 0.5 mg                                            | Procedure | HCPCS     |
| J9039 | Injection, blinatumomab, 1 mcg                                                          | Procedure | HCPCS     |
| J9040 | Injection, bleomycin sulfate, 15 units                                                  | Procedure | HCPCS     |
| J9041 | Injection, bortezomib, 0.1 mg                                                           | Procedure | HCPCS     |
| J9042 | Injection, brentuximab vedotin, 1 mg                                                    | Procedure | HCPCS     |
| J9043 | Injection, cabazitaxel, 1 mg                                                            | Procedure | HCPCS     |
| J9045 | Injection, carboplatin, 50 mg                                                           | Procedure | HCPCS     |
| J9046 | Injection, bortezomib (Dr. Reddy's), not therapeutically equivalent to J9041, 0.1 mg    | Procedure | HCPCS     |
| J9047 | Injection, carfilzomib, 1 mg                                                            | Procedure | HCPCS     |
| J9048 | Injection, bortezomib (Fresenius Kabi), not therapeutically equivalent to J9041, 0.1 mg | Procedure | HCPCS     |
| J9049 | Injection, bortezomib (Hospira), not therapeutically equivalent to J9041, 0.1 mg        | Procedure | HCPCS     |
| J9050 | Injection, carmustine, 100 mg                                                           | Procedure | HCPCS     |
| J9055 | Injection, cetuximab, 10 mg                                                             | Procedure | HCPCS     |
| J9057 | Injection, copanlisib, 1 mg                                                             | Procedure | HCPCS     |
| J9060 | Injection, cisplatin, powder or solution, 10 mg                                         | Procedure | HCPCS     |
| J9061 | Injection, amivantamab-vmjw, 2 mg                                                       | Procedure | HCPCS     |
| J9062 | Cisplatin, 50 mg                                                                        | Procedure | HCPCS     |
| J9065 | Injection, cladribine, per 1 mg                                                         | Procedure | HCPCS     |
| J9070 | Cyclophosphamide, 100 mg                                                                | Procedure | HCPCS     |
| J9071 | Injection, cyclophosphamide, (AuroMedics), 5 mg                                         | Procedure | HCPCS     |
| J9080 | Cyclophosphamide, 200 mg                                                                | Procedure | HCPCS     |
| J9090 | Cyclophosphamide, 500 mg                                                                | Procedure | HCPCS     |
| J9091 | Cyclophosphamide, 1 g                                                                   | Procedure | HCPCS     |

| J9110 | Injection, cytarabine, 500 mg                                  | Procedure | HCPCS     |
| J9118 | Injection, calaspargase pegol-mknl, 10 units                   | Procedure | HCPCS     |
| J9119 | Injection, cemiplimab-rwlc, 1 mg                               | Procedure | HCPCS     |
| J9120 | Injection, dactinomycin, 0.5 mg                                | Procedure | HCPCS     |
| J9130 | Dacarbazine, 100 mg                                            | Procedure | HCPCS     |
| J9140 | Dacarbazine, 200 mg                                            | Procedure | HCPCS     |
| J9144 | Injection, daratumumab, 10 mg and hyaluronidase-fihj           | Procedure | HCPCS     |
| J9145 | Injection, daratumumab, 10 mg                                  | Procedure | HCPCS     |
| J9150 | Injection, daunorubicin, 10 mg                                 | Procedure | HCPCS     |
| J9151 | Injection, daunorubicin citrate, liposomal formulation, 10 mg  | Procedure | HCPCS     |
| J9153 | Injection, liposomal, 1 mg daunorubicin and 2.27 mg cytarabine | Procedure | HCPCS     |
| J9155 | Injection, degarelix, 1 mg                                     | Procedure | HCPCS     |
| J9160 | Injection, denileukin diftitox, 300 mcg                        | Procedure | HCPCS     |
| J9165 | Injection, diethylstilbestrol diphosphate, 250 mg              | Procedure | HCPCS     |
| J9170 | Injection, docetaxel, 20 mg                                    | Procedure | HCPCS     |
| J9171 | Injection, docetaxel, 1 mg                                     | Procedure | HCPCS     |
| J9173 | Injection, durvalumab, 10 mg                                   | Procedure | HCPCS     |
| J9175 | Injection, Elliotts' B solution, 1 ml                          | Procedure | HCPCS     |
| J9176 | Injection, elotuzumab, 1 mg                                    | Procedure | HCPCS     |
| J9177 | Injection, enfortumab vedotin-efv, 0.25 mg                     | Procedure | HCPCS     |
| J9178 | Injection, epirubicin HCl, 2 mg                                | Procedure | HCPCS     |
| J9179 | Injection, eribulin mesylate, 0.1 mg                           | Procedure | HCPCS     |
| J9180 | Epirubicin HCl, 50 mg                                          | Procedure | HCPCS     |
| J9181 | Injection, etoposide, 10 mg                                    | Procedure | HCPCS     |
| J9182 | Etoposide, 100 mg                                              | Procedure | HCPCS     |
| J9185 | Injection, fludarabine phosphate, 50 mg                        | Procedure | HCPCS     |
| J9190 | Injection, fluorouracil, 500 mg                                | Procedure | HCPCS     |
| J9198 | Injection, gemcitabine HCl, (Infugem), 100 mg                  | Procedure | HCPCS     |
| J9200 | Injection, floxuridine, 500 mg                                 | Procedure | HCPCS     |
| J9201 | Injection, gemcitabine HCl, not otherwise specified, 200 mg    | Procedure | HCPCS     |
| J9202 | Goserelin acetate implant, per 3.6 mg                          | Procedure | HCPCS     |
| J9203 | Injection, gemtuzumab ozogamicin, 0.1 mg                       | Procedure | HCPCS     |
| J9204 | Injection, mogamulizumab-kpkc, 1 mg                            | Procedure | HCPCS     |
| J9205 | Injection, irinotecan liposome, 1 mg                           | Procedure | HCPCS     |
| J9206 | Injection, irinotecan, 20 mg                                   | Procedure | HCPCS     |

| Code  | Description                                                           | Code      |           |
|-------|-----------------------------------------------------------------------|-----------|-----------|
|       |                                                                       | Category  | Code Type |
| J9207 | Injection, ixabepilone, 1 mg                                          | Procedure | HCPCS     |
| J9208 | Injection, ifosfamide, 1 g                                            | Procedure | HCPCS     |
| J9209 | Injection, mesna, 200 mg                                              | Procedure | HCPCS     |
| J9210 | Injection, emapalumab-lzsg, 1 mg                                      | Procedure | HCPCS     |
| J9211 | Injection, idarubicin HCl, 5 mg                                       | Procedure | HCPCS     |
| J9212 | Injection, interferon alfacon-1, recombinant, 1 mcg                   | Procedure | HCPCS     |
| J9213 | Injection, interferon, alfa-2a, recombinant, 3 million units          | Procedure | HCPCS     |
| J9214 | Injection, interferon, alfa-2b, recombinant, 1 million units          | Procedure | HCPCS     |
| J9215 | Injection, interferon, alfa-N3, (human leukocyte derived), 250,000 IU | Procedure | HCPCS     |
| J9216 | Injection, interferon, gamma 1-b, 3 million units                     | Procedure | HCPCS     |
| J9217 | Leuprolide acetate (for depot suspension), 7.5 mg                     | Procedure | HCPCS     |
| J9218 | Leuprolide acetate, per 1 mg                                          | Procedure | HCPCS     |
| J9219 | Leuprolide acetate implant, 65 mg                                     | Procedure | HCPCS     |
| J9223 | Injection, lurbnectedin, 0.1 mg                                       | Procedure | HCPCS     |
| J9225 | Histrelin implant (Vantas), 50 mg                                     | Procedure | HCPCS     |
| J9226 | Histrelin implant (Supprelin LA), 50 mg                               | Procedure | HCPCS     |
| J9227 | Injection, isatuximab-irfc, 10 mg                                     | Procedure | HCPCS     |
| J9228 | Injection, ipilimumab, 1 mg                                           | Procedure | HCPCS     |
| J9229 | Injection, inotuzumab ozogamicin, 0.1 mg                              | Procedure | HCPCS     |
| J9230 | Injection, mechlorethamine HCl, (nitrogen mustard), 10 mg             | Procedure | HCPCS     |
| J9245 | Injection, melphalan HCl, not otherwise specified, 50 mg              | Procedure | HCPCS     |
| J9246 | Injection, melphalan (Evomela), 1 mg                                  | Procedure | HCPCS     |
| J9247 | Injection, melphalan flufenamide, 1 mg                                | Procedure | HCPCS     |
| J9250 | Methotrexate sodium, 5 mg                                             | Procedure | HCPCS     |
| J9260 | Methotrexate sodium, 50 mg                                            | Procedure | HCPCS     |
| J9261 | Injection, nelarabine, 50 mg                                          | Procedure | HCPCS     |
| J9262 | Injection, omacetaxine mepesuccinate, 0.01 mg                         | Procedure | HCPCS     |
| J9263 | Injection, oxaliplatin, 0.5 mg                                        | Procedure | HCPCS     |
| J9264 | Injection, paclitaxel protein-bound particles, 1 mg                   | Procedure | HCPCS     |
| J9265 | Injection, paclitaxel, 30 mg                                          | Procedure | HCPCS     |
| J9266 | Injection, pegaspargase, per single dose vial                         | Procedure | HCPCS     |
| J9267 | Injection, paclitaxel, 1 mg                                           | Procedure | HCPCS     |
| J9268 | Injection, pentostatin, 10 mg                                         | Procedure | HCPCS     |
| J9269 | Injection, tagraxofusp-erzs, 10 mcg                                   | Procedure | HCPCS     |
| J9270 | Injection, plicamycin, 2.5 mg                                         | Procedure | HCPCS     |
| J9271 | Injection, pembrolizumab, 1 mg                                        | Procedure | HCPCS     |
| J9272 | Injection, dostarlimab-gxly, 10 mg                                    | Procedure | HCPCS     |
| J9273 | Injection, tisotumab vedotin-tftv, 1 mg                               | Procedure | HCPCS     |
| J9274 | Injection, tebentafusp-tebn, 1 mcg                                    | Procedure | HCPCS     |
| J9280 | Injection, mitomycin, 5 mg                                            | Procedure | HCPCS     |
| J9281 | Mitomycin pyelocalyceal instillation, 1 mg                            | Procedure | HCPCS     |
| J9285 | Injection, olaratumab, 10 mg                                          | Procedure | HCPCS     |
| J9290 | Mitomycin, 20 mg                                                      | Procedure | HCPCS     |

|-------|-------------------------------------------------------------------------|-----------|-----------|
|       |                                                                         | Category  | Code Type |
| J9291 | Mitomycin, 40 mg                                                        | Procedure | HCPCS     |
| J9293 | Injection, mitoxantrone HCl, per 5 mg                                   | Procedure | HCPCS     |
| J9295 | Injection, necitumumab, 1 mg                                            | Procedure | HCPCS     |
| J9298 | Injection, nivolumab and relatlimab-rmbw, 3 mg/1 mg                     | Procedure | HCPCS     |
| J9299 | Injection, nivolumab, 1 mg                                              | Procedure | HCPCS     |
| J9300 | Injection, gemtuzumab ozogamicin, 5 mg                                  | Procedure | HCPCS     |
| J9301 | Injection, obinutuzumab, 10 mg                                          | Procedure | HCPCS     |
| J9302 | Injection, ofatumumab, 10 mg                                            | Procedure | HCPCS     |
| J9303 | Injection, panitumumab, 10 mg                                           | Procedure | HCPCS     |
| J9304 | Injection, pemetrexed (Pemfexy), 10 mg                                  | Procedure | HCPCS     |
| J9305 | Injection, pemetrexed, NOS, 10 mg                                       | Procedure | HCPCS     |
| J9306 | Injection, pertuzumab, 1 mg                                             | Procedure | HCPCS     |
| J9307 | Injection, pralatrexate, 1 mg                                           | Procedure | HCPCS     |
| J9308 | Injection, ramucirumab, 5 mg                                            | Procedure | HCPCS     |
| J9309 | Injection, polatuzumab vedotin-piiq, 1 mg                               | Procedure | HCPCS     |
| J9310 | Injection, rituximab, 100 mg                                            | Procedure | HCPCS     |
| J9311 | Injection, rituximab 10 mg and hyaluronidase                            | Procedure | HCPCS     |
| J9312 | Injection, rituximab, 10 mg                                             | Procedure | HCPCS     |
| J9313 | Injection, moxetumomab pasudotox-tdfk, 0.01 mg                          | Procedure | HCPCS     |
| J9315 | Injection, romidepsin, 1 mg                                             | Procedure | HCPCS     |
| J9316 | Injection, pertuzumab, trastuzumab, and hyaluronidase-zzxf, per 10 mg   | Procedure | HCPCS     |
| J9317 | Injection, sacituzumab govitecan-hziy, 2.5 mg                           | Procedure | HCPCS     |
| J9318 | Injection, romidepsin, nonlyophilized, 0.1 mg                           | Procedure | HCPCS     |
| J9319 | Injection, romidepsin, lyophilized, 0.1 mg                              | Procedure | HCPCS     |
| J9320 | Injection, streptozocin, 1 g                                            | Procedure | HCPCS     |
| J9325 | Injection, talimogene laherparepvec, per 1 million plaque forming units | Procedure | HCPCS     |
| J9328 | Injection, temozolomide, 1 mg                                           | Procedure | HCPCS     |
| J9330 | Injection, temsirolimus, 1 mg                                           | Procedure | HCPCS     |
| J9331 | Injection, sirolimus protein-bound particles, 1 mg                      | Procedure | HCPCS     |
| J9332 | Injection, efgartigimod alfa-fcab, 2 mg                                 | Procedure | HCPCS     |
| J9340 | Injection, thiotepa, 15 mg                                              | Procedure | HCPCS     |
| J9348 | Injection, naxitamab-gqgk, 1 mg                                         | Procedure | HCPCS     |
| J9349 | Injection, tafasitamab-cxix, 2 mg                                       | Procedure | HCPCS     |
| J9350 | Injection, mosunetuzumab-axgb, 1 mg                                     | Procedure | HCPCS     |
| J9351 | Injection, topotecan, 0.1 mg                                            | Procedure | HCPCS     |
| J9352 | Injection, trabectedin, 0.1 mg                                          | Procedure | HCPCS     |
| J9353 | Injection, margetuximab-cmkb, 5 mg                                      | Procedure | HCPCS     |
| J9354 | Injection, ado-trastuzumab emtansine, 1 mg                              | Procedure | HCPCS     |
| J9355 | Injection, trastuzumab, excludes biosimilar, 10 mg                      | Procedure | HCPCS     |
| J9356 | Injection, trastuzumab, 10 mg and hyaluronidase-oyzk                    | Procedure | HCPCS     |
| J9357 | Injection, valrubicin, intravesical, 200 mg                             | Procedure | HCPCS     |
| J9358 | Injection, fam-trastuzumab deruxtecan-nxki, 1 mg                        | Procedure | HCPCS     |
| J9359 | Injection, loncastuximab tesirine-lpyl, 0.075 mg                        | Procedure | HCPCS     |

| Code  | Description                                                                                                                                         | Code      |           |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                     | Category  | Code Type |
| J9360 | Injection, vinblastine sulfate, 1 mg                                                                                                                | Procedure | HCPCS     |
| J9370 | Vincristine sulfate, 1 mg                                                                                                                           | Procedure | HCPCS     |
| J9371 | Injection, vincristine sulfate liposome, 1 mg                                                                                                       | Procedure | HCPCS     |
| J9375 | Vincristine sulfate, 2 mg                                                                                                                           | Procedure | HCPCS     |
| J9380 | Injection, teclistamab-cqyv, 0.5 mg                                                                                                                 | Procedure | HCPCS     |
| J9390 | Injection, vinorelbine tartrate, 10 mg                                                                                                              | Procedure | HCPCS     |
| J9393 | Injection, fulvestrant (Teva) not therapeutically equivalent to J9395, 25 mg                                                                        | Procedure | HCPCS     |
| J9394 | Injection, fulvestrant (Fresenius Kabi) not therapeutically equivalent to J9395, 25 mg                                                              | Procedure | HCPCS     |
| J9395 | Injection, fulvestrant, 25 mg                                                                                                                       | Procedure | HCPCS     |
| J9400 | Injection, ziv-aflibercept, 1 mg                                                                                                                    | Procedure | HCPCS     |
| J9600 | Injection, porfimer sodium, 75 mg                                                                                                                   | Procedure | HCPCS     |
| J9999 | Not otherwise classified, antineoplastic drugs                                                                                                      | Procedure | HCPCS     |
| M0001 | Advancing Cancer Care MIPS Value Pathways                                                                                                           | Procedure | HCPCS     |
| M1037 | Patients with a diagnosis of lumbar spine region cancer at the time of the procedure                                                                | Procedure | HCPCS     |
| M1041 | Patient had cancer, acute fracture or infection related to the lumbar spine or patient had neuromuscular, idiopathic or congenital lumbar scoliosis | Procedure | HCPCS     |
| M1051 | Patient had cancer, acute fracture or infection related to the lumbar spine or patient had neuromuscular, idiopathic or congenital lumbar scoliosis | Procedure | HCPCS     |
| M1072 | Radiation therapy for anal cancer under the Radiation Oncology model, 90-day episode, professional component                                        | Procedure | HCPCS     |
| M1073 | Radiation therapy for anal cancer under the Radiation Oncology model, 90-day episode, technical component                                           | Procedure | HCPCS     |
| M1074 | Radiation therapy for bladder cancer under the Radiation Oncology model, 90-day episode, professional component                                     | Procedure | HCPCS     |
| M1075 | Radiation therapy for bladder cancer under the Radiation Oncology model, 90-day episode, technical component                                        | Procedure | HCPCS     |
| M1080 | Radiation therapy for breast cancer under the Radiation Oncology model, 90-day episode, professional component                                      | Procedure | HCPCS     |
| M1081 | Radiation therapy for breast cancer under the Radiation Oncology model, 90-day episode, technical component                                         | Procedure | HCPCS     |
| M1082 | Radiation therapy for cervical cancer under the Radiation Oncology model, 90-day episode, professional component                                    | Procedure | HCPCS     |
| M1083 | Radiation therapy for cervical cancer under the Radiation Oncology model, 90-day episode, technical component                                       | Procedure | HCPCS     |
| M1084 | Radiation therapy for CNS tumors under the Radiation Oncology model, 90-day episode, professional component                                         | Procedure | HCPCS     |
| M1085 | Radiation therapy for CNS tumors under the Radiation Oncology model, 90-day episode, technical component                                            | Procedure | HCPCS     |
| M1086 | Radiation therapy for colorectal cancer under the Radiation Oncology model, 90-day episode, professional component                                  | Procedure | HCPCS     |
| M1087 | Radiation therapy for colorectal cancer under the Radiation Oncology model, 90-day episode, technical component                                     | Procedure | HCPCS     |

| Code  | Description                                                                                                                                                                                                                  | Code      |           |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                              | Category  | Code Type |
| Q0084 | Chemotherapy administration by infusion technique only, per visit                                                                                                                                                            | Procedure | HCPCS     |
| Q0085 | Chemotherapy administration by both infusion technique and other technique(s) (e.g. subcutaneous, intramuscular, push), per visit                                                                                            | Procedure | HCPCS     |
| Q0161 | Chlorpromazine HCl, 5 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen        | Procedure | HCPCS     |
| Q0162 | Ondansetron 1 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen                | Procedure | HCPCS     |
| Q0163 | Diphenhydramine HCl, 50 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at time of chemotherapy treatment not to exceed a 48-hour dosage regimen           | Procedure | HCPCS     |
| Q0164 | Prochlorperazine maleate, 5 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen  | Procedure | HCPCS     |
| Q0165 | Prochlorperazine maleate, 10 mg, oral, FDA approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen | Procedure | HCPCS     |
| Q0166 | Granisetron HCl, 1 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 24-hour dosage regimen           | Procedure | HCPCS     |
| Q0167 | Dronabinol, 2.5 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen              | Procedure | HCPCS     |
| Q0168 | Dronabinol, 5 mg, oral, FDA approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen                | Procedure | HCPCS     |
| Q0169 | Promethazine HCl, 12.5 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen       | Procedure | HCPCS     |
| Q0170 | Promethazine HCl, 25 mg, oral, FDA approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen         | Procedure | HCPCS     |
| Q0171 | Chlorpromazine HCl, 10 mg, oral, FDA approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen       | Procedure | HCPCS     |
| Q0172 | Chlorpromazine HCl, 25 mg, oral, FDA approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen       | Procedure | HCPCS     |
| Q0173 | Trimethobenzamide HCl, 250 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen   | Procedure | HCPCS     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                  | Code      |           |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                              | Category  | Code Type |
| Q0174 | Thiethylperazine maleate, 10 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen | Procedure | HCPCS     |
| Q0175 | Perphenazine, 4 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen              | Procedure | HCPCS     |
| Q0176 | Perphenazine, 8 mg, oral, FDA approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48 hour dosage regimen              | Procedure | HCPCS     |
| Q0177 | Hydroxyzine pamoate, 25 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen      | Procedure | HCPCS     |
| Q0178 | Hydroxyzine pamoate, 50 mg, oral, FDA approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen      | Procedure | HCPCS     |
| Q0179 | Ondansetron HCl 8 mg, oral, FDA approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen            | Procedure | HCPCS     |
| Q0180 | Dolasetron mesylate, 100 mg, oral, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 24-hour dosage regimen     | Procedure | HCPCS     |
| Q0181 | Unspecified oral dosage form, FDA-approved prescription antiemetic, for use as a complete therapeutic substitute for an IV antiemetic at the time of chemotherapy treatment, not to exceed a 48-hour dosage regimen          | Procedure | HCPCS     |
| Q2025 | Fludarabine phosphate, oral, 1 mg                                                                                                                                                                                            | Procedure | HCPCS     |
| Q2043 | Sipuleucel-T, minimum of 50 million autologous CD54+ cells activated with PAP-GM-CSF, including leukapheresis and all other preparatory procedures, per infusion                                                             | Procedure | HCPCS     |
| Q2048 | Injection, doxorubicin hydrochloride, liposomal, DOXIL, 10 mg                                                                                                                                                                | Procedure | HCPCS     |
| Q2049 | Injection, doxorubicin HCl, liposomal, imported Lipodox, 10 mg                                                                                                                                                               | Procedure | HCPCS     |
| Q2050 | Injection, doxorubicin HCl, liposomal, not otherwise specified, 10 mg                                                                                                                                                        | Procedure | HCPCS     |
| Q5112 | Injection, trastuzumab-dttb, biosimilar, (Ontruzant), 10 mg                                                                                                                                                                  | Procedure | HCPCS     |
| Q5113 | Injection, trastuzumab-pkrb, biosimilar, (Herzuma), 10 mg                                                                                                                                                                    | Procedure | HCPCS     |
| Q5114 | Injection, Trastuzumab-dkst, biosimilar, (Ogivri), 10 mg                                                                                                                                                                     | Procedure | HCPCS     |
| Q5115 | Injection, rituximab-abbs, biosimilar, (Truxima), 10 mg                                                                                                                                                                      | Procedure | HCPCS     |
| Q5116 | Injection, trastuzumab-qyyp, biosimilar, (Trazimera), 10 mg                                                                                                                                                                  | Procedure | HCPCS     |
| Q5117 | Injection, trastuzumab-anns, biosimilar, (Kanjinti), 10 mg                                                                                                                                                                   | Procedure | HCPCS     |
| Q9979 | Injection, Alemtuzumab, 1 mg                                                                                                                                                                                                 | Procedure | HCPCS     |
| S0087 | Injection, alemtuzumab, 30 mg                                                                                                                                                                                                | Procedure | HCPCS     |
| S0088 | Imatinib, 100 mg                                                                                                                                                                                                             | Procedure | HCPCS     |
| S0108 | Mercaptopurine, oral, 50 mg                                                                                                                                                                                                  | Procedure | HCPCS     |
| S0115 | Bortezomib, 3.5 mg                                                                                                                                                                                                           | Procedure | HCPCS     |
| S0116 | Bevacizumab, 100 mg                                                                                                                                                                                                          | Procedure | HCPCS     |
| S0168 | Injection, azacitidine, 100 mg                                                                                                                                                                                               | Procedure | HCPCS     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code  | Description                                                                                                                                                                                                                                                         | Code      |           |
|-------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                     | Category  | Code Type |
| S0172 | Chlorambucil, oral, 2 mg                                                                                                                                                                                                                                            | Procedure | HCPCS     |
| S0176 | Hydroxyurea, oral, 500 mg                                                                                                                                                                                                                                           | Procedure | HCPCS     |
| S0178 | Lomustine, oral, 10 mg                                                                                                                                                                                                                                              | Procedure | HCPCS     |
| S0182 | Procarbazine HCl, oral, 50 mg                                                                                                                                                                                                                                       | Procedure | HCPCS     |
| S0353 | Treatment planning and care coordination management for cancer initial treatment                                                                                                                                                                                    | Procedure | HCPCS     |
| S0354 | Treatment planning and care coordination management for cancer established patient with a change of regimen                                                                                                                                                         | Procedure | HCPCS     |
| S2095 | Transcatheter occlusion or embolization for tumor destruction, percutaneous, any method, using yttrium-90 microspheres                                                                                                                                              | Procedure | HCPCS     |
| S2107 | Adoptive immunotherapy i.e. development of specific antitumor reactivity (e.g., tumor-infiltrating lymphocyte therapy) per course of treatment                                                                                                                      | Procedure | HCPCS     |
| S2210 | Cryosurgical ablation (in situ destruction) of tumorous tissue, one or more lesions; liver                                                                                                                                                                          | Procedure | HCPCS     |
| S3700 | Bladder tumor-associated antigen test                                                                                                                                                                                                                               | Procedure | HCPCS     |
| S3711 | Circulating tumor cell test                                                                                                                                                                                                                                         | Procedure | HCPCS     |
| S3721 | Prostate cancer antigen 3 (PCA3) testing                                                                                                                                                                                                                            | Procedure | HCPCS     |
| S3820 | Complete BRCA1 and BRCA2 gene sequence analysis for susceptibility to breast and ovarian cancer                                                                                                                                                                     | Procedure | HCPCS     |
| S3822 | Single mutation analysis (in individual with a known BRCA1 or BRCA2 mutation in the family) for susceptibility to breast and ovarian cancer                                                                                                                         | Procedure | HCPCS     |
| S3823 | Three-mutation BRCA1 and BRCA2 analysis for susceptibility to breast and ovarian cancer in Ashkenazi individuals                                                                                                                                                    | Procedure | HCPCS     |
| S3830 | Complete MLH1 and MSH2 gene sequence analysis for hereditary nonpolyposis colorectal cancer (HNPCC) genetic testing                                                                                                                                                 | Procedure | HCPCS     |
| S3831 | Single-mutation analysis (in individual with a known MLH1 and MSH2 mutation in the family) for hereditary nonpolyposis colorectal cancer (HNPCC) genetic testing                                                                                                    | Procedure | HCPCS     |
| S3854 | Gene expression profiling panel for use in the management of breast cancer treatment                                                                                                                                                                                | Procedure | HCPCS     |
| S5019 | Chemotherapy administration supplies (with pump), per diem                                                                                                                                                                                                          | Procedure | HCPCS     |
| S5020 | Chemotherapy administration supplies (without pump), per diem                                                                                                                                                                                                       | Procedure | HCPCS     |
| S9329 | Home infusion therapy, chemotherapy infusion; administrative services, professional pharmacy services, care coordination, and all necessary supplies and equipment (drugs and nursing visits coded separately), per diem (do not use this code with S9330 or S9331) | Procedure | HCPCS     |
| S9330 | Home infusion therapy, continuous (24 hours or more) chemotherapy infusion; administrative services, professional pharmacy services, care coordination, and all necessary supplies and equipment (drugs and nursing visits coded separately), per diem              | Procedure | HCPCS     |
| S9331 | Home infusion therapy, intermittent (less than 24 hours) chemotherapy infusion; administrative services, professional pharmacy services, care coordination, and all necessary supplies and equipment (drugs and nursing visits coded separately), per diem          | Procedure | HCPCS     |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code   | Description                                                                                                                                                                                                                                                          | Code      |           |
|--------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                                                                                                                                                                                                      | Category  | Code Type |
| S9359  | Home infusion therapy, antitumor necrosis factor intravenous therapy; (e.g., Infliximab); administrative services, professional pharmacy services, care coordination, and all necessary supplies and equipment (drugs and nursing visits coded separately), per diem | Procedure | HCPCS     |
| S9425  | Nursing services and all necessary supplies and additives for home iv chemotherapy (via iv push, gravity drip, stationary pump, ambulatory belt pump), per diem (hydration solution and drugs not included)                                                          | Procedure | HCPCS     |
| V10    | Personal history of malignant neoplasm                                                                                                                                                                                                                               | Diagnosis | ICD-9-CM  |
| V10.0  | Personal history of malignant neoplasm of gastrointestinal tract                                                                                                                                                                                                     | Diagnosis | ICD-9-CM  |
| V10.00 | Personal history of malignant neoplasm of unspecified site in gastrointestinal tract                                                                                                                                                                                 | Diagnosis | ICD-9-CM  |
| V10.01 | Personal history of malignant neoplasm of tongue                                                                                                                                                                                                                     | Diagnosis | ICD-9-CM  |
| V10.02 | Personal history of malignant neoplasm of other and unspecified parts of oral cavity and pharynx                                                                                                                                                                     | Diagnosis | ICD-9-CM  |
| V10.03 | Personal history of malignant neoplasm of esophagus                                                                                                                                                                                                                  | Diagnosis | ICD-9-CM  |
| V10.04 | Personal history of malignant neoplasm of stomach                                                                                                                                                                                                                    | Diagnosis | ICD-9-CM  |
| V10.05 | Personal history of malignant neoplasm of large intestine                                                                                                                                                                                                            | Diagnosis | ICD-9-CM  |
| V10.06 | Personal history of malignant neoplasm of rectum, rectosigmoid junction, and anus                                                                                                                                                                                    | Diagnosis | ICD-9-CM  |
| V10.07 | Personal history of malignant neoplasm of liver                                                                                                                                                                                                                      | Diagnosis | ICD-9-CM  |
| V10.09 | Personal history of malignant neoplasm of other site in gastrointestinal tract                                                                                                                                                                                       | Diagnosis | ICD-9-CM  |
| V10.1  | Personal history of malignant neoplasm of trachea, bronchus, and lung                                                                                                                                                                                                | Diagnosis | ICD-9-CM  |
| V10.11 | Personal history of malignant neoplasm of bronchus and lung                                                                                                                                                                                                          | Diagnosis | ICD-9-CM  |
| V10.12 | Personal history of malignant neoplasm of trachea                                                                                                                                                                                                                    | Diagnosis | ICD-9-CM  |
| V10.2  | Personal history of malignant neoplasm of other respiratory and intrathoracic organs                                                                                                                                                                                 | Diagnosis | ICD-9-CM  |
| V10.20 | Personal history of malignant neoplasm of unspecified respiratory organ                                                                                                                                                                                              | Diagnosis | ICD-9-CM  |
| V10.21 | Personal history of malignant neoplasm of larynx                                                                                                                                                                                                                     | Diagnosis | ICD-9-CM  |
| V10.22 | Personal history of malignant neoplasm of nasal cavities, middle ear, and accessory sinuses                                                                                                                                                                          | Diagnosis | ICD-9-CM  |
| V10.29 | Personal history of malignant neoplasm of other respiratory and intrathoracic organs                                                                                                                                                                                 | Diagnosis | ICD-9-CM  |
| V10.3  | Personal history of malignant neoplasm of breast                                                                                                                                                                                                                     | Diagnosis | ICD-9-CM  |
| V10.4  | Personal history of malignant neoplasm of genital organs                                                                                                                                                                                                             | Diagnosis | ICD-9-CM  |
| V10.40 | Personal history of malignant neoplasm of unspecified female genital organ                                                                                                                                                                                           | Diagnosis | ICD-9-CM  |
| V10.41 | Personal history of malignant neoplasm of cervix uteri                                                                                                                                                                                                               | Diagnosis | ICD-9-CM  |
| V10.42 | Personal history of malignant neoplasm of other parts of uterus                                                                                                                                                                                                      | Diagnosis | ICD-9-CM  |
| V10.43 | Personal history of malignant neoplasm of ovary                                                                                                                                                                                                                      | Diagnosis | ICD-9-CM  |
| V10.44 | Personal history of malignant neoplasm of other female genital organs                                                                                                                                                                                                | Diagnosis | ICD-9-CM  |
| V10.45 | Personal history of malignant neoplasm of unspecified male genital organ                                                                                                                                                                                             | Diagnosis | ICD-9-CM  |
| V10.46 | Personal history of malignant neoplasm of prostate                                                                                                                                                                                                                   | Diagnosis | ICD-9-CM  |
| V10.47 | Personal history of malignant neoplasm of testis                                                                                                                                                                                                                     | Diagnosis | ICD-9-CM  |
| V10.48 | Personal history of malignant neoplasm of epididymis                                                                                                                                                                                                                 | Diagnosis | ICD-9-CM  |
| V10.49 | Personal history of malignant neoplasm of other male genital organs                                                                                                                                                                                                  | Diagnosis | ICD-9-CM  |
| V10.5  | Personal history of malignant neoplasm of urinary organs                                                                                                                                                                                                             | Diagnosis | ICD-9-CM  |
| V10.50 | Personal history of malignant neoplasm of unspecified urinary organ                                                                                                                                                                                                  | Diagnosis | ICD-9-CM  |
| V10.51 | Personal history of malignant neoplasm of bladder                                                                                                                                                                                                                    | Diagnosis | ICD-9-CM  |

| V10.60  | Personal history of unspecified leukemia                                                                                                                 | Diagnosis | ICD-9-CM   |
| V10.61  | Personal history of lymphoid leukemia                                                                                                                    | Diagnosis | ICD-9-CM   |
| V10.62  | Personal history of myeloid leukemia                                                                                                                     | Diagnosis | ICD-9-CM   |
| V10.63  | Personal history of monocytic leukemia                                                                                                                   | Diagnosis | ICD-9-CM   |
| V10.69  | Personal history of other leukemia                                                                                                                       | Diagnosis | ICD-9-CM   |
| V10.7   | Personal history of other lymphatic and hematopoietic neoplasms                                                                                          | Diagnosis | ICD-9-CM   |
| V10.71  | Personal history of lymphosarcoma and reticulosarcoma                                                                                                    | Diagnosis | ICD-9-CM   |
| V10.72  | Personal history of Hodgkin's disease                                                                                                                    | Diagnosis | ICD-9-CM   |
| V10.79  | Personal history of other lymphatic and hematopoietic neoplasm                                                                                           | Diagnosis | ICD-9-CM   |
| V10.8   | Personal history of malignant neoplasm of other sites                                                                                                    | Diagnosis | ICD-9-CM   |
| V10.81  | Personal history of malignant neoplasm of bone                                                                                                           | Diagnosis | ICD-9-CM   |
| V10.82  | Personal history of malignant melanoma of skin                                                                                                           | Diagnosis | ICD-9-CM   |
| V10.83  | Personal history of other malignant neoplasm of skin                                                                                                     | Diagnosis | ICD-9-CM   |
| V10.84  | Personal history of malignant neoplasm of eye                                                                                                            | Diagnosis | ICD-9-CM   |
| V10.85  | Personal history of malignant neoplasm of brain                                                                                                          | Diagnosis | ICD-9-CM   |
| V10.86  | Personal history of malignant neoplasm of other parts of nervous system                                                                                  | Diagnosis | ICD-9-CM   |
| V10.87  | Personal history of malignant neoplasm of thyroid                                                                                                        | Diagnosis | ICD-9-CM   |
| V10.88  | Personal history of malignant neoplasm of other endocrine glands and related structures                                                                  | Diagnosis | ICD-9-CM   |
| V10.89  | Personal history of malignant neoplasm of other site                                                                                                     | Diagnosis | ICD-9-CM   |
| V10.9   | Other and unspecified personal history of malignant neoplasm                                                                                             | Diagnosis | ICD-9-CM   |
| V10.90  | Personal history of unspecified malignant neoplasm                                                                                                       | Diagnosis | ICD-9-CM   |
| V10.91  | Personal history of malignant neuroendocrine tumor                                                                                                       | Diagnosis | ICD-9-CM   |
| V13.89  | Personal history of other specified diseases                                                                                                             | Diagnosis | ICD-9-CM   |
| V87.41  | Personal history of antineoplastic chemotherapy                                                                                                          | Diagnosis | ICD-9-CM   |
| XW03351 | Introduction of Blinatumomab Antineoplastic Immunotherapy into Peripheral Vein, Percutaneous Approach, New Technology Group 1                            | Procedure | ICD-10-PCS |
| XW033B3 | Introduction of Cytarabine and Daunorubicin Liposome Antineoplastic into Peripheral Vein, Percutaneous Approach, New Technology Group 3                  | Procedure | ICD-10-PCS |
| XW033C3 | Introduction of Engineered Autologous Chimeric Antigen Receptor T-cell Immunotherapy into Peripheral Vein, Percutaneous Approach, New Technology Group 3 | Procedure | ICD-10-PCS |
| XW033Q5 | Introduction of Tagraxofusp-erzs Antineoplastic into Peripheral Vein, Percutaneous Approach, New Technology Group 5                                      | Procedure | ICD-10-PCS |
| XW033S5 | Introduction of Iobenguane I-131 Antineoplastic into Peripheral Vein, Percutaneous Approach, New Technology Group 5                                      | Procedure | ICD-10-PCS |
| XW04351 | Introduction of Blinatumomab Antineoplastic Immunotherapy into Central Vein, Percutaneous Approach, New Technology Group 1                               | Procedure | ICD-10-PCS |
| XW043B3 | Introduction of Cytarabine and Daunorubicin Liposome Antineoplastic into Central Vein, Percutaneous Approach, New Technology Group 3                     | Procedure | ICD-10-PCS |

|         |                                                                                                                  | Category  | Code Type  |
| XW043C3 | Introduction of Engineered Autologous Chimeric Antigen Receptor T-cell                                           | Procedure | ICD-10-PCS |
| XW043Q5 | Immunotherapy into Central Vein, Percutaneous Approach, New Technology Group 3                                   | Procedure | ICD-10-PCS |
| XW043S5 | Introduction of Tagraxofusp-erzs Antineoplastic into Central Vein, Percutaneous Approach, New Technology Group 5 | Procedure | ICD-10-PCS |
| XW043S5 | Introduction of Iobenguane I-131 Antineoplastic into Central Vein, Percutaneous Approach, New Technology Group 5 | Procedure | ICD-10-PCS |
| XW0DXL5 | Introduction of Erdafitinib Antineoplastic into Mouth and Pharynx, External Approach, New Technology Group 5     | Procedure | ICD-10-PCS |
| XW0DXR5 | Introduction of Venetoclax Antineoplastic into Mouth and Pharynx, External Approach, New Technology Group 5      | Procedure | ICD-10-PCS |
| XW0DXT5 | Introduction of Ruxolitinib into Mouth and Pharynx, External Approach, New Technology Group 5                    | Procedure | ICD-10-PCS |
| XW0DXV5 | Introduction of Gilteritinib Antineoplastic into Mouth and Pharynx, External Approach, New Technology Group 5    | Procedure | ICD-10-PCS |
| Z85     | Personal history of malignant neoplasm                                                                           | Diagnosis | ICD-10-CM  |
| Z85.0   | Personal history of malignant neoplasm of digestive organs                                                       | Diagnosis | ICD-10-CM  |
| Z85.00  | Personal history of malignant neoplasm of unspecified digestive organ                                            | Diagnosis | ICD-10-CM  |
| Z85.01  | Personal history of malignant neoplasm of esophagus                                                              | Diagnosis | ICD-10-CM  |
| Z85.02  | Personal history of malignant neoplasm of stomach                                                                | Diagnosis | ICD-10-CM  |
| Z85.020 | Personal history of malignant carcinoid tumor of stomach                                                         | Diagnosis | ICD-10-CM  |
| Z85.028 | Personal history of other malignant neoplasm of stomach                                                          | Diagnosis | ICD-10-CM  |
| Z85.03  | Personal history of malignant neoplasm of large intestine                                                        | Diagnosis | ICD-10-CM  |
| Z85.030 | Personal history of malignant carcinoid tumor of large intestine                                                 | Diagnosis | ICD-10-CM  |
| Z85.038 | Personal history of other malignant neoplasm of large intestine                                                  | Diagnosis | ICD-10-CM  |
| Z85.04  | Personal history of malignant neoplasm of rectum, rectosigmoid junction, and anus                                | Diagnosis | ICD-10-CM  |
| Z85.040 | Personal history of malignant carcinoid tumor of rectum                                                          | Diagnosis | ICD-10-CM  |
| Z85.048 | Personal history of other malignant neoplasm of rectum, rectosigmoid junction, and anus                          | Diagnosis | ICD-10-CM  |
| Z85.05  | Personal history of malignant neoplasm of liver                                                                  | Diagnosis | ICD-10-CM  |
| Z85.06  | Personal history of malignant neoplasm of small intestine                                                        | Diagnosis | ICD-10-CM  |
| Z85.060 | Personal history of malignant carcinoid tumor of small intestine                                                 | Diagnosis | ICD-10-CM  |
| Z85.068 | Personal history of other malignant neoplasm of small intestine                                                  | Diagnosis | ICD-10-CM  |
| Z85.07  | Personal history of malignant neoplasm of pancreas                                                               | Diagnosis | ICD-10-CM  |
| Z85.09  | Personal history of malignant neoplasm of other digestive organs                                                 | Diagnosis | ICD-10-CM  |
| Z85.1   | Personal history of malignant neoplasm of trachea, bronchus and lung                                             | Diagnosis | ICD-10-CM  |
| Z85.11  | Personal history of malignant neoplasm of bronchus and lung                                                      | Diagnosis | ICD-10-CM  |
| Z85.110 | Personal history of malignant carcinoid tumor of bronchus and lung                                               | Diagnosis | ICD-10-CM  |
| Z85.118 | Personal history of other malignant neoplasm of bronchus and lung                                                | Diagnosis | ICD-10-CM  |
| Z85.12  | Personal history of malignant neoplasm of trachea                                                                | Diagnosis | ICD-10-CM  |
| Z85.2   | Personal history of malignant neoplasm of other respiratory and intrathoracic organs                             | Diagnosis | ICD-10-CM  |
| Z85.20  | Personal history of malignant neoplasm of unspecified respiratory organ                                          | Diagnosis | ICD-10-CM  |
| Z85.21  | Personal history of malignant neoplasm of larynx                                                                 | Diagnosis | ICD-10-CM  |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code    | Description                                                                                  | Code      |           |
|---------|----------------------------------------------------------------------------------------------|-----------|-----------|
|         |                                                                                              | Category  | Code Type |
| Z85.22  | Personal history of malignant neoplasm of nasal cavities, middle ear, and accessory sinuses  | Diagnosis | ICD-10-CM |
| Z85.23  | Personal history of malignant neoplasm of thymus                                             | Diagnosis | ICD-10-CM |
| Z85.230 | Personal history of malignant carcinoid tumor of thymus                                      | Diagnosis | ICD-10-CM |
| Z85.238 | Personal history of other malignant neoplasm of thymus                                       | Diagnosis | ICD-10-CM |
| Z85.29  | Personal history of malignant neoplasm of other respiratory and intrathoracic organs         | Diagnosis | ICD-10-CM |
| Z85.3   | Personal history of malignant neoplasm of breast                                             | Diagnosis | ICD-10-CM |
| Z85.4   | Personal history of malignant neoplasm of genital organs                                     | Diagnosis | ICD-10-CM |
| Z85.40  | Personal history of malignant neoplasm of unspecified female genital organ                   | Diagnosis | ICD-10-CM |
| Z85.41  | Personal history of malignant neoplasm of cervix uteri                                       | Diagnosis | ICD-10-CM |
| Z85.42  | Personal history of malignant neoplasm of other parts of uterus                              | Diagnosis | ICD-10-CM |
| Z85.43  | Personal history of malignant neoplasm of ovary                                              | Diagnosis | ICD-10-CM |
| Z85.44  | Personal history of malignant neoplasm of other female genital organs                        | Diagnosis | ICD-10-CM |
| Z85.45  | Personal history of malignant neoplasm of unspecified male genital organ                     | Diagnosis | ICD-10-CM |
| Z85.46  | Personal history of malignant neoplasm of prostate                                           | Diagnosis | ICD-10-CM |
| Z85.47  | Personal history of malignant neoplasm of testis                                             | Diagnosis | ICD-10-CM |
| Z85.48  | Personal history of malignant neoplasm of epididymis                                         | Diagnosis | ICD-10-CM |
| Z85.49  | Personal history of malignant neoplasm of other male genital organs                          | Diagnosis | ICD-10-CM |
| Z85.5   | Personal history of malignant neoplasm of urinary tract                                      | Diagnosis | ICD-10-CM |
| Z85.50  | Personal history of malignant neoplasm of unspecified urinary tract organ                    | Diagnosis | ICD-10-CM |
| Z85.51  | Personal history of malignant neoplasm of bladder                                            | Diagnosis | ICD-10-CM |
| Z85.53  | Personal history of malignant neoplasm of renal pelvis                                       | Diagnosis | ICD-10-CM |
| Z85.54  | Personal history of malignant neoplasm of ureter                                             | Diagnosis | ICD-10-CM |
| Z85.59  | Personal history of malignant neoplasm of other urinary tract organ                          | Diagnosis | ICD-10-CM |
| Z85.6   | Personal history of leukemia                                                                 | Diagnosis | ICD-10-CM |
| Z85.7   | Personal history of other malignant neoplasms of lymphoid, hematopoietic and related tissues | Diagnosis | ICD-10-CM |
| Z85.71  | Personal history of Hodgkin lymphoma                                                         | Diagnosis | ICD-10-CM |
| Z85.72  | Personal history of non-Hodgkin lymphomas                                                    | Diagnosis | ICD-10-CM |
| Z85.79  | Personal history of other malignant neoplasms of lymphoid, hematopoietic and related tissues | Diagnosis | ICD-10-CM |
| Z85.8   | Personal history of malignant neoplasms of other organs and systems                          | Diagnosis | ICD-10-CM |
| Z85.81  | Personal history of malignant neoplasm of lip, oral cavity, and pharynx                      | Diagnosis | ICD-10-CM |
| Z85.810 | Personal history of malignant neoplasm of tongue                                             | Diagnosis | ICD-10-CM |
| Z85.818 | Personal history of malignant neoplasm of other sites of lip, oral cavity, and pharynx       | Diagnosis | ICD-10-CM |
| Z85.819 | Personal history of malignant neoplasm of unspecified site of lip, oral cavity, and pharynx  | Diagnosis | ICD-10-CM |
| Z85.82  | Personal history of malignant neoplasm of skin                                               | Diagnosis | ICD-10-CM |
| Z85.820 | Personal history of malignant melanoma of skin                                               | Diagnosis | ICD-10-CM |
| Z85.828 | Personal history of other malignant neoplasm of skin                                         | Diagnosis | ICD-10-CM |
| Z85.83  | Personal history of malignant neoplasm of bone and soft tissue                               | Diagnosis | ICD-10-CM |
| Z85.830 | Personal history of malignant neoplasm of bone                                               | Diagnosis | ICD-10-CM |
| Z85.831 | Personal history of malignant neoplasm of soft tissue                                        | Diagnosis | ICD-10-CM |

**Appendix H. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), Healthcare Common Procedure Coding System (HCPCS), and International Classification of Diseases, Tenth Revision, Procedure Coding System (ICD-10-PCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Censoring Criteria in this Request**

| Code    | Description                                                             | Code      |           |
|---------|-------------------------------------------------------------------------|-----------|-----------|
|         |                                                                         | Category  | Code Type |
| Z85.84  | Personal history of malignant neoplasm of eye and nervous tissue        | Diagnosis | ICD-10-CM |
| Z85.840 | Personal history of malignant neoplasm of eye                           | Diagnosis | ICD-10-CM |
| Z85.841 | Personal history of malignant neoplasm of brain                         | Diagnosis | ICD-10-CM |
| Z85.848 | Personal history of malignant neoplasm of other parts of nervous tissue | Diagnosis | ICD-10-CM |
| Z85.85  | Personal history of malignant neoplasm of endocrine glands              | Diagnosis | ICD-10-CM |
| Z85.850 | Personal history of malignant neoplasm of thyroid                       | Diagnosis | ICD-10-CM |
| Z85.858 | Personal history of malignant neoplasm of other endocrine glands        | Diagnosis | ICD-10-CM |
| Z85.89  | Personal history of malignant neoplasm of other organs and systems      | Diagnosis | ICD-10-CM |
| Z85.9   | Personal history of malignant neoplasm, unspecified                     | Diagnosis | ICD-10-CM |
| Z92.21  | Personal history of antineoplastic chemotherapy                         | Diagnosis | ICD-10-CM |

**Note:** National Drug Codes (NDCs) for products in Appendix G are also searched for in the Procedure table to define censoring criteria.

**Appendix I. List of Generic and Brand Names of Medical Products Used to Define Covariates in this Request**

| Generic Name                                          | Brand Name                     |
|-------------------------------------------------------|--------------------------------|
| <b>Alpha Glucosidase Inhibitors</b>                   |                                |
| acarbose                                              | acarbose                       |
| acarbose                                              | precose                        |
| miglitol                                              | glyset                         |
| miglitol                                              | miglitol                       |
| <b>Angiotensin Converting Enzyme (ACE) Inhibitors</b> |                                |
| amlodipine besylate/benazepril HCl                    | amlodipine-benazepril          |
| amlodipine besylate/benazepril HCl                    | lotrel                         |
| benazepril HCl                                        | benazepril                     |
| benazepril HCl                                        | lotensin                       |
| benazepril HCl/hydrochlorothiazide                    | benazepril-hydrochlorothiazide |
| benazepril HCl/hydrochlorothiazide                    | lotensin HCT                   |
| captopril                                             | captopril                      |
| captopril/hydrochlorothiazide                         | captopril-hydrochlorothiazide  |
| enalapril maleate                                     | enalapril maleate              |
| enalapril maleate                                     | epaned                         |
| enalapril maleate                                     | vasotec                        |
| enalapril maleate/hydrochlorothiazide                 | enalapril-hydrochlorothiazide  |
| enalapril maleate/hydrochlorothiazide                 | vaseretic                      |
| enalaprilat dihydrate                                 | enalaprilat                    |
| fosinopril sodium                                     | fosinopril                     |
| fosinopril sodium/hydrochlorothiazide                 | fosinopril-hydrochlorothiazide |
| lisinopril                                            | lisinopril                     |

| Alcohol Use |                                                                                    |           |           |
| 291.0       | Alcohol withdrawal delirium                                                        | Diagnosis | ICD-9-CM  |
| 291.1       | Alcohol-induced persisting amnestic disorder                                       | Diagnosis | ICD-9-CM  |
| 291.2       | Alcohol-induced persisting dementia                                                | Diagnosis | ICD-9-CM  |
| 291.3       | Alcohol-induced psychotic disorder with hallucinations                             | Diagnosis | ICD-9-CM  |
| 291.4       | Idiosyncratic alcohol intoxication                                                 | Diagnosis | ICD-9-CM  |
| 291.5       | Alcohol-induced psychotic disorder with delusions                                  | Diagnosis | ICD-9-CM  |
| 291.8       | Other specified alcohol-induced mental disorders                                   | Diagnosis | ICD-9-CM  |
| 291.81      | Alcohol withdrawal                                                                 | Diagnosis | ICD-9-CM  |
| 291.82      | Alcohol induced sleep disorders                                                    | Diagnosis | ICD-9-CM  |
| 291.89      | Other specified alcohol-induced mental disorders                                   | Diagnosis | ICD-9-CM  |
| 291.9       | Unspecified alcohol-induced mental disorders                                       | Diagnosis | ICD-9-CM  |
| 303.00      | Acute alcoholic intoxication, unspecified                                          | Diagnosis | ICD-9-CM  |
| 303.01      | Acute alcoholic intoxication, continuous                                           | Diagnosis | ICD-9-CM  |
| 303.02      | Acute alcoholic intoxication, episodic                                             | Diagnosis | ICD-9-CM  |
| 303.03      | Acute alcoholic intoxication, in remission                                         | Diagnosis | ICD-9-CM  |
| 303.90      | Other and unspecified alcohol dependence, unspecified                              | Diagnosis | ICD-9-CM  |
| 303.91      | Other and unspecified alcohol dependence, continuous                               | Diagnosis | ICD-9-CM  |
| 303.92      | Other and unspecified alcohol dependence, episodic                                 | Diagnosis | ICD-9-CM  |
| 303.93      | Other and unspecified alcohol dependence, in remission                             | Diagnosis | ICD-9-CM  |
| 305.00      | Nondependent alcohol abuse, unspecified                                            | Diagnosis | ICD-9-CM  |
| 305.01      | Nondependent alcohol abuse, continuous                                             | Diagnosis | ICD-9-CM  |
| 305.02      | Nondependent alcohol abuse, episodic                                               | Diagnosis | ICD-9-CM  |
| 357.5       | Alcoholic polyneuropathy                                                           | Diagnosis | ICD-9-CM  |
| 425.5       | Alcoholic cardiomyopathy                                                           | Diagnosis | ICD-9-CM  |
| 535.30      | Alcoholic gastritis without mention of hemorrhage                                  | Diagnosis | ICD-9-CM  |
| 535.31      | Alcoholic gastritis with hemorrhage                                                | Diagnosis | ICD-9-CM  |
| 571.0       | Alcoholic fatty liver                                                              | Diagnosis | ICD-9-CM  |
| 571.1       | Acute alcoholic hepatitis                                                          | Diagnosis | ICD-9-CM  |
| 571.2       | Alcoholic cirrhosis of liver                                                       | Diagnosis | ICD-9-CM  |
| 571.3       | Unspecified alcoholic liver damage                                                 | Diagnosis | ICD-9-CM  |
| 760.71      | Noxious influences affecting fetus or newborn via placenta or breast milk, alcohol | Diagnosis | ICD-9-CM  |
| 790.3       | Excessive blood level of alcohol                                                   | Diagnosis | ICD-9-CM  |
| 94.46       | Alcoholism counseling                                                              | Procedure | ICD-9-CM  |
| 94.53       | Referral for alcoholism rehabilitation                                             | Procedure | ICD-9-CM  |
| 94.6        | Alcohol and drug rehabilitation and detoxification                                 | Procedure | ICD-9-CM  |
| 94.61       | Alcohol rehabilitation                                                             | Procedure | ICD-9-CM  |
| 94.62       | Alcohol detoxification                                                             | Procedure | ICD-9-CM  |
| 94.63       | Alcohol rehabilitation and detoxification                                          | Procedure | ICD-9-CM  |
| 94.67       | Combined alcohol and drug rehabilitation                                           | Procedure | ICD-9-CM  |
| 94.68       | Combined alcohol and drug detoxification                                           | Procedure | ICD-9-CM  |
| 94.69       | Combined alcohol and drug rehabilitation and detoxification                        | Procedure | ICD-9-CM  |
| 980.0       | Toxic effect of ethyl alcohol                                                      | Diagnosis | ICD-9-CM  |

| 435.8  | Other specified transient cerebral ischemias                                                                          | Diagnosis | ICD-9-CM  |
| 435.9  | Unspecified transient cerebral ischemia                                                                               | Diagnosis | ICD-9-CM  |
| 436    | Acute, but ill-defined, cerebrovascular disease                                                                       | Diagnosis | ICD-9-CM  |
| 997.02 | Iatrogenic cerebrovascular infarction or hemorrhage                                                                   | Diagnosis | ICD-9-CM  |
| G45.0  | Vertebro-basilar artery syndrome                                                                                      | Diagnosis | ICD-10-CM |
| G45.1  | Carotid artery syndrome (hemispheric)                                                                                 | Diagnosis | ICD-10-CM |
| G45.2  | Multiple and bilateral precerebral artery syndromes                                                                   | Diagnosis | ICD-10-CM |
| G45.3  | Amaurosis fugax                                                                                                       | Diagnosis | ICD-10-CM |
| G45.8  | Other transient cerebral ischemic attacks and related syndromes                                                       | Diagnosis | ICD-10-CM |
| G45.9  | Transient cerebral ischemic attack, unspecified                                                                       | Diagnosis | ICD-10-CM |
| G46.0  | Middle cerebral artery syndrome                                                                                       | Diagnosis | ICD-10-CM |
| G46.1  | Anterior cerebral artery syndrome                                                                                     | Diagnosis | ICD-10-CM |
| G46.2  | Posterior cerebral artery syndrome                                                                                    | Diagnosis | ICD-10-CM |
| G46.3  | Brain stem stroke syndrome                                                                                            | Diagnosis | ICD-10-CM |
| G46.4  | Cerebellar stroke syndrome                                                                                            | Diagnosis | ICD-10-CM |
| G46.5  | Pure motor lacunar syndrome                                                                                           | Diagnosis | ICD-10-CM |
| G46.6  | Pure sensory lacunar syndrome                                                                                         | Diagnosis | ICD-10-CM |
| G46.7  | Other lacunar syndromes                                                                                               | Diagnosis | ICD-10-CM |
| G46.8  | Other vascular syndromes of brain in cerebrovascular diseases                                                         | Diagnosis | ICD-10-CM |
| G97.31 | Intraoperative hemorrhage and hematoma of a nervous system organ or structure complicating a nervous system procedure | Diagnosis | ICD-10-CM |
| G97.32 | Intraoperative hemorrhage and hematoma of a nervous system organ or structure complicating other procedure            | Diagnosis | ICD-10-CM |
| I60.00 | Nontraumatic subarachnoid hemorrhage from unspecified carotid siphon and bifurcation                                  | Diagnosis | ICD-10-CM |
| I60.01 | Nontraumatic subarachnoid hemorrhage from right carotid siphon and bifurcation                                        | Diagnosis | ICD-10-CM |
| I60.02 | Nontraumatic subarachnoid hemorrhage from left carotid siphon and bifurcation                                         | Diagnosis | ICD-10-CM |
| I60.10 | Nontraumatic subarachnoid hemorrhage from unspecified middle cerebral artery                                          | Diagnosis | ICD-10-CM |
| I60.11 | Nontraumatic subarachnoid hemorrhage from right middle cerebral artery                                                | Diagnosis | ICD-10-CM |
| I60.12 | Nontraumatic subarachnoid hemorrhage from left middle cerebral artery                                                 | Diagnosis | ICD-10-CM |
| I60.2  | Nontraumatic subarachnoid hemorrhage from anterior communicating artery                                               | Diagnosis | ICD-10-CM |
| I60.20 | Nontraumatic subarachnoid hemorrhage from unspecified anterior communicating artery                                   | Diagnosis | ICD-10-CM |
| I60.21 | Nontraumatic subarachnoid hemorrhage from right anterior communicating artery                                         | Diagnosis | ICD-10-CM |
| I60.22 | Nontraumatic subarachnoid hemorrhage from left anterior communicating artery                                          | Diagnosis | ICD-10-CM |
| I60.30 | Nontraumatic subarachnoid hemorrhage from unspecified posterior communicating                                         | Diagnosis | ICD-10-CM |
| I60.31 | Nontraumatic subarachnoid hemorrhage from right posterior communicating artery                                        | Diagnosis | ICD-10-CM |
| I60.32 | Nontraumatic subarachnoid hemorrhage from left posterior communicating artery                                         | Diagnosis | ICD-10-CM |
| I60.4  | Nontraumatic subarachnoid hemorrhage from basilar artery                                                              | Diagnosis | ICD-10-CM |
| I60.50 | Nontraumatic subarachnoid hemorrhage from unspecified vertebral artery                                                | Diagnosis | ICD-10-CM |
| I60.51 | Nontraumatic subarachnoid hemorrhage from right vertebral artery                                                      | Diagnosis | ICD-10-CM |
| I60.52 | Nontraumatic subarachnoid hemorrhage from left vertebral artery                                                       | Diagnosis | ICD-10-CM |
| I60.6  | Nontraumatic subarachnoid hemorrhage from other intracranial arteries                                                 | Diagnosis | ICD-10-CM |

| Code    | Description                                                                                      | Code      |           |
|---------|--------------------------------------------------------------------------------------------------|-----------|-----------|
|         |                                                                                                  | Category  | Code Type |
| I60.7   | Nontraumatic subarachnoid hemorrhage from unspecified intracranial artery                        | Diagnosis | ICD-10-CM |
| I60.8   | Other nontraumatic subarachnoid hemorrhage                                                       | Diagnosis | ICD-10-CM |
| I60.9   | Nontraumatic subarachnoid hemorrhage, unspecified                                                | Diagnosis | ICD-10-CM |
| I61.0   | Nontraumatic intracerebral hemorrhage in hemisphere, subcortical                                 | Diagnosis | ICD-10-CM |
| I61.1   | Nontraumatic intracerebral hemorrhage in hemisphere, cortical                                    | Diagnosis | ICD-10-CM |
| I61.2   | Nontraumatic intracerebral hemorrhage in hemisphere, unspecified                                 | Diagnosis | ICD-10-CM |
| I61.3   | Nontraumatic intracerebral hemorrhage in brain stem                                              | Diagnosis | ICD-10-CM |
| I61.4   | Nontraumatic intracerebral hemorrhage in cerebellum                                              | Diagnosis | ICD-10-CM |
| I61.5   | Nontraumatic intracerebral hemorrhage, intraventricular                                          | Diagnosis | ICD-10-CM |
| I61.6   | Nontraumatic intracerebral hemorrhage, multiple localized                                        | Diagnosis | ICD-10-CM |
| I61.8   | Other nontraumatic intracerebral hemorrhage                                                      | Diagnosis | ICD-10-CM |
| I61.9   | Nontraumatic intracerebral hemorrhage, unspecified                                               | Diagnosis | ICD-10-CM |
| I62.00  | Nontraumatic subdural hemorrhage, unspecified                                                    | Diagnosis | ICD-10-CM |
| I62.01  | Nontraumatic acute subdural hemorrhage                                                           | Diagnosis | ICD-10-CM |
| I62.02  | Nontraumatic subacute subdural hemorrhage                                                        | Diagnosis | ICD-10-CM |
| I62.9   | Nontraumatic intracranial hemorrhage, unspecified                                                | Diagnosis | ICD-10-CM |
| I63.00  | Cerebral infarction due to thrombosis of unspecified precerebral artery                          | Diagnosis | ICD-10-CM |
| I63.011 | Cerebral infarction due to thrombosis of right vertebral artery                                  | Diagnosis | ICD-10-CM |
| I63.012 | Cerebral infarction due to thrombosis of left vertebral artery                                   | Diagnosis | ICD-10-CM |
| I63.013 | Cerebral infarction due to thrombosis of bilateral vertebral arteries                            | Diagnosis | ICD-10-CM |
| I63.019 | Cerebral infarction due to thrombosis of unspecified vertebral artery                            | Diagnosis | ICD-10-CM |
| I63.02  | Cerebral infarction due to thrombosis of basilar artery                                          | Diagnosis | ICD-10-CM |
| I63.031 | Cerebral infarction due to thrombosis of right carotid artery                                    | Diagnosis | ICD-10-CM |
| I63.032 | Cerebral infarction due to thrombosis of left carotid artery                                     | Diagnosis | ICD-10-CM |
| I63.033 | Cerebral infarction due to thrombosis of bilateral carotid arteries                              | Diagnosis | ICD-10-CM |
| I63.039 | Cerebral infarction due to thrombosis of unspecified carotid artery                              | Diagnosis | ICD-10-CM |
| I63.09  | Cerebral infarction due to thrombosis of other precerebral artery                                | Diagnosis | ICD-10-CM |
| I63.10  | Cerebral infarction due to embolism of unspecified precerebral artery                            | Diagnosis | ICD-10-CM |
| I63.111 | Cerebral infarction due to embolism of right vertebral artery                                    | Diagnosis | ICD-10-CM |
| I63.112 | Cerebral infarction due to embolism of left vertebral artery                                     | Diagnosis | ICD-10-CM |
| I63.113 | Cerebral infarction due to embolism of bilateral vertebral arteries                              | Diagnosis | ICD-10-CM |
| I63.119 | Cerebral infarction due to embolism of unspecified vertebral artery                              | Diagnosis | ICD-10-CM |
| I63.12  | Cerebral infarction due to embolism of basilar artery                                            | Diagnosis | ICD-10-CM |
| I63.131 | Cerebral infarction due to embolism of right carotid artery                                      | Diagnosis | ICD-10-CM |
| I63.132 | Cerebral infarction due to embolism of left carotid artery                                       | Diagnosis | ICD-10-CM |
| I63.133 | Cerebral infarction due to embolism of bilateral carotid arteries                                | Diagnosis | ICD-10-CM |
| I63.139 | Cerebral infarction due to embolism of unspecified carotid artery                                | Diagnosis | ICD-10-CM |
| I63.19  | Cerebral infarction due to embolism of other precerebral artery                                  | Diagnosis | ICD-10-CM |
| I63.20  | Cerebral infarction due to unspecified occlusion or stenosis of unspecified precerebral arteries | Diagnosis | ICD-10-CM |
| I63.211 | Cerebral infarction due to unspecified occlusion or stenosis of right vertebral artery           | Diagnosis | ICD-10-CM |
| I63.212 | Cerebral infarction due to unspecified occlusion or stenosis of left vertebral artery            | Diagnosis | ICD-10-CM |
| I63.213 | Cerebral infarction due to unspecified occlusion or stenosis of bilateral vertebral arteries     | Diagnosis | ICD-10-CM |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code    | Description                                                                                  | Code      | Code Type |
|---------|----------------------------------------------------------------------------------------------|-----------|-----------|
|         |                                                                                              | Category  |           |
| I63.219 | Cerebral infarction due to unspecified occlusion or stenosis of unspecified vertebral artery | Diagnosis | ICD-10-CM |

| I63.542 | Cerebral infarction due to unspecified occlusion or stenosis of left cerebellar artery                | Diagnosis | ICD-10-CM |
| I63.543 | Cerebral infarction due to unspecified occlusion or stenosis of bilateral cerebellar arteries         | Diagnosis | ICD-10-CM |
| I63.549 | Cerebral infarction due to unspecified occlusion or stenosis of unspecified cerebellar                | Diagnosis | ICD-10-CM |
| I63.59  | Cerebral infarction due to unspecified occlusion or stenosis of other cerebral artery                 | Diagnosis | ICD-10-CM |
| I63.6   | Cerebral infarction due to cerebral venous thrombosis, nonpyogenic                                    | Diagnosis | ICD-10-CM |
| I63.8   | Other cerebral infarction                                                                             | Diagnosis | ICD-10-CM |
| I63.81  | Other cerebral infarction due to occlusion or stenosis of small artery                                | Diagnosis | ICD-10-CM |
| I63.89  | Other cerebral infarction                                                                             | Diagnosis | ICD-10-CM |
| I63.9   | Cerebral infarction, unspecified                                                                      | Diagnosis | ICD-10-CM |
| I66.01  | Occlusion and stenosis of right middle cerebral artery                                                | Diagnosis | ICD-10-CM |
| I66.02  | Occlusion and stenosis of left middle cerebral artery                                                 | Diagnosis | ICD-10-CM |
| I66.03  | Occlusion and stenosis of bilateral middle cerebral arteries                                          | Diagnosis | ICD-10-CM |
| I66.09  | Occlusion and stenosis of unspecified middle cerebral artery                                          | Diagnosis | ICD-10-CM |
| I66.11  | Occlusion and stenosis of right anterior cerebral artery                                              | Diagnosis | ICD-10-CM |
| I66.12  | Occlusion and stenosis of left anterior cerebral artery                                               | Diagnosis | ICD-10-CM |
| I66.13  | Occlusion and stenosis of bilateral anterior cerebral arteries                                        | Diagnosis | ICD-10-CM |
| I66.19  | Occlusion and stenosis of unspecified anterior cerebral artery                                        | Diagnosis | ICD-10-CM |
| I66.21  | Occlusion and stenosis of right posterior cerebral artery                                             | Diagnosis | ICD-10-CM |
| I66.22  | Occlusion and stenosis of left posterior cerebral artery                                              | Diagnosis | ICD-10-CM |
| I66.23  | Occlusion and stenosis of bilateral posterior cerebral arteries                                       | Diagnosis | ICD-10-CM |
| I66.29  | Occlusion and stenosis of unspecified posterior cerebral artery                                       | Diagnosis | ICD-10-CM |
| I66.3   | Occlusion and stenosis of cerebellar arteries                                                         | Diagnosis | ICD-10-CM |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code                                                | Description                                                                    | Code      |           |
|-----------------------------------------------------|--------------------------------------------------------------------------------|-----------|-----------|
|                                                     |                                                                                | Category  | Code Type |
| I66.8                                               | Occlusion and stenosis of other cerebral arteries                              | Diagnosis | ICD-10-CM |
| I66.9                                               | Occlusion and stenosis of unspecified cerebral artery                          | Diagnosis | ICD-10-CM |
| I67.841                                             | Reversible cerebrovascular vasoconstriction syndrome                           | Diagnosis | ICD-10-CM |
| I67.848                                             | Other cerebrovascular vasospasm and vasoconstriction                           | Diagnosis | ICD-10-CM |
| I67.89                                              | Other cerebrovascular disease                                                  | Diagnosis | ICD-10-CM |
| I97.810                                             | Intraoperative cerebrovascular infarction during cardiac surgery               | Diagnosis | ICD-10-CM |
| I97.811                                             | Intraoperative cerebrovascular infarction during other surgery                 | Diagnosis | ICD-10-CM |
| I97.820                                             | Postprocedural cerebrovascular infarction following cardiac surgery            | Diagnosis | ICD-10-CM |
| I97.821                                             | Postprocedural cerebrovascular infarction following other surgery              | Diagnosis | ICD-10-CM |
| <b>Chronic Obstructive Pulmonary Disease (COPD)</b> |                                                                                |           |           |
| 490                                                 | Bronchitis, not specified as acute or chronic                                  | Diagnosis | ICD-9-CM  |
| 491                                                 | Chronic bronchitis                                                             | Diagnosis | ICD-9-CM  |
| 491.0                                               | Simple chronic bronchitis                                                      | Diagnosis | ICD-9-CM  |
| 491.1                                               | Mucopurulent chronic bronchitis                                                | Diagnosis | ICD-9-CM  |
| 491.2                                               | Obstructive chronic bronchitis                                                 | Diagnosis | ICD-9-CM  |
| 491.20                                              | Obstructive chronic bronchitis, without exacerbation                           | Diagnosis | ICD-9-CM  |
| 491.21                                              | Obstructive chronic bronchitis, with (acute) exacerbation                      | Diagnosis | ICD-9-CM  |
| 491.22                                              | Obstructive chronic bronchitis with acute bronchitis                           | Diagnosis | ICD-9-CM  |
| 491.8                                               | Other chronic bronchitis                                                       | Diagnosis | ICD-9-CM  |
| 491.9                                               | Unspecified chronic bronchitis                                                 | Diagnosis | ICD-9-CM  |
| 492                                                 | Emphysema                                                                      | Diagnosis | ICD-9-CM  |
| 492.0                                               | Emphysematous bleb                                                             | Diagnosis | ICD-9-CM  |
| 492.8                                               | Other emphysema                                                                | Diagnosis | ICD-9-CM  |
| 494                                                 | Bronchiectasis                                                                 | Diagnosis | ICD-9-CM  |
| 494.0                                               | Bronchiectasis without acute exacerbation                                      | Diagnosis | ICD-9-CM  |
| 494.1                                               | Bronchiectasis with acute exacerbation                                         | Diagnosis | ICD-9-CM  |
| 496                                                 | Chronic airway obstruction, not elsewhere classified                           | Diagnosis | ICD-9-CM  |
| J40                                                 | Bronchitis, not specified as acute or chronic                                  | Diagnosis | ICD-10-CM |
| J41.0                                               | Simple chronic bronchitis                                                      | Diagnosis | ICD-10-CM |
| J41.1                                               | Mucopurulent chronic bronchitis                                                | Diagnosis | ICD-10-CM |
| J41.8                                               | Mixed simple and mucopurulent chronic bronchitis                               | Diagnosis | ICD-10-CM |
| J42                                                 | Unspecified chronic bronchitis                                                 | Diagnosis | ICD-10-CM |
| J43.0                                               | Unilateral pulmonary emphysema [MacLeod's syndrome]                            | Diagnosis | ICD-10-CM |
| J43.1                                               | Panlobular emphysema                                                           | Diagnosis | ICD-10-CM |
| J43.2                                               | Centrilobular emphysema                                                        | Diagnosis | ICD-10-CM |
| J43.8                                               | Other emphysema                                                                | Diagnosis | ICD-10-CM |
| J43.9                                               | Emphysema, unspecified                                                         | Diagnosis | ICD-10-CM |
| J44.0                                               | Chronic obstructive pulmonary disease with (acute) lower respiratory infection | Diagnosis | ICD-10-CM |
| J44.1                                               | Chronic obstructive pulmonary disease with (acute) exacerbation                | Diagnosis | ICD-10-CM |
| J44.9                                               | Chronic obstructive pulmonary disease, unspecified                             | Diagnosis | ICD-10-CM |
| J47.0                                               | Bronchiectasis with acute lower respiratory infection                          | Diagnosis | ICD-10-CM |
| J47.1                                               | Bronchiectasis with (acute) exacerbation                                       | Diagnosis | ICD-10-CM |
| J47.9                                               | Bronchiectasis, uncomplicated                                                  | Diagnosis | ICD-10-CM |

|                          |                                                                                                                                                            | Code      |           |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
| Code                     | Description                                                                                                                                                | Category  | Code Type |
| Congestive Heart Failure |                                                                                                                                                            |           |           |
| 398.91                   | Rheumatic heart failure (congestive)                                                                                                                       | Diagnosis | ICD-9-CM  |
| 402.01                   | Malignant hypertensive heart disease with heart failure                                                                                                    | Diagnosis | ICD-9-CM  |
| 402.11                   | Benign hypertensive heart disease with heart failure                                                                                                       | Diagnosis | ICD-9-CM  |
| 402.91                   | Hypertensive heart disease, unspecified, with heart failure                                                                                                | Diagnosis | ICD-9-CM  |
| 404.01                   | Hypertensive heart and chronic kidney disease, malignant, with heart failure and with chronic kidney disease stage I through stage IV, or unspecified      | Diagnosis | ICD-9-CM  |
| 404.03                   | Hypertensive heart and chronic kidney disease, malignant, with heart failure and with chronic kidney disease stage V or end stage renal disease            | Diagnosis | ICD-9-CM  |
| 404.11                   | Hypertensive heart and chronic kidney disease, benign, with heart failure and with chronic kidney disease stage I through stage IV, or unspecified         | Diagnosis | ICD-9-CM  |
| 404.13                   | Hypertensive heart and chronic kidney disease, benign, with heart failure and chronic kidney disease stage V or end stage renal disease                    | Diagnosis | ICD-9-CM  |
| 404.91                   | Hypertensive heart and chronic kidney disease, unspecified, with heart failure and with chronic kidney disease stage I through stage IV, or unspecified    | Diagnosis | ICD-9-CM  |
| 404.93                   | Hypertensive heart and chronic kidney disease, unspecified, with heart failure and chronic kidney disease stage V or end stage renal disease               | Diagnosis | ICD-9-CM  |
| 428.0                    | Congestive heart failure, unspecified                                                                                                                      | Diagnosis | ICD-9-CM  |
| 428.1                    | Left heart failure                                                                                                                                         | Diagnosis | ICD-9-CM  |
| 428.20                   | Unspecified systolic heart failure                                                                                                                         | Diagnosis | ICD-9-CM  |
| 428.21                   | Acute systolic heart failure                                                                                                                               | Diagnosis | ICD-9-CM  |
| 428.22                   | Chronic systolic heart failure                                                                                                                             | Diagnosis | ICD-9-CM  |
| 428.23                   | Acute on chronic systolic heart failure                                                                                                                    | Diagnosis | ICD-9-CM  |
| 428.30                   | Unspecified diastolic heart failure                                                                                                                        | Diagnosis | ICD-9-CM  |
| 428.31                   | Acute diastolic heart failure                                                                                                                              | Diagnosis | ICD-9-CM  |
| 428.32                   | Chronic diastolic heart failure                                                                                                                            | Diagnosis | ICD-9-CM  |
| 428.33                   | Acute on chronic diastolic heart failure                                                                                                                   | Diagnosis | ICD-9-CM  |
| 428.40                   | Unspecified combined systolic and diastolic heart failure                                                                                                  | Diagnosis | ICD-9-CM  |
| 428.41                   | Acute combined systolic and diastolic heart failure                                                                                                        | Diagnosis | ICD-9-CM  |
| 428.42                   | Chronic combined systolic and diastolic heart failure                                                                                                      | Diagnosis | ICD-9-CM  |
| 428.43                   | Acute on chronic combined systolic and diastolic heart failure                                                                                             | Diagnosis | ICD-9-CM  |
| 428.9                    | Unspecified heart failure                                                                                                                                  | Diagnosis | ICD-9-CM  |
| I09.81                   | Rheumatic heart failure                                                                                                                                    | Diagnosis | ICD-10-CM |
| I11.0                    | Hypertensive heart disease with heart failure                                                                                                              | Diagnosis | ICD-10-CM |
| I13.0                    | Hypertensive heart and chronic kidney disease with heart failure and stage 1 through stage 4 chronic kidney disease, or unspecified chronic kidney disease | Diagnosis | ICD-10-CM |
| I13.2                    | Hypertensive heart and chronic kidney disease with heart failure and with stage 5 chronic kidney disease, or end stage renal disease                       | Diagnosis | ICD-10-CM |
| I42.0                    | Dilated cardiomyopathy                                                                                                                                     | Diagnosis | ICD-10-CM |
| I42.5                    | Other restrictive cardiomyopathy                                                                                                                           | Diagnosis | ICD-10-CM |
| I42.6                    | Alcoholic cardiomyopathy                                                                                                                                   | Diagnosis | ICD-10-CM |
| I42.7                    | Cardiomyopathy due to drug and external agent                                                                                                              | Diagnosis | ICD-10-CM |
| I42.8                    | Other cardiomyopathies                                                                                                                                     | Diagnosis | ICD-10-CM |

| 411.1  | Intermediate coronary syndrome                                                           | Diagnosis | ICD-9-CM  |
| 411.81 | Acute coronary occlusion without myocardial infarction                                   | Diagnosis | ICD-9-CM  |
| 411.89 | Other acute and subacute form of ischemic heart disease                                  | Diagnosis | ICD-9-CM  |
| 412    | Old myocardial infarction                                                                | Diagnosis | ICD-9-CM  |
| 413.0  | Angina decubitus                                                                         | Diagnosis | ICD-9-CM  |
| 413.1  | Prinzmetal angina                                                                        | Diagnosis | ICD-9-CM  |
| 413.9  | Other and unspecified angina pectoris                                                    | Diagnosis | ICD-9-CM  |
| 414.00 | Coronary atherosclerosis of unspecified type of vessel, native or graft                  | Diagnosis | ICD-9-CM  |
| 414.01 | Coronary atherosclerosis of native coronary artery                                       | Diagnosis | ICD-9-CM  |
| 414.02 | Coronary atherosclerosis of autologous vein bypass graft                                 | Diagnosis | ICD-9-CM  |
| 414.03 | Coronary atherosclerosis of nonautologous biological bypass graft                        | Diagnosis | ICD-9-CM  |
| 414.04 | Coronary atherosclerosis of artery bypass graft                                          | Diagnosis | ICD-9-CM  |
| 414.05 | Coronary atherosclerosis of unspecified type of bypass graft                             | Diagnosis | ICD-9-CM  |
| 414.06 | Coronary atherosclerosis, of native coronary artery of transplanted heart                | Diagnosis | ICD-9-CM  |
| 414.07 | Coronary atherosclerosis, of bypass graft (artery) (vein) of transplanted heart          | Diagnosis | ICD-9-CM  |
| 414.12 | Dissection of coronary artery                                                            | Diagnosis | ICD-9-CM  |
| 414.2  | Chronic total occlusion of coronary artery                                               | Diagnosis | ICD-9-CM  |
| 414.3  | Coronary atherosclerosis due to lipid rich plaque                                        | Diagnosis | ICD-9-CM  |
| 414.4  | Coronary atherosclerosis due to calcified coronary lesion                                | Diagnosis | ICD-9-CM  |
| 414.8  | Other specified forms of chronic ischemic heart disease                                  | Diagnosis | ICD-9-CM  |
| 414.9  | Unspecified chronic ischemic heart disease                                               | Diagnosis | ICD-9-CM  |
| I20.0  | Unstable angina                                                                          | Diagnosis | ICD-10-CM |
| I20.1  | Angina pectoris with documented spasm                                                    | Diagnosis | ICD-10-CM |
| I20.2  | Refractory angina pectoris                                                               | Diagnosis | ICD-10-CM |
| I20.8  | Other forms of angina pectoris                                                           | Diagnosis | ICD-10-CM |
| I20.9  | Angina pectoris, unspecified                                                             | Diagnosis | ICD-10-CM |
| I21.01 | ST elevation (STEMI) myocardial infarction involving left main coronary artery           | Diagnosis | ICD-10-CM |

| I21.09  | ST elevation (STEMI) myocardial infarction involving other coronary artery of anterior wall                             | Diagnosis | ICD-10-CM |
| I21.11  | ST elevation (STEMI) myocardial infarction involving right coronary artery                                              | Diagnosis | ICD-10-CM |
| I21.19  | ST elevation (STEMI) myocardial infarction involving other coronary artery of inferior wall                             | Diagnosis | ICD-10-CM |
| I21.21  | ST elevation (STEMI) myocardial infarction involving left circumflex coronary artery                                    | Diagnosis | ICD-10-CM |
| I21.29  | ST elevation (STEMI) myocardial infarction involving other sites                                                        | Diagnosis | ICD-10-CM |
| I21.3   | ST elevation (STEMI) myocardial infarction of unspecified site                                                          | Diagnosis | ICD-10-CM |
| I21.4   | Non-ST elevation (NSTEMI) myocardial infarction                                                                         | Diagnosis | ICD-10-CM |
| I21.A1  | Myocardial infarction type 2                                                                                            | Diagnosis | ICD-10-CM |
| I21.A9  | Other myocardial infarction type                                                                                        | Diagnosis | ICD-10-CM |
| I22.0   | Subsequent ST elevation (STEMI) myocardial infarction of anterior wall                                                  | Diagnosis | ICD-10-CM |
| I22.1   | Subsequent ST elevation (STEMI) myocardial infarction of inferior wall                                                  | Diagnosis | ICD-10-CM |
| I22.2   | Subsequent non-ST elevation (NSTEMI) myocardial infarction                                                              | Diagnosis | ICD-10-CM |
| I22.8   | Subsequent ST elevation (STEMI) myocardial infarction of other sites                                                    | Diagnosis | ICD-10-CM |
| I22.9   | Subsequent ST elevation (STEMI) myocardial infarction of unspecified site                                               | Diagnosis | ICD-10-CM |
| I23.0   | Hemopericardium as current complication following acute myocardial infarction                                           | Diagnosis | ICD-10-CM |
| I23.1   | Atrial septal defect as current complication following acute myocardial infarction                                      | Diagnosis | ICD-10-CM |
| I23.2   | Ventricular septal defect as current complication following acute myocardial infarction                                 | Diagnosis | ICD-10-CM |
| I23.3   | Rupture of cardiac wall without hemopericardium as current complication following acute myocardial infarction           | Diagnosis | ICD-10-CM |
| I23.4   | Rupture of chordae tendineae as current complication following acute myocardial infarction                              | Diagnosis | ICD-10-CM |
| I23.5   | Rupture of papillary muscle as current complication following acute myocardial infarction                               | Diagnosis | ICD-10-CM |
| I23.6   | Thrombosis of atrium, auricular appendage, and ventricle as current complications following acute myocardial infarction | Diagnosis | ICD-10-CM |
| I23.7   | Postinfarction angina                                                                                                   | Diagnosis | ICD-10-CM |
| I23.8   | Other current complications following acute myocardial infarction                                                       | Diagnosis | ICD-10-CM |
| I24.0   | Acute coronary thrombosis not resulting in myocardial infarction                                                        | Diagnosis | ICD-10-CM |
| I24.1   | Dressler's syndrome                                                                                                     | Diagnosis | ICD-10-CM |
| I24.8   | Other forms of acute ischemic heart disease                                                                             | Diagnosis | ICD-10-CM |
| I24.9   | Acute ischemic heart disease, unspecified                                                                               | Diagnosis | ICD-10-CM |
| I25.10  | Atherosclerotic heart disease of native coronary artery without angina pectoris                                         | Diagnosis | ICD-10-CM |
| I25.110 | Atherosclerotic heart disease of native coronary artery with unstable angina pectoris                                   | Diagnosis | ICD-10-CM |
| I25.111 | Atherosclerotic heart disease of native coronary artery with angina pectoris with documented spasm                      | Diagnosis | ICD-10-CM |
| I25.112 | Atherosclerotic heart disease of native coronary artery with refractory angina pectoris                                 | Diagnosis | ICD-10-CM |
| I25.118 | Atherosclerotic heart disease of native coronary artery with other forms of angina pectoris                             | Diagnosis | ICD-10-CM |
| I25.119 | Atherosclerotic heart disease of native coronary artery with unspecified angina pectoris                                | Diagnosis | ICD-10-CM |
| I25.2   | Old myocardial infarction                                                                                               | Diagnosis | ICD-10-CM |
| I25.3   | Aneurysm of heart                                                                                                       | Diagnosis | ICD-10-CM |
| I25.41  | Coronary artery aneurysm                                                                                                | Diagnosis | ICD-10-CM |
| I25.42  | Coronary artery dissection                                                                                              | Diagnosis | ICD-10-CM |

| E78.8                                                                                                        | Other disorders of lipoprotein metabolism                                                                              | Diagnosis | ICD-10-CM |
| E78.9                                                                                                        | Disorder of lipoprotein metabolism, unspecified                                                                        | Diagnosis | ICD-10-CM |
| <b>Frailty Indicators (Dementia Therapies, Loop Diuretics, Digoxin, Wheelchair/Home Hospital Bed Claims)</b> |                                                                                                                        |           |           |
| E0100                                                                                                        | Cane, includes canes of all materials, adjustable or fixed, with tip                                                   | Procedure | HCPCS     |
| E0105                                                                                                        | Cane, quad or three-prong, includes canes of all materials, adjustable or fixed, with tips                             | Procedure | HCPCS     |
| E0110                                                                                                        | Crutches, forearm, includes crutches of various materials, adjustable or fixed, pair, complete with tips and handgrips | Procedure | HCPCS     |
| E0111                                                                                                        | Crutch, forearm, includes crutches of various materials, adjustable or fixed, each, with tip and handgrips             | Procedure | HCPCS     |
| E0112                                                                                                        | Crutches, underarm, wood, adjustable or fixed, pair, with pads, tips, and handgrips                                    | Procedure | HCPCS     |
| E0113                                                                                                        | Crutch, underarm, wood, adjustable or fixed, each, with pad, tip, and handgrip                                         | Procedure | HCPCS     |
| E0114                                                                                                        | Crutches, underarm, other than wood, adjustable or fixed, pair, with pads, tips, and handgrips                         | Procedure | HCPCS     |
| E0116                                                                                                        | Crutch, underarm, other than wood, adjustable or fixed, with pad, tip, handgrip, with or without shock absorber, each  | Procedure | HCPCS     |
| E0117                                                                                                        | Crutch, underarm, articulating, spring assisted, each                                                                  | Procedure | HCPCS     |
| E0118                                                                                                        | Crutch substitute, lower leg platform, with or without wheels, each                                                    | Procedure | HCPCS     |
| E0130                                                                                                        | Walker, rigid (pickup), adjustable or fixed height                                                                     | Procedure | HCPCS     |
| E0135                                                                                                        | Walker, folding (pickup), adjustable or fixed height                                                                   | Procedure | HCPCS     |
| E0140                                                                                                        | Walker, with trunk support, adjustable or fixed height, any type                                                       | Procedure | HCPCS     |
| E0141                                                                                                        | Walker, rigid, wheeled, adjustable or fixed height                                                                     | Procedure | HCPCS     |
| E0143                                                                                                        | Walker, folding, wheeled, adjustable or fixed height                                                                   | Procedure | HCPCS     |
| E0144                                                                                                        | Walker, enclosed, four-sided framed, rigid or folding, wheeled with posterior seat                                     | Procedure | HCPCS     |
| E0147                                                                                                        | Walker, heavy-duty, multiple braking system, variable wheel resistance                                                 | Procedure | HCPCS     |
| E0148                                                                                                        | Walker, heavy-duty, without wheels, rigid or folding, any type, each                                                   | Procedure | HCPCS     |
| E0149                                                                                                        | Walker, heavy-duty, wheeled, rigid or folding, any type                                                                | Procedure | HCPCS     |
| E0153                                                                                                        | Platform attachment, forearm crutch, each                                                                              | Procedure | HCPCS     |
| E0154                                                                                                        | Platform attachment, walker, each                                                                                      | Procedure | HCPCS     |
| E0155                                                                                                        | Wheel attachment, rigid pick-up walker, per pair                                                                       | Procedure | HCPCS     |
| E0156                                                                                                        | Seat attachment, walker                                                                                                | Procedure | HCPCS     |
| E0157                                                                                                        | Crutch attachment, walker, each                                                                                        | Procedure | HCPCS     |
| E0158                                                                                                        | Leg extensions for walker, per set of four                                                                             | Procedure | HCPCS     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                          | Code      |           |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                      | Category  | Code Type |
| E0159 | Brake attachment for wheeled walker, replacement, each                                                                                                               | Procedure | HCPCS     |
| E0250 | Hospital bed, fixed height, with any type side rails, with mattress                                                                                                  | Procedure | HCPCS     |
| E0251 | Hospital bed, fixed height, with any type side rails, without mattress                                                                                               | Procedure | HCPCS     |
| E0255 | Hospital bed, variable height, hi-lo, with any type side rails, with mattress                                                                                        | Procedure | HCPCS     |
| E0256 | Hospital bed, variable height, hi-lo, with any type side rails, without mattress                                                                                     | Procedure | HCPCS     |
| E0260 | Hospital bed, semi-electric (head and foot adjustment), with any type side rails, with mattress                                                                      | Procedure | HCPCS     |
| E0261 | Hospital bed, semi-electric (head and foot adjustment), with any type side rails, without mattress                                                                   | Procedure | HCPCS     |
| E0265 | Hospital bed, total electric (head, foot, and height adjustments), with any type side rails, with mattress                                                           | Procedure | HCPCS     |
| E0266 | Hospital bed, total electric (head, foot, and height adjustments), with any type side rails, without mattress                                                        | Procedure | HCPCS     |
| E0270 | Hospital bed, institutional type includes: oscillating, circulating and Stryker frame, with mattress                                                                 | Procedure | HCPCS     |
| E0271 | Mattress, innerspring                                                                                                                                                | Procedure | HCPCS     |
| E0272 | Mattress, foam rubber                                                                                                                                                | Procedure | HCPCS     |
| E0273 | Bed board                                                                                                                                                            | Procedure | HCPCS     |
| E0274 | Over-bed table                                                                                                                                                       | Procedure | HCPCS     |
| E0275 | Bed pan, standard, metal or plastic                                                                                                                                  | Procedure | HCPCS     |
| E0276 | Bed pan, fracture, metal or plastic                                                                                                                                  | Procedure | HCPCS     |
| E0277 | Powered pressure-reducing air mattress                                                                                                                               | Procedure | HCPCS     |
| E0280 | Bed cradle, any type                                                                                                                                                 | Procedure | HCPCS     |
| E0290 | Hospital bed, fixed height, without side rails, with mattress                                                                                                        | Procedure | HCPCS     |
| E0291 | Hospital bed, fixed height, without side rails, without mattress                                                                                                     | Procedure | HCPCS     |
| E0292 | Hospital bed, variable height, hi-lo, without side rails, with mattress                                                                                              | Procedure | HCPCS     |
| E0293 | Hospital bed, variable height, hi-lo, without side rails, without mattress                                                                                           | Procedure | HCPCS     |
| E0294 | Hospital bed, semi-electric (head and foot adjustment), without side rails, with mattress                                                                            | Procedure | HCPCS     |
| E0295 | Hospital bed, semi-electric (head and foot adjustment), without side rails, without mattress                                                                         | Procedure | HCPCS     |
| E0296 | Hospital bed, total electric (head, foot, and height adjustments), without side rails, with mattress                                                                 | Procedure | HCPCS     |
| E0297 | Hospital bed, total electric (head, foot, and height adjustments), without side rails, without mattress                                                              | Procedure | HCPCS     |
| E0300 | Pediatric crib, hospital grade, fully enclosed, with or without top enclosure                                                                                        | Procedure | HCPCS     |
| E0301 | Hospital bed, heavy-duty, extra wide, with weight capacity greater than 350 pounds, but less than or equal to 600 pounds, with any type side rails, without mattress | Procedure | HCPCS     |
| E0302 | Hospital bed, extra heavy-duty, extra wide, with weight capacity greater than 600 pounds, with any type side rails, without mattress                                 | Procedure | HCPCS     |
| E0303 | Hospital bed, heavy-duty, extra wide, with weight capacity greater than 350 pounds, but less than or equal to 600 pounds, with any type side rails, with mattress    | Procedure | HCPCS     |
| E0304 | Hospital bed, extra heavy-duty, extra wide, with weight capacity greater than 600 pounds, with any type side rails, with mattress                                    | Procedure | HCPCS     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                | Code      | Code Type |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                            | Category  |           |
| E0305 | Bedside rails, half-length                                                                                                                                                 | Procedure | HCPCS     |
| E0310 | Bedside rails, full-length                                                                                                                                                 | Procedure | HCPCS     |
| E0315 | Bed accessory: board, table, or support device, any type                                                                                                                   | Procedure | HCPCS     |
| E0316 | Safety enclosure frame/canopy for use with hospital bed, any type                                                                                                          | Procedure | HCPCS     |
| E0325 | Urinal; male, jug-type, any material                                                                                                                                       | Procedure | HCPCS     |
| E0326 | Urinal; female, jug-type, any material                                                                                                                                     | Procedure | HCPCS     |
| E0328 | Hospital bed, pediatric, manual, 360 degree side enclosures, top of headboard, footboard and side rails up to 24 in above the spring, includes mattress                    | Procedure | HCPCS     |
| E0329 | Hospital bed, pediatric, electric or semi-electric, 360 degree side enclosures, top of headboard, footboard and side rails up to 24 in above the spring, includes mattress | Procedure | HCPCS     |
| E0350 | Control unit for electronic bowel irrigation/evacuation system                                                                                                             | Procedure | HCPCS     |
| E0352 | Disposable pack (water reservoir bag, speculum, valving mechanism, and collection bag/box) for use with the electronic bowel irrigation/evacuation system                  | Procedure | HCPCS     |
| E0370 | Air pressure elevator for heel                                                                                                                                             | Procedure | HCPCS     |
| E0371 | Nonpowered advanced pressure reducing overlay for mattress, standard mattress length and width                                                                             | Procedure | HCPCS     |
| E0372 | Powered air overlay for mattress, standard mattress length and width                                                                                                       | Procedure | HCPCS     |
| E0373 | Nonpowered advanced pressure reducing mattress                                                                                                                             | Procedure | HCPCS     |
| E0950 | Wheelchair accessory, tray, each                                                                                                                                           | Procedure | HCPCS     |
| E0951 | Heel loop/holder, any type, with or without ankle strap, each                                                                                                              | Procedure | HCPCS     |
| E0952 | Toe loop/holder, any type, each                                                                                                                                            | Procedure | HCPCS     |
| E0953 | Wheelchair accessory, lateral thigh or knee support, any type including fixed mounting hardware, each                                                                      | Procedure | HCPCS     |
| E0954 | Wheelchair accessory, foot box, any type, includes attachment and mounting hardware, each foot                                                                             | Procedure | HCPCS     |
| E0955 | Wheelchair accessory, headrest, cushioned, any type, including fixed mounting hardware, each                                                                               | Procedure | HCPCS     |
| E0956 | Wheelchair accessory, lateral trunk or hip support, any type, including fixed mounting hardware, each                                                                      | Procedure | HCPCS     |
| E0957 | Wheelchair accessory, medial thigh support, any type, including fixed mounting hardware, each                                                                              | Procedure | HCPCS     |
| E0958 | Manual wheelchair accessory, one-arm drive attachment, each                                                                                                                | Procedure | HCPCS     |
| E0959 | Manual wheelchair accessory, adapter for amputee, each                                                                                                                     | Procedure | HCPCS     |
| E0960 | Wheelchair accessory, shoulder harness/straps or chest strap, including any type mounting hardware                                                                         | Procedure | HCPCS     |
| E0961 | Manual wheelchair accessory, wheel lock brake extension (handle), each                                                                                                     | Procedure | HCPCS     |
| E0966 | Manual wheelchair accessory, headrest extension, each                                                                                                                      | Procedure | HCPCS     |
| E0967 | Manual wheelchair accessory, hand rim with projections, any type, replacement only,                                                                                        | Procedure | HCPCS     |
| E0968 | Commode seat, wheelchair                                                                                                                                                   | Procedure | HCPCS     |
| E0969 | Narrowing device, wheelchair                                                                                                                                               | Procedure | HCPCS     |
| E0970 | No. 2 footplates, except for elevating legrest                                                                                                                             | Procedure | HCPCS     |
| E0971 | Manual wheelchair accessory, antitipping device, each                                                                                                                      | Procedure | HCPCS     |
| E0973 | Wheelchair accessory, adjustable height, detachable armrest, complete assembly, each                                                                                       | Procedure | HCPCS     |

| E0981 | Wheelchair accessory, seat upholstery, replacement only, each                                                                                     | Procedure | HCPCS     |
| E0982 | Wheelchair accessory, back upholstery, replacement only, each                                                                                     | Procedure | HCPCS     |
| E0983 | Manual wheelchair accessory, power add-on to convert manual wheelchair to motorized wheelchair, joystick control                                  | Procedure | HCPCS     |
| E0984 | Manual wheelchair accessory, power add-on to convert manual wheelchair to motorized wheelchair, tiller control                                    | Procedure | HCPCS     |
| E0985 | Wheelchair accessory, seat lift mechanism                                                                                                         | Procedure | HCPCS     |
| E0986 | Manual wheelchair accessory, push-rim activated power assist system                                                                               | Procedure | HCPCS     |
| E0988 | Manual wheelchair accessory, lever-activated, wheel drive, pair                                                                                   | Procedure | HCPCS     |
| E0990 | Wheelchair accessory, elevating legrest, complete assembly, each                                                                                  | Procedure | HCPCS     |
| E0992 | Manual wheelchair accessory, solid seat insert                                                                                                    | Procedure | HCPCS     |
| E0994 | Armrest, each                                                                                                                                     | Procedure | HCPCS     |
| E0995 | Wheelchair accessory, calf rest/pad, replacement only, each                                                                                       | Procedure | HCPCS     |
| E1002 | Wheelchair accessory, power seating system, tilt only                                                                                             | Procedure | HCPCS     |
| E1003 | Wheelchair accessory, power seating system, recline only, without shear reduction                                                                 | Procedure | HCPCS     |
| E1004 | Wheelchair accessory, power seating system, recline only, with mechanical shear                                                                   | Procedure | HCPCS     |
| E1005 | Wheelchair accessory, power seating system, recline only, with power shear reduction                                                              | Procedure | HCPCS     |
| E1006 | Wheelchair accessory, power seating system, combination tilt and recline, without shear reduction                                                 | Procedure | HCPCS     |
| E1007 | Wheelchair accessory, power seating system, combination tilt and recline, with mechanical shear reduction                                         | Procedure | HCPCS     |
| E1008 | Wheelchair accessory, power seating system, combination tilt and recline, with power shear reduction                                              | Procedure | HCPCS     |
| E1009 | Wheelchair accessory, addition to power seating system, mechanically linked leg elevation system, including pushrod and legrest, each             | Procedure | HCPCS     |
| E1010 | Wheelchair accessory, addition to power seating system, power leg elevation system, including legrest, pair                                       | Procedure | HCPCS     |
| E1011 | Modification to pediatric size wheelchair, width adjustment package (not to be dispensed with initial chair)                                      | Procedure | HCPCS     |
| E1012 | Wheelchair accessory, addition to power seating system, center mount power elevating leg rest/platform, complete system, any type, each           | Procedure | HCPCS     |
| E1014 | Reclining back, addition to pediatric size wheelchair                                                                                             | Procedure | HCPCS     |
| E1015 | Shock absorber for manual wheelchair, each                                                                                                        | Procedure | HCPCS     |
| E1016 | Shock absorber for power wheelchair, each                                                                                                         | Procedure | HCPCS     |
| E1017 | Heavy-duty shock absorber for heavy-duty or extra heavy-duty manual wheelchair, each                                                              | Procedure | HCPCS     |
| E1018 | Heavy-duty shock absorber for heavy-duty or extra heavy-duty power wheelchair, each                                                               | Procedure | HCPCS     |
| E1020 | Residual limb support system for wheelchair, any type                                                                                             | Procedure | HCPCS     |
| E1028 | Wheelchair accessory, manual swingaway, retractable or removable mounting hardware for joystick, other control interface or positioning accessory | Procedure | HCPCS     |
| E1029 | Wheelchair accessory, ventilator tray, fixed                                                                                                      | Procedure | HCPCS     |

| E1030 | Wheelchair accessory, ventilator tray, gimbaled                                                                                                 | Procedure | HCPCS     |
| E1031 | Rollabout chair, any and all types with castors 5 in or greater                                                                                 | Procedure | HCPCS     |
| E1035 | Multi-positional patient transfer system, with integrated seat, operated by care giver, patient weight capacity up to and including 300 lbs     | Procedure | HCPCS     |
| E1036 | Multi-positional patient transfer system, extra-wide, with integrated seat, operated by caregiver, patient weight capacity greater than 300 lbs | Procedure | HCPCS     |
| E1037 | Transport chair, pediatric size                                                                                                                 | Procedure | HCPCS     |
| E1038 | Transport chair, adult size, patient weight capacity up to and including 300 pounds                                                             | Procedure | HCPCS     |
| E1039 | Transport chair, adult size, heavy-duty, patient weight capacity greater than 300 pounds                                                        | Procedure | HCPCS     |
| E1050 | Fully-reclining wheelchair, fixed full-length arms, swing-away detachable elevating legrests                                                    | Procedure | HCPCS     |
| E1060 | Fully-reclining wheelchair, detachable arms, desk or full-length, swing-away detachable elevating legrests                                      | Procedure | HCPCS     |
| E1070 | Fully-reclining wheelchair, detachable arms (desk or full-length) swing-away detachable footrest                                                | Procedure | HCPCS     |
| E1083 | Hemi-wheelchair, fixed full-length arms, swing-away detachable elevating legrest                                                                | Procedure | HCPCS     |
| E1084 | Hemi-wheelchair, detachable arms desk or full-length arms, swing-away detachable elevating legrests                                             | Procedure | HCPCS     |
| E1085 | Hemi-wheelchair, fixed full-length arms, swing-away detachable footrests                                                                        | Procedure | HCPCS     |
| E1086 | Hemi-wheelchair, detachable arms, desk or full-length, swing-away detachable footrests                                                          | Procedure | HCPCS     |
| E1087 | High strength lightweight wheelchair, fixed full-length arms, swing-away detachable elevating legrests                                          | Procedure | HCPCS     |
| E1088 | High strength lightweight wheelchair, detachable arms desk or full-length, swing-away detachable elevating legrests                             | Procedure | HCPCS     |
| E1089 | High-strength lightweight wheelchair, fixed-length arms, swing-away detachable footrest                                                         | Procedure | HCPCS     |
| E1090 | High-strength lightweight wheelchair, detachable arms, desk or full-length, swing-away detachable footrests                                     | Procedure | HCPCS     |
| E1092 | Wide heavy-duty wheel chair, detachable arms (desk or full-length), swing-away detachable elevating legrests                                    | Procedure | HCPCS     |
| E1093 | Wide heavy-duty wheelchair, detachable arms, desk or full-length arms, swing-away detachable footrests                                          | Procedure | HCPCS     |
| E1100 | Semi-reclining wheelchair, fixed full-length arms, swing-away detachable elevating legrests                                                     | Procedure | HCPCS     |
| E1110 | Semi-reclining wheelchair, detachable arms (desk or full-length) elevating legrest                                                              | Procedure | HCPCS     |
| E1130 | Standard wheelchair, fixed full-length arms, fixed or swing-away detachable footrests                                                           | Procedure | HCPCS     |
| E1140 | Wheelchair, detachable arms, desk or full-length, swing-away detachable footrests                                                               | Procedure | HCPCS     |
| E1150 | Wheelchair, detachable arms, desk or full-length swing-away detachable elevating legrests                                                       | Procedure | HCPCS     |
| E1160 | Wheelchair, fixed full-length arms, swing-away detachable elevating legrests                                                                    | Procedure | HCPCS     |
| E1161 | Manual adult size wheelchair, includes tilt in space                                                                                            | Procedure | HCPCS     |
| E1170 | Amputee wheelchair, fixed full-length arms, swing-away detachable elevating legrests                                                            | Procedure | HCPCS     |
| E1171 | Amputee wheelchair, fixed full-length arms, without footrests or legrest                                                                        | Procedure | HCPCS     |
| E1172 | Amputee wheelchair, detachable arms (desk or full-length) without footrests or legrest                                                          | Procedure | HCPCS     |
| E1180 | Amputee wheelchair, detachable arms (desk or full-length) swing-away detachable footrests                                                       | Procedure | HCPCS     |

|       |                                                                                                                     | Category  | Code Type |
| E1190 | Amputee wheelchair, detachable arms (desk or full-length) swing-away detachable elevating legrests                  | Procedure | HCPCS     |
| E1195 | Heavy-duty wheelchair, fixed full-length arms, swing-away detachable elevating legrests                             | Procedure | HCPCS     |
| E1200 | Amputee wheelchair, fixed full-length arms, swing-away detachable footrest                                          | Procedure | HCPCS     |
| E1220 | Wheelchair; specially sized or constructed, (indicate brand name, model number, if any) and justification           | Procedure | HCPCS     |
| E1221 | Wheelchair with fixed arm, footrests                                                                                | Procedure | HCPCS     |
| E1222 | Wheelchair with fixed arm, elevating legrests                                                                       | Procedure | HCPCS     |
| E1223 | Wheelchair with detachable arms, footrests                                                                          | Procedure | HCPCS     |
| E1224 | Wheelchair with detachable arms, elevating legrests                                                                 | Procedure | HCPCS     |
| E1225 | Wheelchair accessory, manual semi-reclining back, (recline greater than 15 degrees, but less than 80 degrees), each | Procedure | HCPCS     |
| E1226 | Wheelchair accessory, manual fully reclining back, (recline greater than 80 degrees), each                          | Procedure | HCPCS     |
| E1227 | Special height arms for wheelchair                                                                                  | Procedure | HCPCS     |
| E1228 | Special back height for wheelchair                                                                                  | Procedure | HCPCS     |
| E1229 | Wheelchair, pediatric size, not otherwise specified                                                                 | Procedure | HCPCS     |
| E1230 | Power operated vehicle (three- or four-wheel nonhighway), specify brand name and model number                       | Procedure | HCPCS     |
| E1231 | Wheelchair, pediatric size, tilt-in-space, rigid, adjustable, with seating system                                   | Procedure | HCPCS     |
| E1232 | Wheelchair, pediatric size, tilt-in-space, folding, adjustable, with seating system                                 | Procedure | HCPCS     |
| E1233 | Wheelchair, pediatric size, tilt-in-space, rigid, adjustable, without seating system                                | Procedure | HCPCS     |
| E1234 | Wheelchair, pediatric size, tilt-in-space, folding, adjustable, without seating system                              | Procedure | HCPCS     |
| E1235 | Wheelchair, pediatric size, rigid, adjustable, with seating system                                                  | Procedure | HCPCS     |
| E1236 | Wheelchair, pediatric size, folding, adjustable, with seating system                                                | Procedure | HCPCS     |
| E1237 | Wheelchair, pediatric size, rigid, adjustable, without seating system                                               | Procedure | HCPCS     |
| E1238 | Wheelchair, pediatric size, folding, adjustable, without seating system                                             | Procedure | HCPCS     |
| E1239 | Power wheelchair, pediatric size, not otherwise specified                                                           | Procedure | HCPCS     |
| E1240 | Lightweight wheelchair, detachable arms, (desk or full-length) swing-away detachable, elevating legrest             | Procedure | HCPCS     |
| E1250 | Lightweight wheelchair, fixed full-length arms, swing-away detachable footrest                                      | Procedure | HCPCS     |
| E1260 | Lightweight wheelchair, detachable arms (desk or full-length) swing-away detachable footrest                        | Procedure | HCPCS     |
| E1270 | Lightweight wheelchair, fixed full-length arms, swing-away detachable elevating legrests                            | Procedure | HCPCS     |
| E1280 | Heavy-duty wheelchair, detachable arms (desk or full-length) elevating legrests                                     | Procedure | HCPCS     |
| E1285 | Heavy-duty wheelchair, fixed full-length arms, swing-away detachable footrest                                       | Procedure | HCPCS     |
| E1290 | Heavy-duty wheelchair, detachable arms (desk or full-length) swing-away detachable footrest                         | Procedure | HCPCS     |
| E1295 | Heavy-duty wheelchair, fixed full-length arms, elevating legrest                                                    | Procedure | HCPCS     |
| E1296 | Special wheelchair seat height from floor                                                                           | Procedure | HCPCS     |
| E1297 | Special wheelchair seat depth, by upholstery                                                                        | Procedure | HCPCS     |
| E1298 | Special wheelchair seat depth and/or width, by construction                                                         | Procedure | HCPCS     |
| E2201 | Manual wheelchair accessory, nonstandard seat frame, width greater than or equal to 20 in and less than 24 in       | Procedure | HCPCS     |

**Appendix J. | Code  | Description                                                                                                                  | Code      | Code Type |
|-------|------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       | Category                                                                                                                     |           |           |
| E2202 | Manual wheelchair accessory, nonstandard seat frame width, 24-27 in                                                          | Procedure | HCPCS     |
| E2203 | Manual wheelchair accessory, nonstandard seat frame depth, 20 to less than 22 in                                             | Procedure | HCPCS     |
| E2204 | Manual wheelchair accessory, nonstandard seat frame depth, 22 to 25 in                                                       | Procedure | HCPCS     |
| E2205 | Manual wheelchair accessory, handrim without projections (includes ergonomic or contoured), any type, replacement only, each | Procedure | HCPCS     |
| E2206 | Manual wheelchair accessory, wheel lock assembly, complete, replacement only, each                                           | Procedure | HCPCS     |
| E2207 | Wheelchair accessory, crutch and cane holder, each                                                                           | Procedure | HCPCS     |
| E2208 | Wheelchair accessory, cylinder tank carrier, each                                                                            | Procedure | HCPCS     |
| E2209 | Accessory, arm trough, with or without hand support, each                                                                    | Procedure | HCPCS     |
| E2210 | Wheelchair accessory, bearings, any type, replacement only, each                                                             | Procedure | HCPCS     |
| E2211 | Manual wheelchair accessory, pneumatic propulsion tire, any size, each                                                       | Procedure | HCPCS     |
| E2212 | Manual wheelchair accessory, tube for pneumatic propulsion tire, any size, each                                              | Procedure | HCPCS     |
| E2213 | Manual wheelchair accessory, insert for pneumatic propulsion tire (removable), any type, any size, each                      | Procedure | HCPCS     |
| E2214 | Manual wheelchair accessory, pneumatic caster tire, any size, each                                                           | Procedure | HCPCS     |
| E2215 | Manual wheelchair accessory, tube for pneumatic caster tire, any size, each                                                  | Procedure | HCPCS     |
| E2216 | Manual wheelchair accessory, foam filled propulsion tire, any size, each                                                     | Procedure | HCPCS     |
| E2217 | Manual wheelchair accessory, foam filled caster tire, any size, each                                                         | Procedure | HCPCS     |
| E2218 | Manual wheelchair accessory, foam propulsion tire, any size, each                                                            | Procedure | HCPCS     |
| E2219 | Manual wheelchair accessory, foam caster tire, any size, each                                                                | Procedure | HCPCS     |
| E2220 | Manual wheelchair accessory, solid (rubber/plastic) propulsion tire, any size, replacement only, each                        | Procedure | HCPCS     |
| E2221 | Manual wheelchair accessory, solid (rubber/plastic) caster tire (removable), any size, replacement only, each                | Procedure | HCPCS     |
| E2222 | Manual wheelchair accessory, solid (rubber/plastic) caster tire with integrated wheel, any size, replacement only, each      | Procedure | HCPCS     |
| E2224 | Manual wheelchair accessory, propulsion wheel excludes tire, any size, replacement only, each                                | Procedure | HCPCS     |
| E2225 | Manual wheelchair accessory, caster wheel excludes tire, any size, replacement only, each                                    | Procedure | HCPCS     |
| E2226 | Manual wheelchair accessory, caster fork, any size, replacement only, each                                                   | Procedure | HCPCS     |
| E2227 | Manual wheelchair accessory, gear reduction drive wheel, each                                                                | Procedure | HCPCS     |
| E2228 | Manual wheelchair accessory, wheel braking system and lock, complete, each                                                   | Procedure | HCPCS     |
| E2230 | Manual wheelchair accessory, manual standing system                                                                          | Procedure | HCPCS     |
| E2231 | Manual wheelchair accessory, solid seat support base (replaces sling seat), includes any type mounting hardware              | Procedure | HCPCS     |
| E2291 | Back, planar, for pediatric size wheelchair including fixed attaching hardware                                               | Procedure | HCPCS     |
| E2292 | Seat, planar, for pediatric size wheelchair including fixed attaching hardware                                               | Procedure | HCPCS     |
| E2293 | Back, contoured, for pediatric size wheelchair including fixed attaching hardware                                            | Procedure | HCPCS     |
| E2294 | Seat, contoured, for pediatric size wheelchair including fixed attaching hardware                                            | Procedure | HCPCS     |
| E2300 | Wheelchair accessory, power seat elevation system, any type                                                                  | Procedure | HCPCS     |
| E2301 | Wheelchair accessory, power standing system, any type                                                                        | Procedure | HCPCS     |

| E2310 | Power wheelchair accessory, electronic connection between wheelchair controller and one power seating system motor, including all related electronics, indicator feature, mechanical function selection switch, and fixed mounting hardware        | Procedure | HCPCS     |
| E2311 | Power wheelchair accessory, electronic connection between wheelchair controller and 2 or more power seating system motors, including all related electronics, indicator feature, mechanical function selection switch, and fixed mounting hardware | Procedure | HCPCS     |
| E2312 | Power wheelchair accessory, hand or chin control interface, mini-proportional remote joystick, proportional, including fixed mounting hardware                                                                                                     | Procedure | HCPCS     |
| E2313 | Power wheelchair accessory, harness for upgrade to expandable controller, including all fasteners, connectors and mounting hardware, each                                                                                                          | Procedure | HCPCS     |
| E2321 | Power wheelchair accessory, hand control interface, remote joystick, nonproportional, including all related electronics, mechanical stop switch, and fixed mounting hardware                                                                       | Procedure | HCPCS     |
| E2322 | Power wheelchair accessory, hand control interface, multiple mechanical switches, nonproportional, including all related electronics, mechanical stop switch, and fixed mounting hardware                                                          | Procedure | HCPCS     |
| E2323 | Power wheelchair accessory, specialty joystick handle for hand control interface, prefabricated                                                                                                                                                    | Procedure | HCPCS     |
| E2324 | Power wheelchair accessory, chin cup for chin control interface                                                                                                                                                                                    | Procedure | HCPCS     |
| E2325 | Power wheelchair accessory, sip and puff interface, nonproportional, including all related electronics, mechanical stop switch, and manual swingaway mounting hardware                                                                             | Procedure | HCPCS     |
| E2326 | Power wheelchair accessory, breath tube kit for sip and puff interface                                                                                                                                                                             | Procedure | HCPCS     |
| E2327 | Power wheelchair accessory, head control interface, mechanical, proportional, including all related electronics, mechanical direction change switch, and fixed mounting hardware                                                                   | Procedure | HCPCS     |
| E2328 | Power wheelchair accessory, head control or extremity control interface, electronic, proportional, including all related electronics and fixed mounting hardware                                                                                   | Procedure | HCPCS     |
| E2329 | Power wheelchair accessory, head control interface, contact switch mechanism, nonproportional, including all related electronics, mechanical stop switch, mechanical direction change switch, head array, and fixed mounting hardware              | Procedure | HCPCS     |
| E2330 | Power wheelchair accessory, head control interface, proximity switch mechanism, nonproportional, including all related electronics, mechanical stop switch, mechanical direction change switch, head array, and fixed mounting hardware            | Procedure | HCPCS     |
| E2331 | Power wheelchair accessory, attendant control, proportional, including all related electronics and fixed mounting hardware                                                                                                                         | Procedure | HCPCS     |
| E2340 | Power wheelchair accessory, nonstandard seat frame width, 20-23 in                                                                                                                                                                                 | Procedure | HCPCS     |
| E2341 | Power wheelchair accessory, nonstandard seat frame width, 24-27 in                                                                                                                                                                                 | Procedure | HCPCS     |
| E2342 | Power wheelchair accessory, nonstandard seat frame depth, 20 or 21 in                                                                                                                                                                              | Procedure | HCPCS     |
| E2343 | Power wheelchair accessory, nonstandard seat frame depth, 22-25 in                                                                                                                                                                                 | Procedure | HCPCS     |
| E2351 | Power wheelchair accessory, electronic interface to operate speech generating device using power wheelchair control interface                                                                                                                      | Procedure | HCPCS     |
| E2358 | Power wheelchair accessory, group 34 nonsealed lead acid battery, each                                                                                                                                                                             | Procedure | HCPCS     |
| E2359 | Power wheelchair accessory, group 34 sealed lead acid battery, each (e.g., gel cell, absorbed glass mat)                                                                                                                                           | Procedure | HCPCS     |
| E2360 | Power wheelchair accessory, 22 NF nonsealed lead acid battery, each                                                                                                                                                                                | Procedure | HCPCS     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| <b>Code</b> | <b>Description</b>                                                                                                                                                                                             | <b>Code Category</b> | <b>Code Type</b> |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|------------------|
| E2361       | Power wheelchair accessory, 22 NF sealed lead acid battery, each (e.g., gel cell, absorbed glassmat)                                                                                                           | Procedure            | HCPCS            |
| E2362       | Power wheelchair accessory, group 24 nonsealed lead acid battery, each                                                                                                                                         | Procedure            | HCPCS            |
| E2363       | Power wheelchair accessory, group 24 sealed lead acid battery, each (e.g., gel cell, absorbed glassmat)                                                                                                        | Procedure            | HCPCS            |
| E2364       | Power wheelchair accessory, U-1 nonsealed lead acid battery, each                                                                                                                                              | Procedure            | HCPCS            |
| E2365       | Power wheelchair accessory, U-1 sealed lead acid battery, each (e.g., gel cell, absorbed glassmat)                                                                                                             | Procedure            | HCPCS            |
| E2366       | Power wheelchair accessory, battery charger, single mode, for use with only one battery type, sealed or nonsealed, each                                                                                        | Procedure            | HCPCS            |
| E2367       | Power wheelchair accessory, battery charger, dual mode, for use with either battery type, sealed or nonsealed, each                                                                                            | Procedure            | HCPCS            |
| E2368       | Power wheelchair component, drive wheel motor, replacement only                                                                                                                                                | Procedure            | HCPCS            |
| E2369       | Power wheelchair component, drive wheel gear box, replacement only                                                                                                                                             | Procedure            | HCPCS            |
| E2370       | Power wheelchair component, integrated drive wheel motor and gear box combination, replacement only                                                                                                            | Procedure            | HCPCS            |
| E2371       | Power wheelchair accessory, group 27 sealed lead acid battery, (e.g., gel cell, absorbed glassmat), each                                                                                                       | Procedure            | HCPCS            |
| E2372       | Power wheelchair accessory, group 27 nonsealed lead acid battery, each                                                                                                                                         | Procedure            | HCPCS            |
| E2373       | Power wheelchair accessory, hand or chin control interface, compact remote joystick, proportional, including fixed mounting hardware                                                                           | Procedure            | HCPCS            |
| E2374       | Power wheelchair accessory, hand or chin control interface, standard remote joystick (not including controller), proportional, including all related electronics and fixed mounting hardware, replacement only | Procedure            | HCPCS            |
| E2375       | Power wheelchair accessory, nonexpandable controller, including all related electronics and mounting hardware, replacement only                                                                                | Procedure            | HCPCS            |
| E2376       | Power wheelchair accessory, expandable controller, including all related electronics and mounting hardware, replacement only                                                                                   | Procedure            | HCPCS            |
| E2377       | Power wheelchair accessory, expandable controller, including all related electronics and mounting hardware, upgrade provided at initial issue                                                                  | Procedure            | HCPCS            |
| E2378       | Power wheelchair component, actuator, replacement only                                                                                                                                                         | Procedure            | HCPCS            |
| E2381       | Power wheelchair accessory, pneumatic drive wheel tire, any size, replacement only, each                                                                                                                       | Procedure            | HCPCS            |
| E2382       | Power wheelchair accessory, tube for pneumatic drive wheel tire, any size, replacement only, each                                                                                                              | Procedure            | HCPCS            |
| E2383       | Power wheelchair accessory, insert for pneumatic drive wheel tire (removable), any type, any size, replacement only, each                                                                                      | Procedure            | HCPCS            |
| E2384       | Power wheelchair accessory, pneumatic caster tire, any size, replacement only, each                                                                                                                            | Procedure            | HCPCS            |
| E2385       | Power wheelchair accessory, tube for pneumatic caster tire, any size, replacement only, each                                                                                                                   | Procedure            | HCPCS            |
| E2386       | Power wheelchair accessory, foam filled drive wheel tire, any size, replacement only, each                                                                                                                     | Procedure            | HCPCS            |
| E2387       | Power wheelchair accessory, foam filled caster tire, any size, replacement only, each                                                                                                                          | Procedure            | HCPCS            |
| E2388       | Power wheelchair accessory, foam drive wheel tire, any size, replacement only, each                                                                                                                            | Procedure            | HCPCS            |
| E2389       | Power wheelchair accessory, foam caster tire, any size, replacement only, each                                                                                                                                 | Procedure            | HCPCS            |

| E2395       | Power wheelchair accessory, caster wheel excludes tire, any size, replacement only, each                                                         | Procedure            | HCPCS            |
| E2396       | Power wheelchair accessory, caster fork, any size, replacement only, each                                                                        | Procedure            | HCPCS            |
| E2397       | Power wheelchair accessory, lithium-based battery, each                                                                                          | Procedure            | HCPCS            |
| E2601       | General use wheelchair seat cushion, width less than 22 in, any depth                                                                            | Procedure            | HCPCS            |
| E2602       | General use wheelchair seat cushion, width 22 in or greater, any depth                                                                           | Procedure            | HCPCS            |
| E2603       | Skin protection wheelchair seat cushion, width less than 22 in, any depth                                                                        | Procedure            | HCPCS            |
| E2604       | Skin protection wheelchair seat cushion, width 22 in or greater, any depth                                                                       | Procedure            | HCPCS            |
| E2605       | Positioning wheelchair seat cushion, width less than 22 in, any depth                                                                            | Procedure            | HCPCS            |
| E2606       | Positioning wheelchair seat cushion, width 22 in or greater, any depth                                                                           | Procedure            | HCPCS            |
| E2607       | Skin protection and positioning wheelchair seat cushion, width less than 22 in, any depth                                                        | Procedure            | HCPCS            |
| E2608       | Skin protection and positioning wheelchair seat cushion, width 22 in or greater, any depth                                                       | Procedure            | HCPCS            |
| E2609       | Custom fabricated wheelchair seat cushion, any size                                                                                              | Procedure            | HCPCS            |
| E2610       | Wheelchair seat cushion, powered                                                                                                                 | Procedure            | HCPCS            |
| E2611       | General use wheelchair back cushion, width less than 22 in, any height, including any type mounting hardware                                     | Procedure            | HCPCS            |
| E2612       | General use wheelchair back cushion, width 22 in or greater, any height, including any type mounting hardware                                    | Procedure            | HCPCS            |
| E2613       | Positioning wheelchair back cushion, posterior, width less than 22 in, any height, including any type mounting hardware                          | Procedure            | HCPCS            |
| E2614       | Positioning wheelchair back cushion, posterior, width 22 in or greater, any height, including any type mounting hardware                         | Procedure            | HCPCS            |
| E2615       | Positioning wheelchair back cushion, posterior-lateral, width less than 22 in, any height, including any type mounting hardware                  | Procedure            | HCPCS            |
| E2616       | Positioning wheelchair back cushion, posterior-lateral, width 22 in or greater, any height, including any type mounting hardware                 | Procedure            | HCPCS            |
| E2617       | Custom fabricated wheelchair back cushion, any size, including any type mounting hardware                                                        | Procedure            | HCPCS            |
| E2619       | Replacement cover for wheelchair seat cushion or back cushion, each                                                                              | Procedure            | HCPCS            |
| E2620       | Positioning wheelchair back cushion, planar back with lateral supports, width less than 22 in, any height, including any type mounting hardware  | Procedure            | HCPCS            |
| E2621       | Positioning wheelchair back cushion, planar back with lateral supports, width 22 in or greater, any height, including any type mounting hardware | Procedure            | HCPCS            |
| J0174       | Injection, lecanemab-irmb, 1 mg                                                                                                                  | Procedure            | HCPCS            |
| J0175       | Injection, donanemab-azbt, 2 mg                                                                                                                  | Procedure            | HCPCS            |
| J1160       | Injection, digoxin, up to 0.5 mg                                                                                                                 | Procedure            | HCPCS            |
| J1940       | Injection, furosemide, up to 20 mg                                                                                                               | Procedure            | HCPCS            |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                    | Code      |           |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                | Category  | Code Type |
| J3265 | Injection, torsemide, 10 mg/ml                                                                                                                                 | Procedure | HCPCS     |
| K0001 | Standard wheelchair                                                                                                                                            | Procedure | HCPCS     |
| K0002 | Standard hemi (low seat) wheelchair                                                                                                                            | Procedure | HCPCS     |
| K0003 | Lightweight wheelchair                                                                                                                                         | Procedure | HCPCS     |
| K0004 | High strength, lightweight wheelchair                                                                                                                          | Procedure | HCPCS     |
| K0005 | Ultralightweight wheelchair                                                                                                                                    | Procedure | HCPCS     |
| K0006 | Heavy-duty wheelchair                                                                                                                                          | Procedure | HCPCS     |
| K0007 | Extra heavy-duty wheelchair                                                                                                                                    | Procedure | HCPCS     |
| K0008 | Custom manual wheelchair/base                                                                                                                                  | Procedure | HCPCS     |
| K0009 | Other manual wheelchair/base                                                                                                                                   | Procedure | HCPCS     |
| K0010 | Standard-weight frame motorized/power wheelchair                                                                                                               | Procedure | HCPCS     |
| K0011 | Standard-weight frame motorized/power wheelchair with programmable control parameters for speed adjustment, tremor dampening, acceleration control and braking | Procedure | HCPCS     |
| K0012 | Lightweight portable motorized/power wheelchair                                                                                                                | Procedure | HCPCS     |
| K0013 | Custom motorized/power wheelchair base                                                                                                                         | Procedure | HCPCS     |
| K0014 | Other motorized/power wheelchair base                                                                                                                          | Procedure | HCPCS     |
| K0015 | Detachable, nonadjustable height armrest, each                                                                                                                 | Procedure | HCPCS     |
| K0017 | Detachable, adjustable height armrest, base, replacement only, each                                                                                            | Procedure | HCPCS     |
| K0018 | Detachable, adjustable height armrest, upper portion, replacement only, each                                                                                   | Procedure | HCPCS     |
| K0019 | Arm pad, replacement only, each                                                                                                                                | Procedure | HCPCS     |
| K0020 | Fixed, adjustable height armrest, pair                                                                                                                         | Procedure | HCPCS     |
| K0037 | High mount flip-up footrest, each                                                                                                                              | Procedure | HCPCS     |
| K0038 | Leg strap, each                                                                                                                                                | Procedure | HCPCS     |
| K0039 | Leg strap, H style, each                                                                                                                                       | Procedure | HCPCS     |
| K0040 | Adjustable angle footplate, each                                                                                                                               | Procedure | HCPCS     |
| K0041 | Large size footplate, each                                                                                                                                     | Procedure | HCPCS     |
| K0042 | Standard size footplate, replacement only, each                                                                                                                | Procedure | HCPCS     |
| K0043 | Footrest, lower extension tube, replacement only, each                                                                                                         | Procedure | HCPCS     |
| K0044 | Footrest, upper hanger bracket, replacement only, each                                                                                                         | Procedure | HCPCS     |
| K0045 | Footrest, complete assembly, replacement only, each                                                                                                            | Procedure | HCPCS     |
| K0046 | Elevating legrest, lower extension tube, replacement only, each                                                                                                | Procedure | HCPCS     |
| K0047 | Elevating legrest, upper hanger bracket, replacement only, each                                                                                                | Procedure | HCPCS     |
| K0050 | Ratchet assembly, replacement only                                                                                                                             | Procedure | HCPCS     |
| K0051 | Cam release assembly, footrest or legrest, replacement only, each                                                                                              | Procedure | HCPCS     |
| K0052 | Swingaway, detachable footrests, replacement only, each                                                                                                        | Procedure | HCPCS     |
| K0053 | Elevating footrests, articulating (telescoping), each                                                                                                          | Procedure | HCPCS     |
| K0056 | Seat height less than 17 in or equal to or greater than 21 in for a high-strength, lightweight, or ultralightweight wheelchair                                 | Procedure | HCPCS     |
| K0065 | Spoke protectors, each                                                                                                                                         | Procedure | HCPCS     |
| K0069 | Rear wheel assembly, complete, with solid tire, spokes or molded, replacement only, each                                                                       | Procedure | HCPCS     |
| K0070 | Rear wheel assembly, complete, with pneumatic tire, spokes or molded, replacement only, each                                                                   | Procedure | HCPCS     |
| K0071 | Front caster assembly, complete, with pneumatic tire, replacement only, each                                                                                   | Procedure | HCPCS     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code                         | Description                                                                                                                                                                                                               | Code Category | Code Type |
|------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| K0072                        | Front caster assembly, complete, with semipneumatic tire, replacement only, each                                                                                                                                          | Procedure     | HCPCS     |
| K0073                        | Caster pin lock, each                                                                                                                                                                                                     | Procedure     | HCPCS     |
| K0077                        | Front caster assembly, complete, with solid tire, replacement only, each                                                                                                                                                  | Procedure     | HCPCS     |
| K0098                        | Drive belt for power wheelchair, replacement only                                                                                                                                                                         | Procedure     | HCPCS     |
| K0105                        | IV hanger, each                                                                                                                                                                                                           | Procedure     | HCPCS     |
| K0108                        | Wheelchair component or accessory, not otherwise specified                                                                                                                                                                | Procedure     | HCPCS     |
| K0195                        | Elevating legrests, pair (for use with capped rental wheelchair base)                                                                                                                                                     | Procedure     | HCPCS     |
| K0455                        | Infusion pump used for uninterrupted parenteral administration of medication, (e.g., epoprostenol or treprostinol)                                                                                                        | Procedure     | HCPCS     |
| K0462                        | Temporary replacement for patient-owned equipment being repaired, any type                                                                                                                                                | Procedure     | HCPCS     |
| K0669                        | Wheelchair accessory, wheelchair seat or back cushion, does not meet specific code criteria or no written coding verification from DME PDAC                                                                               | Procedure     | HCPCS     |
| S0171                        | Injection, bumetanide, 0.5 mg                                                                                                                                                                                             | Procedure     | HCPCS     |
| <b>Any HbA1c Test</b>        |                                                                                                                                                                                                                           |               |           |
| 81506                        | Endocrinology (type 2 diabetes), biochemical assays of seven analytes (glucose, HbA1c, insulin, hs-CRP, adiponectin, ferritin, interleukin 2-receptor alpha), utilizing serum or plasma, algorithm reporting a risk score | Procedure     | CPT-4     |
| 83036                        | Hemoglobin; glycosylated (A1C)                                                                                                                                                                                            | Procedure     | CPT-4     |
| 83037                        | Hemoglobin; glycosylated (A1C) by device cleared by FDA for home use                                                                                                                                                      | Procedure     | CPT-4     |
| D0411                        | HbA1c in-office point of service testing                                                                                                                                                                                  | Procedure     | HCPCS     |
| <b>Hepatitis C Infection</b> |                                                                                                                                                                                                                           |               |           |
| 070.41                       | Acute hepatitis C with hepatic coma                                                                                                                                                                                       | Diagnosis     | ICD-9-CM  |
| 070.44                       | Chronic hepatitis C with hepatic coma                                                                                                                                                                                     | Diagnosis     | ICD-9-CM  |
| 070.51                       | Acute hepatitis C without mention of hepatic coma                                                                                                                                                                         | Diagnosis     | ICD-9-CM  |
| 070.54                       | Chronic hepatitis C without mention of hepatic coma                                                                                                                                                                       | Diagnosis     | ICD-9-CM  |
| 070.7                        | Unspecified viral hepatitis C                                                                                                                                                                                             | Diagnosis     | ICD-9-CM  |
| 070.70                       | Unspecified viral hepatitis C without hepatic coma                                                                                                                                                                        | Diagnosis     | ICD-9-CM  |
| 070.71                       | Unspecified viral hepatitis C with hepatic coma                                                                                                                                                                           | Diagnosis     | ICD-9-CM  |
| B17.10                       | Acute hepatitis C without hepatic coma                                                                                                                                                                                    | Diagnosis     | ICD-10-CM |
| B17.11                       | Acute hepatitis C with hepatic coma                                                                                                                                                                                       | Diagnosis     | ICD-10-CM |

| 403.90 | Hypertensive chronic kidney disease, unspecified, with chronic kidney disease stage I through stage IV, or unspecified                                     | Diagnosis | ICD-9-CM  |
| 403.91 | Hypertensive chronic kidney disease, unspecified, with chronic kidney disease stage V or end stage renal disease                                           | Diagnosis | ICD-9-CM  |
| 404.00 | Hypertensive heart and chronic kidney disease, malignant, without heart failure and with chronic kidney disease stage I through stage IV, or unspecified   | Diagnosis | ICD-9-CM  |
| 404.01 | Hypertensive heart and chronic kidney disease, malignant, with heart failure and with chronic kidney disease stage I through stage IV, or unspecified      | Diagnosis | ICD-9-CM  |
| 404.02 | Hypertensive heart and chronic kidney disease, malignant, without heart failure and with chronic kidney disease stage V or end stage renal disease         | Diagnosis | ICD-9-CM  |
| 404.03 | Hypertensive heart and chronic kidney disease, malignant, with heart failure and with chronic kidney disease stage V or end stage renal disease            | Diagnosis | ICD-9-CM  |
| 404.10 | Hypertensive heart and chronic kidney disease, benign, without heart failure and with chronic kidney disease stage I through stage IV, or unspecified      | Diagnosis | ICD-9-CM  |
| 404.11 | Hypertensive heart and chronic kidney disease, benign, with heart failure and with chronic kidney disease stage I through stage IV, or unspecified         | Diagnosis | ICD-9-CM  |
| 404.12 | Hypertensive heart and chronic kidney disease, benign, without heart failure and with chronic kidney disease stage V or end stage renal disease            | Diagnosis | ICD-9-CM  |
| 404.13 | Hypertensive heart and chronic kidney disease, benign, with heart failure and chronic kidney disease stage V or end stage renal disease                    | Diagnosis | ICD-9-CM  |
| 404.90 | Hypertensive heart and chronic kidney disease, unspecified, without heart failure and with chronic kidney disease stage I through stage IV, or unspecified | Diagnosis | ICD-9-CM  |
| 404.91 | Hypertensive heart and chronic kidney disease, unspecified, with heart failure and with chronic kidney disease stage I through stage IV, or unspecified    | Diagnosis | ICD-9-CM  |
| 404.92 | Hypertensive heart and chronic kidney disease, unspecified, without heart failure and with chronic kidney disease stage V or end stage renal disease       | Diagnosis | ICD-9-CM  |
| 404.93 | Hypertensive heart and chronic kidney disease, unspecified, with heart failure and chronic kidney disease stage V or end stage renal disease               | Diagnosis | ICD-9-CM  |
| 405.01 | Secondary renovascular hypertension, malignant                                                                                                             | Diagnosis | ICD-9-CM  |
| 405.09 | Other secondary hypertension, malignant                                                                                                                    | Diagnosis | ICD-9-CM  |
| 405.11 | Secondary renovascular hypertension, benign                                                                                                                | Diagnosis | ICD-9-CM  |
| 405.19 | Other secondary hypertension, benign                                                                                                                       | Diagnosis | ICD-9-CM  |
| 405.91 | Secondary renovascular hypertension, unspecified                                                                                                           | Diagnosis | ICD-9-CM  |
| 405.99 | Other secondary hypertension, unspecified                                                                                                                  | Diagnosis | ICD-9-CM  |
| 437.2  | Hypertensive encephalopathy                                                                                                                                | Diagnosis | ICD-9-CM  |

| E13.641                  | Other specified diabetes mellitus with hypoglycemia with coma                                                                                                     | Diagnosis       | ICD-10-CM        |
| E13.649                  | Other specified diabetes mellitus with hypoglycemia without coma                                                                                                  | Diagnosis       | ICD-10-CM        |
| E16.0                    | Drug-induced hypoglycemia without coma                                                                                                                            | Diagnosis       | ICD-10-CM        |
| E16.1                    | Other hypoglycemia                                                                                                                                                | Diagnosis       | ICD-10-CM        |
| E16.2                    | Hypoglycemia, unspecified                                                                                                                                         | Diagnosis       | ICD-10-CM        |
| E16.A                    | Hypoglycemia level                                                                                                                                                | Diagnosis       | ICD-10-CM        |
| E16.A1                   | Hypoglycemia level 1                                                                                                                                              | Diagnosis       | ICD-10-CM        |
| E16.A2                   | Hypoglycemia level 2                                                                                                                                              | Diagnosis       | ICD-10-CM        |
| E16.A3                   | Hypoglycemia level 3                                                                                                                                              | Diagnosis       | ICD-10-CM        |
| <b>Influenza Vaccine</b> |                                                                                                                                                                   |                 |                  |
| 3E01340                  | Introduction of Influenza Vaccine into Subcutaneous Tissue, Percutaneous Approach                                                                                 | Procedure       | ICD-10-PCS       |
| 3E02340                  | Introduction of Influenza Vaccine into Muscle, Percutaneous Approach                                                                                              | Procedure       | ICD-10-PCS       |
| 90470                    | H1N1 immunization administration (intramuscular, intranasal), including counseling when performed                                                                 | Procedure       | CPT-4            |
| 90630                    | Influenza virus vaccine, quadrivalent (IIV4), split virus, preservative free, for intradermal use                                                                 | Procedure       | CPT-4            |
| 90653                    | Influenza vaccine, inactivated (IIV), subunit, adjuvanted, for intramuscular use                                                                                  | Procedure       | CPT-4            |
| 90654                    | Influenza virus vaccine, trivalent (IIV3), split virus, preservative-free, for intradermal use                                                                    | Procedure       | CPT-4            |
| 90655                    | Influenza virus vaccine, trivalent (IIV3), split virus, preservative free, 0.25 mL dosage, for intramuscular use                                                  | Procedure       | CPT-4            |
| 90656                    | Influenza virus vaccine, trivalent (IIV3), split virus, preservative free, 0.5 mL dosage, for intramuscular use                                                   | Procedure       | CPT-4            |
| 90657                    | Influenza virus vaccine, trivalent (IIV3), split virus, 0.25 mL dosage, for intramuscular use                                                                     | Procedure       | CPT-4            |
| 90658                    | Influenza virus vaccine, trivalent (IIV3), split virus, 0.5 mL dosage, for intramuscular use                                                                      | Procedure       | CPT-4            |
| 90659                    | Influenza virus vaccine, whole virus, for intramuscular or jet injection use                                                                                      | Procedure       | CPT-4            |
| 90660                    | Influenza virus vaccine, trivalent, live (LAIV3), for intranasal use                                                                                              | Procedure       | CPT-4            |
| 90661                    | Influenza virus vaccine, trivalent (ccIIV3), derived from cell cultures, subunit, preservative and antibiotic free, 0.5 mL dosage, for intramuscular use          | Procedure       | CPT-4            |
| 90662                    | Influenza virus vaccine (IIV), split virus, preservative free, enhanced immunogenicity via increased antigen content, for intramuscular use                       | Procedure       | CPT-4            |
| 90663                    | Influenza virus vaccine, pandemic formulation, H1N1                                                                                                               | Procedure       | CPT-4            |
| 90664                    | Influenza virus vaccine, live (LAIV), pandemic formulation, for intranasal use                                                                                    | Procedure       | CPT-4            |
| 90666                    | Influenza virus vaccine (IIV), pandemic formulation, split virus, preservative free, for intramuscular use                                                        | Procedure       | CPT-4            |
| 90667                    | Influenza virus vaccine (IIV), pandemic formulation, split virus, adjuvanted, for intramuscular use                                                               | Procedure       | CPT-4            |
| 90668                    | Influenza virus vaccine (IIV), pandemic formulation, split virus, for intramuscular use                                                                           | Procedure       | CPT-4            |
| 90672                    | Influenza virus vaccine, quadrivalent, live (LAIV4), for intranasal use                                                                                           | Procedure       | CPT-4            |
| 90673                    | Influenza virus vaccine, trivalent (RIV3), derived from recombinant DNA, hemagglutinin (HA) protein only, preservative and antibiotic free, for intramuscular use | Procedure       | CPT-4            |
| 90674                    | Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, preservative and antibiotic free, 0.5 mL dosage, for intramuscular use       | Procedure       | CPT-4            |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code               | Description                                                                                                                                                          | Code Category | Code Type |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| 90682              | Influenza virus vaccine, quadrivalent (RIV4), derived from recombinant DNA, hemagglutinin (HA) protein only, preservative and antibiotic free, for intramuscular use | Procedure     | CPT-4     |
| 90685              | Influenza virus vaccine, quadrivalent (IIV4), split virus, preservative free, 0.25 mL, for intramuscular use                                                         | Procedure     | CPT-4     |
| 90686              | Influenza virus vaccine, quadrivalent (IIV4), split virus, preservative free, 0.5 mL dosage, for intramuscular use                                                   | Procedure     | CPT-4     |
| 90687              | Influenza virus vaccine, quadrivalent (IIV4), split virus, 0.25 mL dosage, for intramuscular use                                                                     | Procedure     | CPT-4     |
| 90688              | Influenza virus vaccine, quadrivalent (IIV4), split virus, 0.5 mL dosage, for intramuscular use                                                                      | Procedure     | CPT-4     |
| 90689              | Influenza virus vaccine quadrivalent (IIV4), inactivated, adjuvanted, preservative free, 0.25 mL dosage, for intramuscular use                                       | Procedure     | CPT-4     |
| 90694              | Influenza virus vaccine, quadrivalent (aIIV4), inactivated, adjuvanted, preservative free, 0.5 mL dosage, for intramuscular use                                      | Procedure     | CPT-4     |
| 90724              | IMMUNIZ ACTIVE; INFLUENZA VIRUS VACCINE                                                                                                                              | Procedure     | CPT-4     |
| 90756              | Influenza virus vaccine, quadrivalent (ccIIV4), derived from cell cultures, subunit, antibiotic free, 0.5mL dosage, for intramuscular use                            | Procedure     | CPT-4     |
| 99.52              | Prophylactic vaccination against influenza                                                                                                                           | Procedure     | ICD-9-CM  |
| G0008              | Administration of influenza virus vaccine                                                                                                                            | Procedure     | HCPCS     |
| G2163              | Patient received an influenza vaccine on or between July 1 of the year prior to the measurement period and June 30 of the measurement period                         | Procedure     | HCPCS     |
| G9141              | Influenza A (H1N1) immunization administration (includes the physician counseling the patient/family)                                                                | Procedure     | HCPCS     |
| G9142              | Influenza A (H1N1) vaccine, any route of administration                                                                                                              | Procedure     | HCPCS     |
| Q0034              | Administration of influenza vaccine to Medicare beneficiaries by participating demonstration sites                                                                   | Procedure     | HCPCS     |
| Q2033              | Influenza vaccine, recombinant hemagglutinin antigens, for intramuscular use (Flublok)                                                                               | Procedure     | HCPCS     |
| Q2034              | Influenza virus vaccine, split virus, for intramuscular use (Agrimflu)                                                                                               | Procedure     | HCPCS     |
| Q2035              | Influenza virus vaccine, split virus, when administered to individuals 3 years of age and older, for intramuscular use (AFLURIA)                                     | Procedure     | HCPCS     |
| Q2036              | Influenza virus vaccine, split virus, when administered to individuals 3 years of age and older, for intramuscular use (FLULAVAL)                                    | Procedure     | HCPCS     |
| Q2037              | Influenza virus vaccine, split virus, when administered to individuals 3 years of age and older, for intramuscular use (FLUVIRIN)                                    | Procedure     | HCPCS     |
| Q2038              | Influenza virus vaccine, split virus, when administered to individuals 3 years of age and older, for intramuscular use (Fluzone)                                     | Procedure     | HCPCS     |
| Q2039              | Influenza virus vaccine, not otherwise specified                                                                                                                     | Procedure     | HCPCS     |
| <b>Any Insulin</b> |                                                                                                                                                                      |               |           |
| J1811              | Insulin (Fiasp) for administration through DME (i.e., insulin pump) per 50 units                                                                                     | Procedure     | HCPCS     |
| J1812              | Insulin (Fiasp), per 5 units                                                                                                                                         | Procedure     | HCPCS     |
| J1813              | Insulin (Lyumjev) for administration through DME (i.e., insulin pump) per 50 units                                                                                   | Procedure     | HCPCS     |
| J1814              | Insulin (Lyumjev), per 5 units                                                                                                                                       | Procedure     | HCPCS     |
| J1815              | Injection, insulin, per 5 units                                                                                                                                      | Procedure     | HCPCS     |
| J1817              | Insulin for insulin pump use                                                                                                                                         | Procedure     | HCPCS     |

| 140.6 | Malignant neoplasm of commissure of lip                                       | Diagnosis | ICD-9-CM  |
| 140.8 | Malignant neoplasm of other sites of lip                                      | Diagnosis | ICD-9-CM  |
| 140.9 | Malignant neoplasm of lip, vermilion border, unspecified as to upper or lower | Diagnosis | ICD-9-CM  |
| 141   | Malignant neoplasm of tongue                                                  | Diagnosis | ICD-9-CM  |
| 141.0 | Malignant neoplasm of base of tongue                                          | Diagnosis | ICD-9-CM  |
| 141.1 | Malignant neoplasm of dorsal surface of tongue                                | Diagnosis | ICD-9-CM  |
| 141.2 | Malignant neoplasm of tip and lateral border of tongue                        | Diagnosis | ICD-9-CM  |
| 141.3 | Malignant neoplasm of ventral surface of tongue                               | Diagnosis | ICD-9-CM  |
| 141.4 | Malignant neoplasm of anterior two-thirds of tongue, part unspecified         | Diagnosis | ICD-9-CM  |
| 141.5 | Malignant neoplasm of junctional zone of tongue                               | Diagnosis | ICD-9-CM  |
| 141.6 | Malignant neoplasm of lingual tonsil                                          | Diagnosis | ICD-9-CM  |
| 141.8 | Malignant neoplasm of other sites of tongue                                   | Diagnosis | ICD-9-CM  |
| 141.9 | Malignant neoplasm of tongue, unspecified site                                | Diagnosis | ICD-9-CM  |
| 142   | Malignant neoplasm of major salivary glands                                   | Diagnosis | ICD-9-CM  |
| 142.0 | Malignant neoplasm of parotid gland                                           | Diagnosis | ICD-9-CM  |
| 142.1 | Malignant neoplasm of submandibular gland                                     | Diagnosis | ICD-9-CM  |
| 142.2 | Malignant neoplasm of sublingual gland                                        | Diagnosis | ICD-9-CM  |
| 142.8 | Malignant neoplasm of other major salivary glands                             | Diagnosis | ICD-9-CM  |
| 142.9 | Malignant neoplasm of salivary gland, unspecified                             | Diagnosis | ICD-9-CM  |
| 143   | Malignant neoplasm of gum                                                     | Diagnosis | ICD-9-CM  |
| 143.0 | Malignant neoplasm of upper gum                                               | Diagnosis | ICD-9-CM  |
| 143.1 | Malignant neoplasm of lower gum                                               | Diagnosis | ICD-9-CM  |
| 143.8 | Malignant neoplasm of other sites of gum                                      | Diagnosis | ICD-9-CM  |
| 143.9 | Malignant neoplasm of gum, unspecified site                                   | Diagnosis | ICD-9-CM  |
| 144   | Malignant neoplasm of floor of mouth                                          | Diagnosis | ICD-9-CM  |
| 144.0 | Malignant neoplasm of anterior portion of floor of mouth                      | Diagnosis | ICD-9-CM  |
| 144.1 | Malignant neoplasm of lateral portion of floor of mouth                       | Diagnosis | ICD-9-CM  |
| 144.8 | Malignant neoplasm of other sites of floor of mouth                           | Diagnosis | ICD-9-CM  |
| 144.9 | Malignant neoplasm of floor of mouth, part unspecified                        | Diagnosis | ICD-9-CM  |
| 145   | Malignant neoplasm of other and unspecified parts of mouth                    | Diagnosis | ICD-9-CM  |
| 145.0 | Malignant neoplasm of cheek mucosa                                            | Diagnosis | ICD-9-CM  |
| 145.1 | Malignant neoplasm of vestibule of mouth                                      | Diagnosis | ICD-9-CM  |
| 145.2 | Malignant neoplasm of hard palate                                             | Diagnosis | ICD-9-CM  |
| 145.3 | Malignant neoplasm of soft palate                                             | Diagnosis | ICD-9-CM  |
| 145.4 | Malignant neoplasm of uvula                                                   | Diagnosis | ICD-9-CM  |
| 145.5 | Malignant neoplasm of palate, unspecified                                     | Diagnosis | ICD-9-CM  |
| 145.6 | Malignant neoplasm of retromolar area                                         | Diagnosis | ICD-9-CM  |
| 145.8 | Malignant neoplasm of other specified parts of mouth                          | Diagnosis | ICD-9-CM  |
| 145.9 | Malignant neoplasm of mouth, unspecified site                                 | Diagnosis | ICD-9-CM  |
| 146   | Malignant neoplasm of oropharynx                                              | Diagnosis | ICD-9-CM  |
| 146.0 | Malignant neoplasm of tonsil                                                  | Diagnosis | ICD-9-CM  |
| 146.1 | Malignant neoplasm of tonsillar fossa                                         | Diagnosis | ICD-9-CM  |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                | Code      |           |
|-------|--------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                            | Category  | Code Type |
| 146.2 | Malignant neoplasm of tonsillar pillars (anterior) (posterior)                             | Diagnosis | ICD-9-CM  |
| 146.3 | Malignant neoplasm of vallecula                                                            | Diagnosis | ICD-9-CM  |
| 146.4 | Malignant neoplasm of anterior aspect of epiglottis                                        | Diagnosis | ICD-9-CM  |
| 146.5 | Malignant neoplasm of junctional region of oropharynx                                      | Diagnosis | ICD-9-CM  |
| 146.6 | Malignant neoplasm of lateral wall of oropharynx                                           | Diagnosis | ICD-9-CM  |
| 146.7 | Malignant neoplasm of posterior wall of oropharynx                                         | Diagnosis | ICD-9-CM  |
| 146.8 | Malignant neoplasm of other specified sites of oropharynx                                  | Diagnosis | ICD-9-CM  |
| 146.9 | Malignant neoplasm of oropharynx, unspecified site                                         | Diagnosis | ICD-9-CM  |
| 147   | Malignant neoplasm of nasopharynx                                                          | Diagnosis | ICD-9-CM  |
| 147.0 | Malignant neoplasm of superior wall of nasopharynx                                         | Diagnosis | ICD-9-CM  |
| 147.1 | Malignant neoplasm of posterior wall of nasopharynx                                        | Diagnosis | ICD-9-CM  |
| 147.2 | Malignant neoplasm of lateral wall of nasopharynx                                          | Diagnosis | ICD-9-CM  |
| 147.3 | Malignant neoplasm of anterior wall of nasopharynx                                         | Diagnosis | ICD-9-CM  |
| 147.8 | Malignant neoplasm of other specified sites of nasopharynx                                 | Diagnosis | ICD-9-CM  |
| 147.9 | Malignant neoplasm of nasopharynx, unspecified site                                        | Diagnosis | ICD-9-CM  |
| 148   | Malignant neoplasm of hypopharynx                                                          | Diagnosis | ICD-9-CM  |
| 148.0 | Malignant neoplasm of postcricoid region of hypopharynx                                    | Diagnosis | ICD-9-CM  |
| 148.1 | Malignant neoplasm of pyriform sinus                                                       | Diagnosis | ICD-9-CM  |
| 148.2 | Malignant neoplasm of aryepiglottic fold, hypopharyngeal aspect                            | Diagnosis | ICD-9-CM  |
| 148.3 | Malignant neoplasm of posterior hypopharyngeal wall                                        | Diagnosis | ICD-9-CM  |
| 148.8 | Malignant neoplasm of other specified sites of hypopharynx                                 | Diagnosis | ICD-9-CM  |
| 148.9 | Malignant neoplasm of hypopharynx, unspecified site                                        | Diagnosis | ICD-9-CM  |
| 149   | Malignant neoplasm of other and ill-defined sites within the lip, oral cavity, and pharynx | Diagnosis | ICD-9-CM  |
| 149.0 | Malignant neoplasm of pharynx, unspecified                                                 | Diagnosis | ICD-9-CM  |
| 149.1 | Malignant neoplasm of Waldeyer's ring                                                      | Diagnosis | ICD-9-CM  |
| 149.8 | Malignant neoplasm of other sites within the lip and oral cavity                           | Diagnosis | ICD-9-CM  |
| 149.9 | Malignant neoplasm of ill-defined sites of lip and oral cavity                             | Diagnosis | ICD-9-CM  |
| 150   | Malignant neoplasm of esophagus                                                            | Diagnosis | ICD-9-CM  |
| 150.0 | Malignant neoplasm of cervical esophagus                                                   | Diagnosis | ICD-9-CM  |
| 150.1 | Malignant neoplasm of thoracic esophagus                                                   | Diagnosis | ICD-9-CM  |
| 150.2 | Malignant neoplasm of abdominal esophagus                                                  | Diagnosis | ICD-9-CM  |
| 150.3 | Malignant neoplasm of upper third of esophagus                                             | Diagnosis | ICD-9-CM  |
| 150.4 | Malignant neoplasm of middle third of esophagus                                            | Diagnosis | ICD-9-CM  |
| 150.5 | Malignant neoplasm of lower third of esophagus                                             | Diagnosis | ICD-9-CM  |
| 150.8 | Malignant neoplasm of other specified part of esophagus                                    | Diagnosis | ICD-9-CM  |
| 150.9 | Malignant neoplasm of esophagus, unspecified site                                          | Diagnosis | ICD-9-CM  |
| 151   | Malignant neoplasm of stomach                                                              | Diagnosis | ICD-9-CM  |
| 151.0 | Malignant neoplasm of cardia                                                               | Diagnosis | ICD-9-CM  |
| 151.1 | Malignant neoplasm of pylorus                                                              | Diagnosis | ICD-9-CM  |
| 151.2 | Malignant neoplasm of pyloric antrum                                                       | Diagnosis | ICD-9-CM  |
| 151.3 | Malignant neoplasm of fundus of stomach                                                    | Diagnosis | ICD-9-CM  |
| 151.4 | Malignant neoplasm of body of stomach                                                      | Diagnosis | ICD-9-CM  |
| 151.5 | Malignant neoplasm of lesser curvature of stomach, unspecified                             | Diagnosis | ICD-9-CM  |

**Appendix J. | Code  | Description                                                                            | Code      |           |
|-------|----------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                        | Category  | Code Type |
| 151.6 | Malignant neoplasm of greater curvature of stomach, unspecified                        | Diagnosis | ICD-9-CM  |
| 151.8 | Malignant neoplasm of other specified sites of stomach                                 | Diagnosis | ICD-9-CM  |
| 151.9 | Malignant neoplasm of stomach, unspecified site                                        | Diagnosis | ICD-9-CM  |
| 152   | Malignant neoplasm of small intestine, including duodenum                              | Diagnosis | ICD-9-CM  |
| 152.0 | Malignant neoplasm of duodenum                                                         | Diagnosis | ICD-9-CM  |
| 152.1 | Malignant neoplasm of jejunum                                                          | Diagnosis | ICD-9-CM  |
| 152.2 | Malignant neoplasm of ileum                                                            | Diagnosis | ICD-9-CM  |
| 152.3 | Malignant neoplasm of Meckel's diverticulum                                            | Diagnosis | ICD-9-CM  |
| 152.8 | Malignant neoplasm of other specified sites of small intestine                         | Diagnosis | ICD-9-CM  |
| 152.9 | Malignant neoplasm of small intestine, unspecified site                                | Diagnosis | ICD-9-CM  |
| 153   | Malignant neoplasm of colon                                                            | Diagnosis | ICD-9-CM  |
| 153.0 | Malignant neoplasm of hepatic flexure                                                  | Diagnosis | ICD-9-CM  |
| 153.1 | Malignant neoplasm of transverse colon                                                 | Diagnosis | ICD-9-CM  |
| 153.2 | Malignant neoplasm of descending colon                                                 | Diagnosis | ICD-9-CM  |
| 153.3 | Malignant neoplasm of sigmoid colon                                                    | Diagnosis | ICD-9-CM  |
| 153.4 | Malignant neoplasm of cecum                                                            | Diagnosis | ICD-9-CM  |
| 153.5 | Malignant neoplasm of appendix                                                         | Diagnosis | ICD-9-CM  |
| 153.6 | Malignant neoplasm of ascending colon                                                  | Diagnosis | ICD-9-CM  |
| 153.7 | Malignant neoplasm of splenic flexure                                                  | Diagnosis | ICD-9-CM  |
| 153.8 | Malignant neoplasm of other specified sites of large intestine                         | Diagnosis | ICD-9-CM  |
| 153.9 | Malignant neoplasm of colon, unspecified site                                          | Diagnosis | ICD-9-CM  |
| 154   | Malignant neoplasm of rectum, rectosigmoid junction, and anus                          | Diagnosis | ICD-9-CM  |
| 154.0 | Malignant neoplasm of rectosigmoid junction                                            | Diagnosis | ICD-9-CM  |
| 154.1 | Malignant neoplasm of rectum                                                           | Diagnosis | ICD-9-CM  |
| 154.2 | Malignant neoplasm of anal canal                                                       | Diagnosis | ICD-9-CM  |
| 154.3 | Malignant neoplasm of anus, unspecified site                                           | Diagnosis | ICD-9-CM  |
| 154.8 | Malignant neoplasm of other sites of rectum, rectosigmoid junction, and anus           | Diagnosis | ICD-9-CM  |
| 155   | Malignant neoplasm of liver and intrahepatic bile ducts                                | Diagnosis | ICD-9-CM  |
| 155.0 | Malignant neoplasm of liver, primary                                                   | Diagnosis | ICD-9-CM  |
| 155.1 | Malignant neoplasm of intrahepatic bile ducts                                          | Diagnosis | ICD-9-CM  |
| 155.2 | Malignant neoplasm of liver, not specified as primary or secondary                     | Diagnosis | ICD-9-CM  |
| 156   | Malignant neoplasm of gallbladder and extrahepatic bile ducts                          | Diagnosis | ICD-9-CM  |
| 156.0 | Malignant neoplasm of gallbladder                                                      | Diagnosis | ICD-9-CM  |
| 156.1 | Malignant neoplasm of extrahepatic bile ducts                                          | Diagnosis | ICD-9-CM  |
| 156.2 | Malignant neoplasm of ampulla of Vater                                                 | Diagnosis | ICD-9-CM  |
| 156.8 | Malignant neoplasm of other specified sites of gallbladder and extrahepatic bile ducts | Diagnosis | ICD-9-CM  |
| 156.9 | Malignant neoplasm of biliary tract, part unspecified site                             | Diagnosis | ICD-9-CM  |
| 157   | Malignant neoplasm of pancreas                                                         | Diagnosis | ICD-9-CM  |
| 157.0 | Malignant neoplasm of head of pancreas                                                 | Diagnosis | ICD-9-CM  |
| 157.1 | Malignant neoplasm of body of pancreas                                                 | Diagnosis | ICD-9-CM  |
| 157.2 | Malignant neoplasm of tail of pancreas                                                 | Diagnosis | ICD-9-CM  |
| 157.3 | Malignant neoplasm of pancreatic duct                                                  | Diagnosis | ICD-9-CM  |
| 157.4 | Malignant neoplasm of islets of Langerhans                                             | Diagnosis | ICD-9-CM  |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                     | Code      | Code Type |
|-------|-------------------------------------------------------------------------------------------------|-----------|-----------|
| 157.8 | Malignant neoplasm of other specified sites of pancreas                                         | Diagnosis | ICD-9-CM  |
| 157.9 | Malignant neoplasm of pancreas, part unspecified                                                | Diagnosis | ICD-9-CM  |
| 158   | Malignant neoplasm of retroperitoneum and peritoneum                                            | Diagnosis | ICD-9-CM  |
| 158.0 | Malignant neoplasm of retroperitoneum                                                           | Diagnosis | ICD-9-CM  |
| 158.8 | Malignant neoplasm of specified parts of peritoneum                                             | Diagnosis | ICD-9-CM  |
| 158.9 | Malignant neoplasm of peritoneum, unspecified                                                   | Diagnosis | ICD-9-CM  |
| 159   | Malignant neoplasm of other and ill-defined sites within the digestive organs and peritoneum    | Diagnosis | ICD-9-CM  |
| 159.0 | Malignant neoplasm of intestinal tract, part unspecified                                        | Diagnosis | ICD-9-CM  |
| 159.1 | Malignant neoplasm of spleen, not elsewhere classified                                          | Diagnosis | ICD-9-CM  |
| 159.8 | Malignant neoplasm of other sites of digestive system and intra-abdominal organs                | Diagnosis | ICD-9-CM  |
| 159.9 | Malignant neoplasm of ill-defined sites of digestive organs and peritoneum                      | Diagnosis | ICD-9-CM  |
| 160   | Malignant neoplasm of nasal cavities, middle ear, and accessory sinuses                         | Diagnosis | ICD-9-CM  |
| 160.0 | Malignant neoplasm of nasal cavities                                                            | Diagnosis | ICD-9-CM  |
| 160.1 | Malignant neoplasm of auditory tube, middle ear, and mastoid air cells                          | Diagnosis | ICD-9-CM  |
| 160.2 | Malignant neoplasm of maxillary sinus                                                           | Diagnosis | ICD-9-CM  |
| 160.3 | Malignant neoplasm of ethmoidal sinus                                                           | Diagnosis | ICD-9-CM  |
| 160.4 | Malignant neoplasm of frontal sinus                                                             | Diagnosis | ICD-9-CM  |
| 160.5 | Malignant neoplasm of sphenoidal sinus                                                          | Diagnosis | ICD-9-CM  |
| 160.8 | Malignant neoplasm of other sites of nasal cavities, middle ear, and accessory sinuses          | Diagnosis | ICD-9-CM  |
| 160.9 | Malignant neoplasm of site of nasal cavities, middle ear, and accessory sinus, unspecified site | Diagnosis | ICD-9-CM  |
| 161   | Malignant neoplasm of larynx                                                                    | Diagnosis | ICD-9-CM  |
| 161.0 | Malignant neoplasm of glottis                                                                   | Diagnosis | ICD-9-CM  |
| 161.1 | Malignant neoplasm of supraglottis                                                              | Diagnosis | ICD-9-CM  |
| 161.2 | Malignant neoplasm of subglottis                                                                | Diagnosis | ICD-9-CM  |
| 161.3 | Malignant neoplasm of laryngeal cartilages                                                      | Diagnosis | ICD-9-CM  |
| 161.8 | Malignant neoplasm of other specified sites of larynx                                           | Diagnosis | ICD-9-CM  |
| 161.9 | Malignant neoplasm of larynx, unspecified site                                                  | Diagnosis | ICD-9-CM  |
| 162   | Malignant neoplasm of trachea, bronchus, and lung                                               | Diagnosis | ICD-9-CM  |
| 162.0 | Malignant neoplasm of trachea                                                                   | Diagnosis | ICD-9-CM  |
| 162.2 | Malignant neoplasm of main bronchus                                                             | Diagnosis | ICD-9-CM  |
| 162.3 | Malignant neoplasm of upper lobe, bronchus, or lung                                             | Diagnosis | ICD-9-CM  |
| 162.4 | Malignant neoplasm of middle lobe, bronchus, or lung                                            | Diagnosis | ICD-9-CM  |
| 162.5 | Malignant neoplasm of lower lobe, bronchus, or lung                                             | Diagnosis | ICD-9-CM  |
| 162.8 | Malignant neoplasm of other parts of bronchus or lung                                           | Diagnosis | ICD-9-CM  |
| 162.9 | Malignant neoplasm of bronchus and lung, unspecified site                                       | Diagnosis | ICD-9-CM  |
| 163   | Malignant neoplasm of pleura                                                                    | Diagnosis | ICD-9-CM  |
| 163.0 | Malignant neoplasm of parietal pleura                                                           | Diagnosis | ICD-9-CM  |
| 163.1 | Malignant neoplasm of visceral pleura                                                           | Diagnosis | ICD-9-CM  |
| 163.8 | Malignant neoplasm of other specified sites of pleura                                           | Diagnosis | ICD-9-CM  |
| 163.9 | Malignant neoplasm of pleura, unspecified site                                                  | Diagnosis | ICD-9-CM  |
| 164   | Malignant neoplasm of thymus, heart, and mediastinum                                            | Diagnosis | ICD-9-CM  |

| Code  | Description                                                                                              | Code      | Code Type |
|-------|----------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                          | Category  |           |
| 164.0 | Malignant neoplasm of thymus                                                                             | Diagnosis | ICD-9-CM  |
| 164.1 | Malignant neoplasm of heart                                                                              | Diagnosis | ICD-9-CM  |
| 164.2 | Malignant neoplasm of anterior mediastinum                                                               | Diagnosis | ICD-9-CM  |
| 164.3 | Malignant neoplasm of posterior mediastinum                                                              | Diagnosis | ICD-9-CM  |
| 164.8 | Malignant neoplasm of other parts of mediastinum                                                         | Diagnosis | ICD-9-CM  |
| 164.9 | Malignant neoplasm of mediastinum, part unspecified                                                      | Diagnosis | ICD-9-CM  |
| 165   | Malignant neoplasm of other and ill-defined sites within the respiratory system and intrathoracic organs | Diagnosis | ICD-9-CM  |
| 165.0 | Malignant neoplasm of upper respiratory tract, part unspecified                                          | Diagnosis | ICD-9-CM  |
| 165.8 | Malignant neoplasm of other sites within the respiratory system and intrathoracic organs                 | Diagnosis | ICD-9-CM  |
| 165.9 | Malignant neoplasm of ill-defined sites within the respiratory system                                    | Diagnosis | ICD-9-CM  |
| 170   | Malignant neoplasm of bone and articular cartilage                                                       | Diagnosis | ICD-9-CM  |
| 170.0 | Malignant neoplasm of bones of skull and face, except mandible                                           | Diagnosis | ICD-9-CM  |
| 170.1 | Malignant neoplasm of mandible                                                                           | Diagnosis | ICD-9-CM  |
| 170.2 | Malignant neoplasm of vertebral column, excluding sacrum and coccyx                                      | Diagnosis | ICD-9-CM  |
| 170.3 | Malignant neoplasm of ribs, sternum, and clavicle                                                        | Diagnosis | ICD-9-CM  |
| 170.4 | Malignant neoplasm of scapula and long bones of upper limb                                               | Diagnosis | ICD-9-CM  |
| 170.5 | Malignant neoplasm of short bones of upper limb                                                          | Diagnosis | ICD-9-CM  |
| 170.6 | Malignant neoplasm of pelvic bones, sacrum, and coccyx                                                   | Diagnosis | ICD-9-CM  |
| 170.7 | Malignant neoplasm of long bones of lower limb                                                           | Diagnosis | ICD-9-CM  |
| 170.8 | Malignant neoplasm of short bones of lower limb                                                          | Diagnosis | ICD-9-CM  |
| 170.9 | Malignant neoplasm of bone and articular cartilage, site unspecified                                     | Diagnosis | ICD-9-CM  |
| 171   | Malignant neoplasm of connective and other soft tissue                                                   | Diagnosis | ICD-9-CM  |
| 171.0 | Malignant neoplasm of connective and other soft tissue of head, face, and neck                           | Diagnosis | ICD-9-CM  |
| 171.2 | Malignant neoplasm of connective and other soft tissue of upper limb, including shoulder                 | Diagnosis | ICD-9-CM  |
| 171.3 | Malignant neoplasm of connective and other soft tissue of lower limb, including hip                      | Diagnosis | ICD-9-CM  |
| 171.4 | Malignant neoplasm of connective and other soft tissue of thorax                                         | Diagnosis | ICD-9-CM  |
| 171.5 | Malignant neoplasm of connective and other soft tissue of abdomen                                        | Diagnosis | ICD-9-CM  |
| 171.6 | Malignant neoplasm of connective and other soft tissue of pelvis                                         | Diagnosis | ICD-9-CM  |
| 171.7 | Malignant neoplasm of connective and other soft tissue of trunk, unspecified site                        | Diagnosis | ICD-9-CM  |
| 171.8 | Malignant neoplasm of other specified sites of connective and other soft tissue                          | Diagnosis | ICD-9-CM  |
| 171.9 | Malignant neoplasm of connective and other soft tissue, site unspecified                                 | Diagnosis | ICD-9-CM  |
| 172   | Malignant melanoma of skin                                                                               | Diagnosis | ICD-9-CM  |
| 172.0 | Malignant melanoma of skin of lip                                                                        | Diagnosis | ICD-9-CM  |
| 172.1 | Malignant melanoma of skin of eyelid, including canthus                                                  | Diagnosis | ICD-9-CM  |
| 172.2 | Malignant melanoma of skin of ear and external auditory canal                                            | Diagnosis | ICD-9-CM  |
| 172.3 | Malignant melanoma of skin of other and unspecified parts of face                                        | Diagnosis | ICD-9-CM  |
| 172.4 | Malignant melanoma of skin of scalp and neck                                                             | Diagnosis | ICD-9-CM  |
| 172.5 | Malignant melanoma of skin of trunk, except scrotum                                                      | Diagnosis | ICD-9-CM  |
| 172.6 | Malignant melanoma of skin of upper limb, including shoulder                                             | Diagnosis | ICD-9-CM  |
| 172.7 | Malignant melanoma of skin of lower limb, including hip                                                  | Diagnosis | ICD-9-CM  |
| 172.8 | Malignant melanoma of other specified sites of skin                                                      | Diagnosis | ICD-9-CM  |
| 172.9 | Melanoma of skin, site unspecified                                                                       | Diagnosis | ICD-9-CM  |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                       | Code      |           |
|-------|-------------------------------------------------------------------|-----------|-----------|
|       |                                                                   | Category  | Code Type |
| 174   | Malignant neoplasm of female breast                               | Diagnosis | ICD-9-CM  |
| 174.0 | Malignant neoplasm of nipple and areola of female breast          | Diagnosis | ICD-9-CM  |
| 174.1 | Malignant neoplasm of central portion of female breast            | Diagnosis | ICD-9-CM  |
| 174.2 | Malignant neoplasm of upper-inner quadrant of female breast       | Diagnosis | ICD-9-CM  |
| 174.3 | Malignant neoplasm of lower-inner quadrant of female breast       | Diagnosis | ICD-9-CM  |
| 174.4 | Malignant neoplasm of upper-outer quadrant of female breast       | Diagnosis | ICD-9-CM  |
| 174.5 | Malignant neoplasm of lower-outer quadrant of female breast       | Diagnosis | ICD-9-CM  |
| 174.6 | Malignant neoplasm of axillary tail of female breast              | Diagnosis | ICD-9-CM  |
| 174.8 | Malignant neoplasm of other specified sites of female breast      | Diagnosis | ICD-9-CM  |
| 174.9 | Malignant neoplasm of breast (female), unspecified site           | Diagnosis | ICD-9-CM  |
| 175   | Malignant neoplasm of male breast                                 | Diagnosis | ICD-9-CM  |
| 175.0 | Malignant neoplasm of nipple and areola of male breast            | Diagnosis | ICD-9-CM  |
| 175.9 | Malignant neoplasm of other and unspecified sites of male breast  | Diagnosis | ICD-9-CM  |
| 176   | Kaposi's sarcoma                                                  | Diagnosis | ICD-9-CM  |
| 176.0 | Kaposi's sarcoma of skin                                          | Diagnosis | ICD-9-CM  |
| 176.1 | Kaposi's sarcoma of soft tissue                                   | Diagnosis | ICD-9-CM  |
| 176.2 | Kaposi's sarcoma of palate                                        | Diagnosis | ICD-9-CM  |
| 176.3 | Kaposi's sarcoma of gastrointestinal sites                        | Diagnosis | ICD-9-CM  |
| 176.4 | Kaposi's sarcoma of lung                                          | Diagnosis | ICD-9-CM  |
| 176.5 | Kaposi's sarcoma of lymph nodes                                   | Diagnosis | ICD-9-CM  |
| 176.8 | Kaposi's sarcoma of other specified sites                         | Diagnosis | ICD-9-CM  |
| 176.9 | Kaposi's sarcoma of unspecified site                              | Diagnosis | ICD-9-CM  |
| 179   | Malignant neoplasm of uterus, part unspecified                    | Diagnosis | ICD-9-CM  |
| 180   | Malignant neoplasm of cervix uteri                                | Diagnosis | ICD-9-CM  |
| 180.0 | Malignant neoplasm of endocervix                                  | Diagnosis | ICD-9-CM  |
| 180.1 | Malignant neoplasm of exocervix                                   | Diagnosis | ICD-9-CM  |
| 180.8 | Malignant neoplasm of other specified sites of cervix             | Diagnosis | ICD-9-CM  |
| 180.9 | Malignant neoplasm of cervix uteri, unspecified site              | Diagnosis | ICD-9-CM  |
| 181   | Malignant neoplasm of placenta                                    | Diagnosis | ICD-9-CM  |
| 182   | Malignant neoplasm of body of uterus                              | Diagnosis | ICD-9-CM  |
| 182.0 | Malignant neoplasm of corpus uteri, except isthmus                | Diagnosis | ICD-9-CM  |
| 182.1 | Malignant neoplasm of isthmus                                     | Diagnosis | ICD-9-CM  |
| 182.8 | Malignant neoplasm of other specified sites of body of uterus     | Diagnosis | ICD-9-CM  |
| 183   | Malignant neoplasm of ovary and other uterine adnexa              | Diagnosis | ICD-9-CM  |
| 183.0 | Malignant neoplasm of ovary                                       | Diagnosis | ICD-9-CM  |
| 183.2 | Malignant neoplasm of fallopian tube                              | Diagnosis | ICD-9-CM  |
| 183.3 | Malignant neoplasm of broad ligament of uterus                    | Diagnosis | ICD-9-CM  |
| 183.4 | Malignant neoplasm of parametrium of uterus                       | Diagnosis | ICD-9-CM  |
| 183.5 | Malignant neoplasm of round ligament of uterus                    | Diagnosis | ICD-9-CM  |
| 183.8 | Malignant neoplasm of other specified sites of uterine adnexa     | Diagnosis | ICD-9-CM  |
| 183.9 | Malignant neoplasm of uterine adnexa, unspecified site            | Diagnosis | ICD-9-CM  |
| 184   | Malignant neoplasm of other and unspecified female genital organs | Diagnosis | ICD-9-CM  |
| 184.0 | Malignant neoplasm of vagina                                      | Diagnosis | ICD-9-CM  |

**Appendix J. | Code  | Description                                                                    | Code      |           |
|-------|--------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                | Category  | Code Type |
| 184.1 | Malignant neoplasm of labia majora                                             | Diagnosis | ICD-9-CM  |
| 184.2 | Malignant neoplasm of labia minora                                             | Diagnosis | ICD-9-CM  |
| 184.3 | Malignant neoplasm of clitoris                                                 | Diagnosis | ICD-9-CM  |
| 184.4 | Malignant neoplasm of vulva, unspecified site                                  | Diagnosis | ICD-9-CM  |
| 184.8 | Malignant neoplasm of other specified sites of female genital organs           | Diagnosis | ICD-9-CM  |
| 184.9 | Malignant neoplasm of female genital organ, site unspecified                   | Diagnosis | ICD-9-CM  |
| 185   | Malignant neoplasm of prostate                                                 | Diagnosis | ICD-9-CM  |
| 186   | Malignant neoplasm of testis                                                   | Diagnosis | ICD-9-CM  |
| 186.0 | Malignant neoplasm of undescended testis                                       | Diagnosis | ICD-9-CM  |
| 186.9 | Malignant neoplasm of other and unspecified testis                             | Diagnosis | ICD-9-CM  |
| 187   | Malignant neoplasm of penis and other male genital organs                      | Diagnosis | ICD-9-CM  |
| 187.1 | Malignant neoplasm of prepuce                                                  | Diagnosis | ICD-9-CM  |
| 187.2 | Malignant neoplasm of glans penis                                              | Diagnosis | ICD-9-CM  |
| 187.3 | Malignant neoplasm of body of penis                                            | Diagnosis | ICD-9-CM  |
| 187.4 | Malignant neoplasm of penis, part unspecified                                  | Diagnosis | ICD-9-CM  |
| 187.5 | Malignant neoplasm of epididymis                                               | Diagnosis | ICD-9-CM  |
| 187.6 | Malignant neoplasm of spermatic cord                                           | Diagnosis | ICD-9-CM  |
| 187.7 | Malignant neoplasm of scrotum                                                  | Diagnosis | ICD-9-CM  |
| 187.8 | Malignant neoplasm of other specified sites of male genital organs             | Diagnosis | ICD-9-CM  |
| 187.9 | Malignant neoplasm of male genital organ, site unspecified                     | Diagnosis | ICD-9-CM  |
| 188   | Malignant neoplasm of bladder                                                  | Diagnosis | ICD-9-CM  |
| 188.0 | Malignant neoplasm of trigone of urinary bladder                               | Diagnosis | ICD-9-CM  |
| 188.1 | Malignant neoplasm of dome of urinary bladder                                  | Diagnosis | ICD-9-CM  |
| 188.2 | Malignant neoplasm of lateral wall of urinary bladder                          | Diagnosis | ICD-9-CM  |
| 188.3 | Malignant neoplasm of anterior wall of urinary bladder                         | Diagnosis | ICD-9-CM  |
| 188.4 | Malignant neoplasm of posterior wall of urinary bladder                        | Diagnosis | ICD-9-CM  |
| 188.5 | Malignant neoplasm of bladder neck                                             | Diagnosis | ICD-9-CM  |
| 188.6 | Malignant neoplasm of ureteric orifice                                         | Diagnosis | ICD-9-CM  |
| 188.7 | Malignant neoplasm of urachus                                                  | Diagnosis | ICD-9-CM  |
| 188.8 | Malignant neoplasm of other specified sites of bladder                         | Diagnosis | ICD-9-CM  |
| 188.9 | Malignant neoplasm of bladder, part unspecified                                | Diagnosis | ICD-9-CM  |
| 189   | Malignant neoplasm of kidney and other and unspecified urinary organs          | Diagnosis | ICD-9-CM  |
| 189.0 | Malignant neoplasm of kidney, except pelvis                                    | Diagnosis | ICD-9-CM  |
| 189.1 | Malignant neoplasm of renal pelvis                                             | Diagnosis | ICD-9-CM  |
| 189.2 | Malignant neoplasm of ureter                                                   | Diagnosis | ICD-9-CM  |
| 189.3 | Malignant neoplasm of urethra                                                  | Diagnosis | ICD-9-CM  |
| 189.4 | Malignant neoplasm of paraurethral glands                                      | Diagnosis | ICD-9-CM  |
| 189.8 | Malignant neoplasm of other specified sites of urinary organs                  | Diagnosis | ICD-9-CM  |
| 189.9 | Malignant neoplasm of urinary organ, site unspecified                          | Diagnosis | ICD-9-CM  |
| 190   | Malignant neoplasm of eye                                                      | Diagnosis | ICD-9-CM  |
| 190.0 | Malignant neoplasm of eyeball, except conjunctiva, cornea, retina, and choroid | Diagnosis | ICD-9-CM  |
| 190.1 | Malignant neoplasm of orbit                                                    | Diagnosis | ICD-9-CM  |
| 190.2 | Malignant neoplasm of lacrimal gland                                           | Diagnosis | ICD-9-CM  |

|       |                                                                     | Category  | Code Type |
| 190.3 | Malignant neoplasm of conjunctiva                                   | Diagnosis | ICD-9-CM  |
| 190.4 | Malignant neoplasm of cornea                                        | Diagnosis | ICD-9-CM  |
| 190.5 | Malignant neoplasm of retina                                        | Diagnosis | ICD-9-CM  |
| 190.6 | Malignant neoplasm of choroid                                       | Diagnosis | ICD-9-CM  |
| 190.7 | Malignant neoplasm of lacrimal duct                                 | Diagnosis | ICD-9-CM  |
| 190.8 | Malignant neoplasm of other specified sites of eye                  | Diagnosis | ICD-9-CM  |
| 190.9 | Malignant neoplasm of eye, part unspecified                         | Diagnosis | ICD-9-CM  |
| 191   | Malignant neoplasm of brain                                         | Diagnosis | ICD-9-CM  |
| 191.0 | Malignant neoplasm of cerebrum, except lobes and ventricles         | Diagnosis | ICD-9-CM  |
| 191.1 | Malignant neoplasm of frontal lobe of brain                         | Diagnosis | ICD-9-CM  |
| 191.2 | Malignant neoplasm of temporal lobe of brain                        | Diagnosis | ICD-9-CM  |
| 191.3 | Malignant neoplasm of parietal lobe of brain                        | Diagnosis | ICD-9-CM  |
| 191.4 | Malignant neoplasm of occipital lobe of brain                       | Diagnosis | ICD-9-CM  |
| 191.5 | Malignant neoplasm of ventricles of brain                           | Diagnosis | ICD-9-CM  |
| 191.6 | Malignant neoplasm of cerebellum NOS                                | Diagnosis | ICD-9-CM  |
| 191.7 | Malignant neoplasm of brain stem                                    | Diagnosis | ICD-9-CM  |
| 191.8 | Malignant neoplasm of other parts of brain                          | Diagnosis | ICD-9-CM  |
| 191.9 | Malignant neoplasm of brain, unspecified site                       | Diagnosis | ICD-9-CM  |
| 192   | Malignant neoplasm of other and unspecified parts of nervous system | Diagnosis | ICD-9-CM  |
| 192.0 | Malignant neoplasm of cranial nerves                                | Diagnosis | ICD-9-CM  |
| 192.1 | Malignant neoplasm of cerebral meninges                             | Diagnosis | ICD-9-CM  |
| 192.2 | Malignant neoplasm of spinal cord                                   | Diagnosis | ICD-9-CM  |
| 192.3 | Malignant neoplasm of spinal meninges                               | Diagnosis | ICD-9-CM  |
| 192.8 | Malignant neoplasm of other specified sites of nervous system       | Diagnosis | ICD-9-CM  |
| 192.9 | Malignant neoplasm of nervous system, part unspecified              | Diagnosis | ICD-9-CM  |
| 193   | Malignant neoplasm of thyroid gland                                 | Diagnosis | ICD-9-CM  |
| 194   | Malignant neoplasm of other endocrine glands and related structures | Diagnosis | ICD-9-CM  |
| 194.0 | Malignant neoplasm of adrenal gland                                 | Diagnosis | ICD-9-CM  |
| 194.1 | Malignant neoplasm of parathyroid gland                             | Diagnosis | ICD-9-CM  |
| 194.3 | Malignant neoplasm of pituitary gland and craniopharyngeal duct     | Diagnosis | ICD-9-CM  |
| 194.4 | Malignant neoplasm of pineal gland                                  | Diagnosis | ICD-9-CM  |
| 194.5 | Malignant neoplasm of carotid body                                  | Diagnosis | ICD-9-CM  |
| 194.6 | Malignant neoplasm of aortic body and other paraganglia             | Diagnosis | ICD-9-CM  |
| 194.8 | Malignant neoplasm of other endocrine glands and related structures | Diagnosis | ICD-9-CM  |
| 194.9 | Malignant neoplasm of endocrine gland, site unspecified             | Diagnosis | ICD-9-CM  |
| 195   | Malignant neoplasm of other and ill-defined sites                   | Diagnosis | ICD-9-CM  |
| 195.0 | Malignant neoplasm of head, face, and neck                          | Diagnosis | ICD-9-CM  |
| 195.1 | Malignant neoplasm of thorax                                        | Diagnosis | ICD-9-CM  |
| 195.2 | Malignant neoplasm of abdomen                                       | Diagnosis | ICD-9-CM  |
| 195.3 | Malignant neoplasm of pelvis                                        | Diagnosis | ICD-9-CM  |
| 195.4 | Malignant neoplasm of upper limb                                    | Diagnosis | ICD-9-CM  |
| 195.5 | Malignant neoplasm of lower limb                                    | Diagnosis | ICD-9-CM  |
| 195.8 | Malignant neoplasm of other specified sites                         | Diagnosis | ICD-9-CM  |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code   | Description                                                                                   | Code      |           |
|--------|-----------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                               | Category  | Code Type |
| 196    | Secondary and unspecified malignant neoplasm of lymph nodes                                   | Diagnosis | ICD-9-CM  |
| 196.0  | Secondary and unspecified malignant neoplasm of lymph nodes of head, face, and neck           | Diagnosis | ICD-9-CM  |
| 196.1  | Secondary and unspecified malignant neoplasm of intrathoracic lymph nodes                     | Diagnosis | ICD-9-CM  |
| 196.2  | Secondary and unspecified malignant neoplasm of intra-abdominal lymph nodes                   | Diagnosis | ICD-9-CM  |
| 196.3  | Secondary and unspecified malignant neoplasm of lymph nodes of axilla and upper limb          | Diagnosis | ICD-9-CM  |
| 196.5  | Secondary and unspecified malignant neoplasm of lymph nodes of inguinal region and lower limb | Diagnosis | ICD-9-CM  |
| 196.6  | Secondary and unspecified malignant neoplasm of intrapelvic lymph nodes                       | Diagnosis | ICD-9-CM  |
| 196.8  | Secondary and unspecified malignant neoplasm of lymph nodes of multiple sites                 | Diagnosis | ICD-9-CM  |
| 196.9  | Secondary and unspecified malignant neoplasm of lymph nodes, site unspecified                 | Diagnosis | ICD-9-CM  |
| 197    | Secondary malignant neoplasm of respiratory and digestive systems                             | Diagnosis | ICD-9-CM  |
| 197.0  | Secondary malignant neoplasm of lung                                                          | Diagnosis | ICD-9-CM  |
| 197.1  | Secondary malignant neoplasm of mediastinum                                                   | Diagnosis | ICD-9-CM  |
| 197.2  | Secondary malignant neoplasm of pleura                                                        | Diagnosis | ICD-9-CM  |
| 197.3  | Secondary malignant neoplasm of other respiratory organs                                      | Diagnosis | ICD-9-CM  |
| 197.4  | Secondary malignant neoplasm of small intestine including duodenum                            | Diagnosis | ICD-9-CM  |
| 197.5  | Secondary malignant neoplasm of large intestine and rectum                                    | Diagnosis | ICD-9-CM  |
| 197.6  | Secondary malignant neoplasm of retroperitoneum and peritoneum                                | Diagnosis | ICD-9-CM  |
| 197.7  | Secondary malignant neoplasm of liver                                                         | Diagnosis | ICD-9-CM  |
| 197.8  | Secondary malignant neoplasm of other digestive organs and spleen                             | Diagnosis | ICD-9-CM  |
| 198    | Secondary malignant neoplasm of other specified sites                                         | Diagnosis | ICD-9-CM  |
| 198.0  | Secondary malignant neoplasm of kidney                                                        | Diagnosis | ICD-9-CM  |
| 198.1  | Secondary malignant neoplasm of other urinary organs                                          | Diagnosis | ICD-9-CM  |
| 198.2  | Secondary malignant neoplasm of skin                                                          | Diagnosis | ICD-9-CM  |
| 198.3  | Secondary malignant neoplasm of brain and spinal cord                                         | Diagnosis | ICD-9-CM  |
| 198.4  | Secondary malignant neoplasm of other parts of nervous system                                 | Diagnosis | ICD-9-CM  |
| 198.5  | Secondary malignant neoplasm of bone and bone marrow                                          | Diagnosis | ICD-9-CM  |
| 198.6  | Secondary malignant neoplasm of ovary                                                         | Diagnosis | ICD-9-CM  |
| 198.7  | Secondary malignant neoplasm of adrenal gland                                                 | Diagnosis | ICD-9-CM  |
| 198.8  | Secondary malignant neoplasm of other specified sites                                         | Diagnosis | ICD-9-CM  |
| 198.81 | Secondary malignant neoplasm of breast                                                        | Diagnosis | ICD-9-CM  |
| 198.82 | Secondary malignant neoplasm of genital organs                                                | Diagnosis | ICD-9-CM  |
| 198.89 | Secondary malignant neoplasm of other specified sites                                         | Diagnosis | ICD-9-CM  |
| 199    | Malignant neoplasm without specification of site                                              | Diagnosis | ICD-9-CM  |
| 199.0  | Disseminated malignant neoplasm                                                               | Diagnosis | ICD-9-CM  |
| 199.1  | Other malignant neoplasm of unspecified site                                                  | Diagnosis | ICD-9-CM  |
| 199.2  | Malignant neoplasm associated with transplanted organ                                         | Diagnosis | ICD-9-CM  |
| 200    | Lymphosarcoma and reticulosarcoma and other specified malignant tumors of lymphatic tissue    | Diagnosis | ICD-9-CM  |
| 200.0  | Reticulosarcoma                                                                               | Diagnosis | ICD-9-CM  |
| 200.00 | Reticulosarcoma, unspecified site, extranodal and solid organ sites                           | Diagnosis | ICD-9-CM  |
| 200.01 | Reticulosarcoma of lymph nodes of head, face, and neck                                        | Diagnosis | ICD-9-CM  |
| 200.02 | Reticulosarcoma of intrathoracic lymph nodes                                                  | Diagnosis | ICD-9-CM  |

|        |                                                                                 | Category  | Code Type |
| 200.03 | Reticulosarcoma of intra-abdominal lymph nodes                                  | Diagnosis | ICD-9-CM  |
| 200.04 | Reticulosarcoma of lymph nodes of axilla and upper limb                         | Diagnosis | ICD-9-CM  |
| 200.05 | Reticulosarcoma of lymph nodes of inguinal region and lower limb                | Diagnosis | ICD-9-CM  |
| 200.06 | Reticulosarcoma of intrapelvic lymph nodes                                      | Diagnosis | ICD-9-CM  |
| 200.07 | Reticulosarcoma of spleen                                                       | Diagnosis | ICD-9-CM  |
| 200.08 | Reticulosarcoma of lymph nodes of multiple sites                                | Diagnosis | ICD-9-CM  |
| 200.1  | Lymphosarcoma                                                                   | Diagnosis | ICD-9-CM  |
| 200.10 | Lymphosarcoma, unspecified site, extranodal and solid organ sites               | Diagnosis | ICD-9-CM  |
| 200.11 | Lymphosarcoma of lymph nodes of head, face, and neck                            | Diagnosis | ICD-9-CM  |
| 200.12 | Lymphosarcoma of intrathoracic lymph nodes                                      | Diagnosis | ICD-9-CM  |
| 200.13 | Lymphosarcoma of intra-abdominal lymph nodes                                    | Diagnosis | ICD-9-CM  |
| 200.14 | Lymphosarcoma of lymph nodes of axilla and upper limb                           | Diagnosis | ICD-9-CM  |
| 200.15 | Lymphosarcoma of lymph nodes of inguinal region and lower limb                  | Diagnosis | ICD-9-CM  |
| 200.16 | Lymphosarcoma of intrapelvic lymph nodes                                        | Diagnosis | ICD-9-CM  |
| 200.17 | Lymphosarcoma of spleen                                                         | Diagnosis | ICD-9-CM  |
| 200.18 | Lymphosarcoma of lymph nodes of multiple sites                                  | Diagnosis | ICD-9-CM  |
| 200.2  | Burkitt's tumor or lymphoma                                                     | Diagnosis | ICD-9-CM  |
| 200.20 | Burkitt's tumor or lymphoma, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |
| 200.21 | Burkitt's tumor or lymphoma of lymph nodes of head, face, and neck              | Diagnosis | ICD-9-CM  |
| 200.22 | Burkitt's tumor or lymphoma of intrathoracic lymph nodes                        | Diagnosis | ICD-9-CM  |
| 200.23 | Burkitt's tumor or lymphoma of intra-abdominal lymph nodes                      | Diagnosis | ICD-9-CM  |
| 200.24 | Burkitt's tumor or lymphoma of lymph nodes of axilla and upper limb             | Diagnosis | ICD-9-CM  |
| 200.25 | Burkitt's tumor or lymphoma of lymph nodes of inguinal region and lower limb    | Diagnosis | ICD-9-CM  |
| 200.26 | Burkitt's tumor or lymphoma of intrapelvic lymph nodes                          | Diagnosis | ICD-9-CM  |
| 200.27 | Burkitt's tumor or lymphoma of spleen                                           | Diagnosis | ICD-9-CM  |
| 200.28 | Burkitt's tumor or lymphoma of lymph nodes of multiple sites                    | Diagnosis | ICD-9-CM  |
| 200.3  | Marginal zone lymphoma                                                          | Diagnosis | ICD-9-CM  |
| 200.30 | Marginal zone lymphoma, unspecified site, extranodal and solid organ sites      | Diagnosis | ICD-9-CM  |
| 200.31 | Marginal zone lymphoma, lymph nodes of head, face, and neck                     | Diagnosis | ICD-9-CM  |
| 200.32 | Marginal zone lymphoma, intrathoracic lymph nodes                               | Diagnosis | ICD-9-CM  |
| 200.33 | Marginal zone lymphoma, intra-abdominal lymph nodes                             | Diagnosis | ICD-9-CM  |
| 200.34 | Marginal zone lymphoma, lymph nodes of axilla and upper limb                    | Diagnosis | ICD-9-CM  |
| 200.35 | Marginal zone lymphoma, lymph nodes of inguinal region and lower limb           | Diagnosis | ICD-9-CM  |
| 200.36 | Marginal zone lymphoma, intrapelvic lymph nodes                                 | Diagnosis | ICD-9-CM  |
| 200.37 | Marginal zone lymphoma, spleen                                                  | Diagnosis | ICD-9-CM  |
| 200.38 | Marginal zone lymphoma, lymph nodes of multiple sites                           | Diagnosis | ICD-9-CM  |
| 200.4  | Mantle cell lymphoma                                                            | Diagnosis | ICD-9-CM  |
| 200.40 | Mantle cell lymphoma, unspecified site, extranodal and solid organ sites        | Diagnosis | ICD-9-CM  |
| 200.41 | Mantle cell lymphoma, lymph nodes of head, face, and neck                       | Diagnosis | ICD-9-CM  |
| 200.42 | Mantle cell lymphoma, intrathoracic lymph nodes                                 | Diagnosis | ICD-9-CM  |
| 200.43 | Mantle cell lymphoma, intra-abdominal lymph nodes                               | Diagnosis | ICD-9-CM  |
| 200.44 | Mantle cell lymphoma, lymph nodes of axilla and upper limb                      | Diagnosis | ICD-9-CM  |
| 200.45 | Mantle cell lymphoma, lymph nodes of inguinal region and lower limb             | Diagnosis | ICD-9-CM  |

| 200.46 | Mantle cell lymphoma, intrapelvic lymph nodes                                                    | Diagnosis | ICD-9-CM  |
| 200.47 | Mantle cell lymphoma, spleen                                                                     | Diagnosis | ICD-9-CM  |
| 200.48 | Mantle cell lymphoma, lymph nodes of multiple sites                                              | Diagnosis | ICD-9-CM  |
| 200.5  | Primary central nervous system lymphoma                                                          | Diagnosis | ICD-9-CM  |
| 200.50 | Primary central nervous system lymphoma, unspecified site, extranodal and solid organ sites      | Diagnosis | ICD-9-CM  |
| 200.51 | Primary central nervous system lymphoma, lymph nodes of head, face, and neck                     | Diagnosis | ICD-9-CM  |
| 200.52 | Primary central nervous system lymphoma, intrathoracic lymph nodes                               | Diagnosis | ICD-9-CM  |
| 200.53 | Primary central nervous system lymphoma, intra-abdominal lymph nodes                             | Diagnosis | ICD-9-CM  |
| 200.54 | Primary central nervous system lymphoma, lymph nodes of axilla and upper limb                    | Diagnosis | ICD-9-CM  |
| 200.55 | Primary central nervous system lymphoma, lymph nodes of inguinal region and lower limb           | Diagnosis | ICD-9-CM  |
| 200.56 | Primary central nervous system lymphoma, intrapelvic lymph nodes                                 | Diagnosis | ICD-9-CM  |
| 200.57 | Primary central nervous system lymphoma, spleen                                                  | Diagnosis | ICD-9-CM  |
| 200.58 | Primary central nervous system lymphoma, lymph nodes of multiple sites                           | Diagnosis | ICD-9-CM  |
| 200.6  | Anaplastic large cell lymphoma                                                                   | Diagnosis | ICD-9-CM  |
| 200.60 | Anaplastic large cell lymphoma, unspecified site, extranodal and solid organ sites               | Diagnosis | ICD-9-CM  |
| 200.61 | Anaplastic large cell lymphoma, lymph nodes of head, face, and neck                              | Diagnosis | ICD-9-CM  |
| 200.62 | Anaplastic large cell lymphoma, intrathoracic lymph nodes                                        | Diagnosis | ICD-9-CM  |
| 200.63 | Anaplastic large cell lymphoma, intra-abdominal lymph nodes                                      | Diagnosis | ICD-9-CM  |
| 200.64 | Anaplastic large cell lymphoma, lymph nodes of axilla and upper limb                             | Diagnosis | ICD-9-CM  |
| 200.65 | Anaplastic large cell lymphoma, lymph nodes of inguinal region and lower limb                    | Diagnosis | ICD-9-CM  |
| 200.66 | Anaplastic large cell lymphoma, intrapelvic lymph nodes                                          | Diagnosis | ICD-9-CM  |
| 200.67 | Anaplastic large cell lymphoma, spleen                                                           | Diagnosis | ICD-9-CM  |
| 200.68 | Anaplastic large cell lymphoma, lymph nodes of multiple sites                                    | Diagnosis | ICD-9-CM  |
| 200.7  | Large cell lymphoma                                                                              | Diagnosis | ICD-9-CM  |
| 200.70 | Large cell lymphoma, unspecified site, extranodal and solid organ sites                          | Diagnosis | ICD-9-CM  |
| 200.71 | Large cell lymphoma, lymph nodes of head, face, and neck                                         | Diagnosis | ICD-9-CM  |
| 200.72 | Large cell lymphoma, intrathoracic lymph nodes                                                   | Diagnosis | ICD-9-CM  |
| 200.73 | Large cell lymphoma, intra-abdominal lymph nodes                                                 | Diagnosis | ICD-9-CM  |
| 200.74 | Large cell lymphoma, lymph nodes of axilla and upper limb                                        | Diagnosis | ICD-9-CM  |
| 200.75 | Large cell lymphoma, lymph nodes of inguinal region and lower limb                               | Diagnosis | ICD-9-CM  |
| 200.76 | Large cell lymphoma, intrapelvic lymph nodes                                                     | Diagnosis | ICD-9-CM  |
| 200.77 | Large cell lymphoma, spleen                                                                      | Diagnosis | ICD-9-CM  |
| 200.78 | Large cell lymphoma, lymph nodes of multiple sites                                               | Diagnosis | ICD-9-CM  |
| 200.8  | Other named variants of lymphosarcoma and reticulosarcoma                                        | Diagnosis | ICD-9-CM  |
| 200.80 | Other named variants, unspecified site, extranodal and solid organ sites                         | Diagnosis | ICD-9-CM  |
| 200.81 | Other named variants of lymphosarcoma and reticulosarcoma of lymph nodes of head, face, and neck | Diagnosis | ICD-9-CM  |
| 200.82 | Other named variants of lymphosarcoma and reticulosarcoma of intrathoracic lymph nodes           | Diagnosis | ICD-9-CM  |
| 200.83 | Other named variants of lymphosarcoma and reticulosarcoma of intra-abdominal lymph nodes         | Diagnosis | ICD-9-CM  |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code   | Description                                                                                                 | Code      | Code Type |
|--------|-------------------------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                                             | Category  |           |
| 200.84 | Other named variants of lymphosarcoma and reticulosarcoma of lymph nodes of axilla and upper limb           | Diagnosis | ICD-9-CM  |
| 200.85 | Other named variants of lymphosarcoma and reticulosarcoma of lymph nodes of inguinal region and lower limb  | Diagnosis | ICD-9-CM  |
| 200.86 | Other named variants of lymphosarcoma and reticulosarcoma of intrapelvic lymph nodes                        | Diagnosis | ICD-9-CM  |
| 200.87 | Other named variants of lymphosarcoma and reticulosarcoma of spleen                                         | Diagnosis | ICD-9-CM  |
| 200.88 | Other named variants of lymphosarcoma and reticulosarcoma of lymph nodes of multiple sites                  | Diagnosis | ICD-9-CM  |
| 201    | Hodgkin's disease                                                                                           | Diagnosis | ICD-9-CM  |
| 201.0  | Hodgkin's paraganuloma                                                                                      | Diagnosis | ICD-9-CM  |
| 201.00 | Hodgkin's paraganuloma, unspecified site, extranodal and solid organ sites                                  | Diagnosis | ICD-9-CM  |
| 201.01 | Hodgkin's paraganuloma of lymph nodes of head, face, and neck                                               | Diagnosis | ICD-9-CM  |
| 201.02 | Hodgkin's paraganuloma of intrathoracic lymph nodes                                                         | Diagnosis | ICD-9-CM  |
| 201.03 | Hodgkin's paraganuloma of intra-abdominal lymph nodes                                                       | Diagnosis | ICD-9-CM  |
| 201.04 | Hodgkin's paraganuloma of lymph nodes of axilla and upper limb                                              | Diagnosis | ICD-9-CM  |
| 201.05 | Hodgkin's paraganuloma of lymph nodes of inguinal region and lower limb                                     | Diagnosis | ICD-9-CM  |
| 201.06 | Hodgkin's paraganuloma of intrapelvic lymph nodes                                                           | Diagnosis | ICD-9-CM  |
| 201.07 | Hodgkin's paraganuloma of spleen                                                                            | Diagnosis | ICD-9-CM  |
| 201.08 | Hodgkin's paraganuloma of lymph nodes of multiple sites                                                     | Diagnosis | ICD-9-CM  |
| 201.1  | Hodgkin's granuloma                                                                                         | Diagnosis | ICD-9-CM  |
| 201.10 | Hodgkin's granuloma, unspecified site, extranodal and solid organ sites                                     | Diagnosis | ICD-9-CM  |
| 201.11 | Hodgkin's granuloma of lymph nodes of head, face, and neck                                                  | Diagnosis | ICD-9-CM  |
| 201.12 | Hodgkin's granuloma of intrathoracic lymph nodes                                                            | Diagnosis | ICD-9-CM  |
| 201.13 | Hodgkin's granuloma of intra-abdominal lymph nodes                                                          | Diagnosis | ICD-9-CM  |
| 201.14 | Hodgkin's granuloma of lymph nodes of axilla and upper limb                                                 | Diagnosis | ICD-9-CM  |
| 201.15 | Hodgkin's granuloma of lymph nodes of inguinal region and lower limb                                        | Diagnosis | ICD-9-CM  |
| 201.16 | Hodgkin's granuloma of intrapelvic lymph nodes                                                              | Diagnosis | ICD-9-CM  |
| 201.17 | Hodgkin's granuloma of spleen                                                                               | Diagnosis | ICD-9-CM  |
| 201.18 | Hodgkin's granuloma of lymph nodes of multiple sites                                                        | Diagnosis | ICD-9-CM  |
| 201.2  | Hodgkin's sarcoma                                                                                           | Diagnosis | ICD-9-CM  |
| 201.20 | Hodgkin's sarcoma, unspecified site, extranodal and solid organ sites                                       | Diagnosis | ICD-9-CM  |
| 201.21 | Hodgkin's sarcoma of lymph nodes of head, face, and neck                                                    | Diagnosis | ICD-9-CM  |
| 201.22 | Hodgkin's sarcoma of intrathoracic lymph nodes                                                              | Diagnosis | ICD-9-CM  |
| 201.23 | Hodgkin's sarcoma of intra-abdominal lymph nodes                                                            | Diagnosis | ICD-9-CM  |
| 201.24 | Hodgkin's sarcoma of lymph nodes of axilla and upper limb                                                   | Diagnosis | ICD-9-CM  |
| 201.25 | Hodgkin's sarcoma of lymph nodes of inguinal region and lower limb                                          | Diagnosis | ICD-9-CM  |
| 201.26 | Hodgkin's sarcoma of intrapelvic lymph nodes                                                                | Diagnosis | ICD-9-CM  |
| 201.27 | Hodgkin's sarcoma of spleen                                                                                 | Diagnosis | ICD-9-CM  |
| 201.28 | Hodgkin's sarcoma of lymph nodes of multiple sites                                                          | Diagnosis | ICD-9-CM  |
| 201.4  | Hodgkin's disease, lymphocytic-histiocytic predominance                                                     | Diagnosis | ICD-9-CM  |
| 201.40 | Hodgkin's disease, lymphocytic-histiocytic predominance, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |

| Code   | Description                                                                                              | Code Category | Code Type |
|--------|----------------------------------------------------------------------------------------------------------|---------------|-----------|
| 201.41 | Hodgkin's disease, lymphocytic-histiocytic predominance of lymph nodes of head, face, and neck           | Diagnosis     | ICD-9-CM  |
| 201.42 | Hodgkin's disease, lymphocytic-histiocytic predominance of intrathoracic lymph nodes                     | Diagnosis     | ICD-9-CM  |
| 201.43 | Hodgkin's disease, lymphocytic-histiocytic predominance of intra-abdominal lymph nodes                   | Diagnosis     | ICD-9-CM  |
| 201.44 | Hodgkin's disease, lymphocytic-histiocytic predominance of lymph nodes of axilla and upper limb          | Diagnosis     | ICD-9-CM  |
| 201.45 | Hodgkin's disease, lymphocytic-histiocytic predominance of lymph nodes of inguinal region and lower limb | Diagnosis     | ICD-9-CM  |
| 201.46 | Hodgkin's disease, lymphocytic-histiocytic predominance of intrapelvic lymph nodes                       | Diagnosis     | ICD-9-CM  |
| 201.47 | Hodgkin's disease, lymphocytic-histiocytic predominance of spleen                                        | Diagnosis     | ICD-9-CM  |
| 201.48 | Hodgkin's disease, lymphocytic-histiocytic predominance of lymph nodes of multiple sites                 | Diagnosis     | ICD-9-CM  |
| 201.5  | Hodgkin's disease, nodular sclerosis                                                                     | Diagnosis     | ICD-9-CM  |
| 201.50 | Hodgkin's disease, nodular sclerosis, unspecified site, extranodal and solid organ sites                 | Diagnosis     | ICD-9-CM  |
| 201.51 | Hodgkin's disease, nodular sclerosis, of lymph nodes of head, face, and neck                             | Diagnosis     | ICD-9-CM  |
| 201.52 | Hodgkin's disease, nodular sclerosis, of intrathoracic lymph nodes                                       | Diagnosis     | ICD-9-CM  |
| 201.53 | Hodgkin's disease, nodular sclerosis, of intra-abdominal lymph nodes                                     | Diagnosis     | ICD-9-CM  |
| 201.54 | Hodgkin's disease, nodular sclerosis, of lymph nodes of axilla and upper limb                            | Diagnosis     | ICD-9-CM  |
| 201.55 | Hodgkin's disease, nodular sclerosis, of lymph nodes of inguinal region and lower limb                   | Diagnosis     | ICD-9-CM  |
| 201.56 | Hodgkin's disease, nodular sclerosis, of intrapelvic lymph nodes                                         | Diagnosis     | ICD-9-CM  |
| 201.57 | Hodgkin's disease, nodular sclerosis, of spleen                                                          | Diagnosis     | ICD-9-CM  |
| 201.58 | Hodgkin's disease, nodular sclerosis, of lymph nodes of multiple sites                                   | Diagnosis     | ICD-9-CM  |
| 201.6  | Hodgkin's disease, mixed cellularity                                                                     | Diagnosis     | ICD-9-CM  |
| 201.60 | Hodgkin's disease, mixed cellularity, unspecified site, extranodal and solid organ sites                 | Diagnosis     | ICD-9-CM  |
| 201.61 | Hodgkin's disease, mixed cellularity, involving lymph nodes of head, face, and neck                      | Diagnosis     | ICD-9-CM  |
| 201.62 | Hodgkin's disease, mixed cellularity, of intrathoracic lymph nodes                                       | Diagnosis     | ICD-9-CM  |
| 201.63 | Hodgkin's disease, mixed cellularity, of intra-abdominal lymph nodes                                     | Diagnosis     | ICD-9-CM  |
| 201.64 | Hodgkin's disease, mixed cellularity, of lymph nodes of axilla and upper limb                            | Diagnosis     | ICD-9-CM  |
| 201.65 | Hodgkin's disease, mixed cellularity, of lymph nodes of inguinal region and lower limb                   | Diagnosis     | ICD-9-CM  |
| 201.66 | Hodgkin's disease, mixed cellularity, of intrapelvic lymph nodes                                         | Diagnosis     | ICD-9-CM  |
| 201.67 | Hodgkin's disease, mixed cellularity, of spleen                                                          | Diagnosis     | ICD-9-CM  |
| 201.68 | Hodgkin's disease, mixed cellularity, of lymph nodes of multiple sites                                   | Diagnosis     | ICD-9-CM  |
| 201.7  | Hodgkin's disease, lymphocytic depletion                                                                 | Diagnosis     | ICD-9-CM  |
| 201.70 | Hodgkin's disease, lymphocytic depletion, unspecified site, extranodal and solid organ                   | Diagnosis     | ICD-9-CM  |
| 201.71 | Hodgkin's disease, lymphocytic depletion, of lymph nodes of head, face, and neck                         | Diagnosis     | ICD-9-CM  |
| 201.72 | Hodgkin's disease, lymphocytic depletion, of intrathoracic lymph nodes                                   | Diagnosis     | ICD-9-CM  |
| 201.73 | Hodgkin's disease, lymphocytic depletion, of intra-abdominal lymph nodes                                 | Diagnosis     | ICD-9-CM  |
| 201.74 | Hodgkin's disease, lymphocytic depletion, of lymph nodes of axilla and upper limb                        | Diagnosis     | ICD-9-CM  |
| 201.75 | Hodgkin's disease, lymphocytic depletion, of lymph nodes of inguinal region and lower limb               | Diagnosis     | ICD-9-CM  |
| 201.76 | Hodgkin's disease, lymphocytic depletion, of intrapelvic lymph nodes                                     | Diagnosis     | ICD-9-CM  |
| 201.77 | Hodgkin's disease, lymphocytic depletion, of spleen                                                      | Diagnosis     | ICD-9-CM  |
| 201.78 | Hodgkin's disease, lymphocytic depletion, of lymph nodes of multiple sites                               | Diagnosis     | ICD-9-CM  |
| 201.9  | Hodgkin's disease, unspecified type                                                                      | Diagnosis     | ICD-9-CM  |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code   | Description                                                                             | Code      | Code Type |
|--------|-----------------------------------------------------------------------------------------|-----------|-----------|
| 201.90 | Hodgkin's disease, unspecified type, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |
| 201.91 | Hodgkin's disease, unspecified type, of lymph nodes of head, face, and neck             | Diagnosis | ICD-9-CM  |
| 201.92 | Hodgkin's disease, unspecified type, of intrathoracic lymph nodes                       | Diagnosis | ICD-9-CM  |
| 201.93 | Hodgkin's disease, unspecified type, of intra-abdominal lymph nodes                     | Diagnosis | ICD-9-CM  |
| 201.94 | Hodgkin's disease, unspecified type, of lymph nodes of axilla and upper limb            | Diagnosis | ICD-9-CM  |
| 201.95 | Hodgkin's disease, unspecified type, of lymph nodes of inguinal region and lower limb   | Diagnosis | ICD-9-CM  |
| 201.96 | Hodgkin's disease, unspecified type, of intrapelvic lymph nodes                         | Diagnosis | ICD-9-CM  |
| 201.97 | Hodgkin's disease, unspecified type, of spleen                                          | Diagnosis | ICD-9-CM  |
| 201.98 | Hodgkin's disease, unspecified type, of lymph nodes of multiple sites                   | Diagnosis | ICD-9-CM  |
| 202    | Other malignant neoplasms of lymphoid and histiocytic tissue                            | Diagnosis | ICD-9-CM  |
| 202.0  | Nodular lymphoma                                                                        | Diagnosis | ICD-9-CM  |
| 202.00 | Nodular lymphoma, unspecified site, extranodal and solid organ sites                    | Diagnosis | ICD-9-CM  |
| 202.01 | Nodular lymphoma of lymph nodes of head, face, and neck                                 | Diagnosis | ICD-9-CM  |
| 202.02 | Nodular lymphoma of intrathoracic lymph nodes                                           | Diagnosis | ICD-9-CM  |
| 202.03 | Nodular lymphoma of intra-abdominal lymph nodes                                         | Diagnosis | ICD-9-CM  |
| 202.04 | Nodular lymphoma of lymph nodes of axilla and upper limb                                | Diagnosis | ICD-9-CM  |
| 202.05 | Nodular lymphoma of lymph nodes of inguinal region and lower limb                       | Diagnosis | ICD-9-CM  |
| 202.06 | Nodular lymphoma of intrapelvic lymph nodes                                             | Diagnosis | ICD-9-CM  |
| 202.07 | Nodular lymphoma of spleen                                                              | Diagnosis | ICD-9-CM  |
| 202.08 | Nodular lymphoma of lymph nodes of multiple sites                                       | Diagnosis | ICD-9-CM  |
| 202.1  | Mycosis fungoides                                                                       | Diagnosis | ICD-9-CM  |
| 202.10 | Mycosis fungoides, unspecified site, extranodal and solid organ sites                   | Diagnosis | ICD-9-CM  |
| 202.11 | Mycosis fungoides of lymph nodes of head, face, and neck                                | Diagnosis | ICD-9-CM  |
| 202.12 | Mycosis fungoides of intrathoracic lymph nodes                                          | Diagnosis | ICD-9-CM  |
| 202.13 | Mycosis fungoides of intra-abdominal lymph nodes                                        | Diagnosis | ICD-9-CM  |
| 202.14 | Mycosis fungoides of lymph nodes of axilla and upper limb                               | Diagnosis | ICD-9-CM  |
| 202.15 | Mycosis fungoides of lymph nodes of inguinal region and lower limb                      | Diagnosis | ICD-9-CM  |
| 202.16 | Mycosis fungoides of intrapelvic lymph nodes                                            | Diagnosis | ICD-9-CM  |
| 202.17 | Mycosis fungoides of spleen                                                             | Diagnosis | ICD-9-CM  |
| 202.18 | Mycosis fungoides of lymph nodes of multiple sites                                      | Diagnosis | ICD-9-CM  |
| 202.2  | Sezary's disease                                                                        | Diagnosis | ICD-9-CM  |
| 202.20 | Sezary's disease, unspecified site, extranodal and solid organ sites                    | Diagnosis | ICD-9-CM  |
| 202.21 | Sezary's disease of lymph nodes of head, face, and neck                                 | Diagnosis | ICD-9-CM  |
| 202.22 | Sezary's disease of intrathoracic lymph nodes                                           | Diagnosis | ICD-9-CM  |
| 202.23 | Sezary's disease of intra-abdominal lymph nodes                                         | Diagnosis | ICD-9-CM  |
| 202.24 | Sezary's disease of lymph nodes of axilla and upper limb                                | Diagnosis | ICD-9-CM  |
| 202.25 | Sezary's disease of lymph nodes of inguinal region and lower limb                       | Diagnosis | ICD-9-CM  |
| 202.26 | Sezary's disease of intrapelvic lymph nodes                                             | Diagnosis | ICD-9-CM  |
| 202.27 | Sezary's disease of spleen                                                              | Diagnosis | ICD-9-CM  |
| 202.28 | Sezary's disease of lymph nodes of multiple sites                                       | Diagnosis | ICD-9-CM  |
| 202.3  | Malignant histiocytosis                                                                 | Diagnosis | ICD-9-CM  |
| 202.30 | Malignant histiocytosis, unspecified site, extranodal and solid organ sites             | Diagnosis | ICD-9-CM  |
| 202.31 | Malignant histiocytosis of lymph nodes of head, face, and neck                          | Diagnosis | ICD-9-CM  |

**Appendix J. | Code   | Description                                                                        | Code      |           |
|--------|------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                    | Category  | Code Type |
| 202.32 | Malignant histiocytosis of intrathoracic lymph nodes                               | Diagnosis | ICD-9-CM  |
| 202.33 | Malignant histiocytosis of intra-abdominal lymph nodes                             | Diagnosis | ICD-9-CM  |
| 202.34 | Malignant histiocytosis of lymph nodes of axilla and upper limb                    | Diagnosis | ICD-9-CM  |
| 202.35 | Malignant histiocytosis of lymph nodes of inguinal region and lower limb           | Diagnosis | ICD-9-CM  |
| 202.36 | Malignant histiocytosis of intrapelvic lymph nodes                                 | Diagnosis | ICD-9-CM  |
| 202.37 | Malignant histiocytosis of spleen                                                  | Diagnosis | ICD-9-CM  |
| 202.38 | Malignant histiocytosis of lymph nodes of multiple sites                           | Diagnosis | ICD-9-CM  |
| 202.4  | Leukemic reticuloendotheliosis                                                     | Diagnosis | ICD-9-CM  |
| 202.40 | Leukemic reticuloendotheliosis, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |
| 202.41 | Leukemic reticuloendotheliosis of lymph nodes of head, face, and neck              | Diagnosis | ICD-9-CM  |
| 202.42 | Leukemic reticuloendotheliosis of intrathoracic lymph nodes                        | Diagnosis | ICD-9-CM  |
| 202.43 | Leukemic reticuloendotheliosis of intra-abdominal lymph nodes                      | Diagnosis | ICD-9-CM  |
| 202.44 | Leukemic reticuloendotheliosis of lymph nodes of axilla and upper limb             | Diagnosis | ICD-9-CM  |
| 202.45 | Leukemic reticuloendotheliosis of lymph nodes of inguinal region and lower limb    | Diagnosis | ICD-9-CM  |
| 202.46 | Leukemic reticuloendotheliosis of intrapelvic lymph nodes                          | Diagnosis | ICD-9-CM  |
| 202.47 | Leukemic reticuloendotheliosis of spleen                                           | Diagnosis | ICD-9-CM  |
| 202.48 | Leukemic reticuloendotheliosis of lymph nodes of multiple sites                    | Diagnosis | ICD-9-CM  |
| 202.5  | Letterer-Siwe disease                                                              | Diagnosis | ICD-9-CM  |
| 202.50 | Letterer-Siwe disease, unspecified site, extranodal and solid organ sites          | Diagnosis | ICD-9-CM  |
| 202.51 | Letterer-Siwe disease of lymph nodes of head, face, and neck                       | Diagnosis | ICD-9-CM  |
| 202.52 | Letterer-Siwe disease of intrathoracic lymph nodes                                 | Diagnosis | ICD-9-CM  |
| 202.53 | Letterer-Siwe disease of intra-abdominal lymph nodes                               | Diagnosis | ICD-9-CM  |
| 202.54 | Letterer-Siwe disease of lymph nodes of axilla and upper limb                      | Diagnosis | ICD-9-CM  |
| 202.55 | Letterer-Siwe disease of lymph nodes of inguinal region and lower limb             | Diagnosis | ICD-9-CM  |
| 202.56 | Letterer-Siwe disease of intrapelvic lymph nodes                                   | Diagnosis | ICD-9-CM  |
| 202.57 | Letterer-Siwe disease of spleen                                                    | Diagnosis | ICD-9-CM  |
| 202.58 | Letterer-Siwe disease of lymph nodes of multiple sites                             | Diagnosis | ICD-9-CM  |
| 202.6  | Malignant mast cell tumors                                                         | Diagnosis | ICD-9-CM  |
| 202.60 | Malignant mast cell tumors, unspecified site, extranodal and solid organ sites     | Diagnosis | ICD-9-CM  |
| 202.61 | Malignant mast cell tumors of lymph nodes of head, face, and neck                  | Diagnosis | ICD-9-CM  |
| 202.62 | Malignant mast cell tumors of intrathoracic lymph nodes                            | Diagnosis | ICD-9-CM  |
| 202.63 | Malignant mast cell tumors of intra-abdominal lymph nodes                          | Diagnosis | ICD-9-CM  |
| 202.64 | Malignant mast cell tumors of lymph nodes of axilla and upper limb                 | Diagnosis | ICD-9-CM  |
| 202.65 | Malignant mast cell tumors of lymph nodes of inguinal region and lower limb        | Diagnosis | ICD-9-CM  |
| 202.66 | Malignant mast cell tumors of intrapelvic lymph nodes                              | Diagnosis | ICD-9-CM  |
| 202.67 | Malignant mast cell tumors of spleen                                               | Diagnosis | ICD-9-CM  |
| 202.68 | Malignant mast cell tumors of lymph nodes of multiple sites                        | Diagnosis | ICD-9-CM  |
| 202.7  | Peripheral T-cell lymphoma                                                         | Diagnosis | ICD-9-CM  |
| 202.70 | Peripheral T-cell lymphoma, unspecified site, extranodal and solid organ sites     | Diagnosis | ICD-9-CM  |
| 202.71 | Peripheral T-cell lymphoma, lymph nodes of head, face, and neck                    | Diagnosis | ICD-9-CM  |
| 202.72 | Peripheral T-cell lymphoma, intrathoracic lymph nodes                              | Diagnosis | ICD-9-CM  |
| 202.73 | Peripheral T-cell lymphoma, intra-abdominal lymph nodes                            | Diagnosis | ICD-9-CM  |
| 202.74 | Peripheral T-cell lymphoma, lymph nodes of axilla and upper limb                   | Diagnosis | ICD-9-CM  |

| 202.75 | Peripheral T-cell lymphoma, lymph nodes of inguinal region and lower limb                                                        | Diagnosis | ICD-9-CM  |
| 202.76 | Peripheral T-cell lymphoma, intrapelvic lymph nodes                                                                              | Diagnosis | ICD-9-CM  |
| 202.77 | Peripheral T-cell lymphoma, spleen                                                                                               | Diagnosis | ICD-9-CM  |
| 202.78 | Peripheral T-cell lymphoma, lymph nodes of multiple sites                                                                        | Diagnosis | ICD-9-CM  |
| 202.8  | Other malignant lymphomas                                                                                                        | Diagnosis | ICD-9-CM  |
| 202.80 | Other malignant lymphomas, unspecified site, extranodal and solid organ sites                                                    | Diagnosis | ICD-9-CM  |
| 202.81 | Other malignant lymphomas of lymph nodes of head, face, and neck                                                                 | Diagnosis | ICD-9-CM  |
| 202.82 | Other malignant lymphomas of intrathoracic lymph nodes                                                                           | Diagnosis | ICD-9-CM  |
| 202.83 | Other malignant lymphomas of intra-abdominal lymph nodes                                                                         | Diagnosis | ICD-9-CM  |
| 202.84 | Other malignant lymphomas of lymph nodes of axilla and upper limb                                                                | Diagnosis | ICD-9-CM  |
| 202.85 | Other malignant lymphomas of lymph nodes of inguinal region and lower limb                                                       | Diagnosis | ICD-9-CM  |
| 202.86 | Other malignant lymphomas of intrapelvic lymph nodes                                                                             | Diagnosis | ICD-9-CM  |
| 202.87 | Other malignant lymphomas of spleen                                                                                              | Diagnosis | ICD-9-CM  |
| 202.88 | Other malignant lymphomas of lymph nodes of multiple sites                                                                       | Diagnosis | ICD-9-CM  |
| 202.9  | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue                                                     | Diagnosis | ICD-9-CM  |
| 202.90 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue, unspecified site, extranodal and solid organ sites | Diagnosis | ICD-9-CM  |
| 202.91 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of lymph nodes of head, face, and neck              | Diagnosis | ICD-9-CM  |
| 202.92 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of intrathoracic lymph nodes                        | Diagnosis | ICD-9-CM  |
| 202.93 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of intra-abdominal lymph nodes                      | Diagnosis | ICD-9-CM  |
| 202.94 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of lymph nodes of axilla and upper limb             | Diagnosis | ICD-9-CM  |
| 202.95 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of lymph nodes of inguinal region and lower limb    | Diagnosis | ICD-9-CM  |
| 202.96 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of intrapelvic lymph nodes                          | Diagnosis | ICD-9-CM  |
| 202.97 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of spleen                                           | Diagnosis | ICD-9-CM  |
| 202.98 | Other and unspecified malignant neoplasms of lymphoid and histiocytic tissue of lymph nodes of multiple sites                    | Diagnosis | ICD-9-CM  |
| 203    | Multiple myeloma and immunoproliferative neoplasms                                                                               | Diagnosis | ICD-9-CM  |
| 203.0  | Multiple myeloma                                                                                                                 | Diagnosis | ICD-9-CM  |
| 203.00 | Multiple myeloma, without mention of having achieved remission                                                                   | Diagnosis | ICD-9-CM  |
| 203.01 | Multiple myeloma in remission                                                                                                    | Diagnosis | ICD-9-CM  |
| 203.02 | Multiple myeloma, in relapse                                                                                                     | Diagnosis | ICD-9-CM  |
| 203.1  | Plasma cell leukemia                                                                                                             | Diagnosis | ICD-9-CM  |
| 203.10 | Plasma cell leukemia, without mention of having achieved remission                                                               | Diagnosis | ICD-9-CM  |
| 203.11 | Plasma cell leukemia in remission                                                                                                | Diagnosis | ICD-9-CM  |
| 203.12 | Plasma cell leukemia, in relapse                                                                                                 | Diagnosis | ICD-9-CM  |
| 203.8  | Other immunoproliferative neoplasms                                                                                              | Diagnosis | ICD-9-CM  |
| 203.80 | Other immunoproliferative neoplasms, without mention of having achieved remission                                                | Diagnosis | ICD-9-CM  |

| Code   | Description                                                                              | Code      |           |
|--------|------------------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                          | Category  | Code Type |
| 208    | Leukemia of unspecified cell type                                                        | Diagnosis | ICD-9-CM  |
| 208.0  | Acute leukemia of unspecified cell type                                                  | Diagnosis | ICD-9-CM  |
| 208.00 | Acute leukemia of unspecified cell type, without mention of having achieved remission    | Diagnosis | ICD-9-CM  |
| 208.01 | Acute leukemia of unspecified cell type in remission                                     | Diagnosis | ICD-9-CM  |
| 208.02 | Acute leukemia of unspecified cell type, in relapse                                      | Diagnosis | ICD-9-CM  |
| 208.1  | Chronic leukemia of unspecified cell type                                                | Diagnosis | ICD-9-CM  |
| 208.10 | Chronic leukemia of unspecified cell type, without mention of having achieved remission  | Diagnosis | ICD-9-CM  |
| 208.11 | Chronic leukemia of unspecified cell type in remission                                   | Diagnosis | ICD-9-CM  |
| 208.12 | Chronic leukemia of unspecified cell type, in relapse                                    | Diagnosis | ICD-9-CM  |
| 208.2  | Subacute leukemia of unspecified cell type                                               | Diagnosis | ICD-9-CM  |
| 208.20 | Subacute leukemia of unspecified cell type, without mention of having achieved remission | Diagnosis | ICD-9-CM  |
| 208.21 | Subacute leukemia of unspecified cell type in remission                                  | Diagnosis | ICD-9-CM  |
| 208.22 | Subacute leukemia of unspecified cell type, in relapse                                   | Diagnosis | ICD-9-CM  |
| 208.8  | Other leukemia of unspecified cell type                                                  | Diagnosis | ICD-9-CM  |
| 208.80 | Other leukemia of unspecified cell type, without mention of having achieved remission    | Diagnosis | ICD-9-CM  |
| 208.81 | Other leukemia of unspecified cell type in remission                                     | Diagnosis | ICD-9-CM  |
| 208.82 | Other leukemia of unspecified cell type, in relapse                                      | Diagnosis | ICD-9-CM  |
| 208.9  | Unspecified leukemia                                                                     | Diagnosis | ICD-9-CM  |
| 208.90 | Unspecified leukemia, without mention of having achieved remission                       | Diagnosis | ICD-9-CM  |
| 208.91 | Unspecified leukemia in remission                                                        | Diagnosis | ICD-9-CM  |
| 208.92 | Unspecified leukemia, in relapse                                                         | Diagnosis | ICD-9-CM  |
| 209    | Neuroendocrine tumors                                                                    | Diagnosis | ICD-9-CM  |
| 209.0  | Malignant carcinoid tumors of the small intestine                                        | Diagnosis | ICD-9-CM  |
| 209.00 | Malignant carcinoid tumor of the small intestine, unspecified portion                    | Diagnosis | ICD-9-CM  |
| 209.01 | Malignant carcinoid tumor of the duodenum                                                | Diagnosis | ICD-9-CM  |
| 209.02 | Malignant carcinoid tumor of the jejunum                                                 | Diagnosis | ICD-9-CM  |
| 209.03 | Malignant carcinoid tumor of the ileum                                                   | Diagnosis | ICD-9-CM  |
| 209.1  | Malignant carcinoid tumors of the appendix, large intestine, and rectum                  | Diagnosis | ICD-9-CM  |
| 209.10 | Malignant carcinoid tumor of the large intestine, unspecified portion                    | Diagnosis | ICD-9-CM  |
| 209.11 | Malignant carcinoid tumor of the appendix                                                | Diagnosis | ICD-9-CM  |
| 209.12 | Malignant carcinoid tumor of the cecum                                                   | Diagnosis | ICD-9-CM  |
| 209.13 | Malignant carcinoid tumor of the ascending colon                                         | Diagnosis | ICD-9-CM  |
| 209.14 | Malignant carcinoid tumor of the transverse colon                                        | Diagnosis | ICD-9-CM  |
| 209.15 | Malignant carcinoid tumor of the descending colon                                        | Diagnosis | ICD-9-CM  |
| 209.16 | Malignant carcinoid tumor of the sigmoid colon                                           | Diagnosis | ICD-9-CM  |
| 209.17 | Malignant carcinoid tumor of the rectum                                                  | Diagnosis | ICD-9-CM  |
| 209.2  | Malignant carcinoid tumors of other and unspecified sites                                | Diagnosis | ICD-9-CM  |
| 209.20 | Malignant carcinoid tumor of unknown primary site                                        | Diagnosis | ICD-9-CM  |
| 209.21 | Malignant carcinoid tumor of the bronchus and lung                                       | Diagnosis | ICD-9-CM  |
| 209.22 | Malignant carcinoid tumor of the thymus                                                  | Diagnosis | ICD-9-CM  |
| 209.23 | Malignant carcinoid tumor of the stomach                                                 | Diagnosis | ICD-9-CM  |
| 209.24 | Malignant carcinoid tumor of the kidney                                                  | Diagnosis | ICD-9-CM  |
| 209.25 | Malignant carcinoid tumor of foregut, not otherwise specified                            | Diagnosis | ICD-9-CM  |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code   | Description                                                           | Code      |           |
|--------|-----------------------------------------------------------------------|-----------|-----------|
|        |                                                                       | Category  | Code Type |
| 209.26 | Malignant carcinoid tumor of midgut, not otherwise specified          | Diagnosis | ICD-9-CM  |
| 209.27 | Malignant carcinoid tumor of hindgut, not otherwise specified         | Diagnosis | ICD-9-CM  |
| 209.29 | Malignant carcinoid tumor of other sites                              | Diagnosis | ICD-9-CM  |
| 209.3  | Malignant poorly differentiated neuroendocrine tumors                 | Diagnosis | ICD-9-CM  |
| 209.30 | Malignant poorly differentiated neuroendocrine carcinoma, any site    | Diagnosis | ICD-9-CM  |
| 209.64 | Benign carcinoid tumor of the kidney                                  | Diagnosis | ICD-9-CM  |
| 209.7  | Secondary neuroendocrine tumors                                       | Diagnosis | ICD-9-CM  |
| 209.70 | Secondary neuroendocrine tumor, unspecified site                      | Diagnosis | ICD-9-CM  |
| 209.71 | Secondary neuroendocrine tumor of distant lymph nodes                 | Diagnosis | ICD-9-CM  |
| 209.72 | Secondary neuroendocrine tumor of liver                               | Diagnosis | ICD-9-CM  |
| 209.73 | Secondary neuroendocrine tumor of bone                                | Diagnosis | ICD-9-CM  |
| 209.74 | Secondary neuroendocrine tumor of peritoneum                          | Diagnosis | ICD-9-CM  |
| 209.79 | Secondary neuroendocrine tumor of other sites                         | Diagnosis | ICD-9-CM  |
| 223.0  | Benign neoplasm of kidney, except pelvis                              | Diagnosis | ICD-9-CM  |
| 223.1  | Benign neoplasm of renal pelvis                                       | Diagnosis | ICD-9-CM  |
| 236.91 | Neoplasm of uncertain behavior of kidney and ureter                   | Diagnosis | ICD-9-CM  |
| 273.3  | Macroglobulinemia                                                     | Diagnosis | ICD-9-CM  |
| 284.2  | Myelophthisis                                                         | Diagnosis | ICD-9-CM  |
| 289.83 | Myelofibrosis                                                         | Diagnosis | ICD-9-CM  |
| 999.81 | Extravasation of vesicant chemotherapy                                | Diagnosis | ICD-9-CM  |
| C00    | Malignant neoplasm of lip                                             | Diagnosis | ICD-10-CM |
| C00.0  | Malignant neoplasm of external upper lip                              | Diagnosis | ICD-10-CM |
| C00.1  | Malignant neoplasm of external lower lip                              | Diagnosis | ICD-10-CM |
| C00.2  | Malignant neoplasm of external lip, unspecified                       | Diagnosis | ICD-10-CM |
| C00.3  | Malignant neoplasm of upper lip, inner aspect                         | Diagnosis | ICD-10-CM |
| C00.4  | Malignant neoplasm of lower lip, inner aspect                         | Diagnosis | ICD-10-CM |
| C00.5  | Malignant neoplasm of lip, unspecified, inner aspect                  | Diagnosis | ICD-10-CM |
| C00.6  | Malignant neoplasm of commissure of lip, unspecified                  | Diagnosis | ICD-10-CM |
| C00.8  | Malignant neoplasm of overlapping sites of lip                        | Diagnosis | ICD-10-CM |
| C00.9  | Malignant neoplasm of lip, unspecified                                | Diagnosis | ICD-10-CM |
| C01    | Malignant neoplasm of base of tongue                                  | Diagnosis | ICD-10-CM |
| C02    | Malignant neoplasm of other and unspecified parts of tongue           | Diagnosis | ICD-10-CM |
| C02.0  | Malignant neoplasm of dorsal surface of tongue                        | Diagnosis | ICD-10-CM |
| C02.1  | Malignant neoplasm of border of tongue                                | Diagnosis | ICD-10-CM |
| C02.2  | Malignant neoplasm of ventral surface of tongue                       | Diagnosis | ICD-10-CM |
| C02.3  | Malignant neoplasm of anterior two-thirds of tongue, part unspecified | Diagnosis | ICD-10-CM |
| C02.4  | Malignant neoplasm of lingual tonsil                                  | Diagnosis | ICD-10-CM |
| C02.8  | Malignant neoplasm of overlapping sites of tongue                     | Diagnosis | ICD-10-CM |
| C02.9  | Malignant neoplasm of tongue, unspecified                             | Diagnosis | ICD-10-CM |
| C03    | Malignant neoplasm of gum                                             | Diagnosis | ICD-10-CM |
| C03.0  | Malignant neoplasm of upper gum                                       | Diagnosis | ICD-10-CM |
| C03.1  | Malignant neoplasm of lower gum                                       | Diagnosis | ICD-10-CM |
| C03.9  | Malignant neoplasm of gum, unspecified                                | Diagnosis | ICD-10-CM |

**Appendix J. | Code   | Description                                                                     | Code      |           |
|--------|---------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                 | Category  | Code Type |
| C04    | Malignant neoplasm of floor of mouth                                            | Diagnosis | ICD-10-CM |
| C04.0  | Malignant neoplasm of anterior floor of mouth                                   | Diagnosis | ICD-10-CM |
| C04.1  | Malignant neoplasm of lateral floor of mouth                                    | Diagnosis | ICD-10-CM |
| C04.8  | Malignant neoplasm of overlapping sites of floor of mouth                       | Diagnosis | ICD-10-CM |
| C04.9  | Malignant neoplasm of floor of mouth, unspecified                               | Diagnosis | ICD-10-CM |
| C05    | Malignant neoplasm of palate                                                    | Diagnosis | ICD-10-CM |
| C05.0  | Malignant neoplasm of hard palate                                               | Diagnosis | ICD-10-CM |
| C05.1  | Malignant neoplasm of soft palate                                               | Diagnosis | ICD-10-CM |
| C05.2  | Malignant neoplasm of uvula                                                     | Diagnosis | ICD-10-CM |
| C05.8  | Malignant neoplasm of overlapping sites of palate                               | Diagnosis | ICD-10-CM |
| C05.9  | Malignant neoplasm of palate, unspecified                                       | Diagnosis | ICD-10-CM |
| C06    | Malignant neoplasm of other and unspecified parts of mouth                      | Diagnosis | ICD-10-CM |
| C06.0  | Malignant neoplasm of cheek mucosa                                              | Diagnosis | ICD-10-CM |
| C06.1  | Malignant neoplasm of vestibule of mouth                                        | Diagnosis | ICD-10-CM |
| C06.2  | Malignant neoplasm of retromolar area                                           | Diagnosis | ICD-10-CM |
| C06.8  | Malignant neoplasm of overlapping sites of other and unspecified parts of mouth | Diagnosis | ICD-10-CM |
| C06.80 | Malignant neoplasm of overlapping sites of unspecified parts of mouth           | Diagnosis | ICD-10-CM |
| C06.89 | Malignant neoplasm of overlapping sites of other parts of mouth                 | Diagnosis | ICD-10-CM |
| C06.9  | Malignant neoplasm of mouth, unspecified                                        | Diagnosis | ICD-10-CM |
| C07    | Malignant neoplasm of parotid gland                                             | Diagnosis | ICD-10-CM |
| C08    | Malignant neoplasm of other and unspecified major salivary glands               | Diagnosis | ICD-10-CM |
| C08.0  | Malignant neoplasm of submandibular gland                                       | Diagnosis | ICD-10-CM |
| C08.1  | Malignant neoplasm of sublingual gland                                          | Diagnosis | ICD-10-CM |
| C08.9  | Malignant neoplasm of major salivary gland, unspecified                         | Diagnosis | ICD-10-CM |
| C09    | Malignant neoplasm of tonsil                                                    | Diagnosis | ICD-10-CM |
| C09.0  | Malignant neoplasm of tonsillar fossa                                           | Diagnosis | ICD-10-CM |
| C09.1  | Malignant neoplasm of tonsillar pillar (anterior) (posterior)                   | Diagnosis | ICD-10-CM |
| C09.8  | Malignant neoplasm of overlapping sites of tonsil                               | Diagnosis | ICD-10-CM |
| C09.9  | Malignant neoplasm of tonsil, unspecified                                       | Diagnosis | ICD-10-CM |
| C10    | Malignant neoplasm of oropharynx                                                | Diagnosis | ICD-10-CM |
| C10.0  | Malignant neoplasm of vallecula                                                 | Diagnosis | ICD-10-CM |
| C10.1  | Malignant neoplasm of anterior surface of epiglottis                            | Diagnosis | ICD-10-CM |
| C10.2  | Malignant neoplasm of lateral wall of oropharynx                                | Diagnosis | ICD-10-CM |
| C10.3  | Malignant neoplasm of posterior wall of oropharynx                              | Diagnosis | ICD-10-CM |
| C10.4  | Malignant neoplasm of branchial cleft                                           | Diagnosis | ICD-10-CM |
| C10.8  | Malignant neoplasm of overlapping sites of oropharynx                           | Diagnosis | ICD-10-CM |
| C10.9  | Malignant neoplasm of oropharynx, unspecified                                   | Diagnosis | ICD-10-CM |
| C11    | Malignant neoplasm of nasopharynx                                               | Diagnosis | ICD-10-CM |
| C11.0  | Malignant neoplasm of superior wall of nasopharynx                              | Diagnosis | ICD-10-CM |
| C11.1  | Malignant neoplasm of posterior wall of nasopharynx                             | Diagnosis | ICD-10-CM |
| C11.2  | Malignant neoplasm of lateral wall of nasopharynx                               | Diagnosis | ICD-10-CM |
| C11.3  | Malignant neoplasm of anterior wall of nasopharynx                              | Diagnosis | ICD-10-CM |
| C11.8  | Malignant neoplasm of overlapping sites of nasopharynx                          | Diagnosis | ICD-10-CM |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                           | Code      |           |
|-------|---------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                       | Category  | Code Type |
| C11.9 | Malignant neoplasm of nasopharynx, unspecified                                        | Diagnosis | ICD-10-CM |
| C12   | Malignant neoplasm of pyriform sinus                                                  | Diagnosis | ICD-10-CM |
| C13   | Malignant neoplasm of hypopharynx                                                     | Diagnosis | ICD-10-CM |
| C13.0 | Malignant neoplasm of postcricoid region                                              | Diagnosis | ICD-10-CM |
| C13.1 | Malignant neoplasm of aryepiglottic fold, hypopharyngeal aspect                       | Diagnosis | ICD-10-CM |
| C13.2 | Malignant neoplasm of posterior wall of hypopharynx                                   | Diagnosis | ICD-10-CM |
| C13.8 | Malignant neoplasm of overlapping sites of hypopharynx                                | Diagnosis | ICD-10-CM |
| C13.9 | Malignant neoplasm of hypopharynx, unspecified                                        | Diagnosis | ICD-10-CM |
| C14   | Malignant neoplasm of other and ill-defined sites in the lip, oral cavity and pharynx | Diagnosis | ICD-10-CM |
| C14.0 | Malignant neoplasm of pharynx, unspecified                                            | Diagnosis | ICD-10-CM |
| C14.2 | Malignant neoplasm of Waldeyer's ring                                                 | Diagnosis | ICD-10-CM |
| C14.8 | Malignant neoplasm of overlapping sites of lip, oral cavity and pharynx               | Diagnosis | ICD-10-CM |
| C15   | Malignant neoplasm of esophagus                                                       | Diagnosis | ICD-10-CM |
| C15.3 | Malignant neoplasm of upper third of esophagus                                        | Diagnosis | ICD-10-CM |
| C15.4 | Malignant neoplasm of middle third of esophagus                                       | Diagnosis | ICD-10-CM |
| C15.5 | Malignant neoplasm of lower third of esophagus                                        | Diagnosis | ICD-10-CM |
| C15.8 | Malignant neoplasm of overlapping sites of esophagus                                  | Diagnosis | ICD-10-CM |
| C15.9 | Malignant neoplasm of esophagus, unspecified                                          | Diagnosis | ICD-10-CM |
| C16   | Malignant neoplasm of stomach                                                         | Diagnosis | ICD-10-CM |
| C16.0 | Malignant neoplasm of cardia                                                          | Diagnosis | ICD-10-CM |
| C16.1 | Malignant neoplasm of fundus of stomach                                               | Diagnosis | ICD-10-CM |
| C16.2 | Malignant neoplasm of body of stomach                                                 | Diagnosis | ICD-10-CM |
| C16.3 | Malignant neoplasm of pyloric antrum                                                  | Diagnosis | ICD-10-CM |
| C16.4 | Malignant neoplasm of pylorus                                                         | Diagnosis | ICD-10-CM |
| C16.5 | Malignant neoplasm of lesser curvature of stomach, unspecified                        | Diagnosis | ICD-10-CM |
| C16.6 | Malignant neoplasm of greater curvature of stomach, unspecified                       | Diagnosis | ICD-10-CM |
| C16.8 | Malignant neoplasm of overlapping sites of stomach                                    | Diagnosis | ICD-10-CM |
| C16.9 | Malignant neoplasm of stomach, unspecified                                            | Diagnosis | ICD-10-CM |
| C17   | Malignant neoplasm of small intestine                                                 | Diagnosis | ICD-10-CM |
| C17.0 | Malignant neoplasm of duodenum                                                        | Diagnosis | ICD-10-CM |
| C17.1 | Malignant neoplasm of jejunum                                                         | Diagnosis | ICD-10-CM |
| C17.2 | Malignant neoplasm of ileum                                                           | Diagnosis | ICD-10-CM |
| C17.3 | Meckel's diverticulum, malignant                                                      | Diagnosis | ICD-10-CM |
| C17.8 | Malignant neoplasm of overlapping sites of small intestine                            | Diagnosis | ICD-10-CM |
| C17.9 | Malignant neoplasm of small intestine, unspecified                                    | Diagnosis | ICD-10-CM |
| C18   | Malignant neoplasm of colon                                                           | Diagnosis | ICD-10-CM |
| C18.0 | Malignant neoplasm of cecum                                                           | Diagnosis | ICD-10-CM |
| C18.1 | Malignant neoplasm of appendix                                                        | Diagnosis | ICD-10-CM |
| C18.2 | Malignant neoplasm of ascending colon                                                 | Diagnosis | ICD-10-CM |
| C18.3 | Malignant neoplasm of hepatic flexure                                                 | Diagnosis | ICD-10-CM |
| C18.4 | Malignant neoplasm of transverse colon                                                | Diagnosis | ICD-10-CM |
| C18.5 | Malignant neoplasm of splenic flexure                                                 | Diagnosis | ICD-10-CM |
| C18.6 | Malignant neoplasm of descending colon                                                | Diagnosis | ICD-10-CM |

| C34    | Malignant neoplasm of bronchus and lung                                  | Diagnosis | ICD-10-CM |
| C34.0  | Malignant neoplasm of main bronchus                                      | Diagnosis | ICD-10-CM |
| C34.00 | Malignant neoplasm of unspecified main bronchus                          | Diagnosis | ICD-10-CM |
| C34.01 | Malignant neoplasm of right main bronchus                                | Diagnosis | ICD-10-CM |
| C34.02 | Malignant neoplasm of left main bronchus                                 | Diagnosis | ICD-10-CM |
| C34.1  | Malignant neoplasm of upper lobe, bronchus or lung                       | Diagnosis | ICD-10-CM |
| C34.10 | Malignant neoplasm of upper lobe, unspecified bronchus or lung           | Diagnosis | ICD-10-CM |
| C34.11 | Malignant neoplasm of upper lobe, right bronchus or lung                 | Diagnosis | ICD-10-CM |
| C34.12 | Malignant neoplasm of upper lobe, left bronchus or lung                  | Diagnosis | ICD-10-CM |
| C34.2  | Malignant neoplasm of middle lobe, bronchus or lung                      | Diagnosis | ICD-10-CM |
| C34.3  | Malignant neoplasm of lower lobe, bronchus or lung                       | Diagnosis | ICD-10-CM |
| C34.30 | Malignant neoplasm of lower lobe, unspecified bronchus or lung           | Diagnosis | ICD-10-CM |
| C34.31 | Malignant neoplasm of lower lobe, right bronchus or lung                 | Diagnosis | ICD-10-CM |
| C34.32 | Malignant neoplasm of lower lobe, left bronchus or lung                  | Diagnosis | ICD-10-CM |
| C34.8  | Malignant neoplasm of overlapping sites of bronchus and lung             | Diagnosis | ICD-10-CM |
| C34.80 | Malignant neoplasm of overlapping sites of unspecified bronchus and lung | Diagnosis | ICD-10-CM |
| C34.81 | Malignant neoplasm of overlapping sites of right bronchus and lung       | Diagnosis | ICD-10-CM |
| C34.82 | Malignant neoplasm of overlapping sites of left bronchus and lung        | Diagnosis | ICD-10-CM |
| C34.9  | Malignant neoplasm of unspecified part of bronchus or lung               | Diagnosis | ICD-10-CM |
| C34.90 | Malignant neoplasm of unspecified part of unspecified bronchus or lung   | Diagnosis | ICD-10-CM |
| C34.91 | Malignant neoplasm of unspecified part of right bronchus or lung         | Diagnosis | ICD-10-CM |
| C34.92 | Malignant neoplasm of unspecified part of left bronchus or lung          | Diagnosis | ICD-10-CM |
| C37    | Malignant neoplasm of thymus                                             | Diagnosis | ICD-10-CM |
| C38    | Malignant neoplasm of heart, mediastinum and pleura                      | Diagnosis | ICD-10-CM |
| C38.0  | Malignant neoplasm of heart                                              | Diagnosis | ICD-10-CM |
| C38.1  | Malignant neoplasm of anterior mediastinum                               | Diagnosis | ICD-10-CM |
| C38.2  | Malignant neoplasm of posterior mediastinum                              | Diagnosis | ICD-10-CM |
| C38.3  | Malignant neoplasm of mediastinum, part unspecified                      | Diagnosis | ICD-10-CM |
| C38.4  | Malignant neoplasm of pleura                                             | Diagnosis | ICD-10-CM |
| C38.8  | Malignant neoplasm of overlapping sites of heart, mediastinum and pleura | Diagnosis | ICD-10-CM |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code    | Description                                                                                          | Code      |           |
|---------|------------------------------------------------------------------------------------------------------|-----------|-----------|
|         |                                                                                                      | Category  | Code Type |
| C39     | Malignant neoplasm of other and ill-defined sites in the respiratory system and intrathoracic organs | Diagnosis | ICD-10-CM |
| C39.0   | Malignant neoplasm of upper respiratory tract, part unspecified                                      | Diagnosis | ICD-10-CM |
| C39.9   | Malignant neoplasm of lower respiratory tract, part unspecified                                      | Diagnosis | ICD-10-CM |
| C40     | Malignant neoplasm of bone and articular cartilage of limbs                                          | Diagnosis | ICD-10-CM |
| C40.0   | Malignant neoplasm of scapula and long bones of upper limb                                           | Diagnosis | ICD-10-CM |
| C40.00  | Malignant neoplasm of scapula and long bones of unspecified upper limb                               | Diagnosis | ICD-10-CM |
| C40.01  | Malignant neoplasm of scapula and long bones of right upper limb                                     | Diagnosis | ICD-10-CM |
| C40.02  | Malignant neoplasm of scapula and long bones of left upper limb                                      | Diagnosis | ICD-10-CM |
| C40.1   | Malignant neoplasm of short bones of upper limb                                                      | Diagnosis | ICD-10-CM |
| C40.10  | Malignant neoplasm of short bones of unspecified upper limb                                          | Diagnosis | ICD-10-CM |
| C40.11  | Malignant neoplasm of short bones of right upper limb                                                | Diagnosis | ICD-10-CM |
| C40.12  | Malignant neoplasm of short bones of left upper limb                                                 | Diagnosis | ICD-10-CM |
| C40.2   | Malignant neoplasm of long bones of lower limb                                                       | Diagnosis | ICD-10-CM |
| C40.20  | Malignant neoplasm of long bones of unspecified lower limb                                           | Diagnosis | ICD-10-CM |
| C40.21  | Malignant neoplasm of long bones of right lower limb                                                 | Diagnosis | ICD-10-CM |
| C40.22  | Malignant neoplasm of long bones of left lower limb                                                  | Diagnosis | ICD-10-CM |
| C40.3   | Malignant neoplasm of short bones of lower limb                                                      | Diagnosis | ICD-10-CM |
| C40.30  | Malignant neoplasm of short bones of unspecified lower limb                                          | Diagnosis | ICD-10-CM |
| C40.31  | Malignant neoplasm of short bones of right lower limb                                                | Diagnosis | ICD-10-CM |
| C40.32  | Malignant neoplasm of short bones of left lower limb                                                 | Diagnosis | ICD-10-CM |
| C40.8   | Malignant neoplasm of overlapping sites of bone and articular cartilage of limb                      | Diagnosis | ICD-10-CM |
| C40.80  | Malignant neoplasm of overlapping sites of bone and articular cartilage of unspecified               | Diagnosis | ICD-10-CM |
| C40.81  | Malignant neoplasm of overlapping sites of bone and articular cartilage of right limb                | Diagnosis | ICD-10-CM |
| C40.82  | Malignant neoplasm of overlapping sites of bone and articular cartilage of left limb                 | Diagnosis | ICD-10-CM |
| C40.9   | Malignant neoplasm of unspecified bones and articular cartilage of limb                              | Diagnosis | ICD-10-CM |
| C40.90  | Malignant neoplasm of unspecified bones and articular cartilage of unspecified limb                  | Diagnosis | ICD-10-CM |
| C40.91  | Malignant neoplasm of unspecified bones and articular cartilage of right limb                        | Diagnosis | ICD-10-CM |
| C40.92  | Malignant neoplasm of unspecified bones and articular cartilage of left limb                         | Diagnosis | ICD-10-CM |
| C41     | Malignant neoplasm of bone and articular cartilage of other and unspecified sites                    | Diagnosis | ICD-10-CM |
| C41.0   | Malignant neoplasm of bones of skull and face                                                        | Diagnosis | ICD-10-CM |
| C41.1   | Malignant neoplasm of mandible                                                                       | Diagnosis | ICD-10-CM |
| C41.2   | Malignant neoplasm of vertebral column                                                               | Diagnosis | ICD-10-CM |
| C41.3   | Malignant neoplasm of ribs, sternum and clavicle                                                     | Diagnosis | ICD-10-CM |
| C41.4   | Malignant neoplasm of pelvic bones, sacrum and coccyx                                                | Diagnosis | ICD-10-CM |
| C41.9   | Malignant neoplasm of bone and articular cartilage, unspecified                                      | Diagnosis | ICD-10-CM |
| C43     | Malignant melanoma of skin                                                                           | Diagnosis | ICD-10-CM |
| C43.0   | Malignant melanoma of lip                                                                            | Diagnosis | ICD-10-CM |
| C43.1   | Malignant melanoma of eyelid, including canthus                                                      | Diagnosis | ICD-10-CM |
| C43.10  | Malignant melanoma of unspecified eyelid, including canthus                                          | Diagnosis | ICD-10-CM |
| C43.11  | Malignant melanoma of right eyelid, including canthus                                                | Diagnosis | ICD-10-CM |
| C43.111 | Malignant melanoma of right upper eyelid, including canthus                                          | Diagnosis | ICD-10-CM |
| C43.112 | Malignant melanoma of right lower eyelid, including canthus                                          | Diagnosis | ICD-10-CM |

| C69.92 | Malignant neoplasm of unspecified site of left eye                                          | Diagnosis | ICD-10-CM |
| C70    | Malignant neoplasm of meninges                                                              | Diagnosis | ICD-10-CM |
| C70.0  | Malignant neoplasm of cerebral meninges                                                     | Diagnosis | ICD-10-CM |
| C70.1  | Malignant neoplasm of spinal meninges                                                       | Diagnosis | ICD-10-CM |
| C70.9  | Malignant neoplasm of meninges, unspecified                                                 | Diagnosis | ICD-10-CM |
| C71    | Malignant neoplasm of brain                                                                 | Diagnosis | ICD-10-CM |
| C71.0  | Malignant neoplasm of cerebrum, except lobes and ventricles                                 | Diagnosis | ICD-10-CM |
| C71.1  | Malignant neoplasm of frontal lobe                                                          | Diagnosis | ICD-10-CM |
| C71.2  | Malignant neoplasm of temporal lobe                                                         | Diagnosis | ICD-10-CM |
| C71.3  | Malignant neoplasm of parietal lobe                                                         | Diagnosis | ICD-10-CM |
| C71.4  | Malignant neoplasm of occipital lobe                                                        | Diagnosis | ICD-10-CM |
| C71.5  | Malignant neoplasm of cerebral ventricle                                                    | Diagnosis | ICD-10-CM |
| C71.6  | Malignant neoplasm of cerebellum                                                            | Diagnosis | ICD-10-CM |
| C71.7  | Malignant neoplasm of brain stem                                                            | Diagnosis | ICD-10-CM |
| C71.8  | Malignant neoplasm of overlapping sites of brain                                            | Diagnosis | ICD-10-CM |
| C71.9  | Malignant neoplasm of brain, unspecified                                                    | Diagnosis | ICD-10-CM |
| C72    | Malignant neoplasm of spinal cord, cranial nerves and other parts of central nervous system | Diagnosis | ICD-10-CM |
| C72.0  | Malignant neoplasm of spinal cord                                                           | Diagnosis | ICD-10-CM |
| C72.1  | Malignant neoplasm of cauda equina                                                          | Diagnosis | ICD-10-CM |
| C72.2  | Malignant neoplasm of olfactory nerve                                                       | Diagnosis | ICD-10-CM |
| C72.20 | Malignant neoplasm of unspecified olfactory nerve                                           | Diagnosis | ICD-10-CM |
| C72.21 | Malignant neoplasm of right olfactory nerve                                                 | Diagnosis | ICD-10-CM |
| C72.22 | Malignant neoplasm of left olfactory nerve                                                  | Diagnosis | ICD-10-CM |
| C72.3  | Malignant neoplasm of optic nerve                                                           | Diagnosis | ICD-10-CM |
| C72.30 | Malignant neoplasm of unspecified optic nerve                                               | Diagnosis | ICD-10-CM |
| C72.31 | Malignant neoplasm of right optic nerve                                                     | Diagnosis | ICD-10-CM |
| C72.32 | Malignant neoplasm of left optic nerve                                                      | Diagnosis | ICD-10-CM |
| C72.4  | Malignant neoplasm of acoustic nerve                                                        | Diagnosis | ICD-10-CM |
| C72.40 | Malignant neoplasm of unspecified acoustic nerve                                            | Diagnosis | ICD-10-CM |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code   | Description                                                         | Code      |           |
|--------|---------------------------------------------------------------------|-----------|-----------|
|        |                                                                     | Category  | Code Type |
| C72.41 | Malignant neoplasm of right acoustic nerve                          | Diagnosis | ICD-10-CM |
| C72.42 | Malignant neoplasm of left acoustic nerve                           | Diagnosis | ICD-10-CM |
| C72.5  | Malignant neoplasm of other and unspecified cranial nerves          | Diagnosis | ICD-10-CM |
| C72.50 | Malignant neoplasm of unspecified cranial nerve                     | Diagnosis | ICD-10-CM |
| C72.59 | Malignant neoplasm of other cranial nerves                          | Diagnosis | ICD-10-CM |
| C72.9  | Malignant neoplasm of central nervous system, unspecified           | Diagnosis | ICD-10-CM |
| C73    | Malignant neoplasm of thyroid gland                                 | Diagnosis | ICD-10-CM |
| C74    | Malignant neoplasm of adrenal gland                                 | Diagnosis | ICD-10-CM |
| C74.0  | Malignant neoplasm of cortex of adrenal gland                       | Diagnosis | ICD-10-CM |
| C74.00 | Malignant neoplasm of cortex of unspecified adrenal gland           | Diagnosis | ICD-10-CM |
| C74.01 | Malignant neoplasm of cortex of right adrenal gland                 | Diagnosis | ICD-10-CM |
| C74.02 | Malignant neoplasm of cortex of left adrenal gland                  | Diagnosis | ICD-10-CM |
| C74.1  | Malignant neoplasm of medulla of adrenal gland                      | Diagnosis | ICD-10-CM |
| C74.10 | Malignant neoplasm of medulla of unspecified adrenal gland          | Diagnosis | ICD-10-CM |
| C74.11 | Malignant neoplasm of medulla of right adrenal gland                | Diagnosis | ICD-10-CM |
| C74.12 | Malignant neoplasm of medulla of left adrenal gland                 | Diagnosis | ICD-10-CM |
| C74.9  | Malignant neoplasm of unspecified part of adrenal gland             | Diagnosis | ICD-10-CM |
| C74.90 | Malignant neoplasm of unspecified part of unspecified adrenal gland | Diagnosis | ICD-10-CM |
| C74.91 | Malignant neoplasm of unspecified part of right adrenal gland       | Diagnosis | ICD-10-CM |
| C74.92 | Malignant neoplasm of unspecified part of left adrenal gland        | Diagnosis | ICD-10-CM |
| C75    | Malignant neoplasm of other endocrine glands and related structures | Diagnosis | ICD-10-CM |
| C75.0  | Malignant neoplasm of parathyroid gland                             | Diagnosis | ICD-10-CM |
| C75.1  | Malignant neoplasm of pituitary gland                               | Diagnosis | ICD-10-CM |
| C75.2  | Malignant neoplasm of craniopharyngeal duct                         | Diagnosis | ICD-10-CM |
| C75.3  | Malignant neoplasm of pineal gland                                  | Diagnosis | ICD-10-CM |
| C75.4  | Malignant neoplasm of carotid body                                  | Diagnosis | ICD-10-CM |
| C75.5  | Malignant neoplasm of aortic body and other paraganglia             | Diagnosis | ICD-10-CM |
| C75.8  | Malignant neoplasm with pluriglandular involvement, unspecified     | Diagnosis | ICD-10-CM |
| C75.9  | Malignant neoplasm of endocrine gland, unspecified                  | Diagnosis | ICD-10-CM |
| C76    | Malignant neoplasm of other and ill-defined sites                   | Diagnosis | ICD-10-CM |
| C76.0  | Malignant neoplasm of head, face and neck                           | Diagnosis | ICD-10-CM |
| C76.1  | Malignant neoplasm of thorax                                        | Diagnosis | ICD-10-CM |
| C76.2  | Malignant neoplasm of abdomen                                       | Diagnosis | ICD-10-CM |
| C76.3  | Malignant neoplasm of pelvis                                        | Diagnosis | ICD-10-CM |
| C76.4  | Malignant neoplasm of upper limb                                    | Diagnosis | ICD-10-CM |
| C76.40 | Malignant neoplasm of unspecified upper limb                        | Diagnosis | ICD-10-CM |
| C76.41 | Malignant neoplasm of right upper limb                              | Diagnosis | ICD-10-CM |
| C76.42 | Malignant neoplasm of left upper limb                               | Diagnosis | ICD-10-CM |
| C76.5  | Malignant neoplasm of lower limb                                    | Diagnosis | ICD-10-CM |
| C76.50 | Malignant neoplasm of unspecified lower limb                        | Diagnosis | ICD-10-CM |
| C76.51 | Malignant neoplasm of right lower limb                              | Diagnosis | ICD-10-CM |
| C76.52 | Malignant neoplasm of left lower limb                               | Diagnosis | ICD-10-CM |
| C76.8  | Malignant neoplasm of other specified ill-defined sites             | Diagnosis | ICD-10-CM |

| C77    | Secondary and unspecified malignant neoplasm of lymph nodes                         | Diagnosis | ICD-10-CM |
| C77.0  | Secondary and unspecified malignant neoplasm of lymph nodes of head, face and neck  | Diagnosis | ICD-10-CM |
| C77.1  | Secondary and unspecified malignant neoplasm of intrathoracic lymph nodes           | Diagnosis | ICD-10-CM |
| C77.2  | Secondary and unspecified malignant neoplasm of intra-abdominal lymph nodes         | Diagnosis | ICD-10-CM |
| C77.3  | Secondary and unspecified malignant neoplasm of axilla and upper limb lymph nodes   | Diagnosis | ICD-10-CM |
| C77.4  | Secondary and unspecified malignant neoplasm of inguinal and lower limb lymph nodes | Diagnosis | ICD-10-CM |
| C77.5  | Secondary and unspecified malignant neoplasm of intrapelvic lymph nodes             | Diagnosis | ICD-10-CM |
| C77.8  | Secondary and unspecified malignant neoplasm of lymph nodes of multiple regions     | Diagnosis | ICD-10-CM |
| C77.9  | Secondary and unspecified malignant neoplasm of lymph node, unspecified             | Diagnosis | ICD-10-CM |
| C78    | Secondary malignant neoplasm of respiratory and digestive organs                    | Diagnosis | ICD-10-CM |
| C78.0  | Secondary malignant neoplasm of lung                                                | Diagnosis | ICD-10-CM |
| C78.00 | Secondary malignant neoplasm of unspecified lung                                    | Diagnosis | ICD-10-CM |
| C78.01 | Secondary malignant neoplasm of right lung                                          | Diagnosis | ICD-10-CM |
| C78.02 | Secondary malignant neoplasm of left lung                                           | Diagnosis | ICD-10-CM |
| C78.1  | Secondary malignant neoplasm of mediastinum                                         | Diagnosis | ICD-10-CM |
| C78.2  | Secondary malignant neoplasm of pleura                                              | Diagnosis | ICD-10-CM |
| C78.3  | Secondary malignant neoplasm of other and unspecified respiratory organs            | Diagnosis | ICD-10-CM |
| C78.30 | Secondary malignant neoplasm of unspecified respiratory organ                       | Diagnosis | ICD-10-CM |
| C78.39 | Secondary malignant neoplasm of other respiratory organs                            | Diagnosis | ICD-10-CM |
| C78.4  | Secondary malignant neoplasm of small intestine                                     | Diagnosis | ICD-10-CM |
| C78.5  | Secondary malignant neoplasm of large intestine and rectum                          | Diagnosis | ICD-10-CM |
| C78.6  | Secondary malignant neoplasm of retroperitoneum and peritoneum                      | Diagnosis | ICD-10-CM |
| C78.7  | Secondary malignant neoplasm of liver and intrahepatic bile duct                    | Diagnosis | ICD-10-CM |
| C78.8  | Secondary malignant neoplasm of other and unspecified digestive organs              | Diagnosis | ICD-10-CM |
| C78.80 | Secondary malignant neoplasm of unspecified digestive organ                         | Diagnosis | ICD-10-CM |
| C78.89 | Secondary malignant neoplasm of other digestive organs                              | Diagnosis | ICD-10-CM |
| C79    | Secondary malignant neoplasm of other and unspecified sites                         | Diagnosis | ICD-10-CM |
| C79.0  | Secondary malignant neoplasm of kidney and renal pelvis                             | Diagnosis | ICD-10-CM |
| C79.00 | Secondary malignant neoplasm of unspecified kidney and renal pelvis                 | Diagnosis | ICD-10-CM |
| C79.01 | Secondary malignant neoplasm of right kidney and renal pelvis                       | Diagnosis | ICD-10-CM |
| C79.02 | Secondary malignant neoplasm of left kidney and renal pelvis                        | Diagnosis | ICD-10-CM |
| C79.1  | Secondary malignant neoplasm of bladder and other and unspecified urinary organs    | Diagnosis | ICD-10-CM |
| C79.10 | Secondary malignant neoplasm of unspecified urinary organs                          | Diagnosis | ICD-10-CM |
| C79.11 | Secondary malignant neoplasm of bladder                                             | Diagnosis | ICD-10-CM |
| C79.19 | Secondary malignant neoplasm of other urinary organs                                | Diagnosis | ICD-10-CM |
| C79.2  | Secondary malignant neoplasm of skin                                                | Diagnosis | ICD-10-CM |
| C79.3  | Secondary malignant neoplasm of brain and cerebral meninges                         | Diagnosis | ICD-10-CM |
| C79.31 | Secondary malignant neoplasm of brain                                               | Diagnosis | ICD-10-CM |
| C79.32 | Secondary malignant neoplasm of cerebral meninges                                   | Diagnosis | ICD-10-CM |
| C79.4  | Secondary malignant neoplasm of other and unspecified parts of nervous system       | Diagnosis | ICD-10-CM |
| C79.40 | Secondary malignant neoplasm of unspecified part of nervous system                  | Diagnosis | ICD-10-CM |
| C79.49 | Secondary malignant neoplasm of other parts of nervous system                       | Diagnosis | ICD-10-CM |
| C79.5  | Secondary malignant neoplasm of bone and bone marrow                                | Diagnosis | ICD-10-CM |

**Appendix J. | C81.91 | Hodgkin lymphoma, unspecified, lymph nodes of head, face, and neck                        | Diagnosis | ICD-10-CM |
| C81.92 | Hodgkin lymphoma, unspecified, intrathoracic lymph nodes                                  | Diagnosis | ICD-10-CM |
| C81.93 | Hodgkin lymphoma, unspecified, intra-abdominal lymph nodes                                | Diagnosis | ICD-10-CM |
| C81.94 | Hodgkin lymphoma, unspecified, lymph nodes of axilla and upper limb                       | Diagnosis | ICD-10-CM |
| C81.95 | Hodgkin lymphoma, unspecified, lymph nodes of inguinal region and lower limb              | Diagnosis | ICD-10-CM |
| C81.96 | Hodgkin lymphoma, unspecified, intrapelvic lymph nodes                                    | Diagnosis | ICD-10-CM |
| C81.97 | Hodgkin lymphoma, unspecified, spleen                                                     | Diagnosis | ICD-10-CM |
| C81.98 | Hodgkin lymphoma, unspecified, lymph nodes of multiple sites                              | Diagnosis | ICD-10-CM |
| C81.99 | Hodgkin lymphoma, unspecified, extranodal and solid organ sites                           | Diagnosis | ICD-10-CM |
| C82    | Follicular lymphoma                                                                       | Diagnosis | ICD-10-CM |
| C82.0  | Follicular lymphoma grade I                                                               | Diagnosis | ICD-10-CM |
| C82.00 | Follicular lymphoma grade I, unspecified site                                             | Diagnosis | ICD-10-CM |
| C82.01 | Follicular lymphoma grade I, lymph nodes of head, face, and neck                          | Diagnosis | ICD-10-CM |
| C82.02 | Follicular lymphoma grade I, intrathoracic lymph nodes                                    | Diagnosis | ICD-10-CM |
| C82.03 | Follicular lymphoma grade I, intra-abdominal lymph nodes                                  | Diagnosis | ICD-10-CM |
| C82.04 | Follicular lymphoma grade I, lymph nodes of axilla and upper limb                         | Diagnosis | ICD-10-CM |
| C82.05 | Follicular lymphoma grade I, lymph nodes of inguinal region and lower limb                | Diagnosis | ICD-10-CM |
| C82.06 | Follicular lymphoma grade I, intrapelvic lymph nodes                                      | Diagnosis | ICD-10-CM |
| C82.07 | Follicular lymphoma grade I, spleen                                                       | Diagnosis | ICD-10-CM |
| C82.08 | Follicular lymphoma grade I, lymph nodes of multiple sites                                | Diagnosis | ICD-10-CM |
| C82.09 | Follicular lymphoma grade I, extranodal and solid organ sites                             | Diagnosis | ICD-10-CM |
| C82.1  | Follicular lymphoma grade II                                                              | Diagnosis | ICD-10-CM |
| C82.10 | Follicular lymphoma grade II, unspecified site                                            | Diagnosis | ICD-10-CM |
| C82.11 | Follicular lymphoma grade II, lymph nodes of head, face, and neck                         | Diagnosis | ICD-10-CM |
| C82.12 | Follicular lymphoma grade II, intrathoracic lymph nodes                                   | Diagnosis | ICD-10-CM |
| C82.13 | Follicular lymphoma grade II, intra-abdominal lymph nodes                                 | Diagnosis | ICD-10-CM |
| C82.14 | Follicular lymphoma grade II, lymph nodes of axilla and upper limb                        | Diagnosis | ICD-10-CM |
| C82.15 | Follicular lymphoma grade II, lymph nodes of inguinal region and lower limb               | Diagnosis | ICD-10-CM |
| C82.16 | Follicular lymphoma grade II, intrapelvic lymph nodes                                     | Diagnosis | ICD-10-CM |
| C82.17 | Follicular lymphoma grade II, spleen                                                      | Diagnosis | ICD-10-CM |
| C82.18 | Follicular lymphoma grade II, lymph nodes of multiple sites                               | Diagnosis | ICD-10-CM |
| C82.19 | Follicular lymphoma grade II, extranodal and solid organ sites                            | Diagnosis | ICD-10-CM |
| C82.2  | Follicular lymphoma grade III, unspecified                                                | Diagnosis | ICD-10-CM |
| C82.20 | Follicular lymphoma grade III, unspecified, unspecified site                              | Diagnosis | ICD-10-CM |
| C82.21 | Follicular lymphoma grade III, unspecified, lymph nodes of head, face, and neck           | Diagnosis | ICD-10-CM |
| C82.22 | Follicular lymphoma grade III, unspecified, intrathoracic lymph nodes                     | Diagnosis | ICD-10-CM |
| C82.23 | Follicular lymphoma grade III, unspecified, intra-abdominal lymph nodes                   | Diagnosis | ICD-10-CM |
| C82.24 | Follicular lymphoma grade III, unspecified, lymph nodes of axilla and upper limb          | Diagnosis | ICD-10-CM |
| C82.25 | Follicular lymphoma grade III, unspecified, lymph nodes of inguinal region and lower limb | Diagnosis | ICD-10-CM |
| C82.26 | Follicular lymphoma grade III, unspecified, intrapelvic lymph nodes                       | Diagnosis | ICD-10-CM |
| C82.27 | Follicular lymphoma grade III, unspecified, spleen                                        | Diagnosis | ICD-10-CM |
| C82.28 | Follicular lymphoma grade III, unspecified, lymph nodes of multiple sites                 | Diagnosis | ICD-10-CM |
| C82.29 | Follicular lymphoma grade III, unspecified, extranodal and solid organ sites              | Diagnosis | ICD-10-CM |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code   | Description                                                                       | Code      |           |
|--------|-----------------------------------------------------------------------------------|-----------|-----------|
|        |                                                                                   | Category  | Code Type |
| C82.3  | Follicular lymphoma grade IIIa                                                    | Diagnosis | ICD-10-CM |
| C82.30 | Follicular lymphoma grade IIIa, unspecified site                                  | Diagnosis | ICD-10-CM |
| C82.31 | Follicular lymphoma grade IIIa, lymph nodes of head, face, and neck               | Diagnosis | ICD-10-CM |
| C82.32 | Follicular lymphoma grade IIIa, intrathoracic lymph nodes                         | Diagnosis | ICD-10-CM |
| C82.33 | Follicular lymphoma grade IIIa, intra-abdominal lymph nodes                       | Diagnosis | ICD-10-CM |
| C82.34 | Follicular lymphoma grade IIIa, lymph nodes of axilla and upper limb              | Diagnosis | ICD-10-CM |
| C82.35 | Follicular lymphoma grade IIIa, lymph nodes of inguinal region and lower limb     | Diagnosis | ICD-10-CM |
| C82.36 | Follicular lymphoma grade IIIa, intrapelvic lymph nodes                           | Diagnosis | ICD-10-CM |
| C82.37 | Follicular lymphoma grade IIIa, spleen                                            | Diagnosis | ICD-10-CM |
| C82.38 | Follicular lymphoma grade IIIa, lymph nodes of multiple sites                     | Diagnosis | ICD-10-CM |
| C82.39 | Follicular lymphoma grade IIIa, extranodal and solid organ sites                  | Diagnosis | ICD-10-CM |
| C82.4  | Follicular lymphoma grade IIIb                                                    | Diagnosis | ICD-10-CM |
| C82.40 | Follicular lymphoma grade IIIb, unspecified site                                  | Diagnosis | ICD-10-CM |
| C82.41 | Follicular lymphoma grade IIIb, lymph nodes of head, face, and neck               | Diagnosis | ICD-10-CM |
| C82.42 | Follicular lymphoma grade IIIb, intrathoracic lymph nodes                         | Diagnosis | ICD-10-CM |
| C82.43 | Follicular lymphoma grade IIIb, intra-abdominal lymph nodes                       | Diagnosis | ICD-10-CM |
| C82.44 | Follicular lymphoma grade IIIb, lymph nodes of axilla and upper limb              | Diagnosis | ICD-10-CM |
| C82.45 | Follicular lymphoma grade IIIb, lymph nodes of inguinal region and lower limb     | Diagnosis | ICD-10-CM |
| C82.46 | Follicular lymphoma grade IIIb, intrapelvic lymph nodes                           | Diagnosis | ICD-10-CM |
| C82.47 | Follicular lymphoma grade IIIb, spleen                                            | Diagnosis | ICD-10-CM |
| C82.48 | Follicular lymphoma grade IIIb, lymph nodes of multiple sites                     | Diagnosis | ICD-10-CM |
| C82.49 | Follicular lymphoma grade IIIb, extranodal and solid organ sites                  | Diagnosis | ICD-10-CM |
| C82.5  | Diffuse follicle center lymphoma                                                  | Diagnosis | ICD-10-CM |
| C82.50 | Diffuse follicle center lymphoma, unspecified site                                | Diagnosis | ICD-10-CM |
| C82.51 | Diffuse follicle center lymphoma, lymph nodes of head, face, and neck             | Diagnosis | ICD-10-CM |
| C82.52 | Diffuse follicle center lymphoma, intrathoracic lymph nodes                       | Diagnosis | ICD-10-CM |
| C82.53 | Diffuse follicle center lymphoma, intra-abdominal lymph nodes                     | Diagnosis | ICD-10-CM |
| C82.54 | Diffuse follicle center lymphoma, lymph nodes of axilla and upper limb            | Diagnosis | ICD-10-CM |
| C82.55 | Diffuse follicle center lymphoma, lymph nodes of inguinal region and lower limb   | Diagnosis | ICD-10-CM |
| C82.56 | Diffuse follicle center lymphoma, intrapelvic lymph nodes                         | Diagnosis | ICD-10-CM |
| C82.57 | Diffuse follicle center lymphoma, spleen                                          | Diagnosis | ICD-10-CM |
| C82.58 | Diffuse follicle center lymphoma, lymph nodes of multiple sites                   | Diagnosis | ICD-10-CM |
| C82.59 | Diffuse follicle center lymphoma, extranodal and solid organ sites                | Diagnosis | ICD-10-CM |
| C82.6  | Cutaneous follicle center lymphoma                                                | Diagnosis | ICD-10-CM |
| C82.60 | Cutaneous follicle center lymphoma, unspecified site                              | Diagnosis | ICD-10-CM |
| C82.61 | Cutaneous follicle center lymphoma, lymph nodes of head, face, and neck           | Diagnosis | ICD-10-CM |
| C82.62 | Cutaneous follicle center lymphoma, intrathoracic lymph nodes                     | Diagnosis | ICD-10-CM |
| C82.63 | Cutaneous follicle center lymphoma, intra-abdominal lymph nodes                   | Diagnosis | ICD-10-CM |
| C82.64 | Cutaneous follicle center lymphoma, lymph nodes of axilla and upper limb          | Diagnosis | ICD-10-CM |
| C82.65 | Cutaneous follicle center lymphoma, lymph nodes of inguinal region and lower limb | Diagnosis | ICD-10-CM |
| C82.66 | Cutaneous follicle center lymphoma, intrapelvic lymph nodes                       | Diagnosis | ICD-10-CM |
| C82.67 | Cutaneous follicle center lymphoma, spleen                                        | Diagnosis | ICD-10-CM |
| C82.68 | Cutaneous follicle center lymphoma, lymph nodes of multiple sites                 | Diagnosis | ICD-10-CM |

|        |                                                                                  | Category  | Code Type |
| C90.01 | Multiple myeloma in remission                                                    | Diagnosis | ICD-10-CM |
| C90.02 | Multiple myeloma in relapse                                                      | Diagnosis | ICD-10-CM |
| C90.1  | Plasma cell leukemia                                                             | Diagnosis | ICD-10-CM |
| C90.10 | Plasma cell leukemia not having achieved remission                               | Diagnosis | ICD-10-CM |
| C90.11 | Plasma cell leukemia in remission                                                | Diagnosis | ICD-10-CM |
| C90.12 | Plasma cell leukemia in relapse                                                  | Diagnosis | ICD-10-CM |
| C90.2  | Extramedullary plasmacytoma                                                      | Diagnosis | ICD-10-CM |
| C90.20 | Extramedullary plasmacytoma not having achieved remission                        | Diagnosis | ICD-10-CM |
| C90.21 | Extramedullary plasmacytoma in remission                                         | Diagnosis | ICD-10-CM |
| C90.22 | Extramedullary plasmacytoma in relapse                                           | Diagnosis | ICD-10-CM |
| C90.3  | Solitary plasmacytoma                                                            | Diagnosis | ICD-10-CM |
| C90.30 | Solitary plasmacytoma not having achieved remission                              | Diagnosis | ICD-10-CM |
| C90.31 | Solitary plasmacytoma in remission                                               | Diagnosis | ICD-10-CM |
| C90.32 | Solitary plasmacytoma in relapse                                                 | Diagnosis | ICD-10-CM |
| C91    | Lymphoid leukemia                                                                | Diagnosis | ICD-10-CM |
| C91.0  | Acute lymphoblastic leukemia [ALL]                                               | Diagnosis | ICD-10-CM |
| C91.00 | Acute lymphoblastic leukemia not having achieved remission                       | Diagnosis | ICD-10-CM |
| C91.01 | Acute lymphoblastic leukemia, in remission                                       | Diagnosis | ICD-10-CM |
| C91.02 | Acute lymphoblastic leukemia, in relapse                                         | Diagnosis | ICD-10-CM |
| C91.1  | Chronic lymphocytic leukemia of B-cell type                                      | Diagnosis | ICD-10-CM |
| C91.10 | Chronic lymphocytic leukemia of B-cell type not having achieved remission        | Diagnosis | ICD-10-CM |
| C91.11 | Chronic lymphocytic leukemia of B-cell type in remission                         | Diagnosis | ICD-10-CM |
| C91.12 | Chronic lymphocytic leukemia of B-cell type in relapse                           | Diagnosis | ICD-10-CM |
| C91.3  | Prolymphocytic leukemia of B-cell type                                           | Diagnosis | ICD-10-CM |
| C91.30 | Prolymphocytic leukemia of B-cell type not having achieved remission             | Diagnosis | ICD-10-CM |
| C91.31 | Prolymphocytic leukemia of B-cell type, in remission                             | Diagnosis | ICD-10-CM |
| C91.32 | Prolymphocytic leukemia of B-cell type, in relapse                               | Diagnosis | ICD-10-CM |
| C91.4  | Hairy cell leukemia                                                              | Diagnosis | ICD-10-CM |
| C91.40 | Hairy cell leukemia not having achieved remission                                | Diagnosis | ICD-10-CM |
| C91.41 | Hairy cell leukemia, in remission                                                | Diagnosis | ICD-10-CM |
| C91.42 | Hairy cell leukemia, in relapse                                                  | Diagnosis | ICD-10-CM |
| C91.5  | Adult T-cell lymphoma/leukemia (HTLV-1-associated)                               | Diagnosis | ICD-10-CM |
| C91.50 | Adult T-cell lymphoma/leukemia (HTLV-1-associated) not having achieved remission | Diagnosis | ICD-10-CM |
| C91.51 | Adult T-cell lymphoma/leukemia (HTLV-1-associated), in remission                 | Diagnosis | ICD-10-CM |
| C91.52 | Adult T-cell lymphoma/leukemia (HTLV-1-associated), in relapse                   | Diagnosis | ICD-10-CM |
| C91.6  | Prolymphocytic leukemia of T-cell type                                           | Diagnosis | ICD-10-CM |
| C91.60 | Prolymphocytic leukemia of T-cell type not having achieved remission             | Diagnosis | ICD-10-CM |
| C91.61 | Prolymphocytic leukemia of T-cell type, in remission                             | Diagnosis | ICD-10-CM |
| C91.62 | Prolymphocytic leukemia of T-cell type, in relapse                               | Diagnosis | ICD-10-CM |
| C91.9  | Lymphoid leukemia, unspecified                                                   | Diagnosis | ICD-10-CM |
| C91.90 | Lymphoid leukemia, unspecified not having achieved remission                     | Diagnosis | ICD-10-CM |
| C91.91 | Lymphoid leukemia, unspecified, in remission                                     | Diagnosis | ICD-10-CM |
| C91.92 | Lymphoid leukemia, unspecified, in relapse                                       | Diagnosis | ICD-10-CM |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code   | Description                                                                        | Code      |           |
|--------|------------------------------------------------------------------------------------|-----------|-----------|

| C91.A  | Mature B-cell leukemia Burkitt-type                                                | Diagnosis | ICD-10-CM |
| C91.A0 | Mature B-cell leukemia Burkitt-type not having achieved remission                  | Diagnosis | ICD-10-CM |
| C91.A1 | Mature B-cell leukemia Burkitt-type, in remission                                  | Diagnosis | ICD-10-CM |
| C91.A2 | Mature B-cell leukemia Burkitt-type, in relapse                                    | Diagnosis | ICD-10-CM |
| C91.Z  | Other lymphoid leukemia                                                            | Diagnosis | ICD-10-CM |
| C91.Z0 | Other lymphoid leukemia not having achieved remission                              | Diagnosis | ICD-10-CM |
| C91.Z1 | Other lymphoid leukemia, in remission                                              | Diagnosis | ICD-10-CM |
| C91.Z2 | Other lymphoid leukemia, in relapse                                                | Diagnosis | ICD-10-CM |
| C92    | Myeloid leukemia                                                                   | Diagnosis | ICD-10-CM |
| C92.0  | Acute myeloblastic leukemia                                                        | Diagnosis | ICD-10-CM |
| C92.00 | Acute myeloblastic leukemia, not having achieved remission                         | Diagnosis | ICD-10-CM |
| C92.01 | Acute myeloblastic leukemia, in remission                                          | Diagnosis | ICD-10-CM |
| C92.02 | Acute myeloblastic leukemia, in relapse                                            | Diagnosis | ICD-10-CM |
| C92.1  | Chronic myeloid leukemia, BCR/ABL-positive                                         | Diagnosis | ICD-10-CM |
| C92.10 | Chronic myeloid leukemia, BCR/ABL-positive, not having achieved remission          | Diagnosis | ICD-10-CM |
| C92.11 | Chronic myeloid leukemia, BCR/ABL-positive, in remission                           | Diagnosis | ICD-10-CM |
| C92.12 | Chronic myeloid leukemia, BCR/ABL-positive, in relapse                             | Diagnosis | ICD-10-CM |
| C92.2  | Atypical chronic myeloid leukemia, BCR/ABL-negative                                | Diagnosis | ICD-10-CM |
| C92.20 | Atypical chronic myeloid leukemia, BCR/ABL-negative, not having achieved remission | Diagnosis | ICD-10-CM |
| C92.21 | Atypical chronic myeloid leukemia, BCR/ABL-negative, in remission                  | Diagnosis | ICD-10-CM |
| C92.22 | Atypical chronic myeloid leukemia, BCR/ABL-negative, in relapse                    | Diagnosis | ICD-10-CM |
| C92.3  | Myeloid sarcoma                                                                    | Diagnosis | ICD-10-CM |
| C92.30 | Myeloid sarcoma, not having achieved remission                                     | Diagnosis | ICD-10-CM |
| C92.31 | Myeloid sarcoma, in remission                                                      | Diagnosis | ICD-10-CM |
| C92.32 | Myeloid sarcoma, in relapse                                                        | Diagnosis | ICD-10-CM |
| C92.4  | Acute promyelocytic leukemia                                                       | Diagnosis | ICD-10-CM |
| C92.40 | Acute promyelocytic leukemia, not having achieved remission                        | Diagnosis | ICD-10-CM |
| C92.41 | Acute promyelocytic leukemia, in remission                                         | Diagnosis | ICD-10-CM |
| C92.42 | Acute promyelocytic leukemia, in relapse                                           | Diagnosis | ICD-10-CM |
| C92.5  | Acute myelomonocytic leukemia                                                      | Diagnosis | ICD-10-CM |
| C92.50 | Acute myelomonocytic leukemia, not having achieved remission                       | Diagnosis | ICD-10-CM |
| C92.51 | Acute myelomonocytic leukemia, in remission                                        | Diagnosis | ICD-10-CM |
| C92.52 | Acute myelomonocytic leukemia, in relapse                                          | Diagnosis | ICD-10-CM |
| C92.6  | Acute myeloid leukemia with 11q23-abnormality                                      | Diagnosis | ICD-10-CM |
| C92.60 | Acute myeloid leukemia with 11q23-abnormality not having achieved remission        | Diagnosis | ICD-10-CM |
| C92.61 | Acute myeloid leukemia with 11q23-abnormality in remission                         | Diagnosis | ICD-10-CM |
| C92.62 | Acute myeloid leukemia with 11q23-abnormality in relapse                           | Diagnosis | ICD-10-CM |
| C92.9  | Myeloid leukemia, unspecified                                                      | Diagnosis | ICD-10-CM |
| C92.90 | Myeloid leukemia, unspecified, not having achieved remission                       | Diagnosis | ICD-10-CM |
| C92.91 | Myeloid leukemia, unspecified in remission                                         | Diagnosis | ICD-10-CM |
| C92.92 | Myeloid leukemia, unspecified in relapse                                           | Diagnosis | ICD-10-CM |
| C92.A  | Acute myeloid leukemia with multilineage dysplasia                                 | Diagnosis | ICD-10-CM |
| C92.A0 | Acute myeloid leukemia with multilineage dysplasia, not having achieved remission  | Diagnosis | ICD-10-CM |

| C94.21 | Acute megakaryoblastic leukemia, in remission                       | Diagnosis | ICD-10-CM |
| C94.22 | Acute megakaryoblastic leukemia, in relapse                         | Diagnosis | ICD-10-CM |
| C94.3  | Mast cell leukemia                                                  | Diagnosis | ICD-10-CM |
| C94.30 | Mast cell leukemia not having achieved remission                    | Diagnosis | ICD-10-CM |
| C94.31 | Mast cell leukemia, in remission                                    | Diagnosis | ICD-10-CM |
| C94.32 | Mast cell leukemia, in relapse                                      | Diagnosis | ICD-10-CM |
| C94.4  | Acute panmyelosis with myelofibrosis                                | Diagnosis | ICD-10-CM |
| C94.40 | Acute panmyelosis with myelofibrosis not having achieved remission  | Diagnosis | ICD-10-CM |
| C94.41 | Acute panmyelosis with myelofibrosis, in remission                  | Diagnosis | ICD-10-CM |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code    | Description                                                                       | Code      |           |
|---------|-----------------------------------------------------------------------------------|-----------|-----------|
|         |                                                                                   | Category  | Code Type |
| C94.42  | Acute panmyelosis with myelofibrosis, in relapse                                  | Diagnosis | ICD-10-CM |
| C94.6   | Myelodysplastic disease, not classified                                           | Diagnosis | ICD-10-CM |
| C94.8   | Other specified leukemias                                                         | Diagnosis | ICD-10-CM |
| C94.80  | Other specified leukemias not having achieved remission                           | Diagnosis | ICD-10-CM |
| C94.81  | Other specified leukemias, in remission                                           | Diagnosis | ICD-10-CM |
| C94.82  | Other specified leukemias, in relapse                                             | Diagnosis | ICD-10-CM |
| C95     | Leukemia of unspecified cell type                                                 | Diagnosis | ICD-10-CM |
| C95.0   | Acute leukemia of unspecified cell type                                           | Diagnosis | ICD-10-CM |
| C95.00  | Acute leukemia of unspecified cell type not having achieved remission             | Diagnosis | ICD-10-CM |
| C95.01  | Acute leukemia of unspecified cell type, in remission                             | Diagnosis | ICD-10-CM |
| C95.02  | Acute leukemia of unspecified cell type, in relapse                               | Diagnosis | ICD-10-CM |
| C95.1   | Chronic leukemia of unspecified cell type                                         | Diagnosis | ICD-10-CM |
| C95.10  | Chronic leukemia of unspecified cell type not having achieved remission           | Diagnosis | ICD-10-CM |
| C95.11  | Chronic leukemia of unspecified cell type, in remission                           | Diagnosis | ICD-10-CM |
| C95.12  | Chronic leukemia of unspecified cell type, in relapse                             | Diagnosis | ICD-10-CM |
| C95.9   | Leukemia, unspecified                                                             | Diagnosis | ICD-10-CM |
| C95.90  | Leukemia, unspecified not having achieved remission                               | Diagnosis | ICD-10-CM |
| C95.91  | Leukemia, unspecified, in remission                                               | Diagnosis | ICD-10-CM |
| C95.92  | Leukemia, unspecified, in relapse                                                 | Diagnosis | ICD-10-CM |
| C96     | Other and unspecified malignant neoplasms of lymphoid, hematopoietic and related  | Diagnosis | ICD-10-CM |
| C96.0   | Multifocal and multisystemic (disseminated) Langerhans-cell histiocytosis         | Diagnosis | ICD-10-CM |
| C96.2   | Malignant mast cell neoplasm                                                      | Diagnosis | ICD-10-CM |
| C96.20  | Malignant mast cell neoplasm, unspecified                                         | Diagnosis | ICD-10-CM |
| C96.21  | Aggressive systemic mastocytosis                                                  | Diagnosis | ICD-10-CM |
| C96.22  | Mast cell sarcoma                                                                 | Diagnosis | ICD-10-CM |
| C96.29  | Other malignant mast cell neoplasm                                                | Diagnosis | ICD-10-CM |
| C96.4   | Sarcoma of dendritic cells (accessory cells)                                      | Diagnosis | ICD-10-CM |
| C96.5   | Multifocal and unisystemic Langerhans-cell histiocytosis                          | Diagnosis | ICD-10-CM |
| C96.6   | Unifocal Langerhans-cell histiocytosis                                            | Diagnosis | ICD-10-CM |
| C96.9   | Malignant neoplasm of lymphoid, hematopoietic and related tissue, unspecified     | Diagnosis | ICD-10-CM |
| C96.A   | Histiocytic sarcoma                                                               | Diagnosis | ICD-10-CM |
| C96.Z   | Other specified malignant neoplasms of lymphoid, hematopoietic and related tissue | Diagnosis | ICD-10-CM |
| D17.71  | Benign lipomatous neoplasm of kidney                                              | Diagnosis | ICD-10-CM |
| D30.0   | Benign neoplasm of kidney                                                         | Diagnosis | ICD-10-CM |
| D30.00  | Benign neoplasm of unspecified kidney                                             | Diagnosis | ICD-10-CM |
| D30.01  | Benign neoplasm of right kidney                                                   | Diagnosis | ICD-10-CM |
| D30.02  | Benign neoplasm of left kidney                                                    | Diagnosis | ICD-10-CM |
| D30.1   | Benign neoplasm of renal pelvis                                                   | Diagnosis | ICD-10-CM |
| D30.10  | Benign neoplasm of unspecified renal pelvis                                       | Diagnosis | ICD-10-CM |
| D30.11  | Benign neoplasm of right renal pelvis                                             | Diagnosis | ICD-10-CM |
| D30.12  | Benign neoplasm of left renal pelvis                                              | Diagnosis | ICD-10-CM |
| D3A.093 | Benign carcinoid tumor of the kidney                                              | Diagnosis | ICD-10-CM |
| D41.00  | Neoplasm of uncertain behavior of unspecified kidney                              | Diagnosis | ICD-10-CM |

| Code    | Description                                                                                                                                 | Code      |           |
|---------|---------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|         |                                                                                                                                             | Category  | Code Type |
| D41.01  | Neoplasm of uncertain behavior of right kidney                                                                                              | Diagnosis | ICD-10-CM |
| D41.02  | Neoplasm of uncertain behavior of left kidney                                                                                               | Diagnosis | ICD-10-CM |
| D41.10  | Neoplasm of uncertain behavior of unspecified renal pelvis                                                                                  | Diagnosis | ICD-10-CM |
| D41.11  | Neoplasm of uncertain behavior of right renal pelvis                                                                                        | Diagnosis | ICD-10-CM |
| D41.12  | Neoplasm of uncertain behavior of left renal pelvis                                                                                         | Diagnosis | ICD-10-CM |
| D45     | Polycythemia vera                                                                                                                           | Diagnosis | ICD-10-CM |
| D49.511 | Neoplasm of unspecified behavior of right kidney                                                                                            | Diagnosis | ICD-10-CM |
| D49.512 | Neoplasm of unspecified behavior of left kidney                                                                                             | Diagnosis | ICD-10-CM |
| D49.519 | Neoplasm of unspecified behavior of unspecified kidney                                                                                      | Diagnosis | ICD-10-CM |
| O9A     | Maternal malignant neoplasms, traumatic injuries and abuse classifiable elsewhere but complicating pregnancy, childbirth and the puerperium | Diagnosis | ICD-10-CM |
| O9A.1   | Malignant neoplasm complicating pregnancy, childbirth and the puerperium                                                                    | Diagnosis | ICD-10-CM |
| O9A.11  | Malignant neoplasm complicating pregnancy                                                                                                   | Diagnosis | ICD-10-CM |
| O9A.111 | Malignant neoplasm complicating pregnancy, first trimester                                                                                  | Diagnosis | ICD-10-CM |
| O9A.112 | Malignant neoplasm complicating pregnancy, second trimester                                                                                 | Diagnosis | ICD-10-CM |
| O9A.113 | Malignant neoplasm complicating pregnancy, third trimester                                                                                  | Diagnosis | ICD-10-CM |
| O9A.119 | Malignant neoplasm complicating pregnancy, unspecified trimester                                                                            | Diagnosis | ICD-10-CM |
| O9A.12  | Malignant neoplasm complicating childbirth                                                                                                  | Diagnosis | ICD-10-CM |
| O9A.13  | Malignant neoplasm complicating the puerperium                                                                                              | Diagnosis | ICD-10-CM |
| V10     | Personal history of malignant neoplasm                                                                                                      | Diagnosis | ICD-9-CM  |
| V10.0   | Personal history of malignant neoplasm of gastrointestinal tract                                                                            | Diagnosis | ICD-9-CM  |
| V10.00  | Personal history of malignant neoplasm of unspecified site in gastrointestinal tract                                                        | Diagnosis | ICD-9-CM  |
| V10.01  | Personal history of malignant neoplasm of tongue                                                                                            | Diagnosis | ICD-9-CM  |
| V10.02  | Personal history of malignant neoplasm of other and unspecified parts of oral cavity and pharynx                                            | Diagnosis | ICD-9-CM  |
| V10.03  | Personal history of malignant neoplasm of esophagus                                                                                         | Diagnosis | ICD-9-CM  |
| V10.04  | Personal history of malignant neoplasm of stomach                                                                                           | Diagnosis | ICD-9-CM  |
| V10.05  | Personal history of malignant neoplasm of large intestine                                                                                   | Diagnosis | ICD-9-CM  |
| V10.06  | Personal history of malignant neoplasm of rectum, rectosigmoid junction, and anus                                                           | Diagnosis | ICD-9-CM  |
| V10.07  | Personal history of malignant neoplasm of liver                                                                                             | Diagnosis | ICD-9-CM  |
| V10.09  | Personal history of malignant neoplasm of other site in gastrointestinal tract                                                              | Diagnosis | ICD-9-CM  |
| V10.1   | Personal history of malignant neoplasm of trachea, bronchus, and lung                                                                       | Diagnosis | ICD-9-CM  |
| V10.11  | Personal history of malignant neoplasm of bronchus and lung                                                                                 | Diagnosis | ICD-9-CM  |
| V10.12  | Personal history of malignant neoplasm of trachea                                                                                           | Diagnosis | ICD-9-CM  |
| V10.2   | Personal history of malignant neoplasm of other respiratory and intrathoracic organs                                                        | Diagnosis | ICD-9-CM  |
| V10.20  | Personal history of malignant neoplasm of unspecified respiratory organ                                                                     | Diagnosis | ICD-9-CM  |
| V10.21  | Personal history of malignant neoplasm of larynx                                                                                            | Diagnosis | ICD-9-CM  |
| V10.22  | Personal history of malignant neoplasm of nasal cavities, middle ear, and accessory                                                         | Diagnosis | ICD-9-CM  |
| V10.29  | Personal history of malignant neoplasm of other respiratory and intrathoracic organs                                                        | Diagnosis | ICD-9-CM  |
| V10.3   | Personal history of malignant neoplasm of breast                                                                                            | Diagnosis | ICD-9-CM  |
| V10.4   | Personal history of malignant neoplasm of genital organs                                                                                    | Diagnosis | ICD-9-CM  |
| V10.40  | Personal history of malignant neoplasm of unspecified female genital organ                                                                  | Diagnosis | ICD-9-CM  |
| V10.41  | Personal history of malignant neoplasm of cervix uteri                                                                                      | Diagnosis | ICD-9-CM  |

| Z85.59  | Personal history of malignant neoplasm of other urinary tract organ                                                                                                                                                                                        | Diagnosis | ICD-10-CM |
| Z85.6   | Personal history of leukemia                                                                                                                                                                                                                               | Diagnosis | ICD-10-CM |
| Z85.7   | Personal history of other malignant neoplasms of lymphoid, hematopoietic and related tissues                                                                                                                                                               | Diagnosis | ICD-10-CM |
| Z85.71  | Personal history of Hodgkin lymphoma                                                                                                                                                                                                                       | Diagnosis | ICD-10-CM |
| Z85.72  | Personal history of non-Hodgkin lymphomas                                                                                                                                                                                                                  | Diagnosis | ICD-10-CM |
| Z85.79  | Personal history of other malignant neoplasms of lymphoid, hematopoietic and related tissues                                                                                                                                                               | Diagnosis | ICD-10-CM |
| Z85.8   | Personal history of malignant neoplasms of other organs and systems                                                                                                                                                                                        | Diagnosis | ICD-10-CM |
| Z85.81  | Personal history of malignant neoplasm of lip, oral cavity, and pharynx                                                                                                                                                                                    | Diagnosis | ICD-10-CM |
| Z85.810 | Personal history of malignant neoplasm of tongue                                                                                                                                                                                                           | Diagnosis | ICD-10-CM |
| Z85.818 | Personal history of malignant neoplasm of other sites of lip, oral cavity, and pharynx                                                                                                                                                                     | Diagnosis | ICD-10-CM |
| Z85.819 | Personal history of malignant neoplasm of unspecified site of lip, oral cavity, and pharynx                                                                                                                                                                | Diagnosis | ICD-10-CM |
| Z85.82  | Personal history of malignant neoplasm of skin                                                                                                                                                                                                             | Diagnosis | ICD-10-CM |
| Z85.820 | Personal history of malignant melanoma of skin                                                                                                                                                                                                             | Diagnosis | ICD-10-CM |
| Z85.828 | Personal history of other malignant neoplasm of skin                                                                                                                                                                                                       | Diagnosis | ICD-10-CM |
| Z85.83  | Personal history of malignant neoplasm of bone and soft tissue                                                                                                                                                                                             | Diagnosis | ICD-10-CM |
| Z85.830 | Personal history of malignant neoplasm of bone                                                                                                                                                                                                             | Diagnosis | ICD-10-CM |
| Z85.831 | Personal history of malignant neoplasm of soft tissue                                                                                                                                                                                                      | Diagnosis | ICD-10-CM |
| Z85.84  | Personal history of malignant neoplasm of eye and nervous tissue                                                                                                                                                                                           | Diagnosis | ICD-10-CM |
| Z85.840 | Personal history of malignant neoplasm of eye                                                                                                                                                                                                              | Diagnosis | ICD-10-CM |
| Z85.841 | Personal history of malignant neoplasm of brain                                                                                                                                                                                                            | Diagnosis | ICD-10-CM |
| Z85.848 | Personal history of malignant neoplasm of other parts of nervous tissue                                                                                                                                                                                    | Diagnosis | ICD-10-CM |
| Z85.85  | Personal history of malignant neoplasm of endocrine glands                                                                                                                                                                                                 | Diagnosis | ICD-10-CM |
| Z85.850 | Personal history of malignant neoplasm of thyroid                                                                                                                                                                                                          | Diagnosis | ICD-10-CM |
| Z85.858 | Personal history of malignant neoplasm of other endocrine glands                                                                                                                                                                                           | Diagnosis | ICD-10-CM |
| Z85.89  | Personal history of malignant neoplasm of other organs and systems                                                                                                                                                                                         | Diagnosis | ICD-10-CM |
| Z85.9   | Personal history of malignant neoplasm, unspecified                                                                                                                                                                                                        | Diagnosis | ICD-10-CM |
| Z92.21  | Personal history of antineoplastic chemotherapy                                                                                                                                                                                                            | Diagnosis | ICD-10-CM |
| 00.10   | Implantation of chemotherapeutic agent                                                                                                                                                                                                                     | Procedure | ICD-9-CM  |
| 00.15   | High-dose infusion interleukin-2 [IL-2]                                                                                                                                                                                                                    | Procedure | ICD-9-CM  |
| 00.18   | Infusion of immunosuppressive antibody therapy                                                                                                                                                                                                             | Procedure | ICD-9-CM  |
| 0083U   | Oncology, response to chemotherapy drugs using motility contrast tomography, fresh or frozen tissue, reported as likelihood of sensitivity or resistance to drugs or drug combinations                                                                     | Procedure | CPT-4     |
| 0135T   | Ablation, renal tumor(s), unilateral, percutaneous, cryotherapy                                                                                                                                                                                            | Procedure | CPT-3     |
| 0174U   | Oncology (solid tumor), mass spectrometric 30 protein targets, formalin-fixed paraffin-embedded tissue, prognostic and predictive algorithm reported as likely, unlikely, or uncertain benefit of 39 chemotherapy and targeted therapeutic oncology agents | Procedure | CPT-4     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                      | Code      |           |

|       |                                                                                                                                                                                                                                                                                                                                                                                                  | Category  | Code Type |
| 0324U | Oncology (ovarian), spheroid cell culture, 4-drug panel (carboplatin, doxorubicin, gemcitabine, paclitaxel), tumor chemotherapy response prediction for each drug                                                                                                                                                                                                                                | Procedure | CPT-4     |
| 0519F | Planned chemotherapy regimen, including at a minimum: drug(s) prescribed, dose, and duration, documented prior to initiation of a new treatment regimen (ONC)                                                                                                                                                                                                                                    | Procedure | CPT-2     |
| 0581T | Ablation, malignant breast tumor(s), percutaneous, cryotherapy, including imaging guidance when performed, unilateral                                                                                                                                                                                                                                                                            | Procedure | CPT-3     |
| 0600T | Ablation, irreversible electroporation; 1 or more tumors per organ, including imaging guidance, when performed, percutaneous                                                                                                                                                                                                                                                                     | Procedure | CPT-3     |
| 0601T | Ablation, irreversible electroporation; 1 or more tumors, including fluoroscopic and ultrasound guidance, when performed, open                                                                                                                                                                                                                                                                   | Procedure | CPT-3     |
| 0708T | Intradermal cancer immunotherapy; preparation and initial injection                                                                                                                                                                                                                                                                                                                              | Procedure | CPT-3     |
| 0709T | Intradermal cancer immunotherapy; each additional injection (List separately in addition to code for primary procedure)                                                                                                                                                                                                                                                                          | Procedure | CPT-3     |
| 0735T | Preparation of tumor cavity, with placement of a radiation therapy applicator for intraoperative radiation therapy (IORT) concurrent with primary craniotomy (List separately in addition to code for primary procedure)                                                                                                                                                                         | Procedure | CPT-3     |
| 0763T | Digitization of glass microscope slides for morphometric analysis, tumor immunohistochemistry (eg, Her-2/neu, estrogen receptor/progesterone receptor), quantitative or semiquantitative, per specimen, each single antibody stain procedure, manual (List separately in addition to code for primary procedure)                                                                                 | Procedure | CPT-3     |
| 0794T | Patient-specific, assistive, rules-based algorithm for ranking pharmaco-oncologic treatment options based on the patient's tumor-specific cancer marker information obtained from prior molecular pathology, immunohistochemical, or other pathology results which have been previously interpreted and reported separately                                                                      | Procedure | CPT-3     |
| 17.70 | Intravenous infusion of clofarabine                                                                                                                                                                                                                                                                                                                                                              | Procedure | ICD-9-CM  |
| 17303 | Chemosurgery (Mohs' Micrographic Technique), First Stage, Fixed Tissue Technique, Including Removal Of All Gross Tumor And Application Of Fixative                                                                                                                                                                                                                                               | Procedure | CPT-4     |
| 17304 | Chemosurgery (Mohs micrographic technique), including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and complete histopathologic preparation including the first routine stain (eg, hematoxylin and eosin, toluidine blue); first stage, fresh tissue technique, up to 5 specimens | Procedure | CPT-4     |
| 17305 | Chemosurgery (Mohs micrographic technique), including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and complete histopathologic preparation including the first routine stain (eg, hematoxylin and eosin, toluidine blue); second stage, fixed or fresh tissue, up to 5 specimens | Procedure | CPT-4     |
| 17306 | Chemosurgery (Mohs micrographic technique), including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and complete histopathologic preparation including the first routine stain (eg, hematoxylin and eosin, toluidine blue); third stage, fixed or fresh tissue, up to 5 specimens  | Procedure | CPT-4     |

List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| <b>Code</b> | <b>Description</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | <b>Code Category</b> | <b>Code Type</b> |
|-------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|------------------|
| 17307       | Chemosurgery (Mohs micrographic technique), including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and complete histopathologic preparation including the first routine stain (eg, hematoxylin and eosin, toluidine blue); additional stage(s), up to 5 specimens, each stage                                                                                                                                                                                             | Procedure            | CPT-4            |
| 17310       | Chemosurgery (Mohs micrographic technique), including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and complete histopathologic preparation including the first routine stain (eg, hematoxylin and eosin, toluidine blue); each additional specimen, after the first 5 specimens, fixed or fresh tissue, any stage (List separately in addition to code for primary procedure)                                                                                            | Procedure            | CPT-4            |
| 17311       | Mohs micrographic technique, including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and histopathologic preparation including routine stain(s) (eg, hematoxylin and eosin, toluidine blue), head, neck, hands, feet, genitalia, or any location with surgery directly involving muscle, cartilage, bone, tendon, major nerves, or vessels; first stage, up to 5 tissue blocks                                                                                             | Procedure            | CPT-4            |
| 17312       | Mohs micrographic technique, including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and histopathologic preparation including routine stain(s) (eg, hematoxylin and eosin, toluidine blue), head, neck, hands, feet, genitalia, or any location with surgery directly involving muscle, cartilage, bone, tendon, major nerves, or vessels; each additional stage after the first stage, up to 5 tissue blocks (List separately in addition to code for primary procedure) | Procedure            | CPT-4            |
| 17313       | Mohs micrographic technique, including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and histopathologic preparation including routine stain(s) (eg, hematoxylin and eosin, toluidine blue), of the trunk, arms, or legs; first stage, up to 5 tissue blocks                                                                                                                                                                                                               | Procedure            | CPT-4            |
| 17314       | Mohs micrographic technique, including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and histopathologic preparation including routine stain(s) (eg, hematoxylin and eosin, toluidine blue), of the trunk, arms, or legs; each additional stage after the first stage, up to 5 tissue blocks (List separately in addition to code for primary procedure)                                                                                                                   | Procedure            | CPT-4            |
| 17315       | Mohs micrographic technique, including removal of all gross tumor, surgical excision of tissue specimens, mapping, color coding of specimens, microscopic examination of specimens by the surgeon, and histopathologic preparation including routine stain(s) (eg, hematoxylin and eosin, toluidine blue), each additional block after the first 5 tissue blocks, any stage (List separately in addition to code for primary procedure)                                                                                                                                                  | Procedure            | CPT-4            |
| 19260       | Excision of chest wall tumor including ribs                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Procedure            | CPT-4            |
| 19271       | Excision of chest wall tumor involving ribs, with plastic reconstruction; without mediastinal lymphadenectomy                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Procedure            | CPT-4            |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                      | Code      | Code Type |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                  | Category  |           |
| 19272 | Excision of chest wall tumor involving ribs, with plastic reconstruction; with mediastinal lymphadenectomy                                                                                                                       | Procedure | CPT-4     |
| 19294 | Preparation of tumor cavity, with placement of a radiation therapy applicator for intraoperative radiation therapy (IORT) concurrent with partial mastectomy (List separately in addition to code for primary procedure)         | Procedure | CPT-4     |
| 20982 | Ablation therapy for reduction or eradication of 1 or more bone tumors (eg, metastasis) including adjacent soft tissue when involved by tumor extension, percutaneous, including imaging guidance when performed; radiofrequency | Procedure | CPT-4     |
| 20983 | Ablation therapy for reduction or eradication of 1 or more bone tumors (eg, metastasis) including adjacent soft tissue when involved by tumor extension, percutaneous, including imaging guidance when performed; cryoablation   | Procedure | CPT-4     |
| 21011 | Excision, tumor, soft tissue of face or scalp, subcutaneous; less than 2 cm                                                                                                                                                      | Procedure | CPT-4     |
| 21012 | Excision, tumor, soft tissue of face or scalp, subcutaneous; 2 cm or greater                                                                                                                                                     | Procedure | CPT-4     |
| 21013 | Excision, tumor, soft tissue of face and scalp, subfascial (eg, subgaleal, intramuscular); less than 2 cm                                                                                                                        | Procedure | CPT-4     |
| 21014 | Excision, tumor, soft tissue of face and scalp, subfascial (eg, subgaleal, intramuscular); 2 cm or greater                                                                                                                       | Procedure | CPT-4     |
| 21015 | Radical resection of tumor (eg, sarcoma), soft tissue of face or scalp; less than 2 cm                                                                                                                                           | Procedure | CPT-4     |
| 21016 | Radical resection of tumor (eg, sarcoma), soft tissue of face or scalp; 2 cm or greater                                                                                                                                          | Procedure | CPT-4     |
| 21034 | Excision of malignant tumor of maxilla or zygoma                                                                                                                                                                                 | Procedure | CPT-4     |
| 21044 | Excision of malignant tumor of mandible;                                                                                                                                                                                         | Procedure | CPT-4     |
| 21045 | Excision of malignant tumor of mandible; radical resection                                                                                                                                                                       | Procedure | CPT-4     |
| 21552 | Excision, tumor, soft tissue of neck or anterior thorax, subcutaneous; 3 cm or greater                                                                                                                                           | Procedure | CPT-4     |
| 21554 | Excision, tumor, soft tissue of neck or anterior thorax, subfascial (eg, intramuscular); 5 cm or greater                                                                                                                         | Procedure | CPT-4     |
| 21555 | Excision, tumor, soft tissue of neck or anterior thorax, subcutaneous; less than 3 cm                                                                                                                                            | Procedure | CPT-4     |
| 21556 | Excision, tumor, soft tissue of neck or anterior thorax, subfascial (eg, intramuscular); less than 5 cm                                                                                                                          | Procedure | CPT-4     |
| 21557 | Radical resection of tumor (eg, sarcoma), soft tissue of neck or anterior thorax; less than 5 cm                                                                                                                                 | Procedure | CPT-4     |
| 21558 | Radical resection of tumor (eg, sarcoma), soft tissue of neck or anterior thorax; 5 cm or greater                                                                                                                                | Procedure | CPT-4     |
| 21601 | Excision of chest wall tumor including rib(s)                                                                                                                                                                                    | Procedure | CPT-4     |
| 21602 | Excision of chest wall tumor involving rib(s), with plastic reconstruction; without mediastinal lymphadenectomy                                                                                                                  | Procedure | CPT-4     |
| 21603 | Excision of chest wall tumor involving rib(s), with plastic reconstruction; with mediastinal lymphadenectomy                                                                                                                     | Procedure | CPT-4     |
| 21930 | Excision, tumor, soft tissue of back or flank, subcutaneous; less than 3 cm                                                                                                                                                      | Procedure | CPT-4     |
| 21931 | Excision, tumor, soft tissue of back or flank, subcutaneous; 3 cm or greater                                                                                                                                                     | Procedure | CPT-4     |
| 21932 | Excision, tumor, soft tissue of back or flank, subfascial (eg, intramuscular); less than 5 cm                                                                                                                                    | Procedure | CPT-4     |
| 21933 | Excision, tumor, soft tissue of back or flank, subfascial (eg, intramuscular); 5 cm or greater                                                                                                                                   | Procedure | CPT-4     |
| 21935 | Radical resection of tumor (eg, sarcoma), soft tissue of back or flank; less than 5 cm                                                                                                                                           | Procedure | CPT-4     |
| 21936 | Radical resection of tumor (eg, sarcoma), soft tissue of back or flank; 5 cm or greater                                                                                                                                          | Procedure | CPT-4     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                | Code      |           |
|-------|------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                            | Category  | Code Type |
| 22105 | PART RESECT VERTEBRAL COMPONENT TUMOR; CERV                                                                | Procedure | CPT-4     |
| 22106 | PART RESECT VERTEBRAL COMPONENT TUMOR; THORACIC                                                            | Procedure | CPT-4     |
| 22107 | PART RESECT VERTEBRAL COMPONENT TUMOR; LUMBAR                                                              | Procedure | CPT-4     |
| 22900 | Excision, tumor, soft tissue of abdominal wall, subfascial (eg, intramuscular); less than 5 cm             | Procedure | CPT-4     |
| 22901 | Excision, tumor, soft tissue of abdominal wall, subfascial (eg, intramuscular); 5 cm or greater            | Procedure | CPT-4     |
| 22902 | Excision, tumor, soft tissue of abdominal wall, subcutaneous; less than 3 cm                               | Procedure | CPT-4     |
| 22903 | Excision, tumor, soft tissue of abdominal wall, subcutaneous; 3 cm or greater                              | Procedure | CPT-4     |
| 22904 | Radical resection of tumor (eg, sarcoma), soft tissue of abdominal wall; less than 5 cm                    | Procedure | CPT-4     |
| 22905 | Radical resection of tumor (eg, sarcoma), soft tissue of abdominal wall; 5 cm or greater                   | Procedure | CPT-4     |
| 23071 | Excision, tumor, soft tissue of shoulder area, subcutaneous; 3 cm or greater                               | Procedure | CPT-4     |
| 23073 | Excision, tumor, soft tissue of shoulder area, subfascial (eg, intramuscular); 5 cm or greater             | Procedure | CPT-4     |
| 23075 | Excision, tumor, soft tissue of shoulder area, subcutaneous; less than 3 cm                                | Procedure | CPT-4     |
| 23076 | Excision, tumor, soft tissue of shoulder area, subfascial (eg, intramuscular); less than 5 cm              | Procedure | CPT-4     |
| 23077 | Radical resection of tumor (eg, sarcoma), soft tissue of shoulder area; less than 5 cm                     | Procedure | CPT-4     |
| 23078 | Radical resection of tumor (eg, sarcoma), soft tissue of shoulder area; 5 cm or greater                    | Procedure | CPT-4     |
| 23200 | Radical resection of tumor; clavicle                                                                       | Procedure | CPT-4     |
| 23210 | Radical resection of tumor; scapula                                                                        | Procedure | CPT-4     |
| 23220 | Radical resection of tumor, proximal humerus                                                               | Procedure | CPT-4     |
| 23221 | Radical resection of bone tumor, proximal humerus; with autograft (includes obtaining graft)               | Procedure | CPT-4     |
| 23222 | Radical resection of bone tumor, proximal humerus; with prosthetic replacement                             | Procedure | CPT-4     |
| 24071 | Excision, tumor, soft tissue of upper arm or elbow area, subcutaneous; 3 cm or greater                     | Procedure | CPT-4     |
| 24073 | Excision, tumor, soft tissue of upper arm or elbow area, subfascial (eg, intramuscular); 5 cm or greater   | Procedure | CPT-4     |
| 24075 | Excision, tumor, soft tissue of upper arm or elbow area, subcutaneous; less than 3 cm                      | Procedure | CPT-4     |
| 24076 | Excision, tumor, soft tissue of upper arm or elbow area, subfascial (eg, intramuscular); less than 5 cm    | Procedure | CPT-4     |
| 24077 | Radical resection of tumor (eg, sarcoma), soft tissue of upper arm or elbow area; less than 5 cm           | Procedure | CPT-4     |
| 24079 | Radical resection of tumor (eg, sarcoma), soft tissue of upper arm or elbow area; 5 cm or greater          | Procedure | CPT-4     |
| 24150 | Radical resection of tumor, shaft or distal humerus                                                        | Procedure | CPT-4     |
| 24151 | Radical resection for tumor, shaft or distal humerus; with autograft (includes obtaining graft)            | Procedure | CPT-4     |
| 24152 | Radical resection of tumor, radial head or neck                                                            | Procedure | CPT-4     |
| 24153 | Radical resection for tumor, radial head or neck; with autograft (includes obtaining graft)                | Procedure | CPT-4     |
| 25071 | Excision, tumor, soft tissue of forearm and/or wrist area, subcutaneous; 3 cm or greater                   | Procedure | CPT-4     |
| 25073 | Excision, tumor, soft tissue of forearm and/or wrist area, subfascial (eg, intramuscular); 3 cm or greater | Procedure | CPT-4     |
| 25075 | Excision, tumor, soft tissue of forearm and/or wrist area, subcutaneous; less than 3 cm                    | Procedure | CPT-4     |

| Code  | Description                                                                                                                  | Code Category | Code Type |
|-------|------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| 25076 | Excision, tumor, soft tissue of forearm and/or wrist area, subfascial (eg, intramuscular); less than 3 cm                    | Procedure     | CPT-4     |
| 25077 | Radical resection of tumor (eg, sarcoma), soft tissue of forearm and/or wrist area; less than 3 cm                           | Procedure     | CPT-4     |
| 25078 | Radical resection of tumor (eg, sarcoma), soft tissue of forearm and/or wrist area; 3 cm or greater                          | Procedure     | CPT-4     |
| 25170 | Radical resection of tumor, radius or ulna                                                                                   | Procedure     | CPT-4     |
| 26111 | Excision, tumor or vascular malformation, soft tissue of hand or finger, subcutaneous; 1.5 cm or greater                     | Procedure     | CPT-4     |
| 26113 | Excision, tumor, soft tissue, or vascular malformation, of hand or finger, subfascial (eg, intramuscular); 1.5 cm or greater | Procedure     | CPT-4     |
| 26115 | Excision, tumor or vascular malformation, soft tissue of hand or finger, subcutaneous; less than 1.5 cm                      | Procedure     | CPT-4     |
| 26116 | Excision, tumor, soft tissue, or vascular malformation, of hand or finger, subfascial (eg, intramuscular); less than 1.5 cm  | Procedure     | CPT-4     |
| 26117 | Radical resection of tumor (eg, sarcoma), soft tissue of hand or finger; less than 3 cm                                      | Procedure     | CPT-4     |
| 26118 | Radical resection of tumor (eg, sarcoma), soft tissue of hand or finger; 3 cm or greater                                     | Procedure     | CPT-4     |
| 26250 | Radical resection of tumor, metacarpal                                                                                       | Procedure     | CPT-4     |
| 26255 | Radical resection, metacarpal (eg, tumor); with autograft (includes obtaining graft)                                         | Procedure     | CPT-4     |
| 26260 | Radical resection of tumor, proximal or middle phalanx of finger                                                             | Procedure     | CPT-4     |
| 26261 | Radical resection, proximal or middle phalanx of finger (eg, tumor); with autograft (includes obtaining graft)               | Procedure     | CPT-4     |
| 26262 | Radical resection of tumor, distal phalanx of finger                                                                         | Procedure     | CPT-4     |
| 27043 | Excision, tumor, soft tissue of pelvis and hip area, subcutaneous; 3 cm or greater                                           | Procedure     | CPT-4     |
| 27045 | Excision, tumor, soft tissue of pelvis and hip area, subfascial (eg, intramuscular); 5 cm or greater                         | Procedure     | CPT-4     |
| 27047 | Excision, tumor, soft tissue of pelvis and hip area, subcutaneous; less than 3 cm                                            | Procedure     | CPT-4     |
| 27048 | Excision, tumor, soft tissue of pelvis and hip area, subfascial (eg, intramuscular); less than 5 cm                          | Procedure     | CPT-4     |
| 27049 | Radical resection of tumor (eg, sarcoma), soft tissue of pelvis and hip area; less than 5 cm                                 | Procedure     | CPT-4     |
| 27059 | Radical resection of tumor (eg, sarcoma), soft tissue of pelvis and hip area; 5 cm or greater                                | Procedure     | CPT-4     |
| 27075 | Radical resection of tumor; wing of ilium, 1 pubic or ischial ramus or symphysis pubis                                       | Procedure     | CPT-4     |
| 27076 | Radical resection of tumor; ilium, including acetabulum, both pubic rami, or ischium and acetabulum                          | Procedure     | CPT-4     |
| 27077 | Radical resection of tumor; innominate bone, total                                                                           | Procedure     | CPT-4     |
| 27078 | Radical resection of tumor; ischial tuberosity and greater trochanter of femur                                               | Procedure     | CPT-4     |
| 27079 | Radical resection of tumor or infection; ischial tuberosity and greater trochanter of femur, with skin flaps                 | Procedure     | CPT-4     |
| 27327 | Excision, tumor, soft tissue of thigh or knee area, subcutaneous; less than 3 cm                                             | Procedure     | CPT-4     |
| 27328 | Excision, tumor, soft tissue of thigh or knee area, subfascial (eg, intramuscular); less than 5 cm                           | Procedure     | CPT-4     |
| 27329 | Radical resection of tumor (eg, sarcoma), soft tissue of thigh or knee area; less than 5 cm                                  | Procedure     | CPT-4     |
| 27337 | Excision, tumor, soft tissue of thigh or knee area, subcutaneous; 3 cm or greater                                            | Procedure     | CPT-4     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                          | Code      | Code Type |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       | Category                                                                                                                                                                                             |           |           |
| 27339 | Excision, tumor, soft tissue of thigh or knee area, subfascial (eg, intramuscular); 5 cm or greater                                                                                                  | Procedure | CPT-4     |
| 27364 | Radical resection of tumor (eg, sarcoma), soft tissue of thigh or knee area; 5 cm or greater                                                                                                         | Procedure | CPT-4     |
| 27365 | Radical resection of tumor, femur or knee                                                                                                                                                            | Procedure | CPT-4     |
| 27615 | Radical resection of tumor (eg, sarcoma), soft tissue of leg or ankle area; less than 5 cm                                                                                                           | Procedure | CPT-4     |
| 27616 | Radical resection of tumor (eg, sarcoma), soft tissue of leg or ankle area; 5 cm or greater                                                                                                          | Procedure | CPT-4     |
| 27618 | Excision, tumor, soft tissue of leg or ankle area, subcutaneous; less than 3 cm                                                                                                                      | Procedure | CPT-4     |
| 27619 | Excision, tumor, soft tissue of leg or ankle area, subfascial (eg, intramuscular); less than 5 cm                                                                                                    | Procedure | CPT-4     |
| 27632 | Excision, tumor, soft tissue of leg or ankle area, subcutaneous; 3 cm or greater                                                                                                                     | Procedure | CPT-4     |
| 27634 | Excision, tumor, soft tissue of leg or ankle area, subfascial (eg, intramuscular); 5 cm or greater                                                                                                   | Procedure | CPT-4     |
| 27645 | Radical resection of tumor; tibia                                                                                                                                                                    | Procedure | CPT-4     |
| 27646 | Radical resection of tumor; fibula                                                                                                                                                                   | Procedure | CPT-4     |
| 27647 | Radical resection of tumor; talus or calcaneus                                                                                                                                                       | Procedure | CPT-4     |
| 28039 | Excision, tumor, soft tissue of foot or toe, subcutaneous; 1.5 cm or greater                                                                                                                         | Procedure | CPT-4     |
| 28041 | Excision, tumor, soft tissue of foot or toe, subfascial (eg, intramuscular); 1.5 cm or greater                                                                                                       | Procedure | CPT-4     |
| 28043 | Excision, tumor, soft tissue of foot or toe, subcutaneous; less than 1.5 cm                                                                                                                          | Procedure | CPT-4     |
| 28045 | Excision, tumor, soft tissue of foot or toe, subfascial (eg, intramuscular); less than 1.5 cm                                                                                                        | Procedure | CPT-4     |
| 28046 | Radical resection of tumor (eg, sarcoma), soft tissue of foot or toe; less than 3 cm                                                                                                                 | Procedure | CPT-4     |
| 28047 | Radical resection of tumor (eg, sarcoma), soft tissue of foot or toe; 3 cm or greater                                                                                                                | Procedure | CPT-4     |
| 28171 | Radical resection of tumor; tarsal (except talus or calcaneus)                                                                                                                                       | Procedure | CPT-4     |
| 28173 | Radical resection of tumor; metatarsal                                                                                                                                                               | Procedure | CPT-4     |
| 28175 | Radical resection of tumor; phalanx of toe                                                                                                                                                           | Procedure | CPT-4     |
| 31300 | Laryngotomy (thyrotomy, laryngofissure), with removal of tumor or laryngocele, cordectomy                                                                                                            | Procedure | CPT-4     |
| 31540 | Laryngoscopy, direct, operative, with excision of tumor and/or stripping of vocal cords or epiglottis;                                                                                               | Procedure | CPT-4     |
| 31541 | Laryngoscopy, direct, operative, with excision of tumor and/or stripping of vocal cords or epiglottis; with operating microscope or telescope                                                        | Procedure | CPT-4     |
| 31640 | Bronchoscopy, rigid or flexible, including fluoroscopic guidance, when performed; with excision of tumor                                                                                             | Procedure | CPT-4     |
| 31641 | Bronchoscopy, rigid or flexible, including fluoroscopic guidance, when performed; with destruction of tumor or relief of stenosis by any method other than excision (eg, laser therapy, cryotherapy) | Procedure | CPT-4     |
| 31785 | Excision of tracheal tumor or carcinoma; cervical                                                                                                                                                    | Procedure | CPT-4     |
| 31786 | Excision of tracheal tumor or carcinoma; thoracic                                                                                                                                                    | Procedure | CPT-4     |
| 32503 | Resection of apical lung tumor (eg, Pancoast tumor), including chest wall resection, rib(s) resection(s), neurovascular dissection, when performed; without chest wall reconstruction(s)             | Procedure | CPT-4     |
| 32504 | Resection of apical lung tumor (eg, Pancoast tumor), including chest wall resection, rib(s) resection(s), neurovascular dissection, when performed; with chest wall reconstruction                   | Procedure | CPT-4     |
| 3250F | Specimen site other than anatomic location of primary tumor (PATH)                                                                                                                                   | Procedure | CPT-2     |

List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                        | Code      | Code Type |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
| 3260F | pT category (primary tumor), pN category (regional lymph nodes), and histologic grade documented in pathology report (PATH)                                                                                                        | Procedure | CPT-2     |
| 32661 | Thoracoscopy, surgical; with excision of pericardial cyst, tumor, or mass                                                                                                                                                          | Procedure | CPT-4     |
| 32662 | Thoracoscopy, surgical; with excision of mediastinal cyst, tumor, or mass                                                                                                                                                          | Procedure | CPT-4     |
| 3268F | Prostate-specific antigen (PSA), and primary tumor (T) stage, and Gleason score documented prior to initiation of treatment (PRCA)                                                                                                 | Procedure | CPT-2     |
| 3269F | Bone scan performed prior to initiation of treatment or at any time since diagnosis of prostate cancer (PRCA)                                                                                                                      | Procedure | CPT-2     |
| 3270F | Bone scan not performed prior to initiation of treatment nor at any time since diagnosis of prostate cancer (PRCA)                                                                                                                 | Procedure | CPT-2     |
| 32994 | Ablation therapy for reduction or eradication of 1 or more pulmonary tumor(s) including pleura or chest wall when involved by tumor extension, percutaneous, including imaging guidance when performed, unilateral; cryoablation   | Procedure | CPT-4     |
| 32998 | Ablation therapy for reduction or eradication of 1 or more pulmonary tumor(s) including pleura or chest wall when involved by tumor extension, percutaneous, including imaging guidance when performed, unilateral; radiofrequency | Procedure | CPT-4     |
| 3301F | Cancer stage documented in medical record as metastatic and reviewed (ONC)                                                                                                                                                         | Procedure | CPT-2     |
| 3302F | AJCC Cancer Stage 0, documented (ONC)1, (ML)5                                                                                                                                                                                      | Procedure | CPT-2     |
| 3303F | AJCC Cancer Stage IA, documented (ONC)1, (ML)5                                                                                                                                                                                     | Procedure | CPT-2     |
| 3304F | AJCC Cancer Stage IB, documented (ONC)1, (ML)5                                                                                                                                                                                     | Procedure | CPT-2     |
| 33050 | Resection of pericardial cyst or tumor                                                                                                                                                                                             | Procedure | CPT-4     |
| 3305F | AJCC Cancer Stage IC, documented (ONC)1, (ML)5                                                                                                                                                                                     | Procedure | CPT-2     |
| 3306F | AJCC Cancer Stage IIA, documented (ONC)1, (ML)5                                                                                                                                                                                    | Procedure | CPT-2     |
| 3307F | AJCC Cancer Stage IIB, documented (ONC)1, (ML)5                                                                                                                                                                                    | Procedure | CPT-2     |
| 3308F | AJCC Cancer Stage IIC, documented (ONC)1, (ML)5                                                                                                                                                                                    | Procedure | CPT-2     |
| 3309F | AJCC Cancer Stage IIIA, documented (ONC)1, (ML)5                                                                                                                                                                                   | Procedure | CPT-2     |
| 3310F | AJCC Cancer Stage IIIB, documented (ONC)1, (ML)5                                                                                                                                                                                   | Procedure | CPT-2     |
| 3311F | AJCC Cancer Stage IIIC, documented (ONC)1, (ML)5                                                                                                                                                                                   | Procedure | CPT-2     |
| 33120 | Excision of intracardiac tumor, resection with cardiopulmonary bypass                                                                                                                                                              | Procedure | CPT-4     |
| 3312F | AJCC Cancer Stage IV, documented (ONC)1, (ML)5                                                                                                                                                                                     | Procedure | CPT-2     |
| 33130 | Resection of external cardiac tumor                                                                                                                                                                                                | Procedure | CPT-4     |
| 3313F | AJCC Cancer Stage IVB, documented (ONC)1, (ML)5                                                                                                                                                                                    | Procedure | CPT-2     |
| 3314F | AJCC Cancer Stage IVC, documented (ONC)1, (ML)5                                                                                                                                                                                    | Procedure | CPT-2     |
| 3315F | Estrogen receptor (ER) or progesterone receptor (PR) positive breast cancer (ONC)                                                                                                                                                  | Procedure | CPT-2     |
| 3316F | Estrogen receptor (ER) and progesterone receptor (PR) negative breast cancer (ONC)                                                                                                                                                 | Procedure | CPT-2     |
| 3317F | Pathology report confirming malignancy documented in the medical record and reviewed prior to the initiation of chemotherapy (ONC)                                                                                                 | Procedure | CPT-2     |
| 3318F | Pathology report confirming malignancy documented in the medical record and reviewed prior to the initiation of radiation therapy (ONC)                                                                                            | Procedure | CPT-2     |
| 3321F | AJCC Cancer Stage 0 or IA Melanoma, documented (ML)                                                                                                                                                                                | Procedure | CPT-2     |
| 3323F | Clinical tumor, node and metastases (TNM) staging documented and reviewed prior to surgery (Lung/Esop Cx)                                                                                                                          | Procedure | CPT-2     |
| 3370F | AJCC Breast Cancer Stage 0 documented (ONC)                                                                                                                                                                                        | Procedure | CPT-2     |

| Code    | Description                                                                                                                                                                                                                                          | Code      |            |
|---------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|------------|
|         |                                                                                                                                                                                                                                                      | Category  | Code Type  |
| 3372F   | AJCC Breast Cancer Stage I: T1mic, T1a or T1b (tumor size <= 1 cm) documented (ONC)                                                                                                                                                                  | Procedure | CPT-2      |
| 3374F   | AJCC Breast Cancer Stage I: T1c (tumor size > 1 cm to 2 cm) documented (ONC)                                                                                                                                                                         | Procedure | CPT-2      |
| 3376F   | AJCC Breast Cancer Stage II documented (ONC)                                                                                                                                                                                                         | Procedure | CPT-2      |
| 3378F   | AJCC Breast Cancer Stage III documented (ONC)                                                                                                                                                                                                        | Procedure | CPT-2      |
| 3380F   | AJCC Breast Cancer Stage IV documented (ONC)                                                                                                                                                                                                         | Procedure | CPT-2      |
| 3382F   | AJCC colon cancer, Stage 0 documented (ONC)                                                                                                                                                                                                          | Procedure | CPT-2      |
| 3384F   | AJCC colon cancer, Stage I documented (ONC)                                                                                                                                                                                                          | Procedure | CPT-2      |
| 3386F   | AJCC colon cancer, Stage II documented (ONC)                                                                                                                                                                                                         | Procedure | CPT-2      |
| 3388F   | AJCC colon cancer, Stage III documented (ONC)                                                                                                                                                                                                        | Procedure | CPT-2      |
| 3390F   | AJCC colon cancer, Stage IV documented (ONC)                                                                                                                                                                                                         | Procedure | CPT-2      |
| 36260   | Insertion of implantable intra-arterial infusion pump (eg, for chemotherapy of liver)                                                                                                                                                                | Procedure | CPT-4      |
| 36488   | Placement of central venous catheter (subclavian, jugular, or other vein) (eg, for central venous pressure, hyperalimentation, hemodialysis, or chemotherapy); percutaneous, age 2 years or under                                                    | Procedure | CPT-4      |
| 36489   | Placement of central venous catheter (subclavian, jugular, or other vein) (eg, for central venous pressure, hyperalimentation, hemodialysis, or chemotherapy); percutaneous, over age 2                                                              | Procedure | CPT-4      |
| 36490   | Placement of central venous catheter (subclavian, jugular, or other vein) (eg, for central venous pressure, hyperalimentation, hemodialysis, or chemotherapy); cutdown, age 2 years or under                                                         | Procedure | CPT-4      |
| 36491   | Placement of central venous catheter (subclavian, jugular, or other vein) (eg, for central venous pressure, hyperalimentation, hemodialysis, or chemotherapy); cutdown, over age 2                                                                   | Procedure | CPT-4      |
| 36640   | Arterial catheterization for prolonged infusion therapy (chemotherapy), cutdown                                                                                                                                                                      | Procedure | CPT-4      |
| 36823   | Insertion of arterial and venous cannula(s) for isolated extracorporeal circulation including regional chemotherapy perfusion to an extremity, with or without hyperthermia, with removal of cannula(s) and repair of arteriotomy and venotomy sites | Procedure | CPT-4      |
| 39220   | Resection of mediastinal tumor                                                                                                                                                                                                                       | Procedure | CPT-4      |
| 3E00X05 | Introduction of Other Antineoplastic into Skin and Mucous Membranes, External                                                                                                                                                                        | Procedure | ICD-10-PCS |
| 3E00X0M | Introduction of Antineoplastic, Monoclonal Antibody, into Skin and Mucous Membranes, External Approach                                                                                                                                               | Procedure | ICD-10-PCS |
| 3E01305 | Introduction of Other Antineoplastic into Subcutaneous Tissue, Percutaneous Approach                                                                                                                                                                 | Procedure | ICD-10-PCS |
| 3E0130M | Introduction of Antineoplastic, Monoclonal Antibody, into Subcutaneous Tissue, Percutaneous Approach                                                                                                                                                 | Procedure | ICD-10-PCS |
| 3E02305 | Introduction of Other Antineoplastic into Muscle, Percutaneous Approach                                                                                                                                                                              | Procedure | ICD-10-PCS |
| 3E0230M | Introduction of Antineoplastic, Monoclonal Antibody, into Muscle, Percutaneous                                                                                                                                                                       | Procedure | ICD-10-PCS |
| 3E03002 | Introduction of High-dose Interleukin-2 into Peripheral Vein, Open Approach                                                                                                                                                                          | Procedure | ICD-10-PCS |
| 3E03003 | Introduction of Low-dose Interleukin-2 into Peripheral Vein, Open Approach                                                                                                                                                                           | Procedure | ICD-10-PCS |
| 3E03005 | Introduction of Other Antineoplastic into Peripheral Vein, Open Approach                                                                                                                                                                             | Procedure | ICD-10-PCS |
| 3E0300M | Introduction of Antineoplastic, Monoclonal Antibody, into Peripheral Vein, Open                                                                                                                                                                      | Procedure | ICD-10-PCS |
| 3E0300P | Introduction of Clofarabine into Peripheral Vein, Open Approach                                                                                                                                                                                      | Procedure | ICD-10-PCS |
| 3E03302 | Introduction of High-dose Interleukin-2 into Peripheral Vein, Percutaneous Approach                                                                                                                                                                  | Procedure | ICD-10-PCS |
| 3E03303 | Introduction of Low-dose Interleukin-2 into Peripheral Vein, Percutaneous Approach                                                                                                                                                                   | Procedure | ICD-10-PCS |
| 3E03305 | Introduction of Other Antineoplastic into Peripheral Vein, Percutaneous Approach                                                                                                                                                                     | Procedure | ICD-10-PCS |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code    | Description                                                                                        | Code      | Code Type  |
|---------|----------------------------------------------------------------------------------------------------|-----------|------------|
|         | Category                                                                                           |           |            |
| 3E0330M | Introduction of Antineoplastic, Monoclonal Antibody, into Peripheral Vein, Percutaneous Approach   | Procedure | ICD-10-PCS |
| 3E0330P | Introduction of Clofarabine into Peripheral Vein, Percutaneous Approach                            | Procedure | ICD-10-PCS |
| 3E04002 | Introduction of High-dose Interleukin-2 into Central Vein, Open Approach                           | Procedure | ICD-10-PCS |
| 3E04003 | Introduction of Low-dose Interleukin-2 into Central Vein, Open Approach                            | Procedure | ICD-10-PCS |
| 3E04005 | Introduction of Other Antineoplastic into Central Vein, Open Approach                              | Procedure | ICD-10-PCS |
| 3E0400M | Introduction of Antineoplastic, Monoclonal Antibody, into Central Vein, Open Approach              | Procedure | ICD-10-PCS |
| 3E0400P | Introduction of Clofarabine into Central Vein, Open Approach                                       | Procedure | ICD-10-PCS |
| 3E04302 | Introduction of High-dose Interleukin-2 into Central Vein, Percutaneous Approach                   | Procedure | ICD-10-PCS |
| 3E04303 | Introduction of Low-dose Interleukin-2 into Central Vein, Percutaneous Approach                    | Procedure | ICD-10-PCS |
| 3E04305 | Introduction of Other Antineoplastic into Central Vein, Percutaneous Approach                      | Procedure | ICD-10-PCS |
| 3E0430M | Introduction of Antineoplastic, Monoclonal Antibody, into Central Vein, Percutaneous Approach      | Procedure | ICD-10-PCS |
| 3E0430P | Introduction of Clofarabine into Central Vein, Percutaneous Approach                               | Procedure | ICD-10-PCS |
| 3E05002 | Introduction of High-dose Interleukin-2 into Peripheral Artery, Open Approach                      | Procedure | ICD-10-PCS |
| 3E05003 | Introduction of Low-dose Interleukin-2 into Peripheral Artery, Open Approach                       | Procedure | ICD-10-PCS |
| 3E05005 | Introduction of Other Antineoplastic into Peripheral Artery, Open Approach                         | Procedure | ICD-10-PCS |
| 3E0500M | Introduction of Antineoplastic, Monoclonal Antibody, into Peripheral Artery, Open Approach         | Procedure | ICD-10-PCS |
| 3E0500P | Introduction of Clofarabine into Peripheral Artery, Open Approach                                  | Procedure | ICD-10-PCS |
| 3E05302 | Introduction of High-dose Interleukin-2 into Peripheral Artery, Percutaneous Approach              | Procedure | ICD-10-PCS |
| 3E05303 | Introduction of Low-dose Interleukin-2 into Peripheral Artery, Percutaneous Approach               | Procedure | ICD-10-PCS |
| 3E05305 | Introduction of Other Antineoplastic into Peripheral Artery, Percutaneous Approach                 | Procedure | ICD-10-PCS |
| 3E0530M | Introduction of Antineoplastic, Monoclonal Antibody, into Peripheral Artery, Percutaneous Approach | Procedure | ICD-10-PCS |
| 3E0530P | Introduction of Clofarabine into Peripheral Artery, Percutaneous Approach                          | Procedure | ICD-10-PCS |
| 3E06002 | Introduction of High-dose Interleukin-2 into Central Artery, Open Approach                         | Procedure | ICD-10-PCS |
| 3E06003 | Introduction of Low-dose Interleukin-2 into Central Artery, Open Approach                          | Procedure | ICD-10-PCS |
| 3E06005 | Introduction of Other Antineoplastic into Central Artery, Open Approach                            | Procedure | ICD-10-PCS |
| 3E0600M | Introduction of Antineoplastic, Monoclonal Antibody, into Central Artery, Open Approach            | Procedure | ICD-10-PCS |
| 3E0600P | Introduction of Clofarabine into Central Artery, Open Approach                                     | Procedure | ICD-10-PCS |
| 3E06302 | Introduction of High-dose Interleukin-2 into Central Artery, Percutaneous Approach                 | Procedure | ICD-10-PCS |
| 3E06303 | Introduction of Low-dose Interleukin-2 into Central Artery, Percutaneous Approach                  | Procedure | ICD-10-PCS |
| 3E06305 | Introduction of Other Antineoplastic into Central Artery, Percutaneous Approach                    | Procedure | ICD-10-PCS |
| 3E0630M | Introduction of Antineoplastic, Monoclonal Antibody, into Central Artery, Percutaneous Approach    | Procedure | ICD-10-PCS |
| 3E0630P | Introduction of Clofarabine into Central Artery, Percutaneous Approach                             | Procedure | ICD-10-PCS |
| 3E09305 | Introduction of Other Antineoplastic into Nose, Percutaneous Approach                              | Procedure | ICD-10-PCS |
| 3E0930M | Introduction of Antineoplastic, Monoclonal Antibody, into Nose, Percutaneous Approach              | Procedure | ICD-10-PCS |
| 3E09705 | Introduction of Other Antineoplastic into Nose, Via Natural or Artificial Opening                  | Procedure | ICD-10-PCS |
| 3E0970M | Introduction of Antineoplastic, Monoclonal Antibody, into Nose, Via Natural or Artificial Opening  | Procedure | ICD-10-PCS |
| 3E09X05 | Introduction of Other Antineoplastic into Nose, External Approach                                  | Procedure | ICD-10-PCS |

| 3E0R302 | Introduction of High-dose Interleukin-2 into Spinal Canal, Percutaneous Approach                                      | Procedure     | ICD-10-PCS |
| 3E0R303 | Introduction of Low-dose Interleukin-2 into Spinal Canal, Percutaneous Approach                                       | Procedure     | ICD-10-PCS |
| 3E0R305 | Introduction of Other Antineoplastic into Spinal Canal, Percutaneous Approach                                         | Procedure     | ICD-10-PCS |
| 3E0R30M | Introduction of Antineoplastic, Monoclonal Antibody, into Spinal Canal, Percutaneous Approach                         | Procedure     | ICD-10-PCS |
| 3E0S302 | Introduction of High-dose Interleukin-2 into Epidural Space, Percutaneous Approach                                    | Procedure     | ICD-10-PCS |
| 3E0S303 | Introduction of Low-dose Interleukin-2 into Epidural Space, Percutaneous Approach                                     | Procedure     | ICD-10-PCS |
| 3E0S305 | Introduction of Other Antineoplastic into Epidural Space, Percutaneous Approach                                       | Procedure     | ICD-10-PCS |
| 3E0S30M | Introduction of Antineoplastic, Monoclonal Antibody, into Epidural Space, Percutaneous Approach                       | Procedure     | ICD-10-PCS |
| 3E0U305 | Introduction of Other Antineoplastic into Joints, Percutaneous Approach                                               | Procedure     | ICD-10-PCS |
| 3E0U30M | Introduction of Antineoplastic, Monoclonal Antibody, into Joints, Percutaneous Approach                               | Procedure     | ICD-10-PCS |
| 3E0V305 | Introduction of Other Antineoplastic into Bones, Percutaneous Approach                                                | Procedure     | ICD-10-PCS |
| 3E0V30M | Introduction of Antineoplastic, Monoclonal Antibody, into Bones, Percutaneous Approach                                | Procedure     | ICD-10-PCS |
| 3E0W305 | Introduction of Other Antineoplastic into Lymphatics, Percutaneous Approach                                           | Procedure     | ICD-10-PCS |
| 3E0W30M | Introduction of Antineoplastic, Monoclonal Antibody, into Lymphatics, Percutaneous Approach                           | Procedure     | ICD-10-PCS |
| 3E0Y305 | Introduction of Other Antineoplastic into Pericardial Cavity, Percutaneous Approach                                   | Procedure     | ICD-10-PCS |
| 3E0Y30M | Introduction of Antineoplastic, Monoclonal Antibody, into Pericardial Cavity, Percutaneous Approach                   | Procedure     | ICD-10-PCS |
| 3E0Y705 | Introduction of Other Antineoplastic into Pericardial Cavity, Via Natural or Artificial Opening                       | Procedure     | ICD-10-PCS |
| 3E0Y70M | Introduction of Antineoplastic, Monoclonal Antibody, into Pericardial Cavity, Via Natural or Artificial Opening       | Procedure     | ICD-10-PCS |
| 41.02   | Allogeneic bone marrow transplant with purging                                                                        | Procedure     | ICD-9-CM   |
| 41.07   | Autologous hematopoietic stem cell transplant with purging                                                            | Procedure     | ICD-9-CM   |
| 41.08   | Allogeneic hematopoietic stem cell transplant with purging                                                            | Procedure     | ICD-9-CM   |
| 41.09   | Autologous bone marrow transplant with purging                                                                        | Procedure     | ICD-9-CM   |
| 4180F   | Adjuvant chemotherapy referred, prescribed, or previously received for Stage III colon cancer (ONC)                   | Procedure     | CPT-2      |
| 41825   | Excision of lesion or tumor (except listed above), dentoalveolar structures; without repair                           | Procedure     | CPT-4      |
| 41826   | Excision of lesion or tumor (except listed above), dentoalveolar structures; with simple repair                       | Procedure     | CPT-4      |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                                           | Code Category | Code Type |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| 41827 | Excision of lesion or tumor (except listed above), dentoalveolar structures; with complex repair                                                                                                                                                      | Procedure     | CPT-4     |
| 4201F | External beam radiotherapy with or without nodal irradiation as adjuvant or salvage therapy for prostate cancer patient (PRCA)                                                                                                                        | Procedure     | CPT-2     |
| 42410 | Excision of parotid tumor or parotid gland; lateral lobe, without nerve dissection                                                                                                                                                                    | Procedure     | CPT-4     |
| 42415 | Excision of parotid tumor or parotid gland; lateral lobe, with dissection and preservation of facial nerve                                                                                                                                            | Procedure     | CPT-4     |
| 42420 | Excision of parotid tumor or parotid gland; total, with dissection and preservation of facial nerve                                                                                                                                                   | Procedure     | CPT-4     |
| 42425 | Excision of parotid tumor or parotid gland; total, en bloc removal with sacrifice of facial nerve                                                                                                                                                     | Procedure     | CPT-4     |
| 42426 | Excision of parotid tumor or parotid gland; total, with unilateral radical neck dissection                                                                                                                                                            | Procedure     | CPT-4     |
| 43216 | Esophagoscopy, flexible, transoral; with removal of tumor(s), polyp(s), or other lesion(s) by hot biopsy forceps                                                                                                                                      | Procedure     | CPT-4     |
| 43217 | Esophagoscopy, flexible, transoral; with removal of tumor(s), polyp(s), or other lesion(s) by snare technique                                                                                                                                         | Procedure     | CPT-4     |
| 43228 | Esophagoscopy, rigid or flexible; with ablation of tumor(s), polyp(s), or other lesion(s), not amenable to removal by hot biopsy forceps, bipolar cautery or snare technique                                                                          | Procedure     | CPT-4     |
| 43229 | Esophagoscopy, flexible, transoral; with ablation of tumor(s), polyp(s), or other lesion(s) (includes pre- and post-dilation and guide wire passage, when performed)                                                                                  | Procedure     | CPT-4     |
| 43250 | Esophagogastroduodenoscopy, flexible, transoral; with removal of tumor(s), polyp(s), or other lesion(s) by hot biopsy forceps                                                                                                                         | Procedure     | CPT-4     |
| 43251 | Esophagogastroduodenoscopy, flexible, transoral; with removal of tumor(s), polyp(s), or other lesion(s) by snare technique                                                                                                                            | Procedure     | CPT-4     |
| 43258 | Upper gastrointestinal endoscopy including esophagus, stomach, and either the duodenum and/or jejunum as appropriate; with ablation of tumor(s), polyp(s), or other lesion(s) not amenable to removal by hot biopsy forceps, bipolar cautery or snare | Procedure     | CPT-4     |
| 43270 | Esophagogastroduodenoscopy, flexible, transoral; with ablation of tumor(s), polyp(s), or other lesion(s) (includes pre- and post-dilation and guide wire passage, when performed)                                                                     | Procedure     | CPT-4     |
| 43272 | Endoscopic retrograde cholangiopancreatography (ERCP); with ablation of tumor(s), polyp(s), or other lesion(s) not amenable to removal by hot biopsy forceps, bipolar cautery or snare technique                                                      | Procedure     | CPT-4     |
| 43278 | Endoscopic retrograde cholangiopancreatography (ERCP); with ablation of tumor(s), polyp(s), or other lesion(s), including pre- and post-dilation and guide wire passage, when performed                                                               | Procedure     | CPT-4     |
| 43611 | Excision, local; malignant tumor of stomach                                                                                                                                                                                                           | Procedure     | CPT-4     |
| 45160 | Excision of rectal tumor by proctotomy, transsacral or transcoccygeal approach                                                                                                                                                                        | Procedure     | CPT-4     |
| 45170 | Excision of rectal tumor, transanal approach                                                                                                                                                                                                          | Procedure     | CPT-4     |
| 45171 | Excision of rectal tumor, transanal approach; not including muscularis propria (ie, partial thickness)                                                                                                                                                | Procedure     | CPT-4     |
| 45172 | Excision of rectal tumor, transanal approach; including muscularis propria (ie, full thickness)                                                                                                                                                       | Procedure     | CPT-4     |
| 45180 | EXC &/OR ELECTRODESICCATED MALIG TUMOR RECTUM                                                                                                                                                                                                         | Procedure     | CPT-4     |

| 45181 | Excision And/or Electrodesiccation Of Malignant Tumor Of                                                                                                                                                     | Procedure | CPT-4     |
| 45190 | Destruction of rectal tumor (eg, electrodesiccation, electrosurgery, laser ablation, laser resection, cryosurgery) transanal approach                                                                        | Procedure | CPT-4     |
| 45308 | Proctosigmoidoscopy, rigid; with removal of single tumor, polyp, or other lesion by hot biopsy forceps or bipolar cautery                                                                                    | Procedure | CPT-4     |
| 45309 | Proctosigmoidoscopy, rigid; with removal of single tumor, polyp, or other lesion by snare technique                                                                                                          | Procedure | CPT-4     |
| 45315 | Proctosigmoidoscopy, rigid; with removal of multiple tumors, polyps, or other lesions by hot biopsy forceps, bipolar cautery or snare technique                                                              | Procedure | CPT-4     |
| 45320 | Proctosigmoidoscopy, rigid; with ablation of tumor(s), polyp(s), or other lesion(s) not amenable to removal by hot biopsy forceps, bipolar cautery or snare technique (eg, laser)                            | Procedure | CPT-4     |
| 45333 | Sigmoidoscopy, flexible; with removal of tumor(s), polyp(s), or other lesion(s) by hot biopsy forceps                                                                                                        | Procedure | CPT-4     |
| 45336 | SIGMOIDOSCOPY; ABLATE TUMOR MUCOSAL LESION                                                                                                                                                                   | Procedure | CPT-4     |
| 45338 | Sigmoidoscopy, flexible; with removal of tumor(s), polyp(s), or other lesion(s) by snare technique                                                                                                           | Procedure | CPT-4     |
| 45339 | Sigmoidoscopy, flexible; with ablation of tumor(s), polyp(s), or other lesion(s) not amenable to removal by hot biopsy forceps, bipolar cautery or snare technique                                           | Procedure | CPT-4     |
| 45346 | Sigmoidoscopy, flexible; with ablation of tumor(s), polyp(s), or other lesion(s) (includes pre- and post-dilation and guide wire passage, when performed)                                                    | Procedure | CPT-4     |
| 47380 | Ablation, open, of 1 or more liver tumor(s); radiofrequency                                                                                                                                                  | Procedure | CPT-4     |
| 47381 | Ablation, open, of 1 or more liver tumor(s); cryosurgical                                                                                                                                                    | Procedure | CPT-4     |
| 47382 | Ablation, 1 or more liver tumor(s), percutaneous, radiofrequency                                                                                                                                             | Procedure | CPT-4     |
| 47383 | Ablation, 1 or more liver tumor(s), percutaneous, cryoablation                                                                                                                                               | Procedure | CPT-4     |
| 47710 | EXC BILE DUCT TUMOR W/REPR                                                                                                                                                                                   | Procedure | CPT-4     |
| 47711 | Excision of bile duct tumor, with or without primary repair of bile duct; extrahepatic                                                                                                                       | Procedure | CPT-4     |
| 47712 | Excision of bile duct tumor, with or without primary repair of bile duct; intrahepatic                                                                                                                       | Procedure | CPT-4     |
| 49200 | Excision or destruction, open, intra-abdominal or retroperitoneal tumors or cysts or endometriomas;                                                                                                          | Procedure | CPT-4     |
| 49201 | Excision or destruction, open, intra-abdominal or retroperitoneal tumors or cysts or endometriomas; extensive                                                                                                | Procedure | CPT-4     |
| 49203 | Excision or destruction, open, intra-abdominal tumors, cysts or endometriomas, 1 or more peritoneal, mesenteric, or retroperitoneal primary or secondary tumors; largest tumor 5 cm diameter or less         | Procedure | CPT-4     |
| 49204 | Excision or destruction, open, intra-abdominal tumors, cysts or endometriomas, 1 or more peritoneal, mesenteric, or retroperitoneal primary or secondary tumors; largest tumor 5.1-10.0 cm diameter          | Procedure | CPT-4     |
| 49205 | Excision or destruction, open, intra-abdominal tumors, cysts or endometriomas, 1 or more peritoneal, mesenteric, or retroperitoneal primary or secondary tumors; largest tumor greater than 10.0 cm diameter | Procedure | CPT-4     |
| 49215 | Excision of presacral or sacrococcygeal tumor                                                                                                                                                                | Procedure | CPT-4     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                           | Code Category | Code Type |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| 49418 | Insertion of tunneled intraperitoneal catheter (eg, dialysis, intraperitoneal chemotherapy instillation, management of ascites), complete procedure, including imaging guidance, catheter placement, contrast injection when performed, and radiological supervision and interpretation, percutaneous | Procedure     | CPT-4     |
| 50562 | Renal endoscopy through established nephrostomy or pyelostomy, with or without irrigation, instillation, or ureteropyelography, exclusive of radiologic service; with resection of tumor                                                                                                              | Procedure     | CPT-4     |
| 50592 | Ablation, 1 or more renal tumor(s), percutaneous, unilateral, radiofrequency                                                                                                                                                                                                                          | Procedure     | CPT-4     |
| 50593 | Ablation, renal tumor(s), unilateral, percutaneous, cryotherapy                                                                                                                                                                                                                                       | Procedure     | CPT-4     |
| 51530 | Cystotomy; for excision of bladder tumor                                                                                                                                                                                                                                                              | Procedure     | CPT-4     |
| 52234 | Cystourethroscopy, with fulguration (including cryosurgery or laser surgery) and/or resection of; SMALL bladder tumor(s) (0.5 up to 2.0 cm)                                                                                                                                                           | Procedure     | CPT-4     |
| 52235 | Cystourethroscopy, with fulguration (including cryosurgery or laser surgery) and/or resection of; MEDIUM bladder tumor(s) (2.0 to 5.0 cm)                                                                                                                                                             | Procedure     | CPT-4     |
| 52240 | Cystourethroscopy, with fulguration (including cryosurgery or laser surgery) and/or resection of; LARGE bladder tumor(s)                                                                                                                                                                              | Procedure     | CPT-4     |
| 52339 | Cystourethroscopy, with ureteroscopy and/or pyeloscopy (includes dilation of the ureter and/or pyeloureteral junction by any method); with resection of tumor                                                                                                                                         | Procedure     | CPT-4     |
| 52355 | Cystourethroscopy, with ureteroscopy and/or pyeloscopy; with resection of ureteral or renal pelvic tumor                                                                                                                                                                                              | Procedure     | CPT-4     |
| 54530 | Orchiectomy, radical, for tumor; inguinal approach                                                                                                                                                                                                                                                    | Procedure     | CPT-4     |
| 54535 | Orchiectomy, radical, for tumor; with abdominal exploration                                                                                                                                                                                                                                           | Procedure     | CPT-4     |
| 57135 | Excision of vaginal cyst or tumor                                                                                                                                                                                                                                                                     | Procedure     | CPT-4     |
| 58140 | Myomectomy, excision of fibroid tumor(s) of uterus, 1 to 4 intramural myoma(s) with total weight of 250 g or less and/or removal of surface myomas; abdominal approach                                                                                                                                | Procedure     | CPT-4     |
| 58145 | Myomectomy, excision of fibroid tumor(s) of uterus, 1 to 4 intramural myoma(s) with total weight of 250 g or less and/or removal of surface myomas; vaginal approach                                                                                                                                  | Procedure     | CPT-4     |
| 58146 | Myomectomy, excision of fibroid tumor(s) of uterus, 5 or more intramural myomas and/or intramural myomas with total weight greater than 250 g, abdominal approach                                                                                                                                     | Procedure     | CPT-4     |
| 58205 | Total Hysterectomy, Extended, Corpus Cancer, Including Partial                                                                                                                                                                                                                                        | Procedure     | CPT-4     |
| 58575 | Laparoscopy, surgical, total hysterectomy for resection of malignancy (tumor debulking), with omentectomy including salpingo-oophorectomy, unilateral or bilateral, when performed                                                                                                                    | Procedure     | CPT-4     |
| 58952 | Resection (initial) of ovarian, tubal or primary peritoneal malignancy with bilateral salpingo-oophorectomy and omentectomy; with radical dissection for debulking (ie, radical excision or destruction, intra-abdominal or retroperitoneal tumors)                                                   | Procedure     | CPT-4     |
| 58957 | Resection (tumor debulking) of recurrent ovarian, tubal, primary peritoneal, uterine malignancy (intra-abdominal, retroperitoneal tumors), with omentectomy, if performed;                                                                                                                            | Procedure     | CPT-4     |
| 58958 | Resection (tumor debulking) of recurrent ovarian, tubal, primary peritoneal, uterine malignancy (intra-abdominal, retroperitoneal tumors), with omentectomy, if performed; with pelvic lymphadenectomy and limited para-aortic lymphadenectomy                                                        | Procedure     | CPT-4     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                                         | Code Category | Code Type |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| 60545 | Adrenalectomy, partial or complete, or exploration of adrenal gland with or without biopsy, transabdominal, lumbar or dorsal (separate procedure); with excision of adjacent retroperitoneal tumor                                                  | Procedure     | CPT-4     |
| 60600 | Excision of carotid body tumor; without excision of carotid artery                                                                                                                                                                                  | Procedure     | CPT-4     |
| 60605 | Excision of carotid body tumor; with excision of carotid artery                                                                                                                                                                                     | Procedure     | CPT-4     |
| 61340 | Subtemporal cranial decompression (pseudotumor cerebri, slit ventricle syndrome)                                                                                                                                                                    | Procedure     | CPT-4     |
| 61500 | Craniectomy; with excision of tumor or other bone lesion of skull                                                                                                                                                                                   | Procedure     | CPT-4     |
| 6150F | Patient not receiving a first course of anti-TNF (tumor necrosis factor) therapy (IBD)                                                                                                                                                              | Procedure     | CPT-2     |
| 61510 | Craniectomy, trephination, bone flap craniotomy; for excision of brain tumor, supratentorial, except meningioma                                                                                                                                     | Procedure     | CPT-4     |
| 61517 | Implantation of brain intracavitary chemotherapy agent (List separately in addition to code for primary procedure)                                                                                                                                  | Procedure     | CPT-4     |
| 61518 | Craniectomy for excision of brain tumor, infratentorial or posterior fossa; except meningioma, cerebellopontine angle tumor, or midline tumor at base of skull                                                                                      | Procedure     | CPT-4     |
| 61519 | Craniectomy for excision of brain tumor, infratentorial or posterior fossa; meningioma                                                                                                                                                              | Procedure     | CPT-4     |
| 61520 | Craniectomy for excision of brain tumor, infratentorial or posterior fossa; cerebellopontine angle tumor                                                                                                                                            | Procedure     | CPT-4     |
| 61521 | Craniectomy for excision of brain tumor, infratentorial or posterior fossa; midline tumor at base of skull                                                                                                                                          | Procedure     | CPT-4     |
| 61526 | Craniectomy, bone flap craniotomy, transtemporal (mastoid) for excision of cerebellopontine angle tumor;                                                                                                                                            | Procedure     | CPT-4     |
| 61530 | Craniectomy, bone flap craniotomy, transtemporal (mastoid) for excision of cerebellopontine angle tumor; combined with middle/posterior fossa craniotomy/craniectomy                                                                                | Procedure     | CPT-4     |
| 61545 | Craniotomy with elevation of bone flap; for excision of craniopharyngioma                                                                                                                                                                           | Procedure     | CPT-4     |
| 61546 | Craniotomy for hypophysectomy or excision of pituitary tumor, intracranial approach                                                                                                                                                                 | Procedure     | CPT-4     |
| 61548 | Hypophysectomy or excision of pituitary tumor, transnasal or transseptal approach, nonstereotactic                                                                                                                                                  | Procedure     | CPT-4     |
| 61624 | Transcatheter permanent occlusion or embolization (eg, for tumor destruction, to achieve hemostasis, to occlude a vascular malformation), percutaneous, any method; central nervous system (intracranial, spinal cord)                              | Procedure     | CPT-4     |
| 61626 | Transcatheter permanent occlusion or embolization (eg, for tumor destruction, to achieve hemostasis, to occlude a vascular malformation), percutaneous, any method; non-central nervous system, head or neck (extracranial, brachiocephalic branch) | Procedure     | CPT-4     |
| 62164 | Neuroendoscopy, intracranial; with excision of brain tumor, including placement of external ventricular catheter for drainage                                                                                                                       | Procedure     | CPT-4     |
| 62165 | Neuroendoscopy, intracranial; with excision of pituitary tumor, transnasal or trans-sphenoidal approach                                                                                                                                             | Procedure     | CPT-4     |
| 63101 | Vertebral corpectomy (vertebral body resection), partial or complete, lateral extracavitary approach with decompression of spinal cord and/or nerve root(s) (eg, for tumor or retropulsed bone fragments); thoracic, single segment                 | Procedure     | CPT-4     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                          | Code Category | Code Type |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| 63102 | Vertebral corpectomy (vertebral body resection), partial or complete, lateral extracavitary approach with decompression of spinal cord and/or nerve root(s) (eg, for tumor or retropulsed bone fragments); lumbar, single segment                                                                                    | Procedure     | CPT-4     |
| 63103 | Vertebral corpectomy (vertebral body resection), partial or complete, lateral extracavitary approach with decompression of spinal cord and/or nerve root(s) (eg, for tumor or retropulsed bone fragments); thoracic or lumbar, each additional segment (List separately in addition to code for primary procedure)   | Procedure     | CPT-4     |
| 67208 | Destruction of localized lesion of retina (eg, macular edema, tumors), 1 or more sessions; cryotherapy, diathermy                                                                                                                                                                                                    | Procedure     | CPT-4     |
| 67210 | Destruction of localized lesion of retina (eg, macular edema, tumors), 1 or more sessions; photocoagulation                                                                                                                                                                                                          | Procedure     | CPT-4     |
| 67218 | Destruction of localized lesion of retina (eg, macular edema, tumors), 1 or more sessions; radiation by implantation of source (includes removal of source)                                                                                                                                                          | Procedure     | CPT-4     |
| 68500 | Excision of lacrimal gland (dacryoadenectomy), except for tumor; total                                                                                                                                                                                                                                               | Procedure     | CPT-4     |
| 68505 | Excision of lacrimal gland (dacryoadenectomy), except for tumor; partial                                                                                                                                                                                                                                             | Procedure     | CPT-4     |
| 68540 | Excision of lacrimal gland tumor; frontal approach                                                                                                                                                                                                                                                                   | Procedure     | CPT-4     |
| 68550 | Excision of lacrimal gland tumor; involving osteotomy                                                                                                                                                                                                                                                                | Procedure     | CPT-4     |
| 69535 | Resection temporal bone, external approach                                                                                                                                                                                                                                                                           | Procedure     | CPT-4     |
| 69540 | Excision aural polyp                                                                                                                                                                                                                                                                                                 | Procedure     | CPT-4     |
| 69550 | Excision aural glomus tumor; transcanal                                                                                                                                                                                                                                                                              | Procedure     | CPT-4     |
| 69552 | Excision aural glomus tumor; transmastoid                                                                                                                                                                                                                                                                            | Procedure     | CPT-4     |
| 69554 | Excision aural glomus tumor; extended (extratemporal)                                                                                                                                                                                                                                                                | Procedure     | CPT-4     |
| 69970 | Removal of tumor, temporal bone                                                                                                                                                                                                                                                                                      | Procedure     | CPT-4     |
| 70557 | Magnetic resonance (eg, proton) imaging, brain (including brain stem and skull base), during open intracranial procedure (eg, to assess for residual tumor or residual vascular malformation); without contrast material                                                                                             | Procedure     | CPT-4     |
| 70558 | Magnetic resonance (eg, proton) imaging, brain (including brain stem and skull base), during open intracranial procedure (eg, to assess for residual tumor or residual vascular malformation); with contrast material(s)                                                                                             | Procedure     | CPT-4     |
| 70559 | Magnetic resonance (eg, proton) imaging, brain (including brain stem and skull base), during open intracranial procedure (eg, to assess for residual tumor or residual vascular malformation); without contrast material(s), followed by contrast material(s) and further sequences                                  | Procedure     | CPT-4     |
| 78655 | RADIOPHARM IDENT EYE TUMOR                                                                                                                                                                                                                                                                                           | Procedure     | CPT-4     |
| 78800 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); planar, single area (eg, head, neck, chest, pelvis), single day imaging                                                             | Procedure     | CPT-4     |
| 78801 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); planar, 2 or more areas (eg, abdomen and pelvis, head and chest), 1 or more days imaging or single area imaging over 2 or more days | Procedure     | CPT-4     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Code Category | Code Type |
|-------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| 78802 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); planar, whole body, single day imaging                                                                                                                                                                                                                                                                                                                                 | Procedure     | CPT-4     |
| 78803 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); tomographic (SPECT), single area (eg, head, neck, chest, pelvis) or acquisition, single day imaging                                                                                                                                                                                                                                                                    | Procedure     | CPT-4     |
| 78804 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); planar, whole body, requiring 2 or more days imaging                                                                                                                                                                                                                                                                                                                   | Procedure     | CPT-4     |
| 78810 | Tumor imaging, positron emission tomography (PET), metabolic evaluation                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Procedure     | CPT-4     |
| 78811 | Positron emission tomography (PET) imaging; limited area (eg, chest, head/neck)                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Procedure     | CPT-4     |
| 78812 | Positron emission tomography (PET) imaging; skull base to mid-thigh                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Procedure     | CPT-4     |
| 78813 | Positron emission tomography (PET) imaging; whole body                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Procedure     | CPT-4     |
| 78814 | Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; limited area (eg, chest, head/neck)                                                                                                                                                                                                                                                                                                                                                              | Procedure     | CPT-4     |
| 78815 | Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; skull base to mid-                                                                                                                                                                                                                                                                                                                                                                               | Procedure     | CPT-4     |
| 78816 | Positron emission tomography (PET) with concurrently acquired computed tomography (CT) for attenuation correction and anatomical localization imaging; whole body                                                                                                                                                                                                                                                                                                                                                                                       | Procedure     | CPT-4     |
| 78830 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); tomographic (SPECT) with concurrently acquired computed tomography (CT) transmission scan for anatomical review, localization and determination/detection of pathology, single area (eg, head, neck, chest, pelvis) or acquisition, single day imaging                                                                                                                 | Procedure     | CPT-4     |
| 78831 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); tomographic (SPECT), minimum 2 areas (eg, pelvis and knees, chest and abdomen) or separate acquisitions (eg, lung ventilation and perfusion), single day imaging, or single area or acquisition over 2 or more days                                                                                                                                                    | Procedure     | CPT-4     |
| 78832 | Radiopharmaceutical localization of tumor, inflammatory process or distribution of radiopharmaceutical agent(s) (includes vascular flow and blood pool imaging, when performed); tomographic (SPECT) with concurrently acquired computed tomography (CT) transmission scan for anatomical review, localization and determination/detection of pathology, minimum 2 areas (eg, pelvis and knees, chest and abdomen) or separate acquisitions (eg, lung ventilation and perfusion), single day imaging, or single area or acquisition over 2 or more days | Procedure     | CPT-4     |
| 78835 | Radiopharmaceutical quantification measurement(s) single area (List separately in addition to code for primary procedure)                                                                                                                                                                                                                                                                                                                                                                                                                               | Procedure     | CPT-4     |
| 78999 | Unlisted miscellaneous procedure, diagnostic nuclear medicine                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Procedure     | CPT-4     |
| 96400 | Chemotherapy administration, subcutaneous or intramuscular, with or without local anesthesia                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Procedure     | CPT-4     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| <b>Code</b> | <b>Description</b>                                                                                                                                                                                    | <b>Code Category</b> | <b>Code Type</b> |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|------------------|
| 96401       | Chemotherapy administration, subcutaneous or intramuscular; non-hormonal anti-neoplastic                                                                                                              | Procedure            | CPT-4            |
| 96402       | Chemotherapy administration, subcutaneous or intramuscular; hormonal anti-neoplastic                                                                                                                  | Procedure            | CPT-4            |
| 96405       | Chemotherapy administration; intralesional, up to and including 7 lesions                                                                                                                             | Procedure            | CPT-4            |
| 96406       | Chemotherapy administration; intralesional, more than 7 lesions                                                                                                                                       | Procedure            | CPT-4            |
| 96408       | Chemotherapy administration, intravenous; push technique                                                                                                                                              | Procedure            | CPT-4            |
| 96409       | Chemotherapy administration; intravenous, push technique, single or initial substance/drug                                                                                                            | Procedure            | CPT-4            |
| 96410       | Chemotherapy administration, intravenous; infusion technique, up to one hour                                                                                                                          | Procedure            | CPT-4            |
| 96411       | Chemotherapy administration; intravenous, push technique, each additional substance/drug (List separately in addition to code for primary procedure)                                                  | Procedure            | CPT-4            |
| 96412       | Chemotherapy administration, intravenous; infusion technique, one to 8 hours, each additional hour (List separately in addition to code for primary procedure)                                        | Procedure            | CPT-4            |
| 96413       | Chemotherapy administration, intravenous infusion technique; up to 1 hour, single or initial substance/drug                                                                                           | Procedure            | CPT-4            |
| 96414       | Chemotherapy administration, intravenous; infusion technique, initiation of prolonged infusion (more than 8 hours), requiring the use of a portable or implantable pump                               | Procedure            | CPT-4            |
| 96415       | Chemotherapy administration, intravenous infusion technique; each additional hour (List separately in addition to code for primary procedure)                                                         | Procedure            | CPT-4            |
| 96416       | Chemotherapy administration, intravenous infusion technique; initiation of prolonged chemotherapy infusion (more than 8 hours), requiring use of a portable or implantable pump                       | Procedure            | CPT-4            |
| 96417       | Chemotherapy administration, intravenous infusion technique; each additional sequential infusion (different substance/drug), up to 1 hour (List separately in addition to code for primary procedure) | Procedure            | CPT-4            |
| 96420       | Chemotherapy administration, intra-arterial; push technique                                                                                                                                           | Procedure            | CPT-4            |
| 96422       | Chemotherapy administration, intra-arterial; infusion technique, up to 1 hour                                                                                                                         | Procedure            | CPT-4            |
| 96423       | Chemotherapy administration, intra-arterial; infusion technique, each additional hour (List separately in addition to code for primary procedure)                                                     | Procedure            | CPT-4            |
| 96425       | Chemotherapy administration, intra-arterial; infusion technique, initiation of prolonged infusion (more than 8 hours), requiring the use of a portable or implantable pump                            | Procedure            | CPT-4            |
| 96440       | Chemotherapy administration into pleural cavity, requiring and including thoracentesis                                                                                                                | Procedure            | CPT-4            |
| 96445       | Chemotherapy administration into peritoneal cavity, requiring and including peritoneocentesis                                                                                                         | Procedure            | CPT-4            |
| 96446       | Chemotherapy administration into the peritoneal cavity via indwelling port or catheter                                                                                                                | Procedure            | CPT-4            |
| 96450       | Chemotherapy administration, into CNS (eg, intrathecal), requiring and including spinal puncture                                                                                                      | Procedure            | CPT-4            |
| 96500       | Chemotherapy Injection, Intravenous, Single Premixed Agent,                                                                                                                                           | Procedure            | CPT-4            |
| 96501       | Chemotherapy Injection, Intravenous, Single Premixed Agent,                                                                                                                                           | Procedure            | CPT-4            |
| 96504       | Chemotherapy Injection, Intravenous, Multiple Premixed Agents,                                                                                                                                        | Procedure            | CPT-4            |
| 96505       | Chemotherapy Injection, Intravenous, Multiple Premixed Agents,                                                                                                                                        | Procedure            | CPT-4            |
| 96508       | Chemotherapy Injection, Intravenous, Complex, Using One Or                                                                                                                                            | Procedure            | CPT-4            |
| 96509       | Chemotherapy Injection, Intravenous, Complex, Using One Or                                                                                                                                            | Procedure            | CPT-4            |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                        | Code Category | Code Type |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| 96510 | Chemotherapy Injection, Intravenous, Complex, Using One Or                                                                                                                                                         | Procedure     | CPT-4     |
| 96511 | Chemotherapy Injection, Intravenous, Complex, Using One Or                                                                                                                                                         | Procedure     | CPT-4     |
| 96512 | Chemotherapy Injection, Intravenous, Complex, Using One Or                                                                                                                                                         | Procedure     | CPT-4     |
| 96524 | Chemotherapy Injection, Complex, Administered By Physician,                                                                                                                                                        | Procedure     | CPT-4     |
| 96526 | Chemotherapy Injection, Complex, Administered By Physician,                                                                                                                                                        | Procedure     | CPT-4     |
| 96535 | Chemotherapy Injection, Complex, Requiring Thoracentesis                                                                                                                                                           | Procedure     | CPT-4     |
| 96538 | Chemotherapy Injection, Requiring Lumbar Puncture, Administered                                                                                                                                                    | Procedure     | CPT-4     |
| 96540 | Chemotherapy Injection, Intrathecal Via Reservoir, Single Or                                                                                                                                                       | Procedure     | CPT-4     |
| 96542 | Chemotherapy injection, subarachnoid or intraventricular via subcutaneous reservoir, single or multiple agents                                                                                                     | Procedure     | CPT-4     |
| 96545 | Provision of chemotherapy agent                                                                                                                                                                                    | Procedure     | CPT-4     |
| 96549 | Unlisted chemotherapy procedure                                                                                                                                                                                    | Procedure     | CPT-4     |
| 96910 | Photochemotherapy; tar and ultraviolet B (Goeckerman treatment) or petrolatum and ultraviolet B                                                                                                                    | Procedure     | CPT-4     |
| 96912 | Photochemotherapy; psoralens and ultraviolet A (PUVA)                                                                                                                                                              | Procedure     | CPT-4     |
| 96913 | Photochemotherapy (Goeckerman and/or PUVA) for severe photoresponsive dermatoses requiring at least 4-8 hours of care under direct supervision of the physician (includes application of medication and dressings) | Procedure     | CPT-4     |
| 99.25 | Injection or infusion of cancer chemotherapeutic substance                                                                                                                                                         | Procedure     | ICD-9-CM  |
| 99.28 | Injection or infusion of biological response modifier [BRM] as an antineoplastic agent                                                                                                                             | Procedure     | ICD-9-CM  |
| 99555 | Home infusion for chemotherapy, per visit                                                                                                                                                                          | Procedure     | CPT-4     |
| A4555 | Electrode/transducer for use with electrical stimulation device used for cancer treatment, replacement only                                                                                                        | Procedure     | HCPCS     |
| A9545 | Iodine I-131 tositumomab, therapeutic, per treatment dose                                                                                                                                                          | Procedure     | HCPCS     |
| C1084 | Denileukin diftitox, 300 mcg, ontak iv                                                                                                                                                                             | Procedure     | HCPCS     |
| C1086 | Temozolomide, 5 mg, temodar                                                                                                                                                                                        | Procedure     | HCPCS     |
| C1166 | Injection, cytarabine liposome, per 10 mg                                                                                                                                                                          | Procedure     | HCPCS     |
| C1167 | Injection, epirubicin HCl, 2 mg                                                                                                                                                                                    | Procedure     | HCPCS     |
| C1178 | Injection, busulfan, per 6 mg                                                                                                                                                                                      | Procedure     | HCPCS     |
| C8953 | Chemotherapy administration, intravenous; push technique                                                                                                                                                           | Procedure     | HCPCS     |
| C8954 | Chemotherapy administration, intravenous; infusion technique, up to one hour                                                                                                                                       | Procedure     | HCPCS     |
| C8955 | Chemotherapy administration, intravenous; infusion technique, each additional hour (List separately in addition to C8954)                                                                                          | Procedure     | HCPCS     |
| C9004 | Injection, gemtuzumab ozogamicin, per 5 mg                                                                                                                                                                         | Procedure     | HCPCS     |
| C9012 | Injection, arsenic trioxide, per 1 mg/kg                                                                                                                                                                           | Procedure     | HCPCS     |
| C9017 | Lomustine, 10 mg                                                                                                                                                                                                   | Procedure     | HCPCS     |
| C9021 | Injection, obinutuzumab, 10 mg                                                                                                                                                                                     | Procedure     | HCPCS     |
| C9024 | Injection, liposomal, 1 mg daunorubicin and 2.27 mg cytarabine                                                                                                                                                     | Procedure     | HCPCS     |
| C9042 | Injection, bendamustine HCl (Belrapzo), 1 mg                                                                                                                                                                       | Procedure     | HCPCS     |
| C9044 | Injection, cemiplimab-rwlc, 1 mg                                                                                                                                                                                   | Procedure     | HCPCS     |
| C9045 | Injection, moxetumomab pasudotox-tdfk, 0.01 mg                                                                                                                                                                     | Procedure     | HCPCS     |
| C9049 | Injection, tagraxofusp-erzs, 10 mcg                                                                                                                                                                                | Procedure     | HCPCS     |
| C9050 | Injection, emapalumab-lzsg, 1 mg                                                                                                                                                                                   | Procedure     | HCPCS     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                      | Code      |           |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                  | Category  | Code Type |
| C9110 | Injection, alemtuzumab, per 10 mg/ ml                                                                                                                            | Procedure | HCPCS     |
| C9127 | Injection, paclitaxel protein-bound particles, per 1 mg                                                                                                          | Procedure | HCPCS     |
| C9129 | Injection, clofarabine, per 1 mg                                                                                                                                 | Procedure | HCPCS     |
| C9205 | Injection, oxaliplatin, per 5 mg                                                                                                                                 | Procedure | HCPCS     |
| C9207 | Injection, bortezomib, per 3.5 mg                                                                                                                                | Procedure | HCPCS     |
| C9213 | Injection, pemetrexed, per 10 mg                                                                                                                                 | Procedure | HCPCS     |
| C9214 | Injection, bevacizumab, per 10 mg                                                                                                                                | Procedure | HCPCS     |
| C9215 | Injection, cetuximab, per 10 mg                                                                                                                                  | Procedure | HCPCS     |
| C9218 | Injection, azacitidine, per 1 mg                                                                                                                                 | Procedure | HCPCS     |
| C9231 | Injection, decitabine, per 1 mg                                                                                                                                  | Procedure | HCPCS     |
| C9235 | Injection, panitumumab, 10 mg                                                                                                                                    | Procedure | HCPCS     |
| C9239 | Injection, temsirolimus, 1 mg                                                                                                                                    | Procedure | HCPCS     |
| C9240 | Injection, ixabepilone, 1 mg                                                                                                                                     | Procedure | HCPCS     |
| C9243 | Injection, bendamustine hcl, 1 mg                                                                                                                                | Procedure | HCPCS     |
| C9253 | Injection, temozolomide, 1mg                                                                                                                                     | Procedure | HCPCS     |
| C9259 | Injection, pralatrexate, 1 mg                                                                                                                                    | Procedure | HCPCS     |
| C9260 | Injection, ofatumumab, 10 mg                                                                                                                                     | Procedure | HCPCS     |
| C9262 | Fludarabine phosphate, oral, 1 mg                                                                                                                                | Procedure | HCPCS     |
| C9265 | Injection, romidepsin, 1 mg                                                                                                                                      | Procedure | HCPCS     |
| C9273 | Sipuleucel-T, minimum of 50 million autologous CD54+ cells activated with PAP-GM-CSF, including leukapheresis and all other preparatory procedures, per infusion | Procedure | HCPCS     |
| C9276 | Injection, cabazitaxel, 1 mg                                                                                                                                     | Procedure | HCPCS     |
| C9280 | Injection, eribulin mesylate, 1 mg                                                                                                                               | Procedure | HCPCS     |
| C9284 | Injection, ipilimumab, 1 mg                                                                                                                                      | Procedure | HCPCS     |
| C9287 | Injection, brentuximab vedotin, 1 mg                                                                                                                             | Procedure | HCPCS     |
| C9289 | Injection, asparaginase Erwinia chrysanthemi, 1,000 IU                                                                                                           | Procedure | HCPCS     |
| C9292 | Injection, pertuzumab, 10 mg                                                                                                                                     | Procedure | HCPCS     |
| C9295 | Injection, carfilzomib, 1 mg                                                                                                                                     | Procedure | HCPCS     |
| C9297 | Injection, omacetaxine mepesuccinate, 0.01 mg                                                                                                                    | Procedure | HCPCS     |
| C9414 | Etoposide; oral, 50 mg, brand name                                                                                                                               | Procedure | HCPCS     |
| C9415 | Doxorubicin HCl, 10 mg, brand name                                                                                                                               | Procedure | HCPCS     |
| C9417 | Bleomycin sulfate, 15 units, brand name                                                                                                                          | Procedure | HCPCS     |
| C9418 | Cisplatin, powder or solution, per 10 mg, brand name                                                                                                             | Procedure | HCPCS     |
| C9419 | Injection, cladribine, per 1 mg, brand name                                                                                                                      | Procedure | HCPCS     |
| C9420 | Cyclophosphamide, 100 mg, brand name                                                                                                                             | Procedure | HCPCS     |
| C9421 | Cyclophosphamide, lyophilized, 100 mg, brand name                                                                                                                | Procedure | HCPCS     |
| C9422 | Cytarabine, 100 mg, brand name                                                                                                                                   | Procedure | HCPCS     |
| C9423 | Dacarbazine, 100 mg, brand name                                                                                                                                  | Procedure | HCPCS     |
| C9424 | Daunorubicin, 10 mg                                                                                                                                              | Procedure | HCPCS     |
| C9425 | Etoposide, 10 mg, brand name                                                                                                                                     | Procedure | HCPCS     |
| C9426 | Floxuridine, 500 mg, brand name                                                                                                                                  | Procedure | HCPCS     |
| C9427 | Ifosfamide, 1 gm, brand name                                                                                                                                     | Procedure | HCPCS     |
| C9429 | Idarubicin HCl, 5 mg, brand name                                                                                                                                 | Procedure | HCPCS     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                          | Code      |           |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                                                                                                                                                      | Category  | Code Type |
| C9431 | Paclitaxel, 30 mg, brand name                                                                                                                                                                                                                                                                                                                                                                        | Procedure | HCPCS     |
| C9432 | Mitomycin, 5 mg, brand name                                                                                                                                                                                                                                                                                                                                                                          | Procedure | HCPCS     |
| C9433 | Thiotepa, 15 mg, brand name                                                                                                                                                                                                                                                                                                                                                                          | Procedure | HCPCS     |
| C9437 | Carmustine, brand name, 100 mg                                                                                                                                                                                                                                                                                                                                                                       | Procedure | HCPCS     |
| C9440 | Vinorelbine tartrate, brand name, per 10 mg                                                                                                                                                                                                                                                                                                                                                          | Procedure | HCPCS     |
| C9474 | Injection, irinotecan liposome, 1 mg                                                                                                                                                                                                                                                                                                                                                                 | Procedure | HCPCS     |
| D7440 | excision of malignant tumor - lesion diameter up to 1.25 cm                                                                                                                                                                                                                                                                                                                                          | Procedure | HCPCS     |
| D7441 | excision of malignant tumor - lesion diameter greater than 1.25 cm                                                                                                                                                                                                                                                                                                                                   | Procedure | HCPCS     |
| G0068 | Professional services for the administration of anti-infective, pain management, chelation, pulmonary hypertension, inotropic, or other intravenous infusion drug or biological (excluding chemotherapy or other highly complex drug or biological) for each infusion drug administration calendar day in the individual's home, each 15 min                                                         | Procedure | HCPCS     |
| G0070 | Professional services for the administration of intravenous chemotherapy or other intravenous highly complex drug or biological infusion for each infusion drug administration calendar day in the individual's home, each 15 min                                                                                                                                                                    | Procedure | HCPCS     |
| G0088 | Professional services, initial visit, for the administration of anti-infective, pain management, chelation, pulmonary hypertension, inotropic, or other intravenous infusion drug or biological (excluding chemotherapy or other highly complex drug or biological) for each infusion drug administration calendar day in the individual's home, each 15 min                                         | Procedure | HCPCS     |
| G0090 | Professional services, initial visit, for the administration of intravenous chemotherapy or other highly complex infusion drug or biological for each infusion drug administration calendar day in the individual's home, each 15 min                                                                                                                                                                | Procedure | HCPCS     |
| G0292 | Administration(s) of experimental drug(s) only in a medicare qualifying clinical trial (includes administration for chemotherapy and other types of therapy via infusion and/or other than infusion), per day                                                                                                                                                                                        | Procedure | HCPCS     |
| G0355 | Chemotherapy administration, subcutaneous or intramuscular nonhormonal antineoplastic                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |
| G0359 | Chemotherapy administration, intravenous infusion technique; up to one hour, single or initial substance/drug                                                                                                                                                                                                                                                                                        | Procedure | HCPCS     |
| G0361 | Initiation of prolonged chemotherapy infusion (more than eight hours), requiring use of a portable or implantable pump                                                                                                                                                                                                                                                                               | Procedure | HCPCS     |
| G0498 | Chemotherapy administration, intravenous infusion technique; initiation of infusion in the office/clinic setting using office/clinic pump/supplies, with continuation of the infusion in the community setting (e.g., home, domiciliary, rest home or assisted living) using a portable pump provided by the office/clinic, includes follow up office/clinic visit at the conclusion of the infusion | Procedure | HCPCS     |
| G2129 | Procedure related BP's not taken during an outpatient visit. Examples include same day surgery, ambulatory service center, GI, lab, dialysis, infusion center, chemotherapy                                                                                                                                                                                                                          | Procedure | HCPCS     |
| G2206 | Patient received adjuvant treatment course including both chemotherapy and HER2-targeted therapy                                                                                                                                                                                                                                                                                                     | Procedure | HCPCS     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                                                                            | Code      | Code Type |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Category  |           |
| G2207 | Reason for not administering adjuvant treatment course including both chemotherapy and HER2-targeted therapy (e.g., poor performance status (ECOG 3-4; Karnofsky <=50), cardiac contraindications, insufficient renal function, insufficient hepatic function, other active or secondary cancer diagnoses, other medical contraindications, patients who died during initial treatment course or transferred during or after initial treatment course) | Procedure | HCPCS     |
| G2208 | Patient did not receive adjuvant treatment course including both chemotherapy and HER2-targeted therapy                                                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |
| G3001 | Administration and supply of tositumomab, 450 mg                                                                                                                                                                                                                                                                                                                                                                                                       | Procedure | HCPCS     |
| G8371 | Chemotherapy documented as not received or prescribed for Stage III colon cancer                                                                                                                                                                                                                                                                                                                                                                       | Procedure | HCPCS     |
| G8372 | Chemotherapy documented as received or prescribed for Stage III colon cancer patients                                                                                                                                                                                                                                                                                                                                                                  | Procedure | HCPCS     |
| G8373 | Chemotherapy plan documented prior to chemotherapy administration                                                                                                                                                                                                                                                                                                                                                                                      | Procedure | HCPCS     |
| G8374 | Chemotherapy plan not documented prior to chemotherapy administration                                                                                                                                                                                                                                                                                                                                                                                  | Procedure | HCPCS     |
| G8375 | Chronic lymphocytic leukemia (CLL) patient with no documentation of baseline flow cytometry performed                                                                                                                                                                                                                                                                                                                                                  | Procedure | HCPCS     |
| G8376 | Clinician documentation that breast cancer patient was not eligible for tamoxifen or aromatase inhibitor therapy measure                                                                                                                                                                                                                                                                                                                               | Procedure | HCPCS     |
| G8377 | Clinician documentation that colon cancer patient is not eligible for chemotherapy measure                                                                                                                                                                                                                                                                                                                                                             | Procedure | HCPCS     |
| G8380 | For patients with ER or PR positive, Stage IC-III breast cancer, clinician did not document that the patient received or was prescribed tamoxifen or aromatase inhibitor                                                                                                                                                                                                                                                                               | Procedure | HCPCS     |
| G8381 | For patients with ER or PR positive, Stage IC-III breast cancer, clinician documented or prescribed that the patient is receiving tamoxifen or aromatase inhibitor                                                                                                                                                                                                                                                                                     | Procedure | HCPCS     |
| G8384 | Baseline cytogenetic testing not performed in patients with myelodysplastic syndrome (MDS) or acute leukemias                                                                                                                                                                                                                                                                                                                                          | Procedure | HCPCS     |
| G8464 | Clinician documented that prostate cancer patient is not an eligible candidate for adjuvant hormonal therapy; low or intermediate risk of recurrence or risk of recurrence not determined                                                                                                                                                                                                                                                              | Procedure | HCPCS     |
| G8518 | Clinical stage prior to surgery for lung cancer and esophageal cancer resection was recorded                                                                                                                                                                                                                                                                                                                                                           | Procedure | HCPCS     |
| G8519 | Clinician documented that patient was not eligible for clinical stage prior to surgery for lung cancer and esophageal cancer resection measure                                                                                                                                                                                                                                                                                                         | Procedure | HCPCS     |
| G8520 | Clinician stage prior to surgery for lung cancer and esophageal cancer resection was not recorded, reason not specified                                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |
| G8875 | Clinician diagnosed breast cancer preoperatively by a minimally invasive biopsy method                                                                                                                                                                                                                                                                                                                                                                 | Procedure | HCPCS     |
| G8879 | Clinically node negative (T1N0M0 or T2N0M0) invasive breast cancer                                                                                                                                                                                                                                                                                                                                                                                     | Procedure | HCPCS     |
| G8881 | Stage of breast cancer is greater than T1N0M0 or T2N0M0                                                                                                                                                                                                                                                                                                                                                                                                | Procedure | HCPCS     |
| G8927 | Adjuvant chemotherapy referred, prescribed or previously received for AJCC stage III, colon cancer                                                                                                                                                                                                                                                                                                                                                     | Procedure | HCPCS     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Code Category | Code Type |
|-------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| G8928 | Adjuvant chemotherapy not prescribed or previously received, for documented reasons (e.g., medical co-morbidities, diagnosis date more than 5 years prior to the current visit date, patient's diagnosis date is within 120 days of the end of the 12 month reporting period, patient's cancer has metastasized, medical contraindication/allergy, poor performance status, other medical reasons, patient refusal, other patient reasons, patient is currently enrolled in a clinical trial that precludes prescription of chemotherapy, other system reasons) | Procedure     | HCPCS     |
| G8929 | Adjuvant chemotherapy not prescribed or previously received, reason not given                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Procedure     | HCPCS     |
| G8975 | Documentation of medical reason(s) for patient having a hemoglobin level < 10 g/dl (e.g., patients who have nonrenal etiologies of anemia [e.g., sickle cell anemia or other hemoglobinopathies, hypersplenism, primary bone marrow disease, anemia related to chemotherapy for diagnosis of malignancy, postoperative bleeding, active bloodstream or peritoneal infection], other medical reasons)                                                                                                                                                            | Procedure     | HCPCS     |
| G9021 | Chemotherapy assessment for nausea and/or vomiting, patient reported, performed at the time of chemotherapy administration; assessment Level 1: not at all (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                               | Procedure     | HCPCS     |
| G9022 | Chemotherapy assessment for nausea and/or vomiting, patient reported, performed at the time of chemotherapy administration; assessment Level 2: a little (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                 | Procedure     | HCPCS     |
| G9023 | Chemotherapy assessment for nausea and/or vomiting, patient reported, performed at the time of chemotherapy administration; assessment Level 3: quite a bit (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                              | Procedure     | HCPCS     |
| G9024 | Chemotherapy assessment for nausea and/or vomiting, patient reported, performed at the time of chemotherapy administration; assessment Level 4: very much (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                | Procedure     | HCPCS     |
| G9025 | Chemotherapy assessment for pain, patient reported, performed at the time of chemotherapy administration; assessment Level 1: not at all (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                                 | Procedure     | HCPCS     |
| G9026 | Chemotherapy assessment for pain, patient reported, performed at the time of chemotherapy administration; assessment Level 2: a little (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                                   | Procedure     | HCPCS     |
| G9027 | Chemotherapy assessment for pain, patient reported, performed at the time of chemotherapy administration; assessment Level 3: quite a bit (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                                | Procedure     | HCPCS     |
| G9028 | Chemotherapy assessment for pain, patient reported, performed at the time of chemotherapy administration; assessment Level 4: very much (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                                                  | Procedure     | HCPCS     |
| G9029 | Chemotherapy assessment for lack of energy (fatigue), patient reported, performed at the time of chemotherapy administration; assessment Level 1: not at all (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                             | Procedure     | HCPCS     |
| G9030 | Chemotherapy assessment for lack of energy (fatigue), patient reported, performed at the time of chemotherapy administration; assessment Level 2: a little (for use in a Medicare-approved demonstration project)                                                                                                                                                                                                                                                                                                                                               | Procedure     | HCPCS     |

| Code  | Description                                                                                                                                                                                                                                                                                                                         | Code Category | Code Type |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| G9031 | Chemotherapy assessment for lack of energy (fatigue), patient reported, performed at the time of chemotherapy administration, assessment Level 3: quite a bit (for use in a Medicare approved demonstration project)                                                                                                                | Procedure     | HCPCS     |
| G9032 | Chemotherapy assessment for lack of energy (fatigue), patient reported, performed at the time of chemotherapy administration, assessment Level 4: very much (for use in a Medicare-approved demonstration project)                                                                                                                  | Procedure     | HCPCS     |
| G9050 | Oncology; primary focus of visit; work-up, evaluation, or staging at the time of cancer diagnosis or recurrence (for use in a Medicare-approved demonstration project)                                                                                                                                                              | Procedure     | HCPCS     |
| G9051 | Oncology; primary focus of visit; treatment decision-making after disease is staged or restaged, discussion of treatment options, supervising/coordinating active cancer-directed therapy or managing consequences of cancer-directed therapy (for use in a Medicare-approved demonstration project)                                | Procedure     | HCPCS     |
| G9052 | Oncology; primary focus of visit; surveillance for disease recurrence for patient who has completed definitive cancer-directed therapy and currently lacks evidence of recurrent disease; cancer-directed therapy might be considered in the future (for use in a Medicare-approved demonstration project)                          | Procedure     | HCPCS     |
| G9053 | Oncology; primary focus of visit; expectant management of patient with evidence of cancer for whom no cancer-directed therapy is being administered or arranged at present; cancer-directed therapy might be considered in the future (for use in a Medicare-approved demonstration project)                                        | Procedure     | HCPCS     |
| G9054 | Oncology; primary focus of visit; supervising, coordinating or managing care of patient with terminal cancer or for whom other medical illness prevents further cancer treatment; includes symptom management, end-of-life care planning, management of palliative therapies (for use in a Medicare-approved demonstration project) | Procedure     | HCPCS     |
| G9063 | Oncology; disease status; limited to nonsmall cell lung cancer; extent of disease initially established as Stage I (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                 | Procedure     | HCPCS     |
| G9064 | Oncology; disease status; limited to nonsmall cell lung cancer; extent of disease initially established as Stage II (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                | Procedure     | HCPCS     |
| G9065 | Oncology; disease status; limited to nonsmall cell lung cancer; extent of disease initially established as Stage III a (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                             | Procedure     | HCPCS     |
| G9066 | Oncology; disease status; limited to nonsmall cell lung cancer; Stage III B-IV at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                                                                                   | Procedure     | HCPCS     |
| G9067 | Oncology; disease status; limited to nonsmall cell lung cancer; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                                                                | Procedure     | HCPCS     |

| Code  | Description                                                                                                                                                                                                                                                                                                                                 | Code Category | Code Type |
|-------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| G9069 | Oncology; disease status; small cell lung cancer, limited to small cell and combined small cell/nonsmall cell; extensive Stage at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                                           | Procedure     | HCPCS     |
| G9070 | Oncology; disease status; small cell lung cancer, limited to small cell and combined small cell/nonsmall; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                              | Procedure     | HCPCS     |
| G9071 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; Stage I or Stage IIA-IIB; or T3, N1, M0; and ER and/or PR positive; with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project) | Procedure     | HCPCS     |
| G9072 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; Stage I, or Stage IIA-IIB; or T3, N1, M0; and ER and PR negative; with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)   | Procedure     | HCPCS     |
| G9073 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; Stage IIIA-IIIIB; and not T3, N1, M0; and ER and/or PR positive; with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)    | Procedure     | HCPCS     |
| G9074 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; Stage IIIA-IIIIB; and not T3, N1, M0; and ER and PR negative; with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)       | Procedure     | HCPCS     |
| G9075 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; M1 at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                         | Procedure     | HCPCS     |
| G9076 | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; extent of disease unknown, under evaluation, presurgical or not listed (for use in a Medicare-approved demonstration project)                                                                 | Procedure     | HCPCS     |
| G9077 | Oncology; disease status; prostate cancer, limited to adenocarcinoma as predominant cell type; T1-T2c and Gleason 2-7 and PSA < or equal to 20 at diagnosis with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                       | Procedure     | HCPCS     |
| G9078 | Oncology; disease status; prostate cancer, limited to adenocarcinoma as predominant cell type; T2 or T3a Gleason 8-10 or PSA > 20 at diagnosis with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                                    | Procedure     | HCPCS     |
| G9079 | Oncology; disease status; prostate cancer, limited to adenocarcinoma as predominant cell type; T3b-T4, any N; any T, N1 at diagnosis with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                                              | Procedure     | HCPCS     |
| G9080 | Oncology; disease status; prostate cancer, limited to adenocarcinoma; after initial treatment with rising PSA or failure of PSA decline (for use in a Medicare-approved demonstration project)                                                                                                                                              | Procedure     | HCPCS     |

| G9106       | Oncology; disease status; pancreatic cancer, limited to adenocarcinoma; post R1 or R2 resection with no evidence of disease progression, or metastases (for use in a Medicare-approved demonstration project)                                                                                                                                                                       | Procedure            | HCPCS            |
| G9107       | Oncology; disease status; pancreatic cancer, limited to adenocarcinoma; unresectable at diagnosis, M1 at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                                                                                                            | Procedure            | HCPCS            |
| G9108       | Oncology; disease status; pancreatic cancer, limited to adenocarcinoma; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                                                                                                        | Procedure            | HCPCS            |
| G9109       | Oncology; disease status; head and neck cancer, limited to cancers of oral cavity, pharynx and larynx with squamous cell as predominant cell type; extent of disease initially established as T1-T2 and N0, M0 (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)     | Procedure            | HCPCS            |
| G9110       | Oncology; disease status; head and neck cancer, limited to cancers of oral cavity, pharynx and larynx with squamous cell as predominant cell type; extent of disease initially established as T3-4 and/or N1-3, M0 (prior to neoadjuvant therapy, if any) with no evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project) | Procedure            | HCPCS            |
| G9111       | Oncology; disease status; head and neck cancer, limited to cancers of oral cavity, pharynx and larynx with squamous cell as predominant cell type; M1 at diagnosis, metastatic, locally recurrent, or progressive (for use in a Medicare-approved demonstration project)                                                                                                            | Procedure            | HCPCS            |
| G9112       | Oncology; disease status; head and neck cancer, limited to cancers of oral cavity, pharynx and larynx with squamous cell as predominant cell type; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                             | Procedure            | HCPCS            |
| G9113       | Oncology; disease status; ovarian cancer, limited to epithelial cancer; pathologic Stage IA-B (Grade 1) without evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                                                                                                                   | Procedure            | HCPCS            |
| G9114       | Oncology; disease status; ovarian cancer, limited to epithelial cancer; pathologic Stage IA-B (Grade 2-3); or Stage IC (all grades); or Stage II; without evidence of disease progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                                                                         | Procedure            | HCPCS            |
| G9115       | Oncology; disease status; ovarian cancer, limited to epithelial cancer; pathologic Stage III-IV; without evidence of progression, recurrence, or metastases (for use in a Medicare-approved demonstration project)                                                                                                                                                                  | Procedure            | HCPCS            |
| G9116       | Oncology; disease status; ovarian cancer, limited to epithelial cancer; evidence of disease progression, or recurrence, and/or platinum resistance (for use in a Medicare-approved demonstration project)                                                                                                                                                                           | Procedure            | HCPCS            |
| G9117       | Oncology; disease status; ovarian cancer, limited to epithelial cancer; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project)                                                                                                                                                                                        | Procedure            | HCPCS            |

|-------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|------------------|
| G9123       | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and/or BCR-ABL positive; chronic phase not in hematologic, cytogenetic, or molecular remission (for use in a Medicare-approved demonstration project)          | Procedure            | HCPCS            |
| G9124       | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and /or BCR-ABL positive; accelerated phase not in hematologic cytogenetic, or molecular remission (for use in a Medicare-approved demonstration project)      | Procedure            | HCPCS            |
| G9125       | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and/or BCR-ABL positive; blast phase not in hematologic, cytogenetic, or molecular remission (for use in a Medicare-approved demonstration project)            | Procedure            | HCPCS            |
| G9126       | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and/or BCR-ABL positive; in hematologic, cytogenetic, or molecular remission (for use in a Medicare-approved demonstration project)                            | Procedure            | HCPCS            |
| G9127       | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and /or BCR-ABL positive; extent of disease unknown, under evaluation, not listed (for use in a Medicare-approved demonstration project)                       | Procedure            | HCPCS            |
| G9131       | Oncology; disease status; invasive female breast cancer (does not include ductal carcinoma in situ); adenocarcinoma as predominant cell type; extent of disease unknown, staging in progress, or not listed (for use in a Medicare-approved demonstration project) | Procedure            | HCPCS            |
| G9132       | Oncology; disease status; prostate cancer, limited to adenocarcinoma; hormone-refractory/androgen-independent (e.g., rising PSA on antiandrogen therapy or postorchiectomy); clinical metastases (for use in a Medicare-approved demonstration project)            | Procedure            | HCPCS            |
| G9133       | Oncology; disease status; prostate cancer, limited to adenocarcinoma; hormone-responsive; clinical metastases or M1 at diagnosis (for use in a Medicare-approved demonstration project)                                                                            | Procedure            | HCPCS            |
| G9139       | Oncology; disease status; chronic myelogenous leukemia, limited to Philadelphia chromosome positive and/or BCR-ABL positive; extent of disease unknown, staging in progress, not listed (for use in a Medicare-approved demonstration project)                     | Procedure            | HCPCS            |
| G9704       | AJCC breast cancer Stage I: T1 mic or T1a documented                                                                                                                                                                                                               | Procedure            | HCPCS            |
| G9705       | AJCC breast cancer Stage I: T1b (tumor > 0.5 cm but <= 1 cm in greatest dimension) documented                                                                                                                                                                      | Procedure            | HCPCS            |
| G9711       | Patients with a diagnosis or past history of total colectomy or colorectal cancer                                                                                                                                                                                  | Procedure            | HCPCS            |
| G9826       | Patient transferred to practice after initiation of chemotherapy                                                                                                                                                                                                   | Procedure            | HCPCS            |
| G9829       | Breast adjuvant chemotherapy administered                                                                                                                                                                                                                          | Procedure            | HCPCS            |
| G9831       | AJCC Stage at breast cancer diagnosis = II or III                                                                                                                                                                                                                  | Procedure            | HCPCS            |
| G9832       | AJCC Stage at breast cancer diagnosis = I (Ia or Ib) and T-Stage at breast cancer diagnosis does not equal = T1, T1a, T1b                                                                                                                                          | Procedure            | HCPCS            |
| G9833       | Patient transfer to practice after initiation of chemotherapy                                                                                                                                                                                                      | Procedure            | HCPCS            |
| G9835       | Trastuzumab administered within 12 months of diagnosis                                                                                                                                                                                                             | Procedure            | HCPCS            |

| G9836 | Reason for not administering trastuzumab documented (e.g., patient declined, patient died, patient transferred, contraindication or other clinical exclusion, neoadjuvant chemotherapy or radiation not complete) | Procedure | HCPCS     |
| G9837 | Trastuzumab not administered within 12 months of diagnosis                                                                                                                                                        | Procedure | HCPCS     |
| J0202 | Injection, alemtuzumab, 1 mg                                                                                                                                                                                      | Procedure | HCPCS     |
| J0207 | Injection, amifostine, 500 mg                                                                                                                                                                                     | Procedure | HCPCS     |
| J0594 | Injection, busulfan, 1 mg                                                                                                                                                                                         | Procedure | HCPCS     |
| J0894 | Injection, decitabine, 1 mg                                                                                                                                                                                       | Procedure | HCPCS     |
| J7527 | Everolimus, oral, 0.25 mg                                                                                                                                                                                         | Procedure | HCPCS     |
| J8501 | Aprepitant, oral, 5 mg                                                                                                                                                                                            | Procedure | HCPCS     |
| J8510 | Busulfan, oral, 2 mg                                                                                                                                                                                              | Procedure | HCPCS     |
| J8515 | Cabergoline, oral, 0.25 mg                                                                                                                                                                                        | Procedure | HCPCS     |
| J8520 | Capecitabine, oral, 150 mg                                                                                                                                                                                        | Procedure | HCPCS     |
| J8521 | Capecitabine, oral, 500 mg                                                                                                                                                                                        | Procedure | HCPCS     |
| J8530 | Cyclophosphamide, oral, 25 mg                                                                                                                                                                                     | Procedure | HCPCS     |
| J8540 | Dexamethasone, oral, 0.25 mg                                                                                                                                                                                      | Procedure | HCPCS     |
| J8560 | Etoposide, oral, 50 mg                                                                                                                                                                                            | Procedure | HCPCS     |
| J8561 | Everolimus, oral, 0.25 mg                                                                                                                                                                                         | Procedure | HCPCS     |
| J8562 | Fludarabine phosphate, oral, 10 mg                                                                                                                                                                                | Procedure | HCPCS     |
| J8565 | Gefitinib, oral, 250 mg                                                                                                                                                                                           | Procedure | HCPCS     |
| J8597 | Antiemetic drug, oral, not otherwise specified                                                                                                                                                                    | Procedure | HCPCS     |
| J8600 | Melphalan, oral, 2 mg                                                                                                                                                                                             | Procedure | HCPCS     |
| J8610 | Methotrexate, oral, 2.5 mg                                                                                                                                                                                        | Procedure | HCPCS     |
| J8650 | Nabilone, oral, 1 mg                                                                                                                                                                                              | Procedure | HCPCS     |
| J8655 | Netupitant 300 mg and palonosetron 0.5 mg, oral                                                                                                                                                                   | Procedure | HCPCS     |
| J8670 | Rolapitant, oral, 1 mg                                                                                                                                                                                            | Procedure | HCPCS     |
| J8700 | Temozolomide, oral, 5 mg                                                                                                                                                                                          | Procedure | HCPCS     |
| J8705 | Topotecan, oral, 0.25 mg                                                                                                                                                                                          | Procedure | HCPCS     |
| J8999 | Prescription drug, oral, chemotherapeutic, NOS                                                                                                                                                                    | Procedure | HCPCS     |
| J9000 | Injection, doxorubicin HCl, 10 mg                                                                                                                                                                                 | Procedure | HCPCS     |
| J9001 | Injection, doxorubicin HCl, all lipid formulations, 10 mg                                                                                                                                                         | Procedure | HCPCS     |
| J9002 | Injection, doxorubicin hydrochloride, liposomal, Doxil, 10 mg                                                                                                                                                     | Procedure | HCPCS     |
| J9010 | Injection, alemtuzumab, 10 mg                                                                                                                                                                                     | Procedure | HCPCS     |
| J9015 | Injection, aldesleukin, per single use vial                                                                                                                                                                       | Procedure | HCPCS     |
| J9017 | Injection, arsenic trioxide, 1 mg                                                                                                                                                                                 | Procedure | HCPCS     |
| J9019 | Injection, asparaginase (Erwinaze), 1,000 IU                                                                                                                                                                      | Procedure | HCPCS     |
| J9020 | Injection, asparaginase, not otherwise specified, 10,000 units                                                                                                                                                    | Procedure | HCPCS     |
| J9021 | Injection, asparaginase, recombinant, (Rylaze), 0.1 mg                                                                                                                                                            | Procedure | HCPCS     |
| J9022 | Injection, atezolizumab, 10 mg                                                                                                                                                                                    | Procedure | HCPCS     |
| J9023 | Injection, avelumab, 10 mg                                                                                                                                                                                        | Procedure | HCPCS     |
| J9025 | Injection, azacitidine, 1 mg                                                                                                                                                                                      | Procedure | HCPCS     |
| J9027 | Injection, clofarabine, 1 mg                                                                                                                                                                                      | Procedure | HCPCS     |
| J9030 | BCG live intravesical instillation, 1 mg                                                                                                                                                                          | Procedure | HCPCS     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                             | Code      |           |
|-------|-----------------------------------------------------------------------------------------|-----------|-----------|
|       |                                                                                         | Category  | Code Type |
| J9032 | Injection, belinostat, 10 mg                                                            | Procedure | HCPCS     |
| J9033 | Injection, bendamustine HCl (Treanda), 1 mg                                             | Procedure | HCPCS     |
| J9034 | Injection, bendamustine HCl (Bendeka), 1 mg                                             | Procedure | HCPCS     |
| J9035 | Injection, bevacizumab, 10 mg                                                           | Procedure | HCPCS     |
| J9036 | Injection, bendamustine HCl, (Belrapzo/bendamustine), 1 mg                              | Procedure | HCPCS     |
| J9037 | Injection, belantamab mafodotin-blmf, 0.5 mg                                            | Procedure | HCPCS     |
| J9039 | Injection, blinatumomab, 1 mcg                                                          | Procedure | HCPCS     |
| J9040 | Injection, bleomycin sulfate, 15 units                                                  | Procedure | HCPCS     |
| J9041 | Injection, bortezomib, 0.1 mg                                                           | Procedure | HCPCS     |
| J9042 | Injection, brentuximab vedotin, 1 mg                                                    | Procedure | HCPCS     |
| J9043 | Injection, cabazitaxel, 1 mg                                                            | Procedure | HCPCS     |
| J9045 | Injection, carboplatin, 50 mg                                                           | Procedure | HCPCS     |
| J9046 | Injection, bortezomib (Dr. Reddy's), not therapeutically equivalent to J9041, 0.1 mg    | Procedure | HCPCS     |
| J9047 | Injection, carfilzomib, 1 mg                                                            | Procedure | HCPCS     |
| J9048 | Injection, bortezomib (Fresenius Kabi), not therapeutically equivalent to J9041, 0.1 mg | Procedure | HCPCS     |
| J9049 | Injection, bortezomib (Hospira), not therapeutically equivalent to J9041, 0.1 mg        | Procedure | HCPCS     |
| J9050 | Injection, carmustine, 100 mg                                                           | Procedure | HCPCS     |
| J9055 | Injection, cetuximab, 10 mg                                                             | Procedure | HCPCS     |
| J9057 | Injection, copanlisib, 1 mg                                                             | Procedure | HCPCS     |
| J9060 | Injection, cisplatin, powder or solution, 10 mg                                         | Procedure | HCPCS     |
| J9061 | Injection, amivantamab-vmjw, 2 mg                                                       | Procedure | HCPCS     |
| J9062 | Cisplatin, 50 mg                                                                        | Procedure | HCPCS     |
| J9065 | Injection, cladribine, per 1 mg                                                         | Procedure | HCPCS     |
| J9070 | Cyclophosphamide, 100 mg                                                                | Procedure | HCPCS     |
| J9071 | Injection, cyclophosphamide, (AuroMedics), 5 mg                                         | Procedure | HCPCS     |
| J9080 | Cyclophosphamide, 200 mg                                                                | Procedure | HCPCS     |
| J9090 | Cyclophosphamide, 500 mg                                                                | Procedure | HCPCS     |
| J9091 | Cyclophosphamide, 1 g                                                                   | Procedure | HCPCS     |
| J9092 | Cyclophosphamide, 2 g                                                                   | Procedure | HCPCS     |
| J9093 | Cyclophosphamide, lyophilized, 100 mg                                                   | Procedure | HCPCS     |
| J9094 | Cyclophosphamide, lyophilized, 200 mg                                                   | Procedure | HCPCS     |
| J9095 | Cyclophosphamide, lyophilized, 500 mg                                                   | Procedure | HCPCS     |
| J9096 | Cyclophosphamide, lyophilized, 1 g                                                      | Procedure | HCPCS     |
| J9097 | Cyclophosphamide, lyophilized, 2 g                                                      | Procedure | HCPCS     |
| J9098 | Injection, cytarabine liposome, 10 mg                                                   | Procedure | HCPCS     |
| J9100 | Injection, cytarabine, 100 mg                                                           | Procedure | HCPCS     |
| J9110 | Injection, cytarabine, 500 mg                                                           | Procedure | HCPCS     |
| J9118 | Injection, calaspargase pegol-mknl, 10 units                                            | Procedure | HCPCS     |
| J9119 | Injection, cemiplimab-rwlc, 1 mg                                                        | Procedure | HCPCS     |
| J9120 | Injection, dactinomycin, 0.5 mg                                                         | Procedure | HCPCS     |
| J9130 | Dacarbazine, 100 mg                                                                     | Procedure | HCPCS     |
| J9140 | Dacarbazine, 200 mg                                                                     | Procedure | HCPCS     |
| J9144 | Injection, daratumumab, 10 mg and hyaluronidase-fihj                                    | Procedure | HCPCS     |

|-------|-----------------------------------------------------------------------|-----------|-----------|
|       |                                                                       | Category  | Code Type |
| J9145 | Injection, daratumumab, 10 mg                                         | Procedure | HCPCS     |
| J9150 | Injection, daunorubicin, 10 mg                                        | Procedure | HCPCS     |
| J9151 | Injection, daunorubicin citrate, liposomal formulation, 10 mg         | Procedure | HCPCS     |
| J9153 | Injection, liposomal, 1 mg daunorubicin and 2.27 mg cytarabine        | Procedure | HCPCS     |
| J9155 | Injection, degarelix, 1 mg                                            | Procedure | HCPCS     |
| J9160 | Injection, denileukin diftitox, 300 mcg                               | Procedure | HCPCS     |
| J9165 | Injection, diethylstilbestrol diphosphate, 250 mg                     | Procedure | HCPCS     |
| J9170 | Injection, docetaxel, 20 mg                                           | Procedure | HCPCS     |
| J9171 | Injection, docetaxel, 1 mg                                            | Procedure | HCPCS     |
| J9173 | Injection, durvalumab, 10 mg                                          | Procedure | HCPCS     |
| J9175 | Injection, Elliotts' B solution, 1 ml                                 | Procedure | HCPCS     |
| J9176 | Injection, elotuzumab, 1 mg                                           | Procedure | HCPCS     |
| J9177 | Injection, enfortumab vedotin-ejfv, 0.25 mg                           | Procedure | HCPCS     |
| J9178 | Injection, epirubicin HCl, 2 mg                                       | Procedure | HCPCS     |
| J9179 | Injection, eribulin mesylate, 0.1 mg                                  | Procedure | HCPCS     |
| J9180 | Epirubicin HCl, 50 mg                                                 | Procedure | HCPCS     |
| J9181 | Injection, etoposide, 10 mg                                           | Procedure | HCPCS     |
| J9182 | Etoposide, 100 mg                                                     | Procedure | HCPCS     |
| J9185 | Injection, fludarabine phosphate, 50 mg                               | Procedure | HCPCS     |
| J9190 | Injection, fluorouracil, 500 mg                                       | Procedure | HCPCS     |
| J9198 | Injection, gemcitabine HCl, (Infugem), 100 mg                         | Procedure | HCPCS     |
| J9200 | Injection, floxuridine, 500 mg                                        | Procedure | HCPCS     |
| J9201 | Injection, gemcitabine HCl, not otherwise specified, 200 mg           | Procedure | HCPCS     |
| J9202 | Goserelin acetate implant, per 3.6 mg                                 | Procedure | HCPCS     |
| J9203 | Injection, gemtuzumab ozogamicin, 0.1 mg                              | Procedure | HCPCS     |
| J9204 | Injection, mogamulizumab-kpkc, 1 mg                                   | Procedure | HCPCS     |
| J9205 | Injection, irinotecan liposome, 1 mg                                  | Procedure | HCPCS     |
| J9206 | Injection, irinotecan, 20 mg                                          | Procedure | HCPCS     |
| J9207 | Injection, ixabepilone, 1 mg                                          | Procedure | HCPCS     |
| J9208 | Injection, ifosfamide, 1 g                                            | Procedure | HCPCS     |
| J9209 | Injection, mesna, 200 mg                                              | Procedure | HCPCS     |
| J9210 | Injection, emapalumab-lzsg, 1 mg                                      | Procedure | HCPCS     |
| J9211 | Injection, idarubicin HCl, 5 mg                                       | Procedure | HCPCS     |
| J9212 | Injection, interferon alfacon-1, recombinant, 1 mcg                   | Procedure | HCPCS     |
| J9213 | Injection, interferon, alfa-2a, recombinant, 3 million units          | Procedure | HCPCS     |
| J9214 | Injection, interferon, alfa-2b, recombinant, 1 million units          | Procedure | HCPCS     |
| J9215 | Injection, interferon, alfa-N3, (human leukocyte derived), 250,000 IU | Procedure | HCPCS     |
| J9216 | Injection, interferon, gamma 1-b, 3 million units                     | Procedure | HCPCS     |
| J9217 | Leuprolide acetate (for depot suspension), 7.5 mg                     | Procedure | HCPCS     |
| J9218 | Leuprolide acetate, per 1 mg                                          | Procedure | HCPCS     |
| J9219 | Leuprolide acetate implant, 65 mg                                     | Procedure | HCPCS     |
| J9223 | Injection, lurbinectedin, 0.1 mg                                      | Procedure | HCPCS     |
| J9225 | Histrelin implant (Vantas), 50 mg                                     | Procedure | HCPCS     |

|-------|-----------------------------------------------------------|-----------|-----------|
|       |                                                           | Category  | Code Type |
| J9226 | Histrelin implant (Supprelin LA), 50 mg                   | Procedure | HCPCS     |
| J9227 | Injection, isatuximab-irfc, 10 mg                         | Procedure | HCPCS     |
| J9228 | Injection, ipilimumab, 1 mg                               | Procedure | HCPCS     |
| J9229 | Injection, inotuzumab ozogamicin, 0.1 mg                  | Procedure | HCPCS     |
| J9230 | Injection, mechlorethamine HCl, (nitrogen mustard), 10 mg | Procedure | HCPCS     |
| J9245 | Injection, melphalan HCl, not otherwise specified, 50 mg  | Procedure | HCPCS     |
| J9246 | Injection, melphalan (Evomela), 1 mg                      | Procedure | HCPCS     |
| J9247 | Injection, melphalan flufenamide, 1 mg                    | Procedure | HCPCS     |
| J9250 | Methotrexate sodium, 5 mg                                 | Procedure | HCPCS     |
| J9260 | Methotrexate sodium, 50 mg                                | Procedure | HCPCS     |
| J9261 | Injection, nelarabine, 50 mg                              | Procedure | HCPCS     |
| J9262 | Injection, omacetaxine mepesuccinate, 0.01 mg             | Procedure | HCPCS     |
| J9263 | Injection, oxaliplatin, 0.5 mg                            | Procedure | HCPCS     |
| J9264 | Injection, paclitaxel protein-bound particles, 1 mg       | Procedure | HCPCS     |
| J9265 | Injection, paclitaxel, 30 mg                              | Procedure | HCPCS     |
| J9266 | Injection, pegaspargase, per single dose vial             | Procedure | HCPCS     |
| J9267 | Injection, paclitaxel, 1 mg                               | Procedure | HCPCS     |
| J9268 | Injection, pentostatin, 10 mg                             | Procedure | HCPCS     |
| J9269 | Injection, tagraxofusp-erzs, 10 mcg                       | Procedure | HCPCS     |
| J9270 | Injection, plicamycin, 2.5 mg                             | Procedure | HCPCS     |
| J9271 | Injection, pembrolizumab, 1 mg                            | Procedure | HCPCS     |
| J9272 | Injection, dostarlimab-gxly, 10 mg                        | Procedure | HCPCS     |
| J9273 | Injection, tisotumab vedotin-tftv, 1 mg                   | Procedure | HCPCS     |
| J9274 | Injection, tebentafusp-tebn, 1 mcg                        | Procedure | HCPCS     |
| J9280 | Injection, mitomycin, 5 mg                                | Procedure | HCPCS     |
| J9281 | Mitomycin pyelocalyceal instillation, 1 mg                | Procedure | HCPCS     |
| J9285 | Injection, olaratumab, 10 mg                              | Procedure | HCPCS     |
| J9290 | Mitomycin, 20 mg                                          | Procedure | HCPCS     |
| J9291 | Mitomycin, 40 mg                                          | Procedure | HCPCS     |
| J9293 | Injection, mitoxantrone HCl, per 5 mg                     | Procedure | HCPCS     |
| J9295 | Injection, necitumumab, 1 mg                              | Procedure | HCPCS     |
| J9298 | Injection, nivolumab and relatlimab-rmbw, 3 mg/1 mg       | Procedure | HCPCS     |
| J9299 | Injection, nivolumab, 1 mg                                | Procedure | HCPCS     |
| J9300 | Injection, gemtuzumab ozogamicin, 5 mg                    | Procedure | HCPCS     |
| J9301 | Injection, obinutuzumab, 10 mg                            | Procedure | HCPCS     |
| J9302 | Injection, ofatumumab, 10 mg                              | Procedure | HCPCS     |
| J9303 | Injection, panitumumab, 10 mg                             | Procedure | HCPCS     |
| J9304 | Injection, pemetrexed (Pemfexy), 10 mg                    | Procedure | HCPCS     |
| J9305 | Injection, pemetrexed, NOS, 10 mg                         | Procedure | HCPCS     |
| J9306 | Injection, pertuzumab, 1 mg                               | Procedure | HCPCS     |
| J9307 | Injection, pralatrexate, 1 mg                             | Procedure | HCPCS     |
| J9308 | Injection, ramucirumab, 5 mg                              | Procedure | HCPCS     |
| J9309 | Injection, polatuzumab vedotin-piiq, 1 mg                 | Procedure | HCPCS     |

| J9310 | Injection, rituximab, 100 mg                                                           | Procedure | HCPCS     |
| J9311 | Injection, rituximab 10 mg and hyaluronidase                                           | Procedure | HCPCS     |
| J9312 | Injection, rituximab, 10 mg                                                            | Procedure | HCPCS     |
| J9313 | Injection, moxetumomab pasudotox-tdfk, 0.01 mg                                         | Procedure | HCPCS     |
| J9315 | Injection, romidepsin, 1 mg                                                            | Procedure | HCPCS     |
| J9316 | Injection, pertuzumab, trastuzumab, and hyaluronidase-zzxf, per 10 mg                  | Procedure | HCPCS     |
| J9317 | Injection, sacituzumab govitecan-hziy, 2.5 mg                                          | Procedure | HCPCS     |
| J9318 | Injection, romidepsin, nonlyophilized, 0.1 mg                                          | Procedure | HCPCS     |
| J9319 | Injection, romidepsin, lyophilized, 0.1 mg                                             | Procedure | HCPCS     |
| J9320 | Injection, streptozocin, 1 g                                                           | Procedure | HCPCS     |
| J9325 | Injection, talimogene laherparepvec, per 1 million plaque forming units                | Procedure | HCPCS     |
| J9328 | Injection, temozolomide, 1 mg                                                          | Procedure | HCPCS     |
| J9330 | Injection, temsirolimus, 1 mg                                                          | Procedure | HCPCS     |
| J9331 | Injection, sirolimus protein-bound particles, 1 mg                                     | Procedure | HCPCS     |
| J9332 | Injection, efgartigimod alfa-fcab, 2 mg                                                | Procedure | HCPCS     |
| J9340 | Injection, thiotepa, 15 mg                                                             | Procedure | HCPCS     |
| J9348 | Injection, naxitamab-gqgk, 1 mg                                                        | Procedure | HCPCS     |
| J9349 | Injection, tafasitamab-cxix, 2 mg                                                      | Procedure | HCPCS     |
| J9350 | Injection, mosunetuzumab-axgb, 1 mg                                                    | Procedure | HCPCS     |
| J9351 | Injection, topotecan, 0.1 mg                                                           | Procedure | HCPCS     |
| J9352 | Injection, trabectedin, 0.1 mg                                                         | Procedure | HCPCS     |
| J9353 | Injection, margetuximab-cmkb, 5 mg                                                     | Procedure | HCPCS     |
| J9354 | Injection, ado-trastuzumab emtansine, 1 mg                                             | Procedure | HCPCS     |
| J9355 | Injection, trastuzumab, excludes biosimilar, 10 mg                                     | Procedure | HCPCS     |
| J9356 | Injection, trastuzumab, 10 mg and hyaluronidase-oyks                                   | Procedure | HCPCS     |
| J9357 | Injection, valrubicin, intravesical, 200 mg                                            | Procedure | HCPCS     |
| J9358 | Injection, fam-trastuzumab deruxtecan-nxki, 1 mg                                       | Procedure | HCPCS     |
| J9359 | Injection, loncastuximab tesirine-lpyl, 0.075 mg                                       | Procedure | HCPCS     |
| J9360 | Injection, vinblastine sulfate, 1 mg                                                   | Procedure | HCPCS     |
| J9370 | Vincristine sulfate, 1 mg                                                              | Procedure | HCPCS     |
| J9371 | Injection, vincristine sulfate liposome, 1 mg                                          | Procedure | HCPCS     |
| J9375 | Vincristine sulfate, 2 mg                                                              | Procedure | HCPCS     |
| J9380 | Injection, teclistamab-cqyv, 0.5 mg                                                    | Procedure | HCPCS     |
| J9390 | Injection, vinorelbine tartrate, 10 mg                                                 | Procedure | HCPCS     |
| J9393 | Injection, fulvestrant (Teva) not therapeutically equivalent to J9395, 25 mg           | Procedure | HCPCS     |
| J9394 | Injection, fulvestrant (Fresenius Kabi) not therapeutically equivalent to J9395, 25 mg | Procedure | HCPCS     |
| J9395 | Injection, fulvestrant, 25 mg                                                          | Procedure | HCPCS     |
| J9400 | Injection, ziv-aflibercept, 1 mg                                                       | Procedure | HCPCS     |
| J9600 | Injection, porfimer sodium, 75 mg                                                      | Procedure | HCPCS     |
| J9999 | Not otherwise classified, antineoplastic drugs                                         | Procedure | HCPCS     |
| M0001 | Advancing Cancer Care MIPS Value Pathways                                              | Procedure | HCPCS     |
| M1037 | Patients with a diagnosis of lumbar spine region cancer at the time of the procedure   | Procedure | HCPCS     |

| Code  | Description                                                                                                                                                      | Code Category | Code Type |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| Q2043 | Sipuleucel-T, minimum of 50 million autologous CD54+ cells activated with PAP-GM-CSF, including leukapheresis and all other preparatory procedures, per infusion | Procedure     | HCPCS     |
| Q2048 | Injection, doxorubicin hydrochloride, liposomal, DOXIL, 10 mg                                                                                                    | Procedure     | HCPCS     |
| Q2049 | Injection, doxorubicin HCl, liposomal, imported Lipodox, 10 mg                                                                                                   | Procedure     | HCPCS     |
| Q2050 | Injection, doxorubicin HCl, liposomal, not otherwise specified, 10 mg                                                                                            | Procedure     | HCPCS     |
| Q5112 | Injection, trastuzumab-dttb, biosimilar, (Ontruzant), 10 mg                                                                                                      | Procedure     | HCPCS     |
| Q5113 | Injection, trastuzumab-pkrb, biosimilar, (Herzuma), 10 mg                                                                                                        | Procedure     | HCPCS     |
| Q5114 | Injection, Trastuzumab-dkst, biosimilar, (Ogivri), 10 mg                                                                                                         | Procedure     | HCPCS     |
| Q5115 | Injection, rituximab-abbs, biosimilar, (Truxima), 10 mg                                                                                                          | Procedure     | HCPCS     |
| Q5116 | Injection, trastuzumab-qyyp, biosimilar, (Trazimera), 10 mg                                                                                                      | Procedure     | HCPCS     |
| Q5117 | Injection, trastuzumab-anns, biosimilar, (Kanjinti), 10 mg                                                                                                       | Procedure     | HCPCS     |
| Q9979 | Injection, Alemtuzumab, 1 mg                                                                                                                                     | Procedure     | HCPCS     |
| S0087 | Injection, alemtuzumab, 30 mg                                                                                                                                    | Procedure     | HCPCS     |
| S0088 | Imatinib, 100 mg                                                                                                                                                 | Procedure     | HCPCS     |
| S0108 | Mercaptopurine, oral, 50 mg                                                                                                                                      | Procedure     | HCPCS     |
| S0115 | Bortezomib, 3.5 mg                                                                                                                                               | Procedure     | HCPCS     |
| S0116 | Bevacizumab, 100 mg                                                                                                                                              | Procedure     | HCPCS     |
| S0168 | Injection, azacitidine, 100 mg                                                                                                                                   | Procedure     | HCPCS     |
| S0172 | Chlorambucil, oral, 2 mg                                                                                                                                         | Procedure     | HCPCS     |
| S0176 | Hydroxyurea, oral, 500 mg                                                                                                                                        | Procedure     | HCPCS     |
| S0178 | Lomustine, oral, 10 mg                                                                                                                                           | Procedure     | HCPCS     |
| S0182 | Procarbazine HCl, oral, 50 mg                                                                                                                                    | Procedure     | HCPCS     |
| S0353 | Treatment planning and care coordination management for cancer initial treatment                                                                                 | Procedure     | HCPCS     |
| S0354 | Treatment planning and care coordination management for cancer established patient with a change of regimen                                                      | Procedure     | HCPCS     |
| S2090 | Ablation, open, one or more renal tumor(s); cryosurgical                                                                                                         | Procedure     | HCPCS     |
| S2091 | Ablation, percutaneous, one or more renal tumor(s); cryosurgical                                                                                                 | Procedure     | HCPCS     |
| S2095 | Transcatheter occlusion or embolization for tumor destruction, percutaneous, any method, using yttrium-90 microspheres                                           | Procedure     | HCPCS     |
| S2107 | Adoptive immunotherapy i.e. development of specific antitumor reactivity (e.g., tumor-infiltrating lymphocyte therapy) per course of treatment                   | Procedure     | HCPCS     |
| S2210 | Cryosurgical ablation (in situ destruction) of tumorous tissue, one or more lesions; liver                                                                       | Procedure     | HCPCS     |
| S3700 | Bladder tumor-associated antigen test                                                                                                                            | Procedure     | HCPCS     |
| S3711 | Circulating tumor cell test                                                                                                                                      | Procedure     | HCPCS     |
| S3721 | Prostate cancer antigen 3 (PCA3) testing                                                                                                                         | Procedure     | HCPCS     |
| S3820 | Complete BRCA1 and BRCA2 gene sequence analysis for susceptibility to breast and ovarian cancer                                                                  | Procedure     | HCPCS     |
| S3822 | Single mutation analysis (in individual with a known BRCA1 or BRCA2 mutation in the family) for susceptibility to breast and ovarian cancer                      | Procedure     | HCPCS     |
| S3823 | Three-mutation BRCA1 and BRCA2 analysis for susceptibility to breast and ovarian cancer in Ashkenazi individuals                                                 | Procedure     | HCPCS     |
| S3830 | Complete MLH1 and MSH2 gene sequence analysis for hereditary nonpolyposis colorectal cancer (HNPCC) genetic testing                                              | Procedure     | HCPCS     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| <b>Code</b> | <b>Description</b>                                                                                                                                                                                                                                                   | <b>Code Category</b> | <b>Code Type</b> |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|------------------|
| S3831       | Single-mutation analysis (in individual with a known MLH1 and MSH2 mutation in the family) for hereditary nonpolyposis colorectal cancer (HNPCC) genetic testing                                                                                                     | Procedure            | HCPCS            |
| S3854       | Gene expression profiling panel for use in the management of breast cancer treatment                                                                                                                                                                                 | Procedure            | HCPCS            |
| S5019       | Chemotherapy administration supplies (with pump), per diem                                                                                                                                                                                                           | Procedure            | HCPCS            |
| S5020       | Chemotherapy administration supplies (without pump), per diem                                                                                                                                                                                                        | Procedure            | HCPCS            |
| S9329       | Home infusion therapy, chemotherapy infusion; administrative services, professional pharmacy services, care coordination, and all necessary supplies and equipment (drugs and nursing visits coded separately), per diem (do not use this code with S9330 or S9331)  | Procedure            | HCPCS            |
| S9330       | Home infusion therapy, continuous (24 hours or more) chemotherapy infusion; administrative services, professional pharmacy services, care coordination, and all necessary supplies and equipment (drugs and nursing visits coded separately), per diem               | Procedure            | HCPCS            |
| S9331       | Home infusion therapy, intermittent (less than 24 hours) chemotherapy infusion; administrative services, professional pharmacy services, care coordination, and all necessary supplies and equipment (drugs and nursing visits coded separately), per diem           | Procedure            | HCPCS            |
| S9359       | Home infusion therapy, antitumor necrosis factor intravenous therapy; (e.g., Infliximab); administrative services, professional pharmacy services, care coordination, and all necessary supplies and equipment (drugs and nursing visits coded separately), per diem | Procedure            | HCPCS            |
| S9425       | Nursing services and all necessary supplies and additives for home iv chemotherapy (via iv push, gravity drip, stationary pump, ambulatory belt pump), per diem (hydration solution and drugs not included)                                                          | Procedure            | HCPCS            |
| XW03351     | Introduction of Blinatumomab Antineoplastic Immunotherapy into Peripheral Vein, Percutaneous Approach, New Technology Group 1                                                                                                                                        | Procedure            | ICD-10-PCS       |
| XW033B3     | Introduction of Cytarabine and Daunorubicin Liposome Antineoplastic into Peripheral Vein, Percutaneous Approach, New Technology Group 3                                                                                                                              | Procedure            | ICD-10-PCS       |
| XW033C3     | Introduction of Engineered Autologous Chimeric Antigen Receptor T-cell Immunotherapy into Peripheral Vein, Percutaneous Approach, New Technology Group 3                                                                                                             | Procedure            | ICD-10-PCS       |
| XW033Q5     | Introduction of Tagraxofusp-erzs Antineoplastic into Peripheral Vein, Percutaneous Approach, New Technology Group 5                                                                                                                                                  | Procedure            | ICD-10-PCS       |
| XW033S5     | Introduction of Iobenguane I-131 Antineoplastic into Peripheral Vein, Percutaneous Approach, New Technology Group 5                                                                                                                                                  | Procedure            | ICD-10-PCS       |
| XW04351     | Introduction of Blinatumomab Antineoplastic Immunotherapy into Central Vein, Percutaneous Approach, New Technology Group 1                                                                                                                                           | Procedure            | ICD-10-PCS       |
| XW043B3     | Introduction of Cytarabine and Daunorubicin Liposome Antineoplastic into Central Vein, Percutaneous Approach, New Technology Group 3                                                                                                                                 | Procedure            | ICD-10-PCS       |
| XW043C3     | Introduction of Engineered Autologous Chimeric Antigen Receptor T-cell Immunotherapy into Central Vein, Percutaneous Approach, New Technology Group 3                                                                                                                | Procedure            | ICD-10-PCS       |
| XW043Q5     | Introduction of Tagraxofusp-erzs Antineoplastic into Central Vein, Percutaneous Approach, New Technology Group 5                                                                                                                                                     | Procedure            | ICD-10-PCS       |
| XW043S5     | Introduction of Iobenguane I-131 Antineoplastic into Central Vein, Percutaneous Approach, New Technology Group 5                                                                                                                                                     | Procedure            | ICD-10-PCS       |
| XW0DXL5     | Introduction of Erdafitinib Antineoplastic into Mouth and Pharynx, External Approach, New Technology Group 5                                                                                                                                                         | Procedure            | ICD-10-PCS       |

List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code               | Description                                                                                                         | Code      |            |
|--------------------|---------------------------------------------------------------------------------------------------------------------|-----------|------------|
|                    |                                                                                                                     | Category  | Code Type  |
| XW0DXR5            | Introduction of Venetoclax Antineoplastic into Mouth and Pharynx, External Approach, New Technology Group 5         | Procedure | ICD-10-PCS |
| XW0DXT5            | Introduction of Ruxolitinib into Mouth and Pharynx, External Approach, New Technology Group 5                       | Procedure | ICD-10-PCS |
| XW0DXV5            | Introduction of Gilteritinib Antineoplastic into Mouth and Pharynx, External Approach, New Technology Group 5       | Procedure | ICD-10-PCS |
| <b>Nephropathy</b> |                                                                                                                     |           |            |
| 250.4              | Diabetes with renal manifestations                                                                                  | Diagnosis | ICD-9-CM   |
| 580                | Acute glomerulonephritis                                                                                            | Diagnosis | ICD-9-CM   |
| 580.0              | Acute glomerulonephritis with lesion of proliferative glomerulonephritis                                            | Diagnosis | ICD-9-CM   |
| 580.4              | Acute glomerulonephritis with lesion of rapidly progressive glomerulonephritis                                      | Diagnosis | ICD-9-CM   |
| 580.8              | Acute glomerulonephritis with other specified pathological lesion in kidney                                         | Diagnosis | ICD-9-CM   |
| 580.81             | Acute glomerulonephritis with other specified pathological lesion in kidney in disease classified elsewhere         | Diagnosis | ICD-9-CM   |
| 580.89             | Other acute glomerulonephritis with other specified pathological lesion in kidney                                   | Diagnosis | ICD-9-CM   |
| 580.9              | Acute glomerulonephritis with unspecified pathological lesion in kidney                                             | Diagnosis | ICD-9-CM   |
| 581                | Nephrotic syndrome                                                                                                  | Diagnosis | ICD-9-CM   |
| 581.0              | Nephrotic syndrome with lesion of proliferative glomerulonephritis                                                  | Diagnosis | ICD-9-CM   |
| 581.1              | Nephrotic syndrome with lesion of membranous glomerulonephritis                                                     | Diagnosis | ICD-9-CM   |
| 581.2              | Nephrotic syndrome with lesion of membranoproliferative glomerulonephritis                                          | Diagnosis | ICD-9-CM   |
| 581.3              | Nephrotic syndrome with lesion of minimal change glomerulonephritis                                                 | Diagnosis | ICD-9-CM   |
| 581.8              | Nephrotic syndrome with other specified pathological lesion in kidney                                               | Diagnosis | ICD-9-CM   |
| 581.89             | Other nephrotic syndrome with specified pathological lesion in kidney                                               | Diagnosis | ICD-9-CM   |
| 581.9              | Nephrotic syndrome with unspecified pathological lesion in kidney                                                   | Diagnosis | ICD-9-CM   |
| 582                | Chronic glomerulonephritis                                                                                          | Diagnosis | ICD-9-CM   |
| 582.0              | Chronic glomerulonephritis with lesion of proliferative glomerulonephritis                                          | Diagnosis | ICD-9-CM   |
| 582.1              | Chronic glomerulonephritis with lesion of membranous glomerulonephritis                                             | Diagnosis | ICD-9-CM   |
| 582.2              | Chronic glomerulonephritis with lesion of membranoproliferative glomerulonephritis                                  | Diagnosis | ICD-9-CM   |
| 582.4              | Chronic glomerulonephritis with lesion of rapidly progressive glomerulonephritis                                    | Diagnosis | ICD-9-CM   |
| 582.8              | Chronic glomerulonephritis with other specified pathological lesion in kidney                                       | Diagnosis | ICD-9-CM   |
| 582.81             | Chronic glomerulonephritis with other specified pathological lesion in kidney in diseases classified elsewhere      | Diagnosis | ICD-9-CM   |
| 582.89             | Other chronic glomerulonephritis with specified pathological lesion in kidney                                       | Diagnosis | ICD-9-CM   |
| 582.9              | Chronic glomerulonephritis with unspecified pathological lesion in kidney                                           | Diagnosis | ICD-9-CM   |
| 583                | Nephritis and nephropathy, not specified as acute or chronic                                                        | Diagnosis | ICD-9-CM   |
| 583.0              | Nephritis and nephropathy, not specified as acute or chronic, with lesion of proliferative glomerulonephritis       | Diagnosis | ICD-9-CM   |
| 583.4              | Nephritis and nephropathy, not specified as acute or chronic, with lesion of rapidly progressive glomerulonephritis | Diagnosis | ICD-9-CM   |
| 583.6              | Nephritis and nephropathy, not specified as acute or chronic, with lesion of renal cortical necrosis                | Diagnosis | ICD-9-CM   |
| 583.7              | Nephritis and nephropathy, not specified as acute or chronic, with lesion of renal medullary necrosis               | Diagnosis | ICD-9-CM   |

|        | Category                                                                                                         |           |           |
| 583.8  | Nephritis and nephropathy, not specified as acute or chronic, with other specified pathological lesion in kidney | Diagnosis | ICD-9-CM  |
| 584    | Acute kidney failure                                                                                             | Diagnosis | ICD-9-CM  |
| 584.5  | Acute kidney failure with lesion of tubular necrosis                                                             | Diagnosis | ICD-9-CM  |
| 584.6  | Acute kidney failure with lesion of renal cortical necrosis                                                      | Diagnosis | ICD-9-CM  |
| 584.7  | Acute kidney failure with lesion of medullary [papillary] necrosis                                               | Diagnosis | ICD-9-CM  |
| 584.8  | Acute kidney failure with other specified pathological lesion in kidney                                          | Diagnosis | ICD-9-CM  |
| 584.9  | Acute kidney failure, unspecified                                                                                | Diagnosis | ICD-9-CM  |
| 585    | Chronic kidney disease (CKD)                                                                                     | Diagnosis | ICD-9-CM  |
| 585.1  | Chronic kidney disease, Stage I                                                                                  | Diagnosis | ICD-9-CM  |
| 585.2  | Chronic kidney disease, Stage II (mild)                                                                          | Diagnosis | ICD-9-CM  |
| 585.3  | Chronic kidney disease, Stage III (moderate)                                                                     | Diagnosis | ICD-9-CM  |
| 585.4  | Chronic kidney disease, Stage IV (severe)                                                                        | Diagnosis | ICD-9-CM  |
| 585.5  | Chronic kidney disease, Stage V                                                                                  | Diagnosis | ICD-9-CM  |
| 585.6  | End stage renal disease                                                                                          | Diagnosis | ICD-9-CM  |
| 585.9  | Chronic kidney disease, unspecified                                                                              | Diagnosis | ICD-9-CM  |
| 586    | Unspecified renal failure                                                                                        | Diagnosis | ICD-9-CM  |
| 587    | Unspecified renal sclerosis                                                                                      | Diagnosis | ICD-9-CM  |
| 588    | Disorders resulting from impaired renal function                                                                 | Diagnosis | ICD-9-CM  |
| 588.8  | Other specified disorder resulting from impaired renal function                                                  | Diagnosis | ICD-9-CM  |
| 588.89 | Other specified disorders resulting from impaired renal function                                                 | Diagnosis | ICD-9-CM  |
| 588.9  | Unspecified disorder resulting from impaired renal function                                                      | Diagnosis | ICD-9-CM  |
| E08.22 | Diabetes mellitus due to underlying condition with diabetic chronic kidney disease                               | Diagnosis | ICD-10-CM |
| E08.29 | Diabetes mellitus due to underlying condition with other diabetic kidney complication                            | Diagnosis | ICD-10-CM |
| E09.22 | Drug or chemical induced diabetes mellitus with diabetic chronic kidney disease                                  | Diagnosis | ICD-10-CM |
| E09.29 | Drug or chemical induced diabetes mellitus with other diabetic kidney complication                               | Diagnosis | ICD-10-CM |
| E10.22 | Type 1 diabetes mellitus with diabetic chronic kidney disease                                                    | Diagnosis | ICD-10-CM |
| E10.29 | Type 1 diabetes mellitus with other diabetic kidney complication                                                 | Diagnosis | ICD-10-CM |
| E11.22 | Type 2 diabetes mellitus with diabetic chronic kidney disease                                                    | Diagnosis | ICD-10-CM |
| E11.29 | Type 2 diabetes mellitus with other diabetic kidney complication                                                 | Diagnosis | ICD-10-CM |
| E13.22 | Other specified diabetes mellitus with diabetic chronic kidney disease                                           | Diagnosis | ICD-10-CM |
| E13.29 | Other specified diabetes mellitus with other diabetic kidney complication                                        | Diagnosis | ICD-10-CM |
| N00.0  | Acute nephritic syndrome with minor glomerular abnormality                                                       | Diagnosis | ICD-10-CM |
| N00.1  | Acute nephritic syndrome with focal and segmental glomerular lesions                                             | Diagnosis | ICD-10-CM |
| N00.2  | Acute nephritic syndrome with diffuse membranous glomerulonephritis                                              | Diagnosis | ICD-10-CM |
| N00.3  | Acute nephritic syndrome with diffuse mesangial proliferative glomerulonephritis                                 | Diagnosis | ICD-10-CM |
| N00.4  | Acute nephritic syndrome with diffuse endocapillary proliferative glomerulonephritis                             | Diagnosis | ICD-10-CM |
| N00.5  | Acute nephritic syndrome with diffuse mesangiocapillary glomerulonephritis                                       | Diagnosis | ICD-10-CM |
| N00.6  | Acute nephritic syndrome with dense deposit disease                                                              | Diagnosis | ICD-10-CM |
| N00.7  | Acute nephritic syndrome with diffuse crescentic glomerulonephritis                                              | Diagnosis | ICD-10-CM |
| N00.8  | Acute nephritic syndrome with other morphologic changes                                                          | Diagnosis | ICD-10-CM |
| N00.9  | Acute nephritic syndrome with unspecified morphologic changes                                                    | Diagnosis | ICD-10-CM |
| N01.0  | Rapidly progressive nephritic syndrome with minor glomerular abnormality                                         | Diagnosis | ICD-10-CM |

| Code   | Description                                                       | Code      |           |
|--------|-------------------------------------------------------------------|-----------|-----------|
|        |                                                                   | Category  | Code Type |
| 250.6  | Diabetes with neurological manifestations                         | Diagnosis | ICD-9-CM  |
| 337.0  | Idiopathic peripheral autonomic neuropathy                        | Diagnosis | ICD-9-CM  |
| 337.00 | Idiopathic peripheral autonomic neuropathy, unspecified           | Diagnosis | ICD-9-CM  |
| 337.09 | Other idiopathic peripheral autonomic neuropathy                  | Diagnosis | ICD-9-CM  |
| 337.1  | Peripheral autonomic neuropathy in disorders classified elsewhere | Diagnosis | ICD-9-CM  |
| 353.5  | Neuralgic amyotrophy                                              | Diagnosis | ICD-9-CM  |
| 354.0  | Carpal tunnel syndrome                                            | Diagnosis | ICD-9-CM  |
| 354.1  | Other lesion of median nerve                                      | Diagnosis | ICD-9-CM  |
| 354.2  | Lesion of ulnar nerve                                             | Diagnosis | ICD-9-CM  |
| 354.3  | Lesion of radial nerve                                            | Diagnosis | ICD-9-CM  |
| 354.4  | Causalgia of upper limb                                           | Diagnosis | ICD-9-CM  |
| 354.5  | Mononeuritis multiplex                                            | Diagnosis | ICD-9-CM  |
| 355.0  | Lesion of sciatic nerve                                           | Diagnosis | ICD-9-CM  |
| 355.1  | Meralgia paresthetica                                             | Diagnosis | ICD-9-CM  |
| 355.2  | Other lesion of femoral nerve                                     | Diagnosis | ICD-9-CM  |
| 355.3  | Lesion of lateral popliteal nerve                                 | Diagnosis | ICD-9-CM  |
| 355.4  | Lesion of medial popliteal nerve                                  | Diagnosis | ICD-9-CM  |
| 355.5  | Tarsal tunnel syndrome                                            | Diagnosis | ICD-9-CM  |
| 355.6  | Lesion of plantar nerve                                           | Diagnosis | ICD-9-CM  |
| 355.7  | Other mononeuritis of lower limb                                  | Diagnosis | ICD-9-CM  |
| 355.71 | Causalgia of lower limb                                           | Diagnosis | ICD-9-CM  |
| 355.79 | Other mononeuritis of lower limb                                  | Diagnosis | ICD-9-CM  |
| 356    | Hereditary and idiopathic peripheral neuropathy                   | Diagnosis | ICD-9-CM  |
| 356.0  | Hereditary peripheral neuropathy                                  | Diagnosis | ICD-9-CM  |
| 356.2  | Hereditary sensory neuropathy                                     | Diagnosis | ICD-9-CM  |
| 356.4  | Idiopathic progressive polyneuropathy                             | Diagnosis | ICD-9-CM  |
| 356.8  | Other specified idiopathic peripheral neuropathy                  | Diagnosis | ICD-9-CM  |
| 356.9  | Unspecified hereditary and idiopathic peripheral neuropathy       | Diagnosis | ICD-9-CM  |
| 357    | Inflammatory and toxic neuropathy                                 | Diagnosis | ICD-9-CM  |
| 357.1  | Polyneuropathy in collagen vascular disease                       | Diagnosis | ICD-9-CM  |
| 357.2  | Polyneuropathy in diabetes                                        | Diagnosis | ICD-9-CM  |
| 357.3  | Polyneuropathy in malignant disease                               | Diagnosis | ICD-9-CM  |
| 357.4  | Polyneuropathy in other diseases classified elsewhere             | Diagnosis | ICD-9-CM  |
| 357.5  | Alcoholic polyneuropathy                                          | Diagnosis | ICD-9-CM  |
| 357.6  | Polyneuropathy due to drugs                                       | Diagnosis | ICD-9-CM  |
| 357.7  | Polyneuropathy due to other toxic agents                          | Diagnosis | ICD-9-CM  |
| 357.8  | Other inflammatory and toxic neuropathy                           | Diagnosis | ICD-9-CM  |
| 357.82 | Critical illness polyneuropathy                                   | Diagnosis | ICD-9-CM  |
| 357.89 | Other inflammatory and toxic neuropathy                           | Diagnosis | ICD-9-CM  |
| 357.9  | Unspecified inflammatory and toxic neuropathy                     | Diagnosis | ICD-9-CM  |
| 358.1  | Myasthenic syndromes in diseases classified elsewhere             | Diagnosis | ICD-9-CM  |
| 377.33 | Nutritional optic neuropathy                                      | Diagnosis | ICD-9-CM  |
| 377.34 | Toxic optic neuropathy                                            | Diagnosis | ICD-9-CM  |

| Code    | Description                                                                                                         | Code      |           |
|---------|---------------------------------------------------------------------------------------------------------------------|-----------|-----------|
|         |                                                                                                                     | Category  | Code Type |
| 377.41  | Ischemic optic neuropathy                                                                                           | Diagnosis | ICD-9-CM  |
| 713.5   | Arthropathy associated with neurological disorders                                                                  | Diagnosis | ICD-9-CM  |
| 951.0   | Injury to oculomotor nerve                                                                                          | Diagnosis | ICD-9-CM  |
| 951.1   | Injury to trochlear nerve                                                                                           | Diagnosis | ICD-9-CM  |
| 951.3   | Injury to abducens nerve                                                                                            | Diagnosis | ICD-9-CM  |
| A50.43  | Late congenital syphilitic polyneuropathy                                                                           | Diagnosis | ICD-10-CM |
| A52.15  | Late syphilitic neuropathy                                                                                          | Diagnosis | ICD-10-CM |
| A52.16  | Charcot's arthropathy (tabetic)                                                                                     | Diagnosis | ICD-10-CM |
| B02.23  | Postherpetic polyneuropathy                                                                                         | Diagnosis | ICD-10-CM |
| B26.84  | Mumps polyneuropathy                                                                                                | Diagnosis | ICD-10-CM |
| B27.01  | Gammaherpesviral mononucleosis with polyneuropathy                                                                  | Diagnosis | ICD-10-CM |
| B27.11  | Cytomegaloviral mononucleosis with polyneuropathy                                                                   | Diagnosis | ICD-10-CM |
| B27.81  | Other infectious mononucleosis with polyneuropathy                                                                  | Diagnosis | ICD-10-CM |
| B27.91  | Infectious mononucleosis, unspecified with polyneuropathy                                                           | Diagnosis | ICD-10-CM |
| E08.40  | Diabetes mellitus due to underlying condition with diabetic neuropathy, unspecified                                 | Diagnosis | ICD-10-CM |
| E08.41  | Diabetes mellitus due to underlying condition with diabetic mononeuropathy                                          | Diagnosis | ICD-10-CM |
| E08.42  | Diabetes mellitus due to underlying condition with diabetic polyneuropathy                                          | Diagnosis | ICD-10-CM |
| E08.43  | Diabetes mellitus due to underlying condition with diabetic autonomic (poly)neuropathy                              | Diagnosis | ICD-10-CM |
| E08.610 | Diabetes mellitus due to underlying condition with diabetic neuropathic arthropathy                                 | Diagnosis | ICD-10-CM |
| E09.40  | Drug or chemical induced diabetes mellitus with neurological complications with diabetic neuropathy, unspecified    | Diagnosis | ICD-10-CM |
| E09.41  | Drug or chemical induced diabetes mellitus with neurological complications with diabetic mononeuropathy             | Diagnosis | ICD-10-CM |
| E09.42  | Drug or chemical induced diabetes mellitus with neurological complications with diabetic polyneuropathy             | Diagnosis | ICD-10-CM |
| E09.43  | Drug or chemical induced diabetes mellitus with neurological complications with diabetic autonomic (poly)neuropathy | Diagnosis | ICD-10-CM |
| E09.610 | Drug or chemical induced diabetes mellitus with diabetic neuropathic arthropathy                                    | Diagnosis | ICD-10-CM |
| E10.40  | Type 1 diabetes mellitus with diabetic neuropathy, unspecified                                                      | Diagnosis | ICD-10-CM |
| E10.41  | Type 1 diabetes mellitus with diabetic mononeuropathy                                                               | Diagnosis | ICD-10-CM |
| E10.42  | Type 1 diabetes mellitus with diabetic polyneuropathy                                                               | Diagnosis | ICD-10-CM |
| E10.43  | Type 1 diabetes mellitus with diabetic autonomic (poly)neuropathy                                                   | Diagnosis | ICD-10-CM |
| E10.44  | Type 1 diabetes mellitus with diabetic amyotrophy                                                                   | Diagnosis | ICD-10-CM |
| E10.49  | Type 1 diabetes mellitus with other diabetic neurological complication                                              | Diagnosis | ICD-10-CM |
| E10.610 | Type 1 diabetes mellitus with diabetic neuropathic arthropathy                                                      | Diagnosis | ICD-10-CM |
| E11.40  | Type 2 diabetes mellitus with diabetic neuropathy, unspecified                                                      | Diagnosis | ICD-10-CM |
| E11.41  | Type 2 diabetes mellitus with diabetic mononeuropathy                                                               | Diagnosis | ICD-10-CM |
| E11.42  | Type 2 diabetes mellitus with diabetic polyneuropathy                                                               | Diagnosis | ICD-10-CM |
| E11.43  | Type 2 diabetes mellitus with diabetic autonomic (poly)neuropathy                                                   | Diagnosis | ICD-10-CM |
| E11.44  | Type 2 diabetes mellitus with diabetic amyotrophy                                                                   | Diagnosis | ICD-10-CM |
| E11.49  | Type 2 diabetes mellitus with other diabetic neurological complication                                              | Diagnosis | ICD-10-CM |
| E11.610 | Type 2 diabetes mellitus with diabetic neuropathic arthropathy                                                      | Diagnosis | ICD-10-CM |
| E13.40  | Other specified diabetes mellitus with diabetic neuropathy, unspecified                                             | Diagnosis | ICD-10-CM |

| I79.8                        | Other disorders of arteries, arterioles and capillaries in diseases classified elsewhere                                                                                                                                                    | Diagnosis | ICD-10-CM |
| <b>Pneumococcal Vaccine</b>  |                                                                                                                                                                                                                                             |           |           |
| 4040F                        | Pneumococcal vaccine administered or previously received (COPD) (PV), (IBD)                                                                                                                                                                 | Procedure | CPT-2     |
| 90669                        | Pneumococcal conjugate vaccine, 7 valent (PCV7), for intramuscular use                                                                                                                                                                      | Procedure | CPT-4     |
| 90670                        | Pneumococcal conjugate vaccine, 13 valent (PCV13), for intramuscular use                                                                                                                                                                    | Procedure | CPT-4     |
| 90671                        | Pneumococcal conjugate vaccine, 15 valent (PCV15), for intramuscular use                                                                                                                                                                    | Procedure | CPT-4     |
| 90677                        | Pneumococcal conjugate vaccine, 20 valent (PCV20), for intramuscular use                                                                                                                                                                    | Procedure | CPT-4     |
| 90684                        | Pneumococcal conjugate vaccine, 21 valent (PCV21), for intramuscular use                                                                                                                                                                    | Procedure | CPT-4     |
| 90732                        | Pneumococcal polysaccharide vaccine, 23-valent (PPSV23), adult or immunosuppressed patient dosage, when administered to individuals 2 years or older, for subcutaneous or intramuscular use                                                 | Procedure | CPT-4     |
| G0009                        | Administration of pneumococcal vaccine                                                                                                                                                                                                      | Procedure | HCPCS     |
| G2157                        | Patients received both the 13-valent pneumococcal conjugate vaccine and the 23-valent pneumococcal polysaccharide vaccine at least 12 months apart, with the first occurrence after the age of 60 before or during the measurement period   | Procedure | HCPCS     |
| G2158                        | Patient had prior pneumococcal vaccine adverse reaction any time during or before the measurement period                                                                                                                                    | Procedure | HCPCS     |
| G8115                        | Patient documented to have received pneumococcal vaccination                                                                                                                                                                                | Procedure | HCPCS     |
| G8864                        | Pneumococcal vaccine administered or previously received                                                                                                                                                                                    | Procedure | HCPCS     |
| G9279                        | Pneumococcal screening performed and documentation of vaccination received prior to discharge                                                                                                                                               | Procedure | HCPCS     |
| G9991                        | Patient received any pneumococcal conjugate or polysaccharide vaccine on or after their 19th birthday and before the end of the measurement period                                                                                          | Procedure | HCPCS     |
| M0201                        | Administration of pneumococcal, influenza, hepatitis B, and/or COVID-19 vaccine inside a patient's home; reported only once per individual home per date of service when such vaccine administration(s) are performed at the patient's home | Procedure | HCPCS     |
| M1155                        | Patient had anaphylaxis due to the pneumococcal vaccine any time during or before the measurement period                                                                                                                                    | Procedure | HCPCS     |
| M1177                        | Patient received any pneumococcal conjugate or polysaccharide vaccine on or after their 19th birthday and before the end of the measurement period                                                                                          | Procedure | HCPCS     |
| M1305                        | Patient received any pneumococcal conjugate or polysaccharide vaccine on or after their 19th birthday and before the end of the measurement period                                                                                          | Procedure | HCPCS     |
| M1306                        | Patient had anaphylaxis due to the pneumococcal vaccine any time during or before the measurement period                                                                                                                                    | Procedure | HCPCS     |
| <b>Preventive Healthcare</b> |                                                                                                                                                                                                                                             |           |           |
| 0028T                        | Dual energy x-ray absorptiometry (DEXA) body composition study, one or more sites                                                                                                                                                           | Procedure | CPT-3     |
| 0508T                        | Pulse-echo ultrasound bone density measurement resulting in indicator of axial bone mineral density, tibia                                                                                                                                  | Procedure | CPT-3     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| Code  | Description                                                                                                                                                                                                                                                                                                                                                                                                          | Code Category | Code Type |
|-------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------|
| 0554T | Bone strength and fracture risk using finite element analysis of functional data, and bone-mineral density, utilizing data from a computed tomography scan; retrieval and transmission of the scan data, assessment of bone strength and fracture risk and bone mineral density, interpretation and report                                                                                                           | Procedure     | CPT-3     |
| 0555T | Bone strength and fracture risk using finite element analysis of functional data, and bone-mineral density, utilizing data from a computed tomography scan; retrieval and transmission of the scan data                                                                                                                                                                                                              | Procedure     | CPT-3     |
| 0556T | Bone strength and fracture risk using finite element analysis of functional data, and bone-mineral density, utilizing data from a computed tomography scan; assessment of bone strength and fracture risk and bone mineral density                                                                                                                                                                                   | Procedure     | CPT-3     |
| 0557T | Bone strength and fracture risk using finite element analysis of functional data, and bone-mineral density, utilizing data from a computed tomography scan; interpretation and report                                                                                                                                                                                                                                | Procedure     | CPT-3     |
| 0743T | Bone strength and fracture risk using finite element analysis of functional data and bone mineral density (BMD), with concurrent vertebral fracture assessment, utilizing data from a computed tomography scan, retrieval and transmission of the scan data, measurement of bone strength and BMD and classification of any vertebral fractures, with overall fracture-risk assessment, interpretation and report    | Procedure     | CPT-3     |
| 0749T | Bone strength and fracture-risk assessment using digital X-ray radiogrammetry-bone mineral density (DXR-BMD) analysis of bone mineral density (BMD) utilizing data from a digital X ray, retrieval and transmission of digital X-ray data, assessment of bone strength and fracture risk and BMD, interpretation and report;                                                                                         | Procedure     | CPT-3     |
| 0750T | Bone strength and fracture-risk assessment using digital X-ray radiogrammetry-bone mineral density (DXR-BMD) analysis of bone mineral density (BMD) utilizing data from a digital X ray, retrieval and transmission of digital X-ray data, assessment of bone strength and fracture risk and BMD, interpretation and report; with single-view digital X-ray examination of the hand taken for the purpose of DXR-BMD | Procedure     | CPT-3     |
| 2022F | Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed; with evidence of retinopathy (DM)                                                                                                                                                                                                                                                                         | Procedure     | CPT-2     |
| 2023F | Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed; without evidence of retinopathy (DM)                                                                                                                                                                                                                                                                      | Procedure     | CPT-2     |
| 3011F | Lipid panel results documented and reviewed (must include total cholesterol, HDL-C, triglycerides and calculated LDL-C) (CAD)                                                                                                                                                                                                                                                                                        | Procedure     | CPT-2     |
| 3095F | Central dual-energy X-ray absorptiometry (DXA) results documented (OP) (IBD)                                                                                                                                                                                                                                                                                                                                         | Procedure     | CPT-2     |
| 3096F | Central dual-energy X-ray absorptiometry (DXA) ordered (OP) (IBD)                                                                                                                                                                                                                                                                                                                                                    | Procedure     | CPT-2     |
| 76070 | Computed tomography, bone mineral density study, one or more sites; axial skeleton (eg, hips, pelvis, spine)                                                                                                                                                                                                                                                                                                         | Procedure     | CPT-4     |
| 76071 | Computed tomography, bone mineral density study, one or more sites; appendicular skeleton (peripheral) (eg, radius, wrist, heel)                                                                                                                                                                                                                                                                                     | Procedure     | CPT-4     |
| 76075 | Dual energy X-ray absorptiometry (DXA), bone density study, one or more sites; axial skeleton (eg, hips, pelvis, spine)                                                                                                                                                                                                                                                                                              | Procedure     | CPT-4     |
| 76076 | Dual energy X-ray absorptiometry (DXA), bone density study, one or more sites; appendicular skeleton (peripheral) (eg, radius, wrist, heel)                                                                                                                                                                                                                                                                          | Procedure     | CPT-4     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| <b>Code</b> | <b>Description</b>                                                                                                                                                                                                                                                                              | <b>Code Category</b> | <b>Code Type</b> |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|------------------|
| 76083       | Computer aided detection (computer algorithm analysis of digital image data for lesion detection) with further physician review for interpretation, with or without digitization of film radiographic images; screening mammography (List separately in addition to code for primary procedure) | Procedure            | CPT-4            |
| 76085       | Digitization of film radiographic images with computer analysis for lesion detection and further physician review for interpretation, mammography (List separately in addition to code for primary procedure)                                                                                   | Procedure            | CPT-4            |
| 76092       | Screening mammography, bilateral (two view film study of each breast)                                                                                                                                                                                                                           | Procedure            | CPT-4            |
| 76977       | Ultrasound bone density measurement and interpretation, peripheral site(s), any method                                                                                                                                                                                                          | Procedure            | CPT-4            |
| 77052       | Computer-aided detection (computer algorithm analysis of digital image data for lesion detection) with further review for interpretation, with or without digitization of film radiographic images; screening mammography (List separately in addition to code for primary procedure)           | Procedure            | CPT-4            |
| 77057       | Screening mammography, bilateral (2-view study of each breast)                                                                                                                                                                                                                                  | Procedure            | CPT-4            |
| 77078       | Computed tomography, bone mineral density study, 1 or more sites, axial skeleton (eg, hips, pelvis, spine)                                                                                                                                                                                      | Procedure            | CPT-4            |
| 77079       | Computed tomography, bone mineral density study, 1 or more sites; appendicular skeleton (peripheral) (eg, radius, wrist, heel)                                                                                                                                                                  | Procedure            | CPT-4            |
| 77080       | Osteoporosis screening                                                                                                                                                                                                                                                                          | Procedure            | CPT-4            |
| 77081       | Osteoporosis screening                                                                                                                                                                                                                                                                          | Procedure            | CPT-4            |
| 77082       | Dual-energy X-ray absorptiometry (DXA), bone density study, 1 or more sites; vertebral fracture assessment                                                                                                                                                                                      | Procedure            | CPT-4            |
| 77085       | Dual-energy X-ray absorptiometry (DXA), bone density study, 1 or more sites; axial skeleton (eg, hips, pelvis, spine), including vertebral fracture assessment                                                                                                                                  | Procedure            | CPT-4            |
| 77086       | Vertebral fracture assessment via dual-energy X-ray absorptiometry (DXA)                                                                                                                                                                                                                        | Procedure            | CPT-4            |
| 77089       | Trabecular bone score (TBS), structural condition of the bone microarchitecture; using dual X-ray absorptiometry (DXA) or other imaging data on gray-scale variogram, calculation, with interpretation and report on fracture-risk                                                              | Procedure            | CPT-4            |
| 78350       | Bone density (bone mineral content) study, 1 or more sites; single photon absorptiometry                                                                                                                                                                                                        | Procedure            | CPT-4            |
| 78351       | Bone density (bone mineral content) study, 1 or more sites; dual photon absorptiometry, 1 or more sites                                                                                                                                                                                         | Procedure            | CPT-4            |
| 793.82      | Inconclusive mammogram                                                                                                                                                                                                                                                                          | Diagnosis            | ICD-9-CM         |
| 80061       | Lipid panel This panel must include the following: Cholesterol, serum, total (82465) Lipoprotein, direct measurement, high density cholesterol (HDL cholesterol) (83718) Triglycerides (84478)                                                                                                  | Procedure            | CPT-4            |
| 82465       | Cholesterol, serum or whole blood, total                                                                                                                                                                                                                                                        | Procedure            | CPT-4            |
| 82470       | Cholesterol, Serum; Total And Esters                                                                                                                                                                                                                                                            | Procedure            | CPT-4            |

| 92283 | Color vision examination, extended, eg, anomaloscope or equivalent                                                                                                                                                             | Procedure     | CPT-4     |
| 92499 | Unlisted ophthalmological service or procedure                                                                                                                                                                                 | Procedure     | CPT-4     |
| 99174 | Instrument-based ocular screening (eg, photoscreening, automated-refraction), bilateral; with remote analysis and report                                                                                                       | Procedure     | CPT-4     |
| 99177 | Instrument-based ocular screening (eg, photoscreening, automated-refraction), bilateral; with on-site analysis                                                                                                                 | Procedure     | CPT-4     |
| G0101 | Cervical or vaginal cancer screening; pelvic and clinical breast examination                                                                                                                                                   | Procedure     | HCPCS     |
| G0103 | Prostate cancer screening; prostate specific antigen test (PSA)                                                                                                                                                                | Procedure     | HCPCS     |
| G0104 | Colorectal cancer screening; flexible sigmoidoscopy                                                                                                                                                                            | Procedure     | HCPCS     |
| G0105 | Colorectal cancer screening; colonoscopy on individual at high risk                                                                                                                                                            | Procedure     | HCPCS     |
| G0121 | Colorectal cancer screening; colonoscopy on individual not meeting criteria for high risk                                                                                                                                      | Procedure     | HCPCS     |
| G0123 | Screening cytopathology, cervical or vaginal (any reporting system), collected in preservative fluid, automated thin layer preparation, screening by cytotechnologist under physician supervision                              | Procedure     | HCPCS     |
| G0124 | Screening cytopathology, cervical or vaginal (any reporting system), collected in preservative fluid, automated thin layer preparation, requiring interpretation by physician                                                  | Procedure     | HCPCS     |
| G0130 | Single energy x-ray absorptiometry (SEXA) bone density study, one or more sites; appendicular skeleton (peripheral) (e.g., radius, wrist, heel)                                                                                | Procedure     | HCPCS     |
| G0131 | Computerized tomography bone mineral density study, one or more sites; axial skeleton (eg, hips, pelvis, spine)                                                                                                                | Procedure     | HCPCS     |
| G0132 | Computerized tomography bone mineral density study, one or more sites; appendicular skeleton (peripheral) (eg, radius, wrist, heel)                                                                                            | Procedure     | HCPCS     |
| G0133 | Ultra-sound Bone Mineral Study, One Or More Sites, Appendicular Skeleton (peripheral) (eg, Radius, Wrist, Heel)                                                                                                                | Procedure     | HCPCS     |
| G0141 | Screening cytopathology smears, cervical or vaginal, performed by automated system, with manual rescreening, requiring interpretation by physician                                                                             | Procedure     | HCPCS     |
| G0143 | Screening cytopathology, cervical or vaginal (any reporting system), collected in preservative fluid, automated thin layer preparation, with manual screening and rescreening by cytotechnologist under physician supervision  | Procedure     | HCPCS     |

**Appendix J. List of Current Procedural Terminology, Category II (CPT-2), Current Procedural Terminology, Category III (CPT-3), Current Procedural Terminology, Fourth Edition (CPT-4), and Healthcare Common Procedure Coding System (HCPCS) Procedure Codes and International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM) and International Classification of Diseases, Tenth Revision, Clinical Modification (ICD-10-CM) Diagnosis Codes Used to Define Covariates in this Request**

| <b>Code</b> | <b>Description</b>                                                                                                                                                                                                                                                                        | <b>Code Category</b> | <b>Code Type</b> |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|------------------|
| G0144       | Screening cytopathology, cervical or vaginal (any reporting system), collected in preservative fluid, automated thin layer preparation, with screening by automated system, under physician supervision                                                                                   | Procedure            | HCPCS            |
| G0145       | Screening cytopathology, cervical or vaginal (any reporting system), collected in preservative fluid, automated thin layer preparation, with screening by automated system and manual rescreening under physician supervision                                                             | Procedure            | HCPCS            |
| G0202       | Screening mammography, bilateral (2-view study of each breast), including computer-aided detection (CAD) when performed                                                                                                                                                                   | Procedure            | HCPCS            |
| G0236       | Digitization of film radiographic images with computer analysis for lesion detection, or computer analysis of digital mammogram for lesion detection, and further physician review for interpretation, diagnostic mammography (list separately in addition to code for primary procedure) | Procedure            | HCPCS            |
| G2102       | Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed                                                                                                                                                                                 | Procedure            | HCPCS            |
| G8593       | Lipid profile results documented and reviewed (must include total cholesterol, HDL-C, triglycerides and calculated LDL-C)                                                                                                                                                                 | Procedure            | HCPCS            |
| G8725       | Fasting lipid profile performed (triglycerides, LDL-C, HDL-C and total cholesterol)                                                                                                                                                                                                       | Procedure            | HCPCS            |
| G8767       | Lipid panel results documented and reviewed (must include total cholesterol, HDL-C, triglycerides and calculated LDL-C)                                                                                                                                                                   | Procedure            | HCPCS            |
| M1220       | Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist or artificial intelligence (AI) interpretation documented and reviewed; with evidence of retinopathy                                                                                                    | Procedure            | HCPCS            |
| M1221       | Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist or artificial intelligence (AI) interpretation documented and reviewed; without evidence of retinopathy                                                                                                 | Procedure            | HCPCS            |
| P3000       | Screening Papanicolaou smear, cervical or vaginal, up to three smears, by technician under physician supervision                                                                                                                                                                          | Procedure            | HCPCS            |
| P3001       | Screening Papanicolaou smear, cervical or vaginal, up to three smears, requiring interpretation by physician                                                                                                                                                                              | Procedure            | HCPCS            |
| Q0091       | Screening Papanicolaou smear; obtaining, preparing and conveyance of cervical or vaginal smear to laboratory                                                                                                                                                                              | Procedure            | HCPCS            |
| R92.2       | Inconclusive mammogram                                                                                                                                                                                                                                                                    | Diagnosis            | ICD-10-CM        |
| S0620       | Routine ophthalmological examination including refraction; new patient                                                                                                                                                                                                                    | Procedure            | HCPCS            |
| S0621       | Routine ophthalmological examination including refraction; established patient                                                                                                                                                                                                            | Procedure            | HCPCS            |
| S3000       | Diabetic indicator; retinal eye exam, dilated, bilateral                                                                                                                                                                                                                                  | Procedure            | HCPCS            |
| V72.0       | Examination of eyes and vision                                                                                                                                                                                                                                                            | Diagnosis            | ICD-9-CM         |
| V76.10      | Unspecified breast screening                                                                                                                                                                                                                                                              | Diagnosis            | ICD-9-CM         |
| V76.11      | Screening mammogram for high-risk patient                                                                                                                                                                                                                                                 | Diagnosis            | ICD-9-CM         |
| V76.12      | Other screening mammogram                                                                                                                                                                                                                                                                 | Diagnosis            | ICD-9-CM         |
| V76.19      | Other screening breast examination                                                                                                                                                                                                                                                        | Diagnosis            | ICD-9-CM         |
| V76.2       | Screening for malignant neoplasm of the cervix                                                                                                                                                                                                                                            | Diagnosis            | ICD-9-CM         |
| V76.41      | Screening for malignant neoplasm of the rectum                                                                                                                                                                                                                                            | Diagnosis            | ICD-9-CM         |
| V76.44      | Special screening for malignant neoplasm of prostate                                                                                                                                                                                                                                      | Diagnosis            | ICD-9-CM         |

| <b>Code</b> | <b>Description</b>                                                                                                                                                                  | <b>Code Category</b> | <b>Code Type</b> |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------|------------------|
| E09.3531    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, right eye                             | Diagnosis            | ICD-10-CM        |
| E09.3532    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, left eye                              | Diagnosis            | ICD-10-CM        |
| E09.3533    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, bilateral                             | Diagnosis            | ICD-10-CM        |
| E09.3539    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with traction retinal detachment not involving the macula, unspecified eye                       | Diagnosis            | ICD-10-CM        |
| E09.3541    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, right eye       | Diagnosis            | ICD-10-CM        |
| E09.3542    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, left eye        | Diagnosis            | ICD-10-CM        |
| E09.3543    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, bilateral       | Diagnosis            | ICD-10-CM        |
| E09.3549    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy with combined traction retinal detachment and rhegmatogenous retinal detachment, unspecified eye | Diagnosis            | ICD-10-CM        |
| E09.3551    | Drug or chemical induced diabetes mellitus with stable proliferative diabetic retinopathy, right eye                                                                                | Diagnosis            | ICD-10-CM        |
| E09.3552    | Drug or chemical induced diabetes mellitus with stable proliferative diabetic retinopathy, left eye                                                                                 | Diagnosis            | ICD-10-CM        |
| E09.3553    | Drug or chemical induced diabetes mellitus with stable proliferative diabetic retinopathy, bilateral                                                                                | Diagnosis            | ICD-10-CM        |
| E09.3559    | Drug or chemical induced diabetes mellitus with stable proliferative diabetic retinopathy, unspecified eye                                                                          | Diagnosis            | ICD-10-CM        |
| E09.3591    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy without macular edema, right eye                                                                 | Diagnosis            | ICD-10-CM        |
| E09.3592    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy without macular edema, left eye                                                                  | Diagnosis            | ICD-10-CM        |
| E09.3593    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy without macular edema, bilateral                                                                 | Diagnosis            | ICD-10-CM        |
| E09.3599    | Drug or chemical induced diabetes mellitus with proliferative diabetic retinopathy without macular edema, unspecified eye                                                           | Diagnosis            | ICD-10-CM        |
| E10.311     | Type 1 diabetes mellitus with unspecified diabetic retinopathy with macular edema                                                                                                   | Diagnosis            | ICD-10-CM        |
| E10.319     | Type 1 diabetes mellitus with unspecified diabetic retinopathy without macular edema                                                                                                | Diagnosis            | ICD-10-CM        |
| E10.3211    | Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, right eye                                                                              | Diagnosis            | ICD-10-CM        |
| E10.3212    | Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, left eye                                                                               | Diagnosis            | ICD-10-CM        |
| E10.3213    | Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, bilateral                                                                              | Diagnosis            | ICD-10-CM        |
| E10.3219    | Type 1 diabetes mellitus with mild nonproliferative diabetic retinopathy with macular edema, unspecified eye                                                                        | Diagnosis            | ICD-10-CM        |

| T65.291A | Toxic effect of other tobacco and nicotine, accidental (unintentional), initial encounter | Diagnosis | ICD-10-CM |
| T65.292A | Toxic effect of other tobacco and nicotine, intentional self-harm, initial encounter      | Diagnosis | ICD-10-CM |
| T65.293A | Toxic effect of other tobacco and nicotine, assault, initial encounter                    | Diagnosis | ICD-10-CM |
| T65.294A | Toxic effect of other tobacco and nicotine, undetermined, initial encounter               | Diagnosis | ICD-10-CM |
| V15.82   | Personal history of tobacco use, presenting hazards to health                             | Diagnosis | ICD-9-CM  |
| Z87.891  | Personal history of nicotine dependence                                                   | Diagnosis | ICD-10-CM |

**Note:** National Drug Codes (NDCs) for products in Appendix I are also searched for in the Procedure table to define covariates.

# Appendix K. Specifications Defining Parameters for cder\_mpl2p\_wp061 and cder\_mpl1p\_wp115

This request executed the Cohort Identification & Descriptive Analysis (CIDA) tool version 14.2.0 to estimate the association between canagliflozin vs. sitagliptin and renal cell carcinoma (RCC), among adults with type 2 diabetes mellitus (T2DM) who use at least one oral antidiabetic drug during the baseline period, excluding baseline use of sodium-glucose cotransporter 2 inhibitors (SGLT-2 inhibitors), dipeptidyl peptidase-4 inhibitors (DPP-4 inhibitors), or [glucose-dependent insulinotropic polypeptide (GIP)/]glucagon-like peptide-1 receptor agonists (GLP-1 RAs) and those with chronic kidney disease (CKD) Stages III-V and on dialysis in the Sentinel Distributed Database (SDD).

**Query Period:** March 1, 2013 - March 31, 2025  
**Pre-index enrollment requirement:** 365 days; Medical & Drug Coverage  
**Post-index enrollment requirement:** None  
**Post-episode requirement for Type 2 analyses:** None  
**Enrollment gap:** 45 days  
**Restrictions:** Sex (F, M); ≥ 18 years; Research eligible population.  
**Age groups (baseline table):** 18-44, 45-54, 55-64, 65-74, 75+ years  
**Stratifications:** See below for subgroup details  
**Censor output categorization:** <1, 1-<2, 2-<3, 3-<4, 4+ years  
**Envelope macro:** Do NOT reclassify encounters during inpatient stay as inpatient  
**Never-exposed cohort:** No  
**Distribution of index-defining codes:** No  
**Freeze data:** Yes  
**Drop Censor Output Indicator:** Yes (do not request death data returned)

International Classification of Diseases, Ninth Revision (ICD-9), International Classification of Diseases, Tenth Revision (ICD-10), Healthcare Common Procedure Coding System (HCPCS), and Current Procedural Terminology (CPT) codes are provided by Optum360. National Drug Codes (NDC) are checked against First Data Bank's "National Drug Data File (NDDF®) Plus."

\* Note on the base cohort setup for these cohorts: cana\_1 is the base cohort for cana\_2. sita\_1 is the base cohort for sita\_2, sita\_3, sita\_4. sgl\_3 is the base cohort for sgl\_4. cana\_5, sita\_5, cana\_6, and sita\_6 are the base cohorts for themselves.

\* Frailty indicators include: anti-dementia drugs, loop diuretics, digoxin, and wheelchair or home hospital bed claims. Frailty score is also assessed at baseline and included in all models as a binary indicator.

\*\* Preventive healthcare includes: cancer screening (colon, breast, prostate, cervical), bone mineral density screening, eye exams, anti-glaucoma drug use, lipid panel tests

**Abbreviations:** PS: propensity score; ED: emergency department encounters; AV: ambulatory visits; IP: inpatient hospital stays; IPP: inpatient hospital stays, principal diagnoses; IPTW: inverse probability of treatment weighting; IPCW: inverse probability of censoring weighting; CCI: combined comorbidity index; aDCSI: Adapted Diabetes Complication Severity Index; GLP1RA: glucagon-like peptide-1 receptor agonist; GIP/GLP1RA: glucose-dependent insulinotropic polypeptide / glucagon-like peptide-1 receptor agonist; HbA1c: hemoglobin A1c; DPP4i: dipeptidyl peptidase-4 inhibitor; SGLT2i: sodium-glucose cotransporter-2 inhibitor; NSAID: non-steroidal anti-inflammatory drug

Note: Only the base cohorts (cana\_1, sita\_1, sgl\_3, cana\_5, sita\_5, cana\_6, sita\_6) will output this information to avoid redundancy.

## Appendix K.2. Specifications Defining Risk Scores, Utilization, and Stockpiling for cder\_mpl2p\_wp061 and cder\_mpl1p\_wp115

### Stockpiling

| Stockpiling Group                                                  | Same Day Dispensing Processing for Days Supplied                                                                         | Same Day Dispensing Processing for Amount Supplied                                     | Range of Allowable Days Supplied Values                      | Range of Allowable Amount Supplied Values                    | Overlap Percentage                                                                                                                            |
|--------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------|--------------------------------------------------------------|--------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Stockpiling by Canagliflozin, Sitagliptin, SGLT-2i exposure groups | Default: adds all (days supplied or amount supplied) values for dispensings in the same GROUP/STOCKGROUP on the same day | Default: Adds all amount values for dispensings in the same stockgroup on the same day | Default: Does not consider days supplied values of 0 or less | Default: Does not consider days supplied values of 0 or less | Default: No truncation will occur and any overlap of supply between dispensing will be corrected by pushing overlapping days supplied forward |

**Abbreviations:** CCI: combined comorbidity index; aDCSI: Adapted Diabetes Complication Severity Index; IPTW: inverse probability of treatment weighting; IPCW: inverse probability of censoring weighting; ED: emergency department encounters; AV: ambulatory visits; IP: inpatient hospital stays; IS: institutional stays; OA: other ambulatory encounters; SGLT2i: sodium-glucose cotransporter-2 inhibitor

### Appendix K.3. Specifications Defining Renal Cell Carcinoma (RCC) Narrow Definition for cder\_mpl2p\_wp061 and cder\_mpl1p\_wp115

#### Early RCC:

2 non-metastatic RCC Dx codes within 60 days (event date is earliest Dx code)  
 + surgery/ablation within [1, 120] days of event date  
 + diagnostic workup in [-180, -1] days of event date

OR

#### Late RCC:

1 broad RCC Dx code (event date is earliest of broad RCC or mRCC code)  
 + 1 metastatic RCC (mRCC) dx code [-30, 60] days from RCC Dx  
 + workup or symptoms [-180, 30] days from event date  
 + Tx, Surgery or Death [1, 120] days from event date

**Abbreviations:** RCC: renal cell carcinoma; Dx: diagnosis; Tx: treatment

## Appendix L. Design Diagram for cder\_mpl2p\_wp061 and cder\_mpl1p\_wp115

ACEi = angiotensin-converting enzyme inhibitors; aDSCI = adapted Diabetes Complications Severity Index; ARB = angiotensin receptor blocker; AV = ambulatory care; CCB = calcium channel blocker; CCI = Combined Comorbidity Score; CKD = chronic kidney disease; COPD = chronic obstructive pulmonary disease; DPP-4i = dipeptidyl peptidase-4 inhibitors; ED = emergency department; GIP = glucose-dependent insulintropic polypeptide; GLP-1RA = glucagon-like peptide-1 receptor agonist; IP = inpatient; IPP = inpatient setting, principal discharge diagnosis; PVD = peripheral vascular disease; N = number; NMSC = non-melanoma skin cancer; NSAIDs = non-steroidal anti-inflammatory drugs; RCC = renal cell carcinoma; SGLT-2i = sodium-glucose cotransporter-2 inhibitors; T1DM = type 1 diabetes mellitus; T2DM = type 2 diabetes mellitus.

\* **Inclusion/Exclusion Criteria:** Window I (per Hampp et al. 2020): *Inclusion:* 1+ T2DM diagnosis code. *Exclusion:* Any T1DM diagnosis codes.

Window II: *Inclusion:* 1+ oral antidiabetic drug. *Exclusions:* Prior use of index drug (CANA or SITA), CKD Stages III-V or dialysis.

Window III: *Exclusion:* other [non-index] SGLT-2i and/or DPP-4i drugs; GLP-1RAs; and GIP/GLP-1RAs.

Window IV: *Exclusion:* Prior RCC (≥2 diagnosis codes or ≥1 code for RCC history/kidney removal).

<sup>^</sup> **The follow up period** ends at the earliest occurrence of RCC; comparator drug class initiation (including combination products); disenrollment; Data Partner end date; query end date; CKD stages III-V; dialysis; or death. Non-RCC malignancies (excluding NMSC) and [GIP]/GLP-1RA or insulin initiation are included as end-of-follow-up criteria in separate sensitivity analyses.

**\*\* Baseline Covariates:** Window I: Age, sex, race, ethnicity, calendar year of drug initiation.

Window II: Retinopathy, nephropathy, neuropathy, hypertension, dyslipidemia, coronary artery disease, cerebrovascular disease, PVD, congestive heart failure, COPD, depression, obesity, malignancy excluding NMSC, Hepatitis C, kidney stones, sickle cell disease, metformin, sulfonylureas, thiazolidinedione, long-acting insulin, short-acting insulin, combination insulin, non-specific insulin, α-glucosidase inhibitor, meglitinide, N of oral antidiabetic drug classes (continuous), CV medications (ACEis, ARBs, beta-blockers, CCBs, statins, loop diuretics, other diuretics, aspirin/acetaminophen/other NSAIDs), IPP/ED hypoglycemia diagnoses, IPP/ED hyperglycemia diagnoses or hyperglycemia labs, N of AV visits, N of ED visits, N of IP visits, influenza or (ever) pneumococcal vaccine, smoking, alcohol use, risk scores (aDSCI, CCI, frailty).

<sup>†</sup> **Time-varying post-index covariates:**

**Last-measured value:** Retinopathy, nephropathy, neuropathy, frailty indicators assessed in three periods (baseline through Day 89, Day 179, or Day 269) or pneumococcal vaccine in all available follow-up time through Days 89, 179 and 269.

**In each interval:** GLP-1RA initiation, insulin initiation, IPP/ED hypoglycemia, IPP/ED hyperglycemia or hyperglycemia labs, HbA1c tests, ED visits, number of AV visits (categorical), IP visits, CV medications, increase in N of CV drug classes (binary).

**Past 365 days:** Influenza vaccine and preventive healthcare in 365 days preceding Days 89, 179, and 269.

<sup>††</sup> **Day 360 Covariates:** Retinopathy, nephropathy, neuropathy, hypertension, dyslipidemia, coronary artery disease, cerebrovascular disease, PVD, congestive heart failure, obesity, any HbA1c test, GLP-1RA initiation, insulin initiation, frailty indicators, IPP/ED hypoglycemia visits (categorical), IPP/ED hyperglycemia visits (categorical), preventive healthcare indicators, number of AV visits (categorical), number of IP visits (categorical), number of ED visits (categorical).

<sup>‡</sup> **All available follow-up:** GLP-1RA initiation, insulin initiation.
